**CITY OF
SALMON ARM**

TO: Mayor Harrison & Members of Council
DATE: September 30, 2020
FROM: Erin Jackson, Director of Corporate Services
PREPARED BY: Caylee Simmons, Executive Assistant
SUBJECT: 2021 Council Meeting and Development and Planning Services Committee Meeting Schedule

Recommendation:

THAT: Council approve the 2021 Council Meeting Schedule and the 2021 Development and Planning Services Committee Meeting Schedule, as attached to the staff report dated September 30, 2020.

Background:

Attached, for Council's endorsement, is the proposed Council Meeting Schedule and the Development and Planning Services Committee Meeting Schedule for 2021.

Some dates worthy of note are:

- 2021 SILGA Convention – April 27 – 30, 2021 – Vernon, BC
- 2021 FCM Convention – June 3-6 or 10-13, 2021 (to be confirmed) – Montreal, QC
- 2021 UBCM Convention – September 13 – 17, 2021 – Vancouver, BC
- City Hall will be closed from Saturday, December 25, 2021, to Sunday, January 2, 2022, inclusive. City Hall will re-open Monday, January 3, 2022.

Convention dates at this time are tentative and/or may be held virtually due to the COVID-19 pandemic.

A Special Council Meeting will be held following the January 18, 2020 Development and Planning Services Committee Meeting for the 2021 Budget presentation.

Erin Jackson
Director of Corporate Services

PREPARED: Darin Gerow, Manager of Roads & Parks

DATE: September 25, 2020

SUBJECT: **SNOW & ICE – ON STREET PARKING RESTRICTION**

RECOMMENDATION:

THAT: Council permit Public Works to restrict on street parking during winter months (November 1 through March 31) on the following streets:

- 2 Street SE
- Harbourfront Drive NE
- 23 Street SE, 24 Street SE, 14 Avenue NE, 15 Avenue NE (Hillcrest Subdivisions)
- 24 Street NE (Maplewoods Subdivision)

To ensure the safe passage of travelling public, emergency vehicles and snow plow equipment.

BACKGROUND:

The City of Salmon Arm Public Works Department specifically the Roads and Transportation Division is responsible for the City's Snow and Ice control program and is committed to helping make The City of Salmon Arm safe for pedestrian and vehicle passage along the developed rights-of-ways. We often find vehicles are parked roadside, that our snow plow operators cannot safely complete their task without risk of damage or injury. These are typically, but not always, found in newer subdivisions with basement suites.

The intent of this request is to minimize the economic loss to the community, reduce the inconvenience and hazards of winter conditions for motorists, cyclists and pedestrians, operators and facilitate the operation of Transit and Emergency Services vehicles. The City currently has a similar process with the Downtown Snow Route that restricts parking.

Temporary signs will be installed along the portion of roads that require restriction of parking in accordance to the maps attached. They will be enforced and if vehicles are found in contravention, may be towed at the owner's expense. The Parking restriction falls under the City Traffic Bylaw No. 1971 Section 501, Para. 11) Section c) – *"no person shall park a vehicle: Upon a roadway in such a manner as to obstruct the free passage of traffic on the roadway"* (sign shown not exact)

Some examples are shown in the following photos, along with a successful clean up of the Maplewood subdivision.

Harbourfront Drive NE – issues with on street parking

Maplewoods Subdivision (24 Street NE) – Issues with on street parking

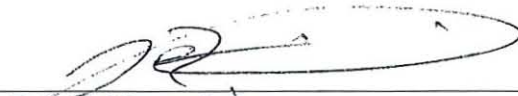

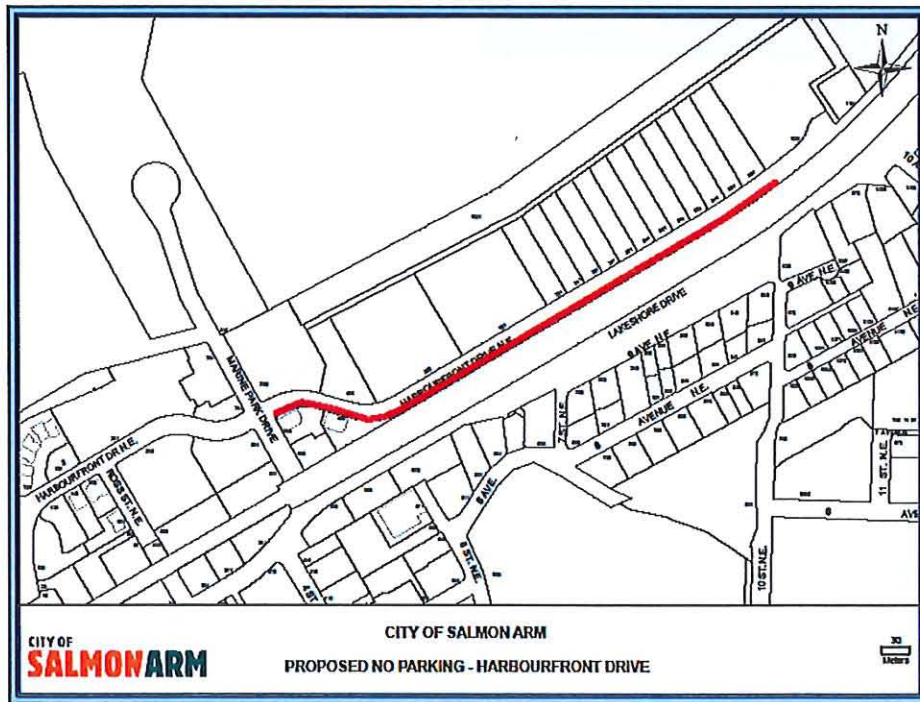

Maplewoods Subdivision (24 Street NE) – After a successful cleanup where each house had to be notified to remove vehicles from roadway

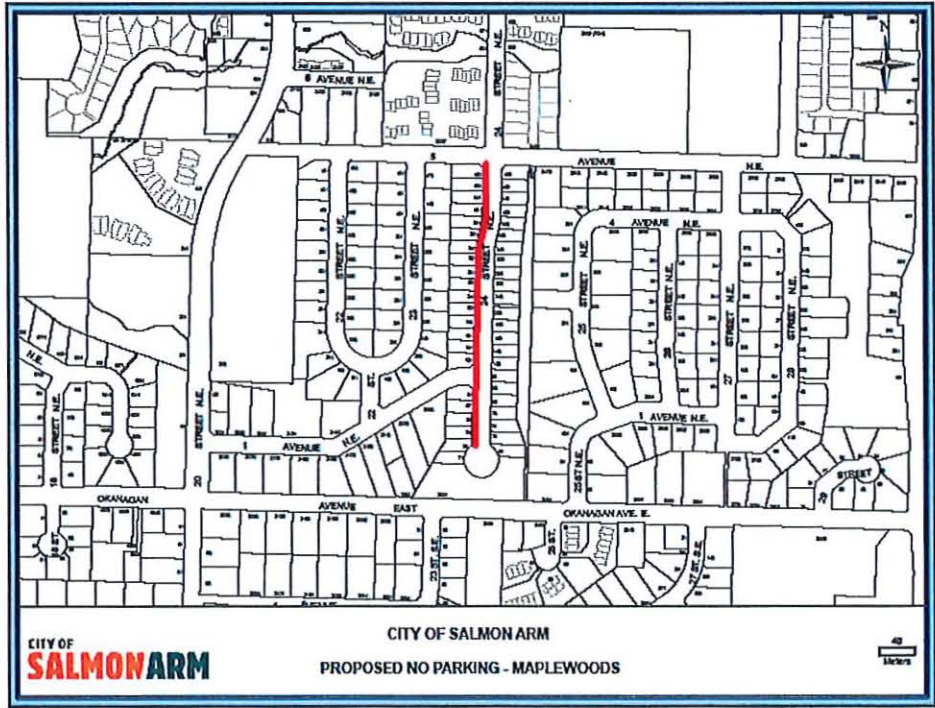

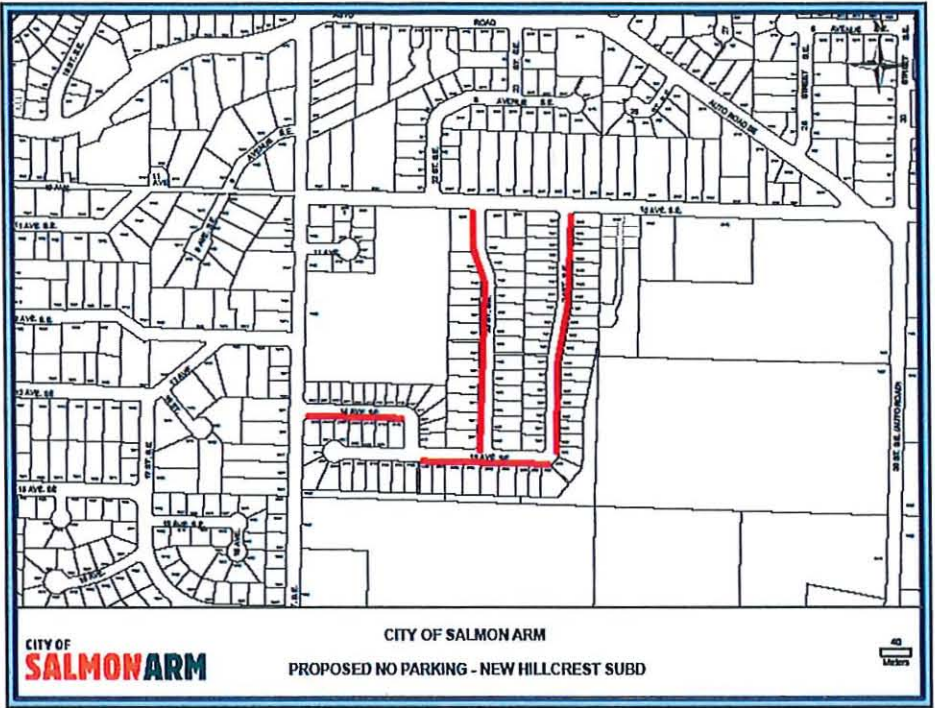

Conclusion:

The effective and efficient provision of these parking restrictions will allow the City to function under normal winter weather conditions providing a service level to the travelling public. The intent is to maintain municipal streets, in a safe and passable condition; however, are not intended to eliminate all hazardous conditions on City streets but rather to assist vehicles that are properly equipped for winter driving conditions and being operated in a manner consistent with good winter driving habits.

 Robert Niewenhuizen
 Director of Engineering & Public Works

File: 5220.2020-001

TO: His Worship Mayor Harrison and Members of Council
FROM: Robert Niewenhuizen, Director of Engineering and Public Works
PREPARED BY: Tim Perepolkin, Capital Works Supervisor
DATE: October 6, 2020
SUBJECT: **47 AVENUE NE SANITARY UPGRADE BUDGET AMENDMENT**

STAFF RECOMMENDATION

THAT: The 2020 Budget contained in the 2020 to 2024 Financial Plan be amended to reflect funding for the 47 Avenue NE Sanitary Upgrade project in the amount of \$44,000.00. This amount to be transferred from the TCH Sanitary Upgrading 4-10 Street NE project;

BACKGROUND

The 47 Avenue NE (Raven) Sanitary upgrade includes installing a cast in place (CIP) liner inside the existing Steel/Asbestos pipe crossing the Canadian Pacific Railway (CPR) right-of-way. This is a new project that was not included in the 2020 budget, however the poor pipe condition was discovered this summer when other staff were completing sanitary video inspection works at other CPR crossings. A pipe failure at a CPR crossing would be very costly to repair. Due to new requirements for CPR pipe crossings, costs of replacing is increasing significantly. This pipe is a good candidate for CIP relining and the most cost effective upgrade option available.

The TCH Sanitary Upgrading 4-10 Street NE project was included with the TCH Water – 4th to Hospital, however upon detailed pipe video inspection, the sanitary main was determined to be in good shape and the upgrade was not required, leaving a surplus of \$44,000.

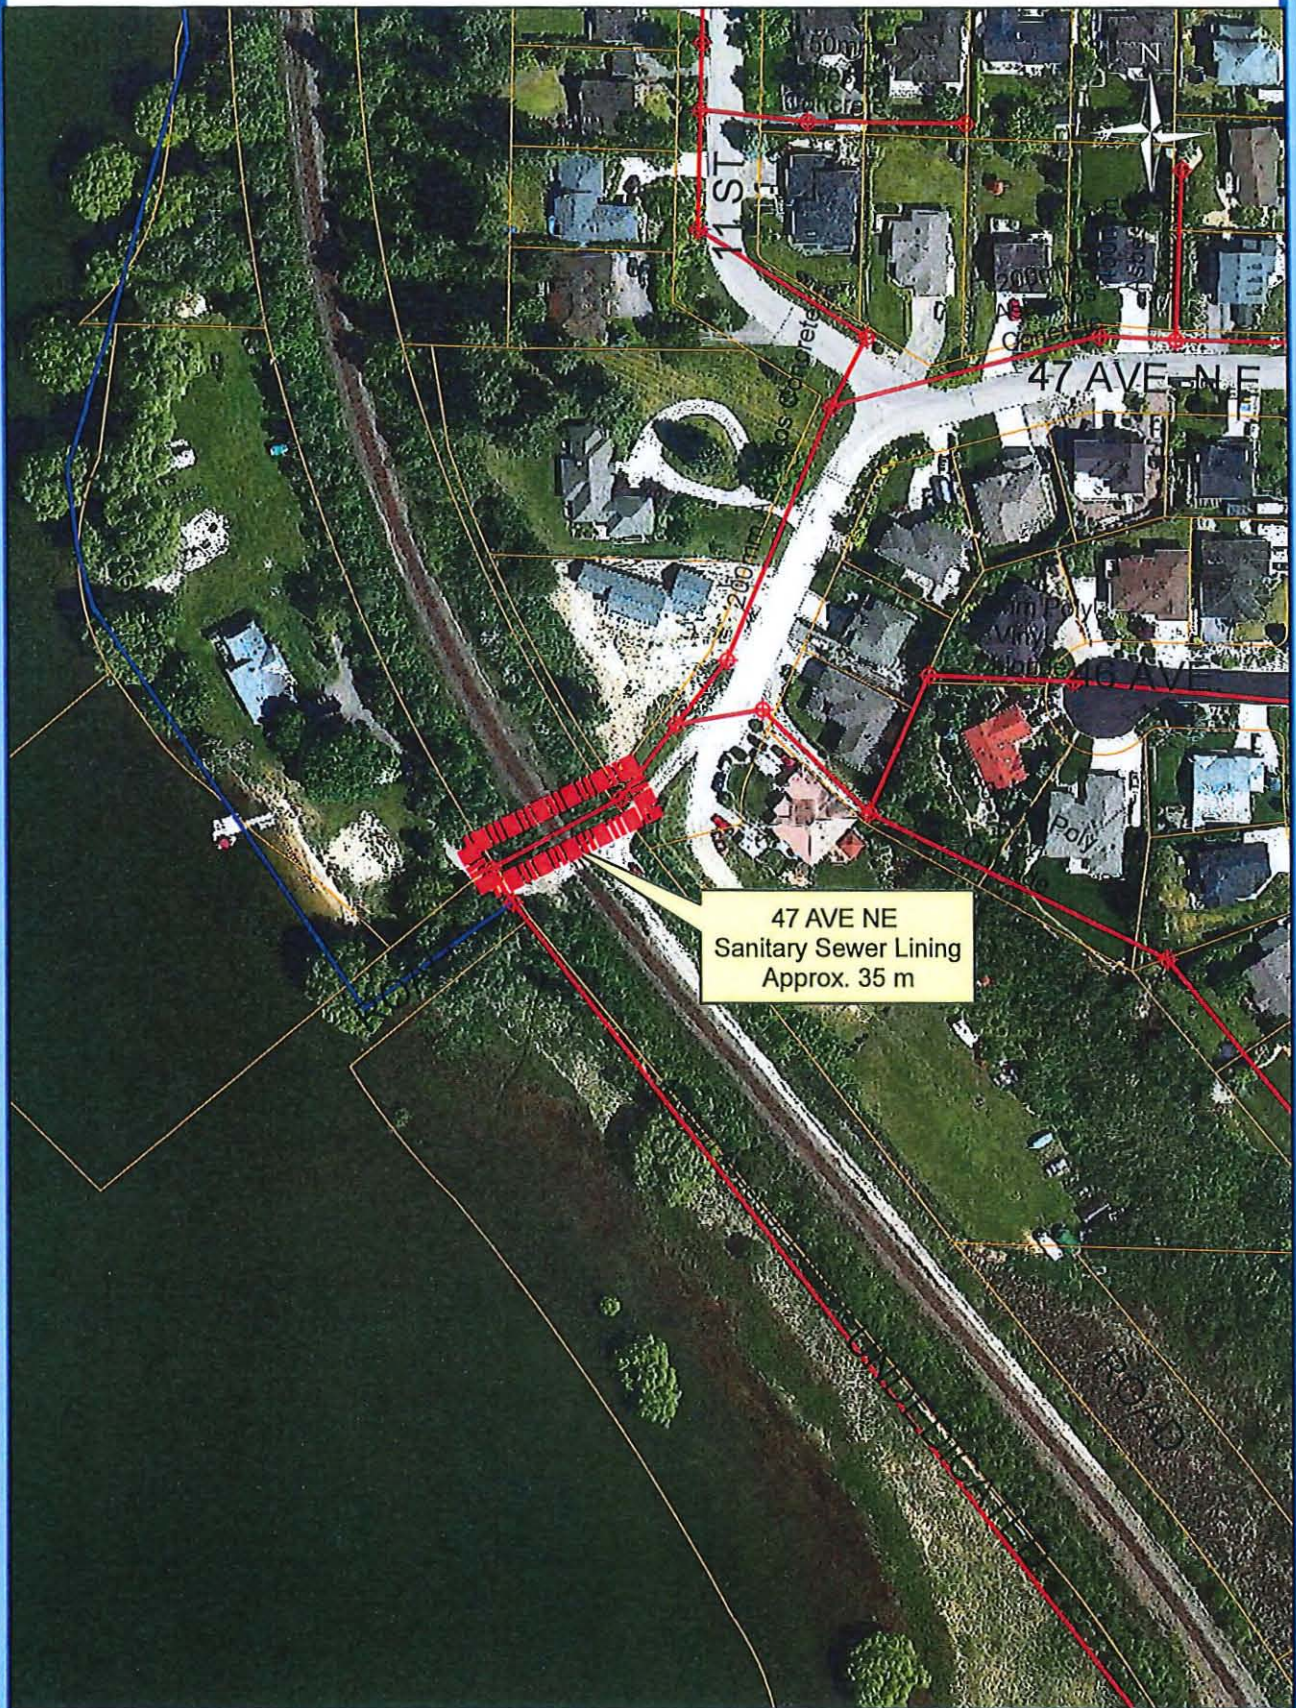

STAFF COMMENTS

With consideration to the above, Staff recommend that The 2020 Budget contained in the 2020 to 2024 Financial Plan be amended to reflect funding for the 47 Avenue NE (Raven) Sanitary Upgrade project in the amount of \$44,000. This amount to be transferred from the TCH Sanitary Upgrading 4-10 Street NE project;

Respectfully submitted,

**CITY OF
SALMON ARM**

To: Mayor Harrison and Members of Council
Date: October 7, 2020
Subject: Fee for Service Amendment

Recommendation

That: Bylaw No. 4418 cited as "City of Salmon Arm Fee for Service Amendment Bylaw No. 4418" be given 3 readings.

Background

At the Regular Council Meeting of September 14, 2020, Council gave final reading to Bylaw No 4413 cited as "City of Salmon Arm Fee for Service Amendment Bylaw No. 4413". The bylaw approved a 2% increase in both Water and Sewer User Fees for the 2021 and 2022 Budget respectfully.

During the preparation of Schedule "D" of Bylaw No. 4413, the 2021 rates for Sewer on Metered Water Properties, inadvertently reflected historical rates. Bylaw No. 4418 has been updated to reflect the approved 2% increase in Sewer Use Fees for the 2021 and 2022 Budget respectfully.

Respectfully Submitted,

Tracy Tulak, CPA, CMA
Acting Chief Financial Officer

CITY OF SALMON ARM
BYLAW NO. 4418

A bylaw to amend "District of Salmon Arm Fee for Service Bylaw No. 2498"

WHEREAS it is deemed desirable and expedient to alter the fees imposed by "District of Salmon Arm Fee for Service Bylaw No. 2498";

NOW THEREFORE the Council of the City of Salmon Arm, in open meeting assembled, enacts as follows:

1. Schedule "D" Sewer Rates of "District of Salmon Arm Fee for Service Bylaw No. 2498" is hereby deleted in its entirety and replaced with Schedule "D" - Sewer Rates, attached hereto and forming part of this bylaw.

2. SEVERABILITY

If any part, section, sub-section, clause of this bylaw for any reason is held to be invalid by the decisions of a Court of competent jurisdiction, the invalid portion shall be severed and the decisions that it is invalid shall not affect the validity of the remaining portions of this bylaw.

3. ENACTMENT

Any enactment referred to herein is a reference to an enactment of British Columbia and regulations thereto as amended, revised, consolidated or replaced from time to time.

4. EFFECTIVE DATE

This bylaw shall come into full force and effect upon adoption of same.

5. CITATION

This bylaw may be cited as "City of Salmon Arm Fee for Service Amendment Bylaw No. 4418".

SEWER ON METERED WATER PROPERTIES

Sewer rates applicable to all metered water users that have a sewer connection within the City of Salmon Arm

The user rate is a combination of A and B

A Base Rate (Based on connection size)

	<u>2021</u>	<u>2022</u>
4 inch	\$ 27.40	\$ 27.95
6 inch	\$ 100.30	\$ 102.30
8 inch	\$ 140.45	\$ 143.25

Larger connections - Base rate to be determined by Council

B Per gallon charge (Based on metered water)

	<u>2021</u>	<u>2022</u>
First 80,000 gallons	\$2.86 per 1000 gals or part thereof	\$2.92 per 1000 gals or part thereof
Next 80,000 gallons	\$3.12 per 1000 gals or part thereof	\$3.18 per 1000 gals or part thereof
Next 80,000 gallons	\$3.40 per 1000 gals or part thereof	\$3.47 per 1000 gals or part thereof
Next 80,000 gallons	\$3.71 per 1000 gals or part thereof	\$3.78 per 1000 gals or part thereof
Next 80,000 gallons	\$4.14 per 1000 gals or part thereof	\$4.22 per 1000 gals or part thereof
All over 400,000 gallons	\$4.59 per 1000 gals or part thereof	\$4.69 per 1000 gals or part thereof

Notes:

- 1 Rates will be billed bi-monthly and are subject to the same penalty dates and provisions as the metered water billings.
- 2 No complaint of an error in any charge for sewer rates or charges shall be considered and no adjustment of any such error shall be made after a period of one year has elapsed since the end of the period for which such sewer rates or charges were made. After the termination of this period, all such sewer charges shall be deemed to have been properly and correctly made.
- 3 Property owners wishing to qualify for an irrigation credit must install a secondary meter to record water used for irrigation. Water gallonage that is subject to sewer charges will be calculated by deducting consumption at the secondary meter from that at the primary meter.

ALL SEWER USER RATES ARE GST EXEMPT

DATE: September 15, 2020

SUBJECT: Zoning Amendment Application No. 1182

Legal: Lot A, Section 24, Township 20, Range 10, W6M, KDYD, Plan EPP97409
 Civic: 1191 – 22 Street NE
 Owner: Cornerstone Christian Reformed Church
 Applicant: Roodzant, J.

MOTION FOR CONSIDERATION

THAT: A bylaw be prepared for Council's consideration, adoption of which would amend Zoning Bylaw No. 2303 by rezoning the southern portion of Lot A, Section 24, Township 20, Range 10, W6M, KDYD, Plan EPP97409 from P-3 (Institutional) to C-6 (Tourist / Recreational Commercial);

AND THAT: Final Reading of the Zoning Amendment Bylaw be withheld subject Ministry of Transportation and Infrastructure approval.

STAFF RECOMMENDATION

THAT: The motion for consideration be adopted.

PROPOSAL

The 0.8 acre subject parcel is on the corner of 11 Avenue NE and 21 Street NE, directly south of the existing Cornerstone Church development (see Appendix 1 and 2). It is designated Commercial – Highway Service / Tourist (HC) in the City's Official Community Plan (OCP) and zoned P-3 (Institutional) in the Zoning Bylaw (Appendix 3 and 4). The portion of land under application is hooked to the Cornerstone Church property to the north, and the purpose of this application is to rezone the subject parcel to allow for subdivision and potential future commercial use. C-6 zone regulations are attached (Appendix 5).

BACKGROUND

The subject property is located in an area close to the Uptown commercial node characterized by residential, commercial and institutional uses. The Zoning Map attached shows the mix of zones in the immediate area, predominantly Residential (R-4 with R-1 and R-5) and Institutional (P-3), with Commercial zones to the south and east. Adjacent zoning and land uses include the following:

North:	P-3 & R-5	road, church & residential
East:	R-1	walkway and vacant land (City owned)
West:	P-3	road and institutional
South:	n/a	TCH and commercial

The subject property is currently vacant, as shown in site photos attached (Appendix 6).

OCP POLICY

The proposed zoning amendment aligns with the HC (Highway Service / Tourist Commercial) designation in the OCP. The amendment would align with the Commercial Objectives and Policies listed in OCP Section 9, including supporting commercial uses within the primary commercial areas of the City. Development of the parcel would be subject to the guidelines of the Highway Service / Tourist Commercial Development Permit Area.

COMMENTSMinistry of Transportation and Infrastructure

Preliminary approval has been granted (Appendix 7).

Engineering Department

No concerns with rezoning. Servicing requirements for future development have been provided. Comments attached (Appendix 8).

Fire Department

No Fire Department concerns.

Building Department

No concerns with rezoning.

Planning Department

The surrounding neighbourhood has been undergoing slow development with a mix of older, single family housing and newer condominium, and commercial development, most significantly the uptown SASCU/Askew's location, Copper View residential development, and the 21 Street NE underpass.

It should be noted that there have been six OCP amendments in this general area since 2015 involving an amendment to commercial designated land, with approximately 1.25 hectares of land redesignated from commercial to other (generally residential) land use designations, representing a minor erosion of commercial inventory in this uptown area. Overall however, considering all areas of the City, there has been a net increase of approximately 6 hectares of commercial land over a similar timeframe. This proposal would add to the commercial land base of the City.

The intent for the subject parcel under application is for subdivision, sale, and future commercial use. There is no development concept proposed at this time. The parcel would be subject to the guidelines of the Highway Service / Tourist Commercial Development Permit Area, with future development requiring a Development Permit Application.

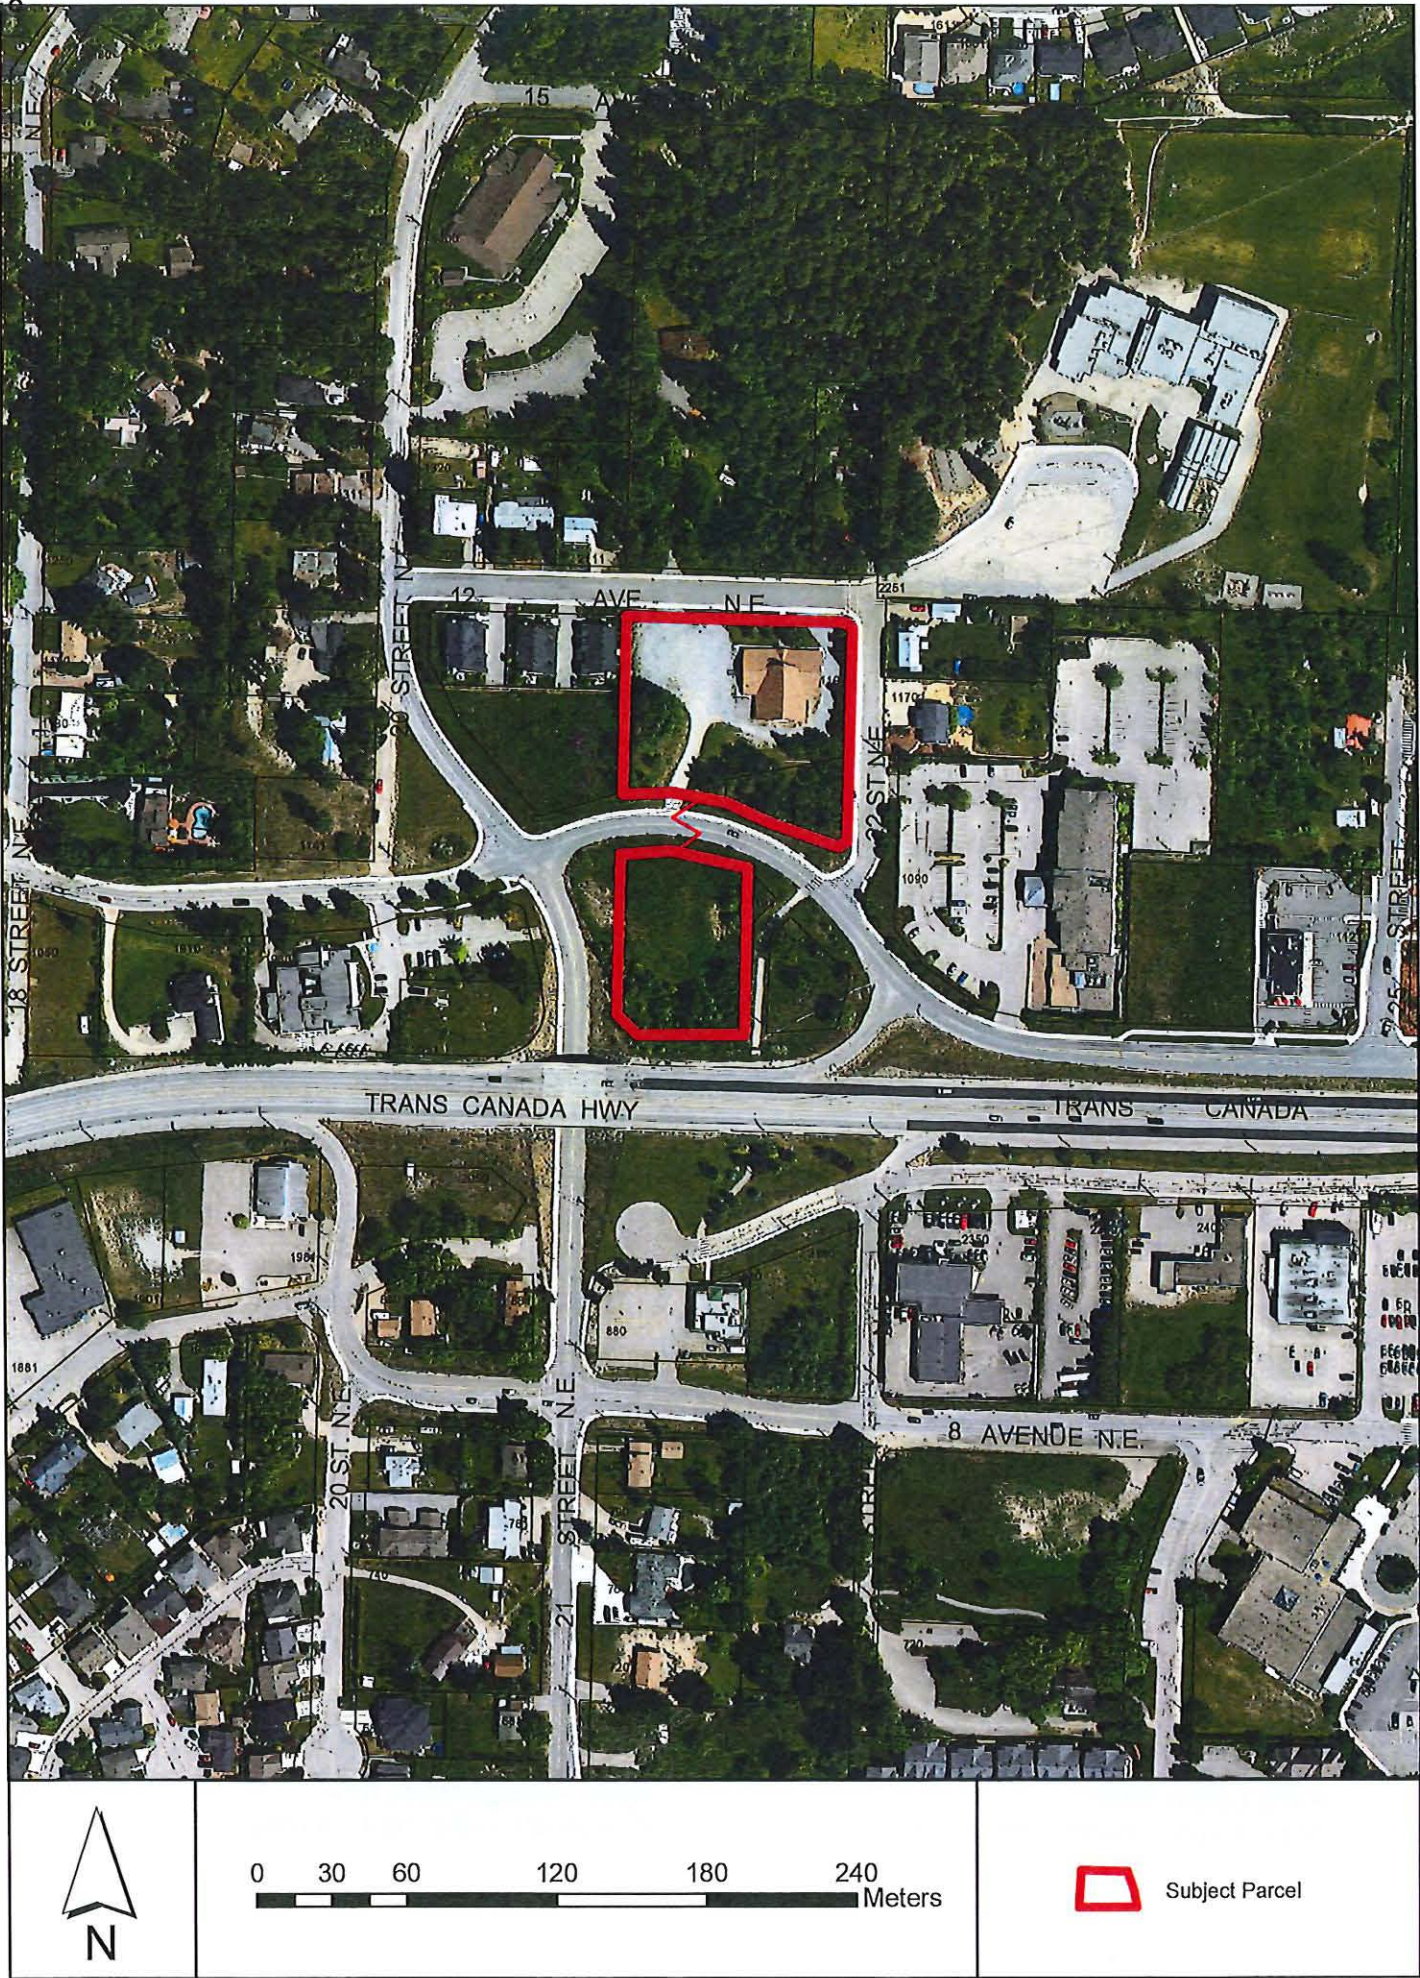

CONCLUSION

The OCP HC designation supports the proposed C-6 zoning. The subject parcel is considered by staff to be well-suited for commercial use, being within close proximity to the Trans Canada Highway, residential areas, as well as the recreation centre and arena. The proposed C-6 zoning of the subject property is consistent with OCP and is therefore supported by staff.

Chris Larson, MCP
Planning and Development Officer

Kevin Pearson, MCIP, RPP
Director of Development Services

Subject Parcel

SECTION 20 - C-6 - TOURIST / RECREATION COMMERCIAL ZONE

Purpose

- 20.1 The C-6 Zone is intended to accommodate pedestrian oriented tourist/recreation businesses. The area zoned C-6 is envisioned to be developed with a mixture of land uses in an integrated manner and is intended to cater to the resident and tourist alike with a small shop and resort atmosphere. *Development* within the C-6 Zone shall be subject to a *Development Permit* as per the *Official Community Plan*.

Regulations

- 20.2 On a *parcel zoned C-6*, no *building* or *structure* shall be constructed, located or altered and no plan of subdivision approved which contravenes the regulations set out in the C-6 Zone or those regulations contained elsewhere in this Bylaw.

Permitted Uses

- 20.3 The following uses and no others are permitted in the C-6 Zone:

- .1 art gallery;
- .2 banking kiosk;
- .3 boat and marine sales, repair and rental, including outside covered or screened storage;
- #3637 .4 *commercial daycare facility*
- .5 convention centre;
- .6 craft making and sales;
- .7 farmers market;
- .8 *health service centre*;
- #2782 .9 *home occupation*;
- .10 *hotel*;
- .11 library;
- #3223 .12 *licensee retail store*;
- .13 *motel*;
- .14 museum;
- .15 night club;
- #3426 .16 *offices*;
- #2837 .17 *outside vending*;
- #3163 .18 parkade/off-street parking, in Areas "A", "B" and "C" [Waterfront Area] as shown on Schedule "C" attached hereto and forming part of this bylaw.
- .19 *personal service establishment*;
- .20 pub;
- .21 *public use*;
- #3060 .22 *private utility*;
- .23 *public utility*;

 1191 22 Street NE Salmon Arm, BC, V1E 2V5
 APPLICANT: **Roodzant, J., 5041 50 Street NW, Salmon Arm, BC, V1E 3A6**
 SUBJECT: **ZONING AMENDMENT APPLICATION NO. ZON-1182**
 SUBDIVISION APPLICATION NO. SUB-20.08
 LEGAL: Lot A, Section 24, Township 20, Range 10, W6M KDYD, Plan EPP97409
 CIVIC: **1191 – 22 Street NE**

Further to your referral dated July 22, 2020, we provide the following servicing information. **The following comments and servicing requirements are not conditions for Rezoning; however, these comments are conditions of subdivision and are provided as a courtesy in advance of any development proceeding to the next stages:**

General:

1. Full municipal services are required as noted herein. Owner / Developer to comply fully with the requirements of the Subdivision and Development Services Bylaw No 4163. Notwithstanding the comments contained in this referral, it is the applicant's responsibility to ensure these standards are met.
2. Comments provided below reflect the best available information. Detailed engineering data, or other information not available at this time, may change the contents of these comments.
3. Properties shall have all necessary public infrastructure installed to ensure properties can be serviced with underground electrical and telecommunication wiring upon development.
4. Property under the control and jurisdiction of the municipality shall be reinstated to City satisfaction.
5. Owner / Developer will be responsible for all costs incurred by the City of Salmon Arm during construction and inspections. This amount may be required prior to construction. Contact City Engineering Department for further clarification.
6. Erosion and Sediment Control measures will be required prior to the commencement of construction. ESC plans to be approved by the City of Salmon Arm.
7. Any existing services (water, sewer, hydro, telus, gas, etc) traversing the proposed lot must be protected by easement or relocated outside of the proposed building envelope. Owner/Developer will be required to prove the location of these services. Owner / Developer is responsible for all associated costs.

ZONING AMENDMENT APPLICATION NO. ZON-1182**SUBDIVISION APPLICATION NO. SUB-20.08**

October 5, 2020

Page 2

-
8. At the time of building permit the applicant will be required to submit for City review and approval a detailed site servicing / lot grading plan for all on-site (private) work. This plan will show such items as parking lot design, underground utility locations, pipe sizes, pipe elevations, pipe grades, catchbasin(s), control/containment of surface water, contours (as required), lot/corner elevations, impact on adjacent properties, etc.
 9. For the off-site improvements at the time of subdivision the applicant will be required to submit for City review and approval detailed engineered plans for all off-site construction work. These plans must be prepared by a qualified engineer. As a condition of subdivision approval, the applicant will be required to deposit with the City funds equaling 125% of the estimated cost for all off-site construction work.

Roads / Access:

1. 11 Avenue NE, on the subject property's southern and northern boundary, is designated as an Urban Local Road standard, requiring 20.0m road dedication (10.0m on either side of road centerline). Available records indicate that no additional road dedication is required (to be confirmed by a BCLS).
2. 11 Avenue NE is currently constructed to an Interim Local Road standard. Upgrading to an Urban Local Road standard is required, in accordance with Specification Drawing No. RD-2. Upgrading may include, but is not limited to, offset sidewalk on south side of road (proposed zoning for south parcel requires sidewalk on both sides of road), boulevard construction, street lighting, and hydro and telecommunications. Offsets and streetlight specifications to conform to Specification Drawing No. RD-3. Owner / Developer is responsible for all associated costs.
3. 12 Avenue NE, on the subject property's northern boundary, is designated as an Urban Local Road standard, requiring 20.0m road dedication (10.0m on either side of road centerline). Available records indicate that no additional road dedication is required (to be confirmed by a BCLS).
4. 12 Avenue NE is currently constructed to an Interim Local Road standard. Upgrading to an Urban Local Road standard is required, in accordance with Specification Drawing No. RD-2. Upgrading may include, but is not limited to, fire hydrant and street lighting. Owner / Developer is responsible for all associated costs.
5. 21 Street NE, on the subject property's western boundary, is designated as an Urban Collector Road standard, requiring 20.0m road dedication (10.0m on either side of road centerline). Available records indicate that no additional road dedication is required (to be confirmed by a BCLS).
6. 21 Street NE is currently constructed to an Interim Local Road standard. Upgrading to an Urban Collector Road standard is required, in accordance with Specification Drawing No. RD-3. Upgrading may include, but is not limited to, separated sidewalk and boulevard construction. Foot traffic travelling south is encouraged to use the foot path on the subject parcel's eastern boundary and as such, sidewalk along 21 Street would only be required at the intersection of 21 Street NE and 11 Avenue NE for crosswalk access. Owner / Developer is responsible for all associated costs.

ZONING AMENDMENT APPLICATION NO. ZON-1182**SUBDIVISION APPLICATION NO. SUB-20.08**

October 5, 2020

Page 3

-
7. 22 Street NE, on the subject property's eastern boundary, is designated as Urban Local Road standard, with an ultimate 20.0m road dedication (10.0m on either side of road centerline). Available records indicate that no additional road dedication is required (to be confirmed by BCLS).
 8. 22 Street NE is currently constructed to an Interim Local Paved Road standard. Upgrading to an Urban Local Road standard is required, in accordance with Specification Drawing No. RD-2. Upgrading may include, but is not limited to, fire hydrant and street lighting. Owner / Developer is responsible for all associated costs.
 9. Owner / Developer is responsible for ensuring all boulevards and driveways are graded at 2.0% towards the existing roadway.
 10. A 3.0m by 3.0m corner cut is required to be dedicated at the intersection of 12 Avenue NE and 22 Street NE.
 11. A 5.0m by 5.0m corner cut would typically be required at the intersection of 11 Avenue NE and 21 Street NE; however, the large boulevard and significant distance from property line to edge of road on the west side of the subject parcel deem a corner cut unnecessary at this time.
 12. For the remaining parcel, existing accesses may remain, but no additional accesses will be allowed.
 13. For the proposed parcel, accesses shall be designed by keeping to a minimum number. Only one (1) driveway access will be permitted onto 11 Avenue NE at existing letdown location (directly opposed to remaining parcel access from 11 Avenue NE). Existing letdown may be widened at time of building permit or development permit, subject to approval of City Engineer. Owner / Developer responsible for all associated costs.
 14. Engineering staff recommend that a Section 219 Land Title Act Covenant be registered prior to Final Reading stipulating no future Development approval on the proposed parcel until a Traffic Impact Analysis (TIA) is provided to the satisfaction of the City Engineer with acknowledgement that the owner/applicant is responsible for any and all off-site improvements recommended by the TIA.

Water:

1. The subject property fronts a 250mm diameter Zone 2 watermain on 11 Avenue NE. No upgrades will be required at this time.
2. The subject property fronts a 150mm diameter Zone 2 watermain on 12 Avenue NE. No upgrades will be required at this time.
3. The subject property fronts a 350mm diameter Zone 2 watermain on footpath to the east. No upgrades will be required at this time.

ZONING AMENDMENT APPLICATION NO. ZON-1182**SUBDIVISION APPLICATION NO. SUB-20.08**

October 5, 2020

Page 4

-
4. The subject property fronts a 400mm diameter Zone 2 watermain on 22 Street NE. No upgrades will be required at this time.
 5. No water main is present within the subject property's frontage on 21 Street NE. No upgrades will be required at this time.
 6. Records indicate the remaining parcel is serviced from 22 Street NE. Service install date of 1982 is recorded. Size and condition of existing service is unknown. If City finds the existing connection is undersized for current demand, upgrade to the service will be required. Owner / Developer responsible for all associated costs.
 7. Records indicate that the proposed parcel is not currently serviced by City Water.
 8. The proposed parcel is to be serviced by a single metered water service connection (as per Specification Drawing No. W-11), adequately sized to satisfy the proposed use (minimum 25mm). Because proposed use and demand is not known at this time, installing a new water service will not be required for subdivision. A covenant stating the parcel is not connected to water is required for subdivision and connection will be required at the time of building permit. Water meter will be supplied by the City at the time of building permit. Owner / Developer is responsible for all associated costs.
 9. The subject property is in an area with sufficient fire flows and pressures according to the 2011 Water Study (OD&K 2012).
 10. Fire protection requirements to be confirmed with the Building Department and Fire Department.

Sanitary:

1. The subject property fronts a 200mm diameter sanitary main on 12 Avenue NE. No upgrades will be required at this time.
2. A 200mm sanitary main terminates at the western extent of the subject property's frontage on 11 Avenue NE. City has no plans to develop the parcel at 2180 11 Avenue NE (east of the subject parcel) and therefore no extension or upgrades will be required at this time.
3. The subject property fronts a 150mm diameter sanitary main on 22 Street NE. No upgrades will be required at this time.
4. No sanitary main is present within the subject property's frontage on 21 Street NE. No upgrades or extension of main will be required at this time.
5. Records indicate that the remaining parcel is serviced by a 100mm service from the sanitary main on 12 Avenue NE. No upgrades are required at this time.
6. Records indicate that the proposed parcel is serviced by a 100mm service (to be confirmed) from the sanitary main on 11 Avenue NE. No upgrades are required at this time.

October 5, 2020

Page 5

Drainage:

1. The subject property fronts a 525mm diameter storm main on 11 Avenue NE. No upgrades will be required at this time.
2. The subject property fronts a 600mm diameter storm main on 12 Avenue NE. No upgrades will be required at this time.
3. The subject property fronts a 600mm diameter storm main on 22 Street NE. No upgrades will be required at this time.
4. No storm main is present within the subject property's frontage on 21 Street NE. No upgrades or extension of main will be required at this time.
5. Records indicate that the remaining parcel is serviced from the storm sewer on 12 Avenue NE. No upgrades are required at this time.
6. Records indicate that the proposed parcel is serviced by a 150mm storm service (size to be confirmed) from the sanitary sewer on 11 Avenue NE. No upgrades are required at this time.
7. An Integrated Stormwater Management Plan (ISMP) conforming to the requirements of the Subdivision and Development Servicing Bylaw No. 4163, Schedule B, Part 1, Section 7 shall be provided.

Geotechnical:

1. A geotechnical report in accordance with the Engineering Departments Geotechnical Study Terms of Reference for: Category A (Building Foundation Design), is required.

CITY OF SALMON ARM

BYLAW NO. 4405

A bylaw to amend "District of Salmon Arm Zoning Bylaw No. 2303"

WHEREAS notice of a Public Hearing to be held by the Council of the City of Salmon Arm in the Council Chambers at City Hall, 500 – 2 Avenue NE, Salmon Arm, British Columbia and by electronic means as authorized by Ministerial Order M192, British Columbia, on _____, 2020 at the hour of 7:00 p.m. was published in the _____ and _____, 2020 issues of the Salmon Arm Observer;

AND WHEREAS the said Public Hearing was duly held at the time and place above mentioned;

NOW THEREFORE the Council of the City of Salmon Arm in open meeting assembled enacts as follows:

1. "District of Salmon Arm Zoning Bylaw No. 2303" is hereby amended as follows:

Rezone Lot A, Section 24, Township 20, Range 10, W6M, KDYD, Plan EPP97409 from P-3 (Institutional Zone) to C-6 (Tourist / Recreation Commercial Zone), attached as Schedule "A".

2. SEVERABILITY

If any part, section, sub-section, clause of this bylaw for any reason is held to be invalid by the decisions of a Court of competent jurisdiction, the invalid portion shall be severed and the decisions that it is invalid shall not affect the validity of the remaining portions of this bylaw.

3. ENACTMENT

Any enactment referred to herein is a reference to an enactment of British Columbia and regulations thereto as amended, revised, consolidated or replaced from time to time.

4. EFFECTIVE DATE

This bylaw shall come into full force and effect upon adoption of same.

Owner / Applicant: Edelweiss Properties Inc. / TSL Developments

MOTION FOR CONSIDERATION

THAT: A Bylaw be prepared for Council's consideration, adoption of which would amend Zoning Bylaw No. 2303 by rezoning Lot 2, Section 18, Township 20, Range 9, W6M, KDYD, Plan 26408, Except Plan 28836 from R-1 (Single Family Residential Zone) to R-4 (Medium Density Residential Zone);

AND FURTHER THAT: Final reading of the Bylaw be withheld subject to approval of the Bylaw by the Ministry of Transportation and Infrastructure.

STAFF RECOMMENDATION

THAT: The Motion for Consideration be adopted;

AND FURTHER THAT: Should Council agree with the Engineering Department's recommendation for a Traffic Impact Assessment (TIA) – Page 2 of Appendix 7, the TIA be provided by the applicant / owner prior to the Public Hearing.

PROPOSAL

The subject parcel is located at 1151 – 8 Avenue NE (Appendices 1 & 2). The proposal is to rezone the property from R-1, Single Family Residential Zone to R-4, Medium Density Residential Zone to facilitate the future construction of a multi-family residential development. The property currently contains a single family dwelling which is intended to be demolished for the proposed development, see site photos attached as Appendix 3.

BACKGROUND

The subject parcel is designated Medium Density Residential in the City's Official Community Plan (OCP) and is zoned R-1 (Single Family Residential) in the Zoning Bylaw as shown in Appendices 4 & 5 respectively. The property is located on 30 Street NE just south of the Trans Canada Highway. The property is surrounded by mixed land uses and include the following:

North: Single family residential, R-1
 South: Shuswap Community Church and South Broadview School, P-3
 East: Multi-family residential development, R-4
 West: Single family residential, R-1

The property is approximately 4,047 m² (1 acre) in size and has approximately 75 m (247 ft) of frontage along 30 Street NE and a depth of 54 m (176 ft). The size and width of the property can meet the required minimum size and width requirements of the R-4 zone. Although, the applicant has submitted a conceptual site plan, see Appendix 6, there are no definitive development plans at this time. Staff note to address form and character with drawings, the proposed development is subject to a future Development Permit Application and designed by a professional architect.

OCP POLICY

The subject property is designated Medium Density Residential in the OCP which supports R-4 zoning and is within Residential Development Area A, the highest priority area for development. The development is aligned with OCP policy 4.4.3 which encourages all growth to be sensitively integrated with neighbouring land uses. The subject property is within a neighbourhood mainly comprised of residential uses, including multi-family residential developments to the west and the east. The proposed zoning aligns with Section 8.2, Urban Residential Objectives and Section 8.3, Urban Residential Policies which includes providing a variety of housing types and densities to support compact and diverse communities. From a siting perspective, the proposal appears to conform to the OCP Siting Policies under Section 8.3.19, which includes good access to transportation routes, recreation and community services.

COMMENTS

Fire Department

No Fire Department concerns.

Building Department

No concerns with rezoning.

Engineering Department

Engineering report attached as Appendix 7. Please refer to recommendation for a Traffic Impact Assessment.

Ministry of Transportation and Infrastructure

The site is located within 800 m of the Trans Canada Highway and is therefore subject to Section 52 of the Transportation Act. The Ministry was sent a referral August 10, 2020, and the Ministry's interests are unaffected. Approval from the Ministry of Transportation and Infrastructure will be required prior to adoption of the bylaw.

Planning Department

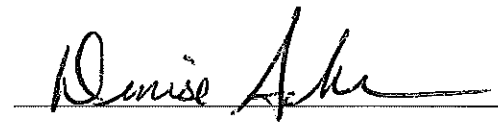

The maximum density permitted in the R-4 zone is 40 units per hectare (16.2 units per acre). Based on the area of the property, 0.40 ha (1 ac), the maximum density permitted on the subject property is 16 units. Section 9.11.2 of the Zoning Bylaw outlines the provision for bonus density of up to 20 units with providing a special amenity. The conceptual site plan provided takes into consideration a bonus density as the plan illustrates 4 buildings, each building consisting of 5 units, totalling 20 units.

30 Street NE is designated as Urban Arterial Road in the OCP. Currently, 30 Street is constructed to an Interim Urban Arterial Road standard with a width of 20 meters. As the engineering report notes, no road dedication will be required at this time; however, a 2.5 metre wide statutory right of way will be required for the construction of a multi-use path. Other frontage upgrades may include, curb & gutter, underground distribution lines and street lighting in accordance with the Subdivision and Development Servicing Bylaw, Specification Drawing No. RD-4.

Generally speaking, the property is conducive for the development of a multi-family development as the surrounding land uses include similar multi-family residential developments, in addition to single family dwellings to the west and the east. North of the property leads to the Trans Canada Highway and a Highway Service Commercial area; south of the property leads to institutional uses, including churches, schools and parks.

CONCLUSION

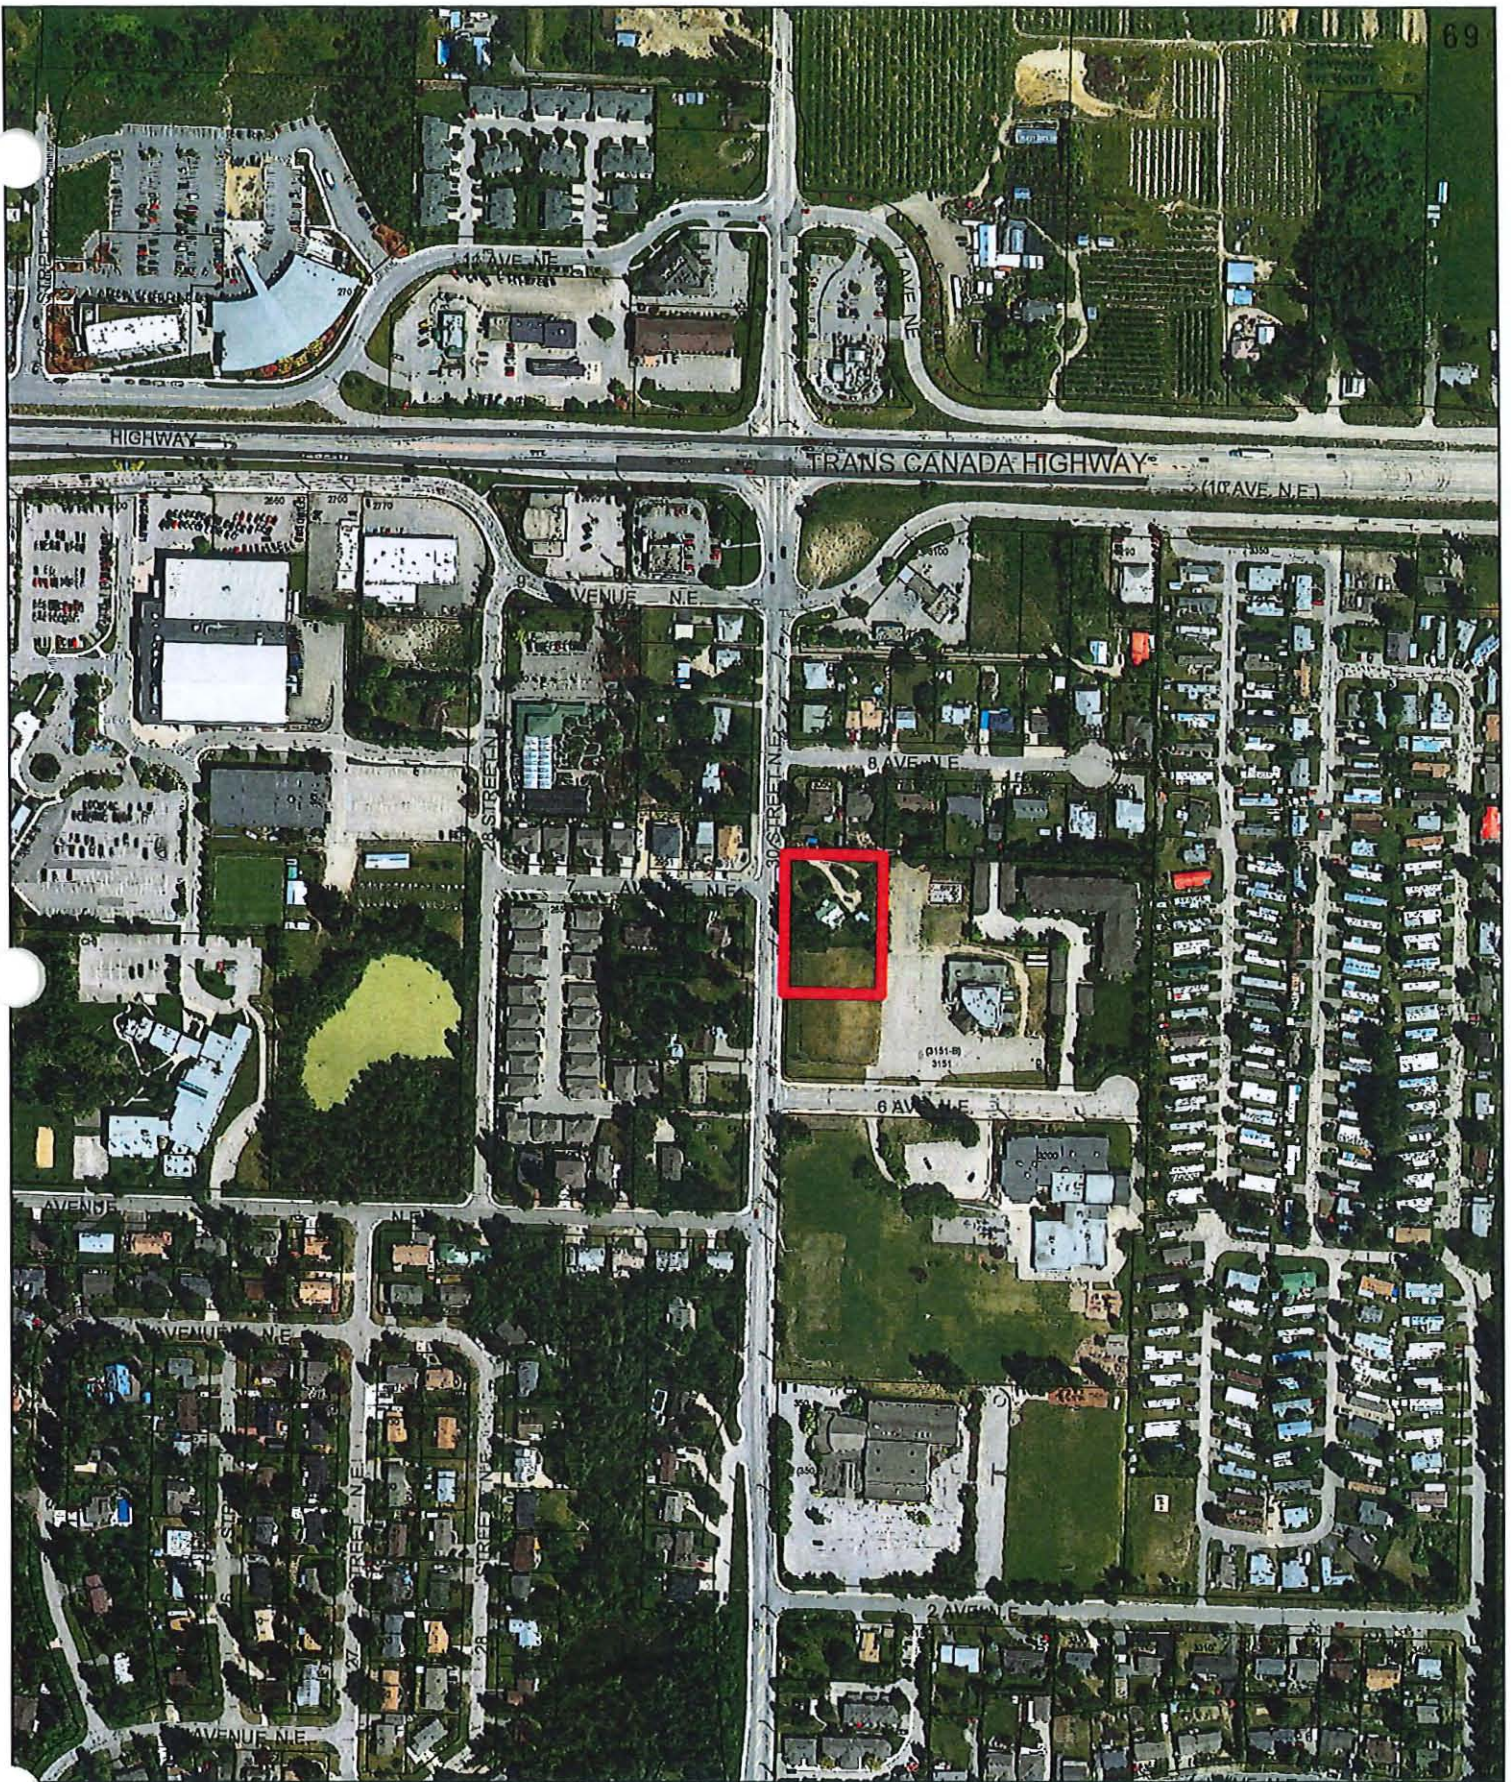

The proposal is to rezone the R-1 (Single Family Residential) property to R-4 (Medium Density Residential) to accommodate the future construction of a 20 unit multi-family development. The proposal is consistent with the Medium Density Residential designation and will complement the surrounding neighbourhood. Given the proximity of the subject property to the Trans Canada Highway and the nature of traffic along this area of 30 Street NE, Council may want to consider requiring, as a condition for rezoning, that the applicant to carry out a Traffic Impact Assessment (TIA). The proposed R-4 zoning is supported by the OCP and is recommended for approval by staff.

*Memorandum from the
Engineering and Public
Works Department*

TO: Kevin Pearson, Director of Development Services
 DATE: 18 August 2020
 OWNER: Edelweiss Properties Inc. - 3648 Walnut Glen Road, West Kelowna, BC V4T 2R7
 APPLICANT: TSL Developments – 1441 – 10 Avenue SE, Salmon Arm, BC V1E 1T2
 SUBJECT: **ZONING AMENDMENT APPLICATION FILE NO. ZON-1183**
 LEGAL: Lot 2, Section 18, Township 20, Range 9, W6M KDYD, Plan 26408, Except Plan 28836
 CIVIC: **700 – 30 Street NE**

Further to your referral dated 31 July 2020, we provide the following servicing information. **With exception to the Traffic Impact Assessment comments (Roads item 4.), the following are not requirements or conditions for Rezoning; these comments summarize the requirements of the Subdivision / Development Servicing Bylaw and are provided as a courtesy in advance of any subdivision or development proceeding to the next stages:**

General:

1. Full municipal services are required as noted herein. Owner / Developer to comply fully with the requirements of the Subdivision and Development Services Bylaw No 4163. Notwithstanding the comments contained in this referral, it is the applicant's responsibility to ensure these standards are met.
2. Comments provided below reflect the best available information. Detailed engineering data, or other information not available at this time, may change the contents of these comments.
3. Properties shall have all necessary public infrastructure installed to ensure properties can be serviced with underground electrical and telecommunication wiring upon development.
4. Property under the control and jurisdiction of the municipality shall be reinstated to City satisfaction.
5. Owner / Developer will be responsible for all costs incurred by the City of Salmon Arm during construction and inspections. This amount may be required prior to construction. Contact City Engineering Department for further clarification.
6. Erosion and Sediment Control measures will be required prior to the commencement of construction. ESC plans to be approved by the City of Salmon Arm.
7. At the time of development the applicant will be required to submit for City review and approval a detailed site servicing / lot grading plan for all on-site (private) work. This plan will show such items as parking lot design, underground utility locations, pipe sizes, pipe elevations, pipe grades, catchbasin(s), control/containment of surface water, contours (as required), lot/corner elevations, impact on adjacent properties, etc.
8. For the off-site improvements at the time of development the applicant will be required to submit for City review and approval detailed engineered plans for all off-site construction work. These plans must be prepared by a qualified engineer. As a condition of development

ZONING AMENDMENT APPLICATION FILE NO. ZON-1183

18 August 2020

Page 2

approval, the applicant will be required to deposit with the City funds equaling 125% of the estimated cost for all off-site construction work.

Roads / Access:

1. 30 Street NE, on the subject properties western boundary, is designated as an Urban Arterial Road standard, with an ultimate 25.0m road dedication (12.5m on either side of road centerline). Although the City only requires an interim total of 20.0m of road dedication (10.0m on either side of road centerline) at this time, all building setbacks will be required to conform to the ultimate 25.0m cross section. Available records indicate that no additional road dedication is required (to be confirmed by BCLS), however the City will require a statutory right of way for an additional 2.5m beyond the current road dedication for the construction of a multi-use path, to be constructed at the applicant/developers cost.
2. 30 Street NE is currently constructed to an Interim Urban Arterial Road standard. Upgrading to the current Urban Interim Arterial Road standard is required, in accordance with Specification Drawing No. RD-4 (revised). Upgrading may include, but is not limited to curb & gutter, offset multi-use path, underground Telus and Shaw and street lighting. Owner / Developer is responsible for all associated costs.
3. As 30 Street NE is designated as an Arterial Road, accesses shall be designed by keeping to a minimum number and located in the safest location. Only one driveway access will be permitted, the existing driveway shall be removed. Owner / Developer responsible for all associated costs.
4. The intersection of 9 Avenue NE and 30 Street NE has significant safety concerns and development of the subject property may further exasperate this situation. **It is recommended that Council require, as a condition for rezoning, the applicant to carry out a Traffic Impact Assessment looking at the impact on this intersection and also the intersection of 7 Avenue and 30 Street NE in relation to the proposed site access location.**
5. Consideration within the property shall be given to snow storage. No snow will be permitted to be pushed onto or across 30 Street NE.

Water:

1. The subject property fronts a 200mm diameter Zone 4 watermain on 30 Street NE. No upgrades will be required at this time.
2. The proposed development is to be serviced by a single metered water service connection (as per Specification Drawing No. W-10), adequately sized to satisfy the proposed use. Water meter will be supplied by the City at the time of subdivision, at the Owner / Developer's cost. Owner / Developer is responsible for all associated costs.
3. Records indicate that the existing property is serviced by a 19mm service from the 200mm diameter watermain on 30 Street NE. All existing inadequate / unused services must be abandoned at the main. Owner / Developer is responsible for all associated costs.

ZONING AMENDMENT APPLICATION FILE NO. ZON-1183

18 August 2020

Page 3

4. Bare Land Strata developments with ground oriented access have the option of a bulk water meter installed at property line at time of subdivision with invoicing to the Strata Corporation or individual strata lot metering with invoicing to each strata lot (currently on an annual flat rate). To qualify for the second option each unit requires a separate outside water service shut-off connected to the onsite private water main. Contact Engineering Department for more information. All meters will be provided at time of building permit by the City, at the owner/developers cost.
5. The subject property is in an area with sufficient fire flows and pressures according to the 2011 Water Study (OD&K 2012)..
6. Fire protection requirements to be confirmed with the Building Department and Fire Department.

Sanitary:

1. The subject property is serviced by a 150mm diameter sanitary sewer that terminates at a manhole in the south west corner of the property. Since this is the head of the run, subject to item 2, no further upgrades will be required at this time. However, a 6m wide right of way for the existing sewer and manhole is required
2. The development is to be serviced by a single sanitary service connection adequately sized (minimum 100mm diameter) to satisfy the servicing requirements of the development. Owner / Developer's engineer may be required to prove that there is sufficient downstream capacity within the existing City Sanitary System to receive the proposed discharge from the development. Owner / Developer is responsible for all associated costs.
3. Records indicate that the existing property is serviced by a 100mm service from the sanitary manhole in the south west corner of the property. All existing inadequate/unused services must be abandoned at the main. Owner / Developer is responsible for all associated costs.

Drainage:

1. The subject property is serviced by a 200mm diameter storm sewer that terminates at a manhole in the south west corner of the property. No upgrades will be required at this time, however, a 6m wide right of way for the existing sewer and manhole is required
2. Records indicate that the existing property is not serviced by a storm service. All existing inadequate/unused services must be abandoned at the main. Owner / Developer is responsible for all associated costs.
3. An Integrated Stormwater Management Plan (ISMP) conforming to the requirements of the Subdivision and Development Servicing Bylaw No. 4163, Schedule B, Part 1, Section 7 shall be provided.

ZONING AMENDMENT APPLICATION FILE NO. ZON-1183

18 August 2020

Page 4

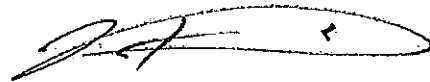

-
4. Where onsite disposal of stormwater is recommended by the ISMP, an "Alternative Stormwater System" shall be provided in accordance with Section 7.2.
 5. Where discharge into the Municipal Stormwater Collection System is recommended by the ISMP, this shall be in accordance with Section 7.3. The proposed parcel(s) shall be serviced (each) by a single storm service connection adequately sized (minimum 150mm) to satisfy the servicing requirements of the development. Owner / Developer's engineer may be required to prove that there is sufficient downstream capacity within the existing City Storm System to receive the proposed discharge from the development. All existing inadequate / unused services must be abandoned at the main. Owner / Developer is responsible for all associated costs.

Geotechnical:

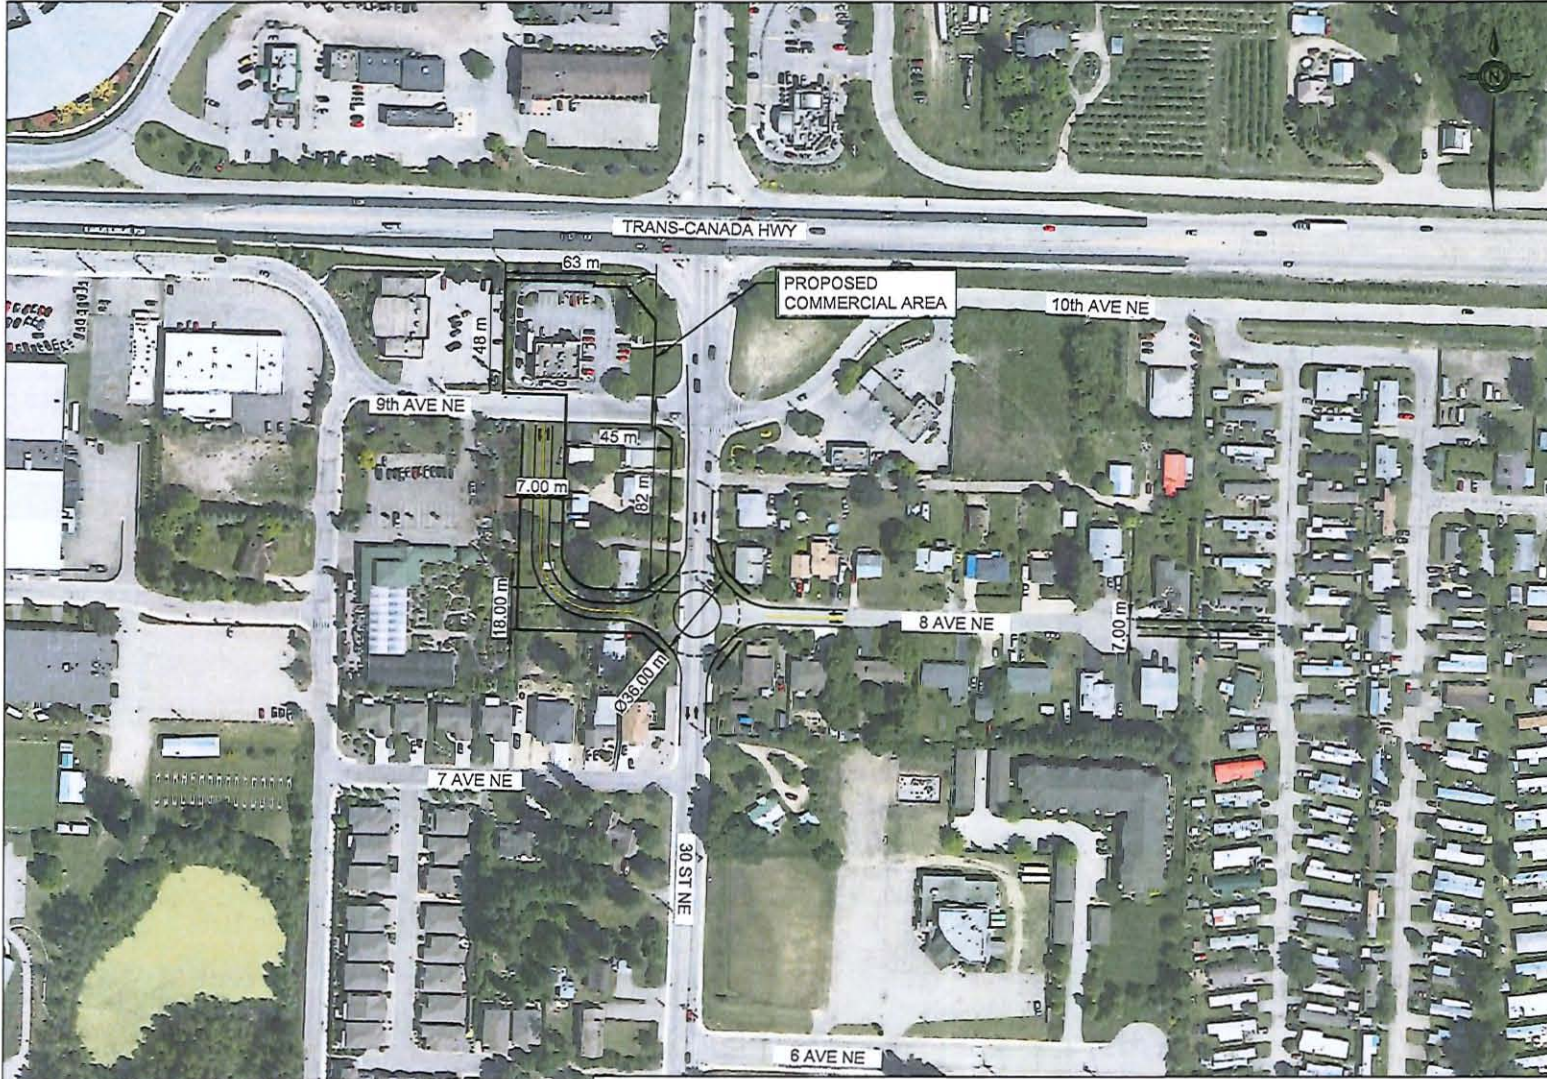

1. A geotechnical report in accordance with the Engineering Departments Geotechnical Study Terms of Reference for: Category A (Building Foundation Design) is required.

Engineering Assistant

Jenn Wilson P.Eng., LEED ® AP
City Engineer

**PROS:**

- Traffic calming feature along 30th Street NE
- Provides longer distance between Highway 1 and 9th/10th Avenue Intersection
- All turns available at new access
- Roundabouts reduce crash severity
- Little to no intersection delays

CONS:

- Land constraints - Major property acquisition for road ROW between 9th Avenue and 8th Avenue. Delays in obtaining property may occur.
- Utility constraints - Underground utilities will have to be lowered
- Grade constraints - Review of approach grades required
- Powerline constraints - Impact on 3 phase powerline
- Land required for trailer park access to 9th Avenue from 8th Avenue

CITY OF SALMON ARM

BYLAW NO. 4406

A bylaw to amend "District of Salmon Arm Zoning Bylaw No. 2303"

WHEREAS notice of a Public Hearing to be held by the Council of the City of Salmon Arm in the Council Chambers at City Hall, 500 - 2 Avenue NE, Salmon Arm, British Columbia and by electronic means as authorized by Ministerial Order M192, British Columbia, on _____, 2020 at the hour of 7:00 p.m. was published in the _____ and _____, 2020 issues of the Salmon Arm Observer;

AND WHEREAS the said Public Hearing was duly held at the time and place above mentioned;

NOW THEREFORE the Council of the City of Salmon Arm in open meeting assembled enacts as follows:

1. "District of Salmon Arm Zoning Bylaw No. 2303" is hereby amended as follows:

Rezone Lot 2, Section 18, Township 20, Range 9, W6M, KDYD, Plan 26408 Except Plan 28836 from R-1 Single Family Residential Zone to R-4 Medium Density Residential Zone, attached as Schedule "A".

2. SEVERABILITY

If any part, section, sub-section, clause of this bylaw for any reason is held to be invalid by the decisions of a Court of competent jurisdiction, the invalid portion shall be severed and the decisions that it is invalid shall not affect the validity of the remaining portions of this bylaw.

3. ENACTMENT

Any enactment referred to herein is a reference to an enactment of British Columbia and regulations thereto as amended, revised, consolidated or replaced from time to time.

4. EFFECTIVE DATE

This bylaw shall come into full force and effect upon adoption of same.

5. CITATION

This bylaw may be cited as "City of Salmon Arm Zoning Amendment Bylaw No. 4406"

Subject: Zoning Bylaw Amendment Application No. 1186

Legal: Lot 1, Section 24, Township 20, Range 10, W6M, KDYD, Plan EPP73048
 Civic: 1831 – 22 Street NE
 Owner/Applicant: Neufeld, B.

MOTION FOR CONSIDERATION

THAT: a bylaw be prepared for Council's consideration, adoption of which would amend Zoning Bylaw No. 2303 by rezoning Lot 1, Section 24, Township 20, Range 10, W6M, KDYD, Plan EPP73048 from R-1 (Single Family Residential Zone) to R-8 (Residential Suite Zone);

AND THAT: Final Reading of the Zoning Amendment Bylaw be withheld subject to Ministry of Transportation and Infrastructure approval.

STAFF RECOMMENDATION

THAT: The Motion for Consideration be adopted.

PROPOSAL

The subject parcel is located at 1831 – 22 Street NE (Appendix 1 and 2). The proposal is to rezone the parcel from R-1 (Single Family Residential Zone) to R-8 (Residential Suite Zone) to permit the construction of a detached suite in the rear yard behind a new single family dwelling.

BACKGROUND

The subject parcel is designated Medium Density Residential in the City's Official Community Plan (OCP) and zoned R-1 (Single Family Residential) in the Zoning Bylaw (Appendix 3 & 4). The subject parcel is located in a residential neighbourhood (Lakeview Meadows). There are presently seven R-8 zoned parcels in the Lakeview Meadows subdivision. This lot is part of a three lot subdivision created in 2017. Two of the four new lots were rezoned from R-1 to R-8 in 2019 for secondary suites in new single family dwellings.

The subject parcel is approximately 56 m (184 ft) long and 22.86 m (75 ft) wide with an area of approximately 1,300 m² (.32 acres). The subject parcel is a relatively large lot and can meet the minimum parcel area of 700 m² (7,534.7 ft²) and the minimum parcel width of 20 m (65.6 ft) required for detached suites within the proposed R-8 Zone. Site photos are attached as Appendix 5.

The property is currently vacant and the applicant has applied for a building permit to construct a house and an accessory building. The applicant wishes to construct a suite above the accessory building and has provided elevation and floor plans, see Appendix 6. The proposed height of the building is 7.47 m (24.5 ft) which meets the maximum permitted height of 7.5 m (24.6 m). The floor plans indicate the size of the suite is proposed to be 80.3 m² (864 ft²), within the maximum 90 m² (968.8 ft²). The siting of the suite is in the rear yard, conducive for an additional off-street parking stall, see Appendix 7.

COMMENTS

Policy 8.3.25 of the OCP provides for the consideration of secondary suites in all residential designated areas subject to compliance with the Zoning Bylaw and the BC Building Code.

Any development of a detached suite requires a building permit and is subject to Zoning Bylaw regulations, BC Building Code requirements, and applicable Development Cost Charges (DCCs). DCCs are payable for detached suites in the amount of \$6,064.31 and are collected at the time of issuance of a building permit. Currently, the applicant has filed a building permit application for an accessory building. Should the property be rezoned to R-8, a separate building permit application will be required for the suite.

Ministry of Transportation & Infrastructure

Preliminary Approval has been granted for rezoning.

Engineering Department

No concerns.

Building Department

BC Building Code will apply. No concerns with proposed zoning.

Fire Department

No concerns.

Planning Department

The proposed construction of a single family dwelling and a detached suite will conform and fit in well with the surrounding neighbourhood. The proposed R-8 zoning of the subject parcel is consistent with the OCP and the plans provided indicate that all R-8 Zone requirements can be met, including the provision of onsite parking. Therefore, this application is supported by staff.

CITY OF SALMON ARM

BYLAW NO. 4407

A bylaw to amend "District of Salmon Arm Zoning Bylaw No. 2303"

WHEREAS notice of a Public Hearing to be held by the Council of the City of Salmon Arm in the Council Chambers at City Hall, 500 – 2 Avenue NE, Salmon Arm, British Columbia and by electronic means as authorized by Ministerial Order M192, British Columbia, on , 2020 at the hour of 7:00 p.m. was published in the and , 2020 issues of the Salmon Arm Observer;

AND WHEREAS the said Public Hearing was duly held at the time and place above mentioned;

NOW THEREFORE the Council of the City of Salmon Arm in open meeting assembled enacts as follows:

1. "District of Salmon Arm Zoning Bylaw No. 2303" is hereby amended as follows:

Rezone Lot 1, Section 24, Township 20, Range 10, W6M, KDYD, Plan EPP73048 from R-1 (Single Family Residential Zone) to R-8 (Residential Suite Zone), attached as Schedule "A".

2. SEVERABILITY

If any part, section, sub-section, clause of this bylaw for any reason is held to be invalid by the decisions of a Court of competent jurisdiction, the invalid portion shall be severed and the decisions that it is invalid shall not affect the validity of the remaining portions of this bylaw.

3. ENACTMENT

Any enactment referred to herein is a reference to an enactment of British Columbia and regulations thereto as amended, revised, consolidated or replaced from time to time.

4. EFFECTIVE DATE

To: His Worship Mayor Harrison and Members of Council

Date: September 9, 2020

Subject: Zoning Bylaw Amendment Application No. 1187

Legal: Lot 1, Section 24, Township 20, Range 10, W6M, KDYD, Plan 28855, Except Plan EPP69695
 Civic Address: 2830 – 25 Street NE
 Owner/Applicant: Wiens, R.

MOTION FOR CONSIDERATION

THAT: a bylaw be prepared for Council's consideration, adoption of which would amend Zoning Bylaw No. 2303 by rezoning Lot 1, Section 24, Township 20, Range 10, W6M, KDYD, Plan 28855, Except Plan EPP69695 from R-1 (Single Family Residential Zone) to R-8 (Residential Suite Zone);

AND THAT: Final reading of the zoning amendment bylaw be withheld subject to confirmation that the proposed *secondary suite* in the existing single family dwelling meets Zoning Bylaw and BC Building Code requirements.

STAFF RECOMMENDATION

THAT: The motion for consideration be adopted.

PROPOSAL

The subject parcel is located at 2830 – 25 Street NE (Appendix 1 and 2). The proposal is to rezone the parcel from R-1 (Single Family Residential) to R-8 (Residential Suite) to permit the development of a legal *secondary suite* within the existing single family dwelling.

BACKGROUND – SECONDARY SUITES

The parcel is designated Low Density Residential in the City's Official Community Plan (OCP), and zoned Single Family Residential (R-1) in the Zoning Bylaw (Appendix 3 & 4).

The subject parcel is located in a residential neighbourhood with a somewhat rural character, largely comprised of large R-1 zoned parcels containing single family dwellings. There are currently thirteen R-8 zoned parcels within the general area of the subject parcel, including the parcel directly south.

The property is over 1,500 square metres in size, and contains a non-conforming *secondary suite* within the existing single family dwelling. Site photos and a site plan are attached (Appendix 5 and 6).

Policy 8.3.25 of the OCP provides for the consideration of secondary suites in all Residential (High, Medium, and Low) designated areas via a rezoning application, subject to compliance with the Zoning Bylaw and the BC Building Code. Based on parcel area, the subject property has potential to meet the conditions for the development of a *secondary suite*, including sufficient space to meet the parking requirement.

COMMENTSEngineering Department

No concerns.

Building Department

Conversion of existing dwelling discussed with owner. No concerns. BC Building Code requirements apply.

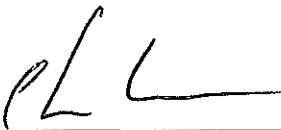

Fire Department

No concerns.

Planning Department

Under previous owners, the subject parcel had been subject to numerous complaints related to illegal suites. The current owners have been forthcoming and active in their intent to bring the building into conformance, with a legal *secondary suite* within the existing single family dwelling in conformance with the BC Building Code. Prior to final reading of the zoning amendment bylaw, confirmation will be required that the *secondary suite* in the existing single family dwelling meets BC Building Code requirements, included in the motion for consideration as is standard practice with such applications.

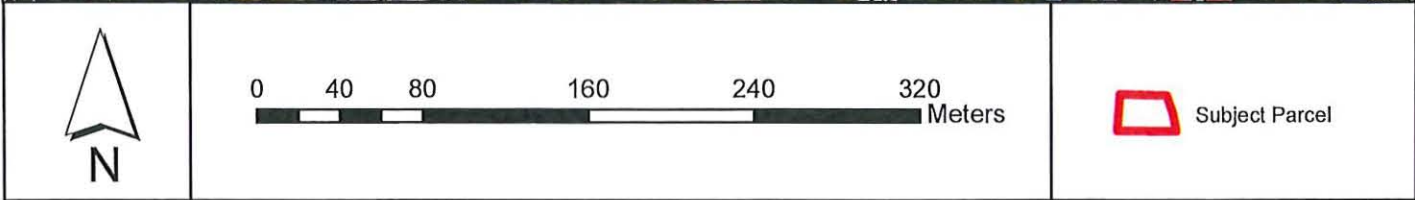

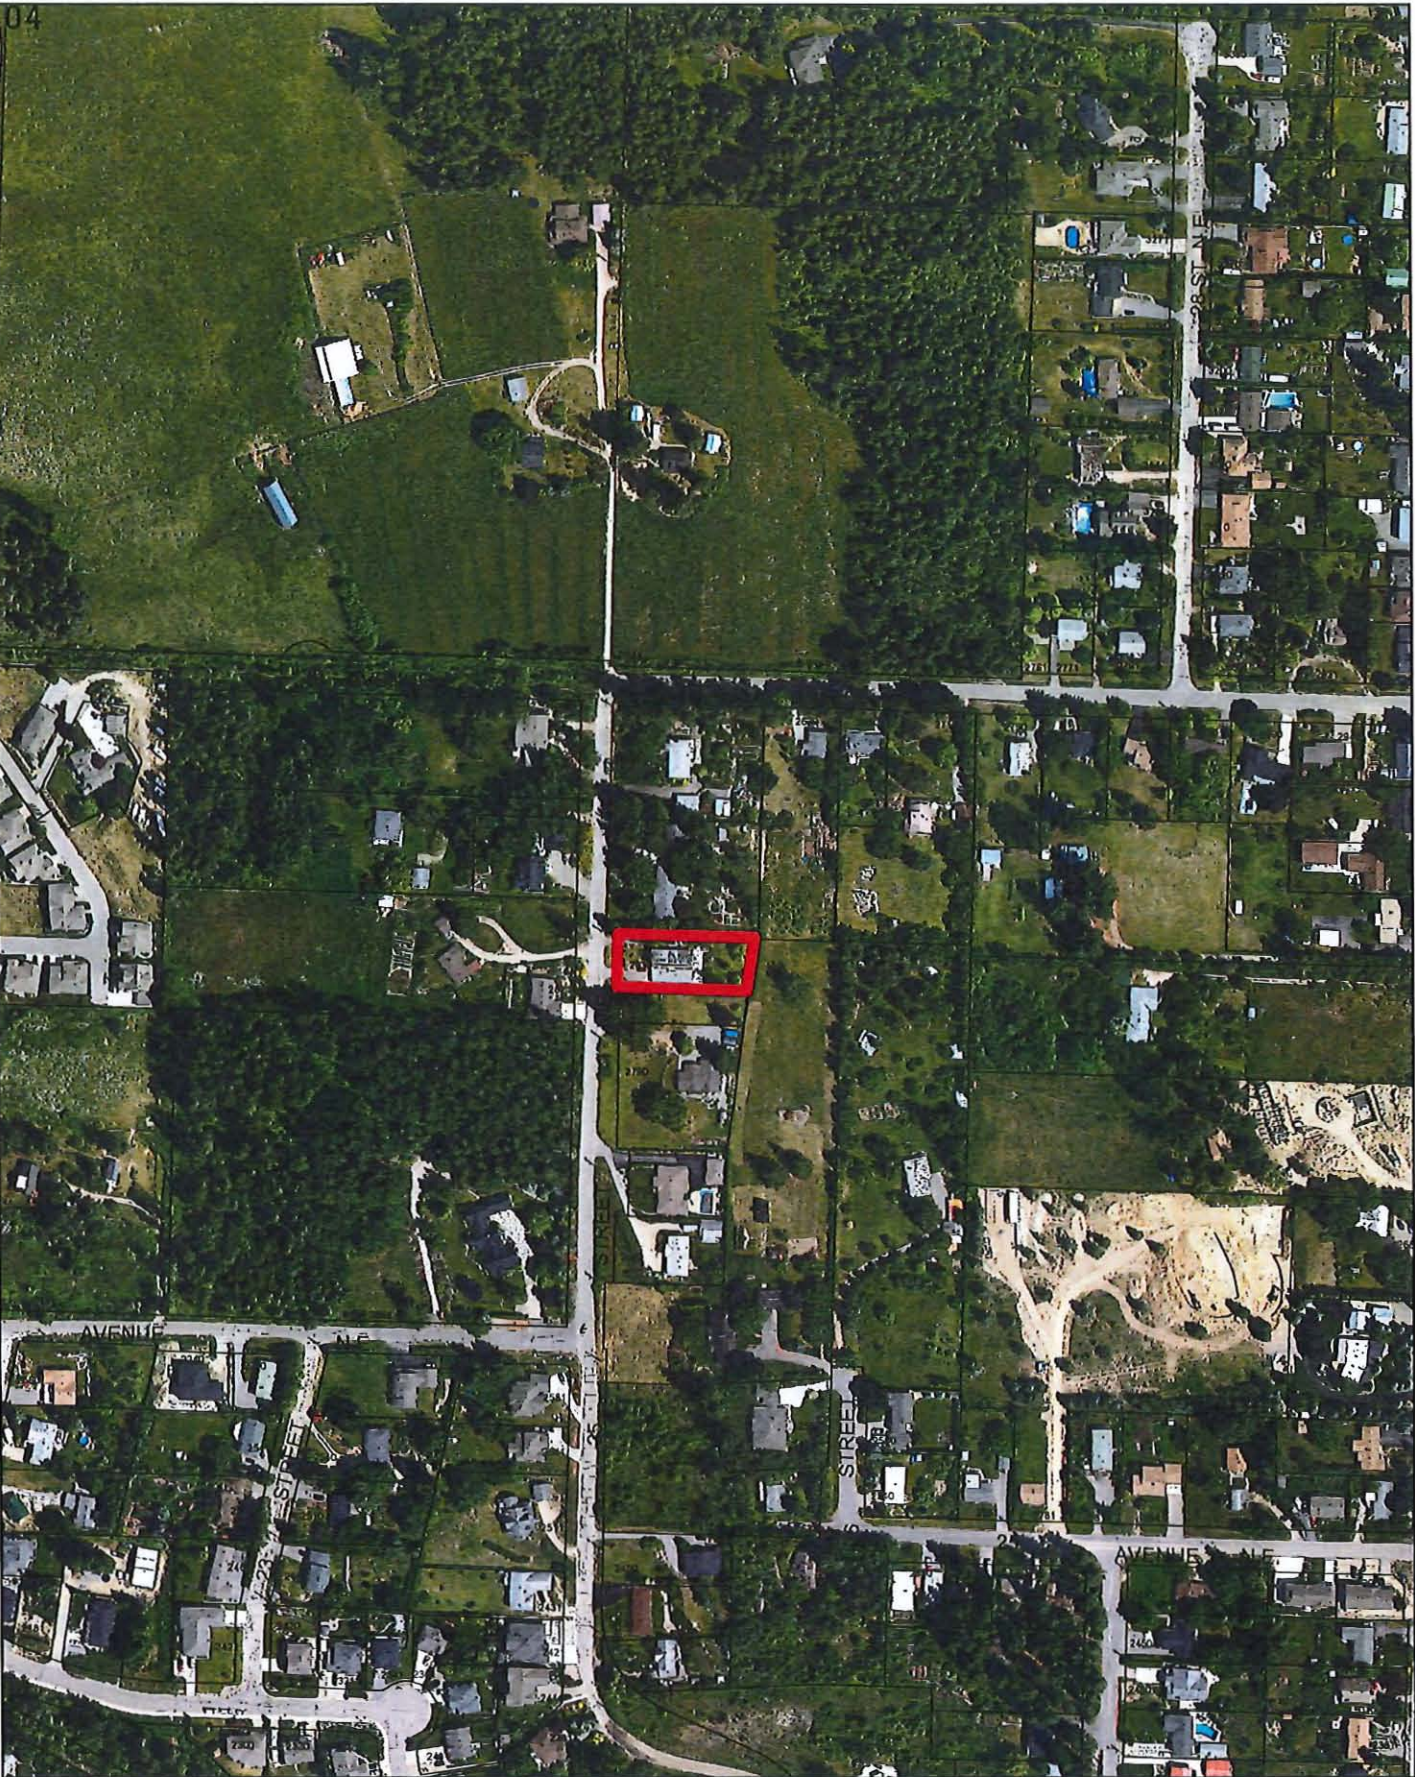

The proposed R-8 zoning of the subject parcel is consistent with the OCP and is therefore supported by staff. Any new development will require a building permit and will be subject to applicable Development Cost Charges, as well as meeting Zoning Bylaw and BC Building Code requirements.

CITY OF SALMON ARM

BYLAW NO. 4412

A bylaw to amend "District of Salmon Arm Zoning Bylaw No. 2303"

WHEREAS notice of a Public Hearing to be held by the Council of the City of Salmon Arm in the Council Chambers at City Hall, 500 – 2 Avenue NE, Salmon Arm, British Columbia and by electronic means as authorized by Ministerial Order M192, British Columbia, on _____, 2020 at the hour of 7:00 p.m. was published in the _____ and _____, 2020 issues of the Salmon Arm Observer;

AND WHEREAS the said Public Hearing was duly held at the time and place above mentioned;

NOW THEREFORE the Council of the City of Salmon Arm in open meeting assembled enacts as follows:

1. "District of Salmon Arm Zoning Bylaw No. 2303" is hereby amended as follows:

Rezone Lot 1, Section 24, Township 20, Range 10, W6M, KDYD, Plan 28855 Except Plan EPP69695 from R-1 (Single Family Residential Zone) to R-8 (Residential Suite Zone), attached as Schedule "A".

2. SEVERABILITY

If any part, section, sub-section, clause of this bylaw for any reason is held to be invalid by the decisions of a Court of competent jurisdiction, the invalid portion shall be severed and the decisions that it is invalid shall not affect the validity of the remaining portions of this bylaw.

3. ENACTMENT

Any enactment referred to herein is a reference to an enactment of British Columbia and regulations thereto as amended, revised, consolidated or replaced from time to time.

4. EFFECTIVE DATE

This bylaw shall come into full force and effect upon adoption of same.

Subject: Zoning Bylaw Amendment Application No. 1188

Legal: That Part of the South West ¼ of Section 19 Included in Plan B413;
Township 20, Range 9, W6M, KDYD
Civic Address: 3510 20 Avenue NE
Owner: Keith & Garry Lamb
Applicant: 1261694 BC Ltd. (Trent Sismey)

MOTION FOR CONSIDERATION

THAT: a bylaw be prepared for Council's consideration, adoption of which would amend Zoning Bylaw No. 2303, 1995 by rezoning a portion of That Part of the South West ¼ of Section 19 Included in Plan B413; Township 20, Range 9, W6M, KDYD from R1 (Single Family Residential Zone) to R8 (Residential Suite Zone), as shown on 'Schedule A';

AND THAT: Final reading of the zoning amendment bylaw be withheld subject to Ministry of Transportation approval;

AND FURTHER THAT: Council support the proposed dedication of that portion of Plan B413 shown on Plan A15226 (1871m²) and a 150m² portion of Plan B413 along the south east property line of the subject property to satisfy the requirement to provide 5% Parkland Dedication in the subdivision.

STAFF RECOMMENDATION

THAT: The motion for consideration be adopted.

PROPOSAL

The subject parcel is located at 3510 20 Avenue NE (Appendix 1 and 2). The proposal is to rezone the parcel from R1 (Single Family Residential) to a split zone of R8 (Residential Suite Zone) and R1 (Single Family Residential), with the south portion of the land being R1 and the northerly portion above the proposed future 16th Avenue right-of-way being R8 (see Appendix 3). The applicant has made a concurrent subdivision application for 34 single family lots. At the time of writing this report the subdivision application is under review with City departments and external agencies.

BACKGROUND

The parcel is designated Low Density Residential (LDR) in the City's Official Community Plan (OCP), and zoned R1 (Single Family Residential) in the Zoning Bylaw (Appendix 4 & 5).

The subject property is adjacent to the Country Hills subdivision and another established residential subdivision. Lands within the ALR are to the immediate north and south of the subject property. Land uses directly adjacent to the subject property include the following:

North: A2 (Rural Holding) parcels within the ALR
South: A2 (Rural Holdings) parcels with the ALR

East: R1 (Single Family Residential)
West: R1 (Single Family Residential)

There are two plans (Plan A11476 and Plan A1490, see Appendix 1) that traverse the site. These plans protect the water and sewer services for the adjacent residential subdivision to the east of the subject property. The developer is aware of these service areas and the proposed subdivision plan does not impact these service right-of-ways.

OCP Policy

Land Use

Given that the subject property is designated in the OCP as Low Density Residential (LDR) and within the Urban Containment Boundary the development of the site for 34 single family home sites including 26 potential suites aligns with OCP principles supporting housing diversity (OCP Section 8.3.25). The same OCP policy does not support the secondary suites being further subdivided. The rezoning of LDR land for single family dwellings with secondary or detached suites is supported in the OCP (Section 8.3.14).

When considering development the LDR designation in the OCP supports 22 units per hectare. Given that the proposed development site, excluding the area identified for park dedication, is approximately 3.8 ha, the density allows for a total of 84 units.

Park Dedication

As noted on Appendix 6: Greenways Map, proposed trails and a proposed neighbourhood park are identified on the subject property. The Greenways Strategy provides guidelines for the provision of linear parks and park spaces within the community based on projected development trends, noting that once development is proposed in a given location the exact alignment and location of the trails and park space are determined by the City and developer. Further, pursuant to the *Local Government Act* an owner of land being subdivided must either dedicate 5% of the land being subdivided as Park or money in an amount agreeable to the City and typically based upon an agreed to appraised value. In effect, the Greenways Strategy identifies general locations for trails and parks, the *Local Government Act* determines how much area within a proposed development is to be dedicated for park space.

In this instance, and with staff support, the developer has provided a proposal for the dedication of an east - west trail linkage between the proposed development and 30 St NE and a further 150m² of linear park adjacent to the existing City park space within the Country Hills development. The proposal for the linkage to become park marks the formalization of an existing route that is commonly used but is technically a trespass across private land. The length of the linkage is approximately 345m. The proposed park alignments and area calculations are shown on Appendix 6: Proposed Subdivision Phasing and Zoning. Staff are requesting Council support in the configuration of the parks/trails proposal for a number of reasons – including that the dedication of the linear park space connecting the development (and adjacent residential areas) to 30 St NE via a trail corridor would formalize this important neighbourhood connection. In addition there is an undeveloped City owned park space (also shown on Appendix 3) which, if one day developed, could provide a small community park space for residents. The park dedication proposal also extends a commonly used north – south linkage between 18th Ave NE and 16th Ave NE along the east property boundary of the subject property.

Should Council not support the park dedication as proposed, particularly, the linkage between the proposed development site and 30th St NE then the City will lose the linkage as a formal trail and the use of the area would be determined by the owner.

Other: Steep Slopes, Hazard Areas and Watercourse Development Permit Areas

The OCP identifies areas of concern with regard to steep slopes greater than 30%, hazard areas and riparian or Watercourse Development Permit Areas and includes policies to address the site specific identification of these conditions on a proposed development site and how development is to be managed to mitigate or avoid conflicts during construction and long term use. The subject property is not identified in the OCP as a site encumbered by these issues. In the event that the developer encounters an unmapped slope greater than 30%, other hazard area or unmapped watercourse, provincial legislation requires that it

incumbent upon the developer to disclose and remedy the issue to ensure that any means of mitigation leaves the site safe for the intended use and abides by provincial legislation.

COMMENTS

Subdivision & Engineering Comments

The rezoning as proposed would not result in requirements for servicing upgrades; however, the proposed subdivision of the property will prompt servicing requirements including the dedication and construction of trails, roads, water, sewer and storm upgrades to the current standards of the City's Subdivision and Servicing Bylaw No. 4163 as well as any associated works and servicing agreements. The Engineering comments dated September 16, 2020 are attached as Appendix 7 and recommend that the rezoning be approved.

At the time of subdivision the developer, who was made aware during pre-application meetings, will be required to dedicate that 10m portion of 20th Ave NE from centerline to property and upgrade the road to an Urban Collector Road Standard as per the City's Subdivision and Servicing Bylaw No. 4163. Appendix 8, provided by the developer's surveyor, illustrates the proposed road dedication. In addition it shows that this section of 20th Ave NE, according to BC Land Title Office records, appears to not be a dedicated road. Typically, municipal roads are dedicated through land title records of subdivision and constructed. Undedicated, yet constructed and used, municipal roads can sometimes occur as an error in records or from piecemeal development through older or past century subdivisions. In either case the road is not within the ownership of the municipality and the issue must be addressed appropriately by the developer. The process of perfecting municipal road dedication is occurring throughout the province and is creating issues for properties developing, particularly subdivision, on lands adjacent to roadways. For the developer to proceed with the required road dedication and improvements of 20th Ave NE, the lineage of the ownership must be confirmed and appropriately dedicated as road. The developer is currently undertaking this task in conjunction with their BC Land Surveyor and the BC Land Title Office. This process has prompted the phasing strategy of the site, leaving the section closest to 20th Ave NE as the last phase so that the lineage of ownership may be addressed as other phases of the development proceed.

The road network included in the proposed subdivision plan is based on a historic Advanced Street Plan endorsed by staff. Connectivity of 16th, 18th and 20th Aves is deemed to be critical for the local road network.

Engineering comments also highlight road and servicing upgrades for those sections the subject property fronting 16th and 18 Ave NE and 30 St NE. Where proposed roadways that access the site, road improvements are required in order to integrate the accesses with the existing established subdivisions on either side of the subject property. The panhandle section of the subject property that fronts 30 St NE requires road dedication and improvements to bring the 5m wide section to an Interim Arterial Road standard. As per the Subdivision and Development Servicing Bylaw, developers are required to bond and build the required works at the time of development. The Bylaw also allows, at the discretion of the City Engineer, that a developer may provide a cash in lieu payment for the works that may be deemed required but premature at the time of development. For example, in a scenario in which sidewalk, curb and gutter would be required as per the Bylaw and the patch of work would be constructed in isolation from any other connection, then the installation of the required works might be considered premature. As noted in the comments from the Engineering Department, given that the required upgrades along 30th St NE are limited in scope, it is considered premature at this time and a payment in lieu of these works would be accepted in this instance.

On site servicing with regards to the provision of water, sewer and storm services are also detailed in the comments and, again, the requirements are intended to integrate the proposed subdivision with the adjacent established subdivisions and ensure that the works are constructed to the standards of the Subdivision and Development Servicing Bylaw No. 4163.

Building Department

Each Single Family Dwelling that is proposed to include a secondary suite would have to be compliant with zoning and the requirements of the BC Building Code.

Fire Department

No concerns.

Planning Department

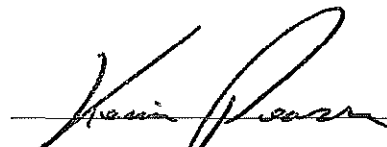

Based on zoning, the number of parcels zoned for a legal suite is 379 in residential areas within the Urban Containment Boundary. The proposed 26 properties included in the proposed application would mark a significant increase in that number and provide additional housing in proximity to schools, recreation and commercial amenities.

Staff are encouraging applicants of larger subdivisions to investigate options to 'pre-zone' a development site as means to meet the City's objectives encouraging affordable housing options. This has been a successful approach in several recent subdivisions including Maplewoods, Cherrywood, 1631 10 St SE (Massier) and newer areas of the Hillcrest neighbourhood. The 'pre-zoning' of the land prior to subdivision ensures that purchasers are aware of neighbourhood composition prior to construction and can make development plans and site designs accordingly. In discussions with the developer staff noted that the City has received several complaints in areas where suites are located within cul-d-sacs as on-site parking issues can be challenging. The developer has proposed that all proposed lots outside of the cul-d-sac area be zoned for suites and those future owners of the properties within the cul-d-sac can make site specific rezoning requests, at which time the provision of adequate on-site parking consistent with the neighbourhood can be assessed by Council. For those sites proposed to be zoned R8 the lot areas range from 700m² to 1079m², which would provide ample area on site for a dwelling with suite or detached and onsite parking. It is unlikely that variances would be needed to accommodate the proposed uses listed within the R8 zone.

Given OCP policies mentioned above and the general lot layout and lots areas proposed staff are supportive of the application to split zone the subject property.

Further to your referral dated 9 September 2020, we provide the following servicing information.

Engineering Department does not have any concerns related to the Re-zoning and recommends that it be approved.

General:

1. Full municipal services are required as noted herein. Owner / Developer to comply fully with the requirements of the Subdivision and Development Services Bylaw No 4163. Notwithstanding the comments contained in this referral, it is the applicant's responsibility to ensure these standards are met.
2. Comments provided below reflect the best available information. Detailed engineering data, or other information not available at this time, may change the contents of these comments.
3. Properties shall have all necessary public infrastructure installed to ensure properties can be serviced with underground electrical and telecommunication wiring upon development.
4. Property under the control and jurisdiction of the municipality shall be reinstated to City satisfaction.
5. Owner / Developer will be responsible for all costs incurred by the City of Salmon Arm during construction and inspections. This amount may be required prior to construction. Contact City Engineering Department for further clarification.
6. Erosion and Sediment Control measures will be required prior to the commencement of construction. ESC plans to be approved by the City of Salmon Arm.
7. Any existing services (water, sewer, hydro, telus, gas, etc) traversing the proposed lot must be protected by easement or relocated outside of the proposed building envelope. Owner/Developer will be required to prove the location of these services. Owner / Developer is responsible for all associated costs.
8. For the on-site development, prior to commencement the applicant will be required to submit to the City for review and approval detailed engineering plans in accordance with the requirements of the Subdivision and Development Servicing bylaw 4163. These plans must be prepared by a qualified professional engineer. As a condition of final subdivision approval,

SUBDIVISION APPLICATION FILE: 20-10

16 September 2020

Page 2

the applicant will be required to deposit with the City for a period of 1 year, funds equaling 10% of the estimated cost for all works that are to be transferred to the City.

9. For the off-site improvements at the time of subdivision the applicant will be required to submit for City review and approval detailed engineered plans for all off-site construction work. These plans must be prepared by a qualified engineer. As a condition of subdivision approval, the applicant will be required to deposit with the City funds equaling 125% of the estimated cost for all off-site construction work.

Roads / Access:

1. 20 Avenue NE, on the subject properties northern boundary, is designated as an Urban Collector Road standard, requiring 20.0m road dedication (10.0m on either side of road centerline). Available records indicate that 2.356m of additional road dedication is required (to be confirmed by a BCLS).
2. 20 Avenue NE is currently constructed to an Interim Collector Road standard. Upgrading to an Urban Collector Road standard is required, in accordance with Specification Drawing No. RD-3. Upgrading may include, but is not limited to, road widening and construction, curb & gutter, sidewalk, boulevard construction, street lighting, fire hydrants, street drainage and hydro and telecommunications. Owner / Developer is responsible for all associated costs.
3. 18 Avenue NE and 16 Avenue NE terminate on the subject properties eastern and western boundaries and are designated as Urban Local Road standard, requiring 20.0m road dedication (10.0m on either side of road centerline). Available records indicate that no additional road dedication is required (to be confirmed by a BCLS).
4. 18 Avenue NE and 16 Avenue NE are currently constructed to an Interim Local Road standard. Extension of these roads to the subject property is required, in accordance with Specification Drawing No. RD-2. Upgrading may be required including, but not limited to, road widening and construction, curb & gutter, sidewalk, boulevard construction, street lighting, fire hydrants, street drainage and hydro and telecommunications. Owner / Developer is responsible for all associated costs.
5. 30 Street NE, on the subject properties western boundary (panhandle), is designated as an Urban Arterial Road standard, with an ultimate 25.0m road dedication (12.5m on either side of road centerline). Although the City only requires an Interim total of 20.0m of road dedication (10.0m on either side of road centerline) at this time. Available records indicate that 2.109m of additional dedication is required (to be confirmed by BCLS).
6. 30 Street NE is currently constructed to an Interim Urban Arterial Road standard. Upgrading to the current Urban Interim Arterial Road standard is required, in accordance with Specification Drawing No. RD-4. Upgrading may include, but is not limited to, road widening and construction, curb & gutter, 3m wide multi use path, boulevard construction, street lighting, fire hydrants, street drainage and hydro and telecommunications. Since this work is premature at this time, a cash payment in lieu of this future work will be accepted. Owner / Developer is responsible for all associated costs.

SUBDIVISION APPLICATION FILE: 20-10

16 September 2020

Page 3

7. A Closed Road is located on the southern half of the western boundary of the subject property. There are no plans to open this road and no upgrades are therefore required.
8. Proposed internal roads shall be designated as Urban Local Roads with an ultimate 20.0m dedication. Owner/developer will be required to construct roads in accordance with specification drawing RD-2 and in accordance with the current site pre-plan including connectivity between all fronting roads.
9. Owner / Developer is responsible for ensuring all boulevards and driveways are graded at 2.0% towards the existing roadway.
10. A 5.0m by 5.0m corner cut is required to be dedicated at the intersection of the proposed internal road and 20 Avenue NE.
11. 3.0m by 3.0m corner cuts are required at intersections of internal local roads.
12. As 20 Avenue NE is designated as a Collector Road, no driveways shall be permitted to access directly onto 20 Avenue NE and all lots shall access onto the internal roads.

Water:

1. The subject property fronts a 100mm diameter Zone 3 watermain on 20 Avenue NE and a 450mm Zone 2 watermain crosses the subject property from 16 Avenue NE. A 150mm Zone 3 watermain terminates at the property line on 18 Avenue NE and both sections of 16 Ave NE. Upgrading the 100mm watermain on 20 Avenue NE to 150mm diameter across the frontage of the property is required. Looping of all the Zone 3 watermains through the subject property is also required.
2. Records indicate that the existing property is serviced by a 12.5mm service from the 100mm diameter watermain on 20 Avenue NE. All existing inadequate / unused services must be abandoned at the main. Owner / Developer is responsible for all associated costs.
3. The proposed parcels are each to be serviced by a single metered water service connection from a Zone 3 watermain (as per Specification Drawing No. W-10), adequately sized to satisfy the proposed use (minimum 25mm). Water meter will be supplied by the City at the time of building permit, at the Owner / Developer's cost. Owner / Developer is responsible for all associated costs.
4. The subject property is located within an area of identified fire flow deficiency, according to the 2011 Water Study (OD&K 2012). The Owner / Developer's authorized engineer is to complete a flow test on the closest fire hydrants to confirm the existing watermain servicing the subdivision is adequately sized to provide fire flows in accordance with the requirements of the Subdivision and Development Servicing Bylaw No 4163. Where the City water distribution system has insufficient capacity to meet the required fire flow, the Owner / Developer will be required to make the necessary upgrades to meet these standards. Owner / Developer is responsible for all associated costs.

SUBDIVISION APPLICATION FILE: 20-10

16 September 2020

Page 4

5. Fire protection requirements to be confirmed with the Building Department and Fire Department.
6. Fire hydrant installation will be required. Owners consulting Engineer shall review the site to ensure placement of fire hydrants meet the low density spacing requirements of 150m.

Sanitary:

1. The subject property fronts a 200mm diameter sanitary sewer terminating at the end of 18 Avenue NE and a 200mm diameter sanitary sewer in the closed road and in a 3m wide right of way on the western and southern boundaries. No upgrades will be required at this time, however the ROW is to be widened to 6m.
2. The proposed parcels are each to be serviced by a single sanitary service connection adequately sized (minimum 100mm diameter) to satisfy the servicing requirements of the development. Owner / Developer's engineer may be required to prove that there is sufficient downstream capacity within the existing City Sanitary System to receive the proposed discharge from the development. Owner / Developer is responsible for all associated costs.
3. Records indicate that the existing parcel is currently serviced by a septic field. Decommissioning of the septic field, in accordance with building departments requirements will be a condition of the subdivision. Owner / Developer responsible for all associated costs.

Drainage:

1. The subject property fronts a 250mm diameter storm sewer terminating at the end of 18 Avenue NE. No upgrades will be required at this time.
2. Records indicate that the existing property is not serviced by City storm. Extension of a storm sewer from 30 Street NE may be required to service the development. Owner / Developer is responsible for all associated costs.
3. An Integrated Stormwater Management Plan (ISMP) conforming to the requirements of the Subdivision and Development Servicing Bylaw No. 4163, Schedule B, Part 1, Section 7 shall be provided.
4. Where onsite disposal of stormwater is recommended by the ISMP, an "Alternative Stormwater System" shall be provided in accordance with Section 7.2.
5. Where discharge into the Municipal Stormwater Collection System is recommended by the ISMP, this shall be in accordance with Section 7.3. The proposed parcel(s) shall be serviced (each) by a single storm service connection adequately sized (minimum 150mm) to satisfy the servicing requirements of the development. Owner / Developer's engineer may be required to prove that there is sufficient downstream capacity within the existing City Storm System to receive the proposed discharge from the development. All existing inadequate /

CITY OF SALMON ARM

BYLAW NO. 4414

A bylaw to amend "District of Salmon Arm Zoning Bylaw No. 2303"

WHEREAS notice of a Public Hearing to be held by the Council of the City of Salmon Arm in the Council Chambers at City Hall, 500 – 2 Avenue NE, Salmon Arm, British Columbia and by electronic means as authorized by Ministerial Order M192, British Columbia, on _____, 2020 at the hour of 7:00 p.m. was published in the _____ and _____, 2020 issues of the Salmon Arm Observer;

AND WHEREAS the said Public Hearing was duly held at the time and place above mentioned;

NOW THEREFORE the Council of the City of Salmon Arm in open meeting assembled enacts as follows:

1. "District of Salmon Arm Zoning Bylaw No. 2303" is hereby amended as follows:

Rezone a portion of That Part of the South West ¼ of Section 19 Included in Plan B413; Township 20, Range 9, W6M, KDYD from R-1 (Single Family Residential Zone) to R-8 (Residential Suite Zone), attached as Schedule "A".

2. SEVERABILITY

If any part, section, sub-section, clause of this bylaw for any reason is held to be invalid by the decisions of a Court of competent jurisdiction, the invalid portion shall be severed and the decisions that it is invalid shall not affect the validity of the remaining portions of this bylaw.

3. ENACTMENT

Any enactment referred to herein is a reference to an enactment of British Columbia and regulations thereto as amended, revised, consolidated or replaced from time to time.

4. EFFECTIVE DATE

This bylaw shall come into full force and effect upon adoption of same.

CITY OF SALMON ARM

To: Mayor Harrison and Members of Council
 Date: September 17, 2020
 From: Tracy Tulak, Acting Chief Financial Officer
 Subject: Permissive Tax Exemption – New Applications – 2021 and 2022

Recommendation

That Bylaw No. 4415 cited as “City of Salmon Arm Tax Exemption Bylaw No. 4415,” be given three readings.

Background:

Council, at the Regular Council Meeting held on October 28, 2019, adopted Bylaw No. 4352 granting various Organizations a Permissive Tax Exemption for the three (3) year period 2020, 2021 and 2022.

Three (3) new applications have been received requesting Council to grant them a Permissive Tax Exemption for the taxation years 2021 and 2022. Pursuant to Section 224 of the Community Charter, adoption of this bylaw will exempt the subject properties from not only the general municipal tax in the amount of \$26,766.00, but also, taxes levied by other governments in the amount of \$27,301.00 (e.g. School, Regional District, Regional Hospital, Library, MFA and BCAA). The City is still responsible for payment of the exempted taxes levied by other governments, and the remaining tax base must make up this difference.

It is important to note that statutory exemptions (legislated pursuant to the Community Charter) allow churches and the property they sit on, an automatic or statutory exemption. Council has historically granted a Permissive Tax Exemption to churches for the remaining property of up to two (2) acres. For Societies, Senior Facilities and Sports Clubs, Council has historically permissively exempted all land and improvements, provided they are owned by a charitable, philanthropic or other not-for-profit organization.

The applications submitted were provided to Council for review. The following applications have been submitted:

Cornerstone Christian Reformed Church

The Cornerstone Christian Reformed Church recently consolidated two (2) properties (1161 22 St NE and 1191 22 St NE) in Plan EPP97409. As a result, BC Assessment Authority (BCAA) deleted the previous properties from the 2021 Assessment Roll and assigned one (1) new Property Roll Number, PID and legal description. The civic address of the newly created roll number remains 1191 22 St NE.

Council granted a Permissive Tax Exemption for the three (3) year period 2020, 2021 and 2022 to the Cornerstone Christian Reformed Church on one (1) of the previous properties noted above (1191 22 St NE). The property received a statutory exemption for the church and land on which the church stood and a permissive exemption on the two (2) acres of the property surrounding the church as it was more than two (2) acres, 0.284 acres of land was taxable. Council's policy allows up to a maximum of two (2) acres surrounding churches and accessory uses. Following the consolidation of the properties, the current area surrounding the building continues to be more than two (2) acres; therefore 0.563 acres of property would remain taxable.

As advised by BCAA, the previous permissive exemption will not transfer to the newly created Property Roll Number unless authorized by Council by bylaw. The Cornerstone Christian Reformed Church did not submit a formal application for Council's consideration. However, it is recommended that Council grant a permissive exemption on the newly created property for 2021 and 2022.

The estimated permissive tax exemption value for 2021 is \$8,508.00 (General Municipal - \$4,132.00 and Other Governments \$4,376.00).

Canadian Mental Health Association

The Canadian Mental Health Association is in the process of construction of affordable housing rental units and supportive housing units on the property located at 540 3 Street SW. Council has granted Permissive Tax Exemptions for other properties owned by Canadian Mental Health Association for 2020, 2021 and 2022 (20 Alexander St NE and 431, 433 and 435 Hudson Avenue NE).

The land and improvements are owned by the Canadian Mental Health Association, a registered society in good standing, in accordance with Section 224(2)(a) of the Community Charter, and are used for the purpose that is directly related to the purposes of the association.

The estimated permissive tax exemption value for 2021 is \$15,641.00 (General Municipal - \$9,364 and Other Governments \$6,277.00).

Lakeside Community Church

Due to an administrative error during the preparation of Bylaw No. 4352, Lakeside Community Church located at 391 Hudson Avenue NE was removed from Bylaw No. 4352. Council authorized a grant be provided to the property owner for the 2020 Property Tax Levy on the Assessment Class 8 on the property located at 391 Hudson Avenue NE. Lakeside Community Church did not submit a formal application for Council's consideration. However, it is recommended that Council grant a permissive exemption for 2021 and 2022 based on the original application provided in 2019.

The estimated permissive tax exemption value for 2021 is \$2,617.00 (General Municipal - \$1,275.00 and Other Governments \$1,342.00).

Pursuant to Section 227 of the Community Charter, the City of Salmon Arm is required to advertise all properties being considered for a permissive tax exemption and the value of said exemptions. As such, advertisements will appear in the Salmon Arm Observer on September 16 and September 23, 2020 respectively.

This bylaw must be adopted by October 31, 2020 to be in effect for the 2021 tax year. Therefore, it is recommended that Council adopt Bylaw No. 4415 to exempt the subject properties for the 2021 and 2022 year.

Respectfully submitted,

Tracy Tulak, CPA, CMA
Acting Chief Financial Officer

CITY OF SALMON ARM**BYLAW NO. 4415****Being a bylaw to exempt from taxation certain lands and improvements for the years
2021 and 2022**

WHEREAS it is provided by Section 224 of the Community Charter, that the Council may by bylaw exempt from taxation any lands and improvements as therein specified;

AND WHEREAS the Council of the City of Salmon Arm deems it necessary and expedient to exempt from taxation for all purposes, the whole of the taxable assessed value of the land and improvements on certain properties situate within the City of Salmon Arm;

AND WHEREAS Section 224 of the Community Charter provides that every building set apart and in use for public worship and any church hall which Council considers necessary thereto, and the land upon which the building or hall actually stands, shall be exempt from taxation;

AND WHEREAS such area of lands surrounding the church building or hall as may be determined by Council shall be exempt from taxation, such area so exempted to be determined by bylaw in accordance with Subsection 2 (f) of Section 224 of the Community Charter;

NOW THEREFORE the Council of the City of Salmon Arm by affirmative vote of at least two-thirds of all the members thereof enacts as follows:

1. CHURCHES

- a) In addition to the statutory exemption for every building set apart and in use for public worship and the land upon which the building actually stands, all church halls located on the same property or adjacent property owned by the Church or its Trustees shall also be exempted, including the land upon which the halls stand, for the years 2021 and 2022.
- b) Where the property on which a church is located does not exceed two (2) acres, all such land shall be exempt from taxation for the years 2021 and 2022.
- c) Where there is a residence located on the same property as a church, the residence and any ancillary buildings and the land upon which the residence and ancillary buildings actually stand, as well as any area of land deemed to be associated with the use and enjoyment of the residential and ancillary buildings, shall be assessed and taxed as residential property for the years 2021 and 2022.

d) Where the property on which a church is located exceeds two (2) acres, the area of land exempt from taxation, including the statutory exemption, shall be two (2) acres.

1. Lot A & B, Plan 28751, Lot 3, Plan 6676, Section 14, Township 20, Range 10 – That portion leased to Lakeside Community Church only (391 Hudson Avenue NE)
Registered Owner: 0731010 BC Ltd. (06526.015)
Occupier: Lakeside Community Church
2. Lot A, Plan EPP97409, Section 24, Township 20, Range 10 (1191 - 22 Street NE)
Registered Owner and Occupier: Cornerstone Christian Reformed Church
(04437.003)

2. SOCIETIES

a) The following properties are hereby exempted from taxation for all purposes for the years 2021 and 2022, the whole of the taxable assessed value of the land and improvements unless otherwise noted:

1. Lot 1, Plan KAP52591, Section 14, Township 20, Range 10 (540 3 Street SW)
Registered Owner and Occupier: Canadian Mental Health Association (06400.032)

6. SEVERABILITY

If any part, section, sub-section, clause of this bylaw for any reason is held to be invalid by the decisions of a Court of competent jurisdiction, the invalid portion shall be severed and the decisions that it is invalid shall not affect the validity of the remaining portions of this bylaw.

7. ENACTMENT

Any enactment referred to herein is a reference to an enactment of British Columbia and regulations thereto as amended, revised, consolidated or replaced from time to time.

8. EFFECTIVE DATE

This bylaw shall come into full force and effect upon adoption of same.

Re: Province of BC Community Economic Recovery Infrastructure Program

Dear Mayor Harrison and Council,

The Province of BC recently launched the Community Economic Recovery Infrastructure Program (CERIP) to assist communities in BC with the economic impacts experienced from COVID-19. CERIP supports job creation through small-scale infrastructure projects, destination and economic development initiatives, and cultural heritage projects.

Some of the key details of this funding program are included below:

- Eligible applicants include local governments, first nations bands and non-profit societies
- Grant funding available is up to \$1 Million per application
- Projects must commence no later than December 31, 2021 and be complete prior to March 31, 2023
- A one-time, 100% grant amount will be provided upfront upon application approval
- Eligible projects include improvements to existing infrastructure and/or creation of new infrastructure to service economic development, destination development and heritage conservation goals.
- Application deadline is October 29th.

In discussions with the MRDT Committee and City staff, and at the direction of the SAEDS Board, staff are compiling a funding application under the Destination Development category, focussing on visitor services. The Destination Development stream invests in the development, conservation, repair or rehabilitation of tourism infrastructure and amenities to assist in the re-emergence and resiliency of the tourism sector. Included among the objectives of the Destination Development stream is *increasing the capacity of tourism destinations to welcome visitors*.

SAEDS invites Council to consider partnering for the purpose of submitting a joint community funding application, with the opportunity to expand the identified visitor services tactics listed below.

Identified application components include:

Comprehensive Community & Wayfinding Signage

Community signage was identified as a priority project when we undertook the community consultation to establish the MRDT program and is included in the MRDT Five-Year Business Plan. This component of the funding application includes finalization of a community signage design (consistent with the new Small City, Big Ideas branding) and a phase one construction and install of priority signs, focussing first on community entrance signs and downtown wayfinding signs. The goal of this initiative is to support and expand our tourism economy by enhancing the overall image and awareness of Salmon Arm as a travel destination. This project aims to create a memorable welcome; attract visitors into the downtown core; highlight tourism assets, and support navigation needs of visitors.

For the purpose of meeting the fast-approaching funding deadline, SAEDS will work to prepare a sample sign design inclusive of materials listing and cost estimates. However, it is important to note this initial work will remain in draft form and will only be for the purpose of supporting the application submission. Project plans, including sign design, will not be finalized until there has been sufficient consultation with community stakeholders and consensus.

Self-Serve, Interactive Visitor Kiosks

This has been another priority project of the MRDT Committee. This component of the funding application includes purchasing two interactive visitor kiosks to be placed in high-traffic locations in Salmon Arm. Interactive kiosks can be used for digital wayfinding to key points of interest and attractions (for example, search shopping districts, or restaurants, or beaches...), or to book accommodations, event tickets, etc. Visitor kiosks also integrate with smart phones for downloading information. The goal of this initiative is improving visitor experience, increasing revenue to local businesses, relieving language barriers, and providing 24/7 service in high-traffic locations.

SAEDS welcomes the City of Salmon Arm to consider partnering for the submission of this community visitor services funding application. Further, we recognize that a preferred model has not been finalized for visitor information services for our community at this time, however the City may wish to consider expanding this application to also include anticipated costs of mobile visitor services for 2021 and 2022, due to the alignment of these costs with the program objectives. Any approved funding contributions related to this initiative would be directed at the City's discretion. SAEDS would be pleased to work with City staff to make this addition.

Sincerely,

Lana Fitt, Ec.D
Economic Development Manager

Mayor and Council City of Salmon Arm

RE: Salmon Arm RCMP Detachment
Quarterly Policing Report – July 1 through September 30th

Dear Mayor and Council,

My report this quarter covers the time period from April 1 through June 30, 2020.

Detachment News

Our office continues to be affected by the COVID 19 Pandemic. Our office staff resumed normal scheduling on July 13th 2020. Their flexibility, accommodation, and commitment is to be applauded as we moved through the initial phase of the pandemic. All of our municipal, public service and regular member employees have continued to through these times. I believe it is a testament to our team's commitment to local public safety.

We are resuming civil fingerprinting in October for Police Information Checks and Vulnerable Sector Checks. The resumption of these services took some time as we planned to resume this activity safely for the clients and the staff.

Over this quarter the officers responded to over 2400 calls for service in this quarter. Of these calls, 1531 were within the City of Salmon Arm. The calls for service represent 64% of our total file workload, and decreased by approximately (151 calls) over 2019 which was up substantially over 2018.

At our Detachment you will see "Project Rainbow Stickers" in our entry way. It is our visible demonstration that at the RCMP we are inclusive and a safe place to speak about any issues associated to challenges facing our LGBTQ2S+ community. The RCMP's expectation and my expectation is that we provide a safe, unbiased and inclusive service to the residents of Salmon Arm and surrounding communities.

Officers continued to be busy in traffic law enforcement despite COVID and logged:

- Over 137 Documented traffic stops.

Canada

RCMP GRC 2823 (2002-11) WPT

- Over 15 impaired drivers being removed from our roads.
- Our officers laid 29 high risk driving charges which include distracted driving, excessive speed, and other high risk offences in this quarter.
- 6 injury collisions within Salmon Arm and 16 more in the rural area.
- There was 1 fatal collision within Salmon Arm which our investigation indicates was due to a medical issue prior to the collision.

Investigative highlights this past quarter:

- Our investigative team arrested 3 individuals involved in an Attempted Homicide in Blind Bay. This was a month long investigation and it continues as we work with Provincial Crown Council who will prosecute the case. The persons we believe are responsible for this targeted act have been remanded into custody. The investigation involved thousands of investigative hours, 3 Emergency Response Team Deployments, and RCMP support units from our South East District and E Division Headquarters which included Air Services, Forensic Identification Section, Police Dog Services, Legal support Unit and Media Relations support.
- Property crime is trending near last year's numbers.
- Residential Break and Enter reports have remained low at 5 over the quarter.
- One property criminal who bear sprayed a home owner was arrested and he has been remanded into custody awaiting trial.
- Cases of Domestic Violence are up and we continue to work with the Violence Against Woman in Relationship (VAVIR) group as well as being involved in our Sexual Assault Prevention Sub Committee as well as Shuswap High Risk Domestic Violence Integrated Case Assessment Team (ICAT).
- While our calls that are mental health related have not increased, the perceived seriousness of interventions are escalating.

Looking forward:

We now have implemented but not fully released our on line crime reporting system due to a technical glitch which we are working through at this time.

I have attached statistics for the city jurisdiction and the rural area that we police.

Yours in Service,

Scott West, S/Sgt.

NCO i/c Salmon Arm RCMP Detachment

To: Carl Bannister; Alan Harrison
Subject: Leave of absence

Good evening Carl and Alan,

I have considered my options for the campaign period and have resigned myself to taking an unpaid leave. I am disappointed to have to do so but in the interest of retaining the good working relationship I currently have with staff and council I feel I have no other choice. I will take October 5 to October 24 without pay and without expectation of participation in council duties.

There are some items that I was taking the lead on over the next few weeks that I would like to request be deferred until my return. The first is the letter from Anne Morris regarding joining cities in favour of denuclearization. This letter was scheduled to come to council on October 13. I spoke to Anne today and she had agreed to move it forward to the next council meeting on October 26. I am requesting that this be done so that I may sponsor the letter at that time.

The second is the CEA energy report and the work the EAC is doing to make recommendations. We were scheduled to bring our three working groups back together on October 23. I plan to take a leave until Election Day so this would mean I could not chair this meeting. I would like to request that the EAC meeting be rescheduled for October 30 in the afternoon or Nov 6 in the morning, provided that this still occurs before the report is brought to council.

There is a SABNES AGM on Tuesday October 20 and a Community Futures meeting on Wednesday October 21 and would appreciate someone representing council at those meetings. I will attend the fall fair committee meeting tomorrow.

My last request is that I retain my access to council email. I would like to stay apprised of the issues as they occur and not have to catch up when I get back. I appreciate your support in this. I request that Barb send an email the EAC to see which date works for a reschedule.

Thank you for your help with this decision,
Sylvia

Subject: crosswalk decision for 50 Ave NE

Body

I normally agree with pretty much everything our mayor and council decide. However, I do think they missed on this one! Two young girls raise a third of the money for a crosswalk and the request is denied, citing low use and lack of connectivity to trails. I disagree. This is how people above 50th Ave NE get to the Foreshore Trail, the 11 st. Coyote Park trail, and the much used trail to upper Lakeshore, only half a block east. Further, I have seen some very near misses with school bus riders, it is not an emotional issue as stated. As for low use, more people would walk Lakeshore (and cross it) much more safely if there was a sidewalk! If it is about the money, I would happily organize a fundraiser for the remaining two thirds, just let me know.

Would you like a response: Yes

alan Harrison

To: the Mayor and Council of the City of Salmon Arm

RE:UPGRADING 30TH STREET (AN URBAN COLLECTOR ROAD)

Upgrades have been done on 30th street between 1 avenue SE and 4th avenue NE. Topography and legacy issues complicated the work. Some realignment of 30th Street was necessary. No four laning was achieved. A centre isles was created as a turning isle or a buffer. Two right hand turn lanes approaching intersections were constructed.

The legacy issue was a street beside (parallel to) 30th street that provides access to 6 properties between 3rd and 4th avenue NE.

FUTURE UPGRADES ON 30TH STREET BETWEEN 4TH AND 6TH STREET NE

The slope at 30th street and 5th avenue is 12 feet per 100 feet of run over approximately 230 feet from the intersection heading West.

30th street was elevated by design when the current road was constructed. Four courses of 2 foot high structural blocking at the SW corner of 30th street and 5th avenue NE are proof of this.

A 10 foot widening without lowering 30th street at 5th avenue NE will increase the slope from 12% to 13.3% over the first 90 feet of run.

For many years drivers and pedestrians have contended with the steep grade which limits visibility and makes pulling on to 30th street from the intersection difficult, particularly when the weather is poor.

Volunteers have been assisting students crossing 30th street at 5th avenue NE since a fatal accident involving an 8 year old a number of years ago.

REZONING APPLICATION OF 541 30TH STREET NE

This occurred 12 years ago.

On January 28, 2008 the Planning and Engineering departments of the city of Salmon Arm sent a memorandum to the Mayor and Council with comments and requirements related to this application based upon what they described as the "best available information".

One requirement was for 541 30th street NE to give up lands in excess of the bylaw requirement for future sloping and grading during construction of 30th street in this area to an urban collector road standard.

The Planning and Engineering departments failed to advise the then Mayor and Council that widening 30th street to the West at 5th avenue NE would increase the slope on an avenue that was already too steep.

At that time (2008) I met with officials from the planning and engineering department to share my concerns and suggest alternatives based upon my observations, measurements and analysis. In 12 years they have not alerted any Mayor or Council of the issues.

Recently, at least one prospective buyer of 541 30th street NE was provided a copy of the January 28, 2008 memorandum. These flawed requirements have not been well received by them.

WAYS TO MOVE FORWARD

As the owner of 541 30th street NE I am aware of the need for upgrading of 30th street between 4th and 6th avenue NE.

I do not wish to hinder or delay the start of upgrading 30th street in this area and I agree to dedicate (if I am still the owner) what the bylaw requires once notice is given to me that the city is ready to do road construction at 30th street and 5th avenue NE.

5th avenue NE is the only avenue between the TC highway and Okanagan avenue which has the potential of connecting to the 21st street collector road.

In my opinion, 4 laning 30th street in this 2 block area (as was the case is impractical (as was the case with the 5 block area already upgraded).

I believe that 30th street should be lowered between 4th and 6th avenues NE. Structural blocking should be used to support the embankment which is the school property playing field. A modest realignment of 30th street to the East between 4th and 6th avenues NE should be considered.

The present use of a centre isle turning lane works well. A right hand approach lane supported by structural blocking at the intersection of 30th street and 5th avenue NE would improve traffic flow and safety.

While it may not be possible to lower the grade at 5th avenue NE to the current allowed grade limit every effort should be made to lower the grade as much as possible.

I hope that each of you will go to this location and view what I am describing.

I will greatly appreciate your comments.

Yours truly,

Ron Cameron
Owner

Subject: Fwd: Ecosystem Impacts

To the Mayor and Councilors of Salmon Arm,

As a constituent of Salmon Arm, I applaud you for not using anticoagulant rodenticides on City owned properties. I am requesting your support in formalizing your current practice and policies on anticoagulant rodenticides to ensure the continued protection of ecological integrity for now and in the future, to direct staff to communicate this policy direction to residents and businesses including information on the harmful impacts of anticoagulant rodenticides and the availability of ecologically sustainable alternatives, and to encourage council to petition the Province to amend its legislation to prohibit these dangerous products. I care deeply about this issue and it is extremely important to me and all your constituents as evidenced by the number of letters you have received.

Recent owl deaths in BC have raised awareness of the harmful effects of rodenticides on British Columbia's wildlife, and have inspired a long-awaited shift away from these products. Rodenticide use is regulated at the Provincial level and therefore under current legislation Salmon Arm is unable to enact a complete ban. However, local governments can create policies which eliminate their use on all municipal owned properties.

Since the District of North Vancouver's landmark motion in June, numerous local governments have united against the unacceptable risks these rodenticides pose. For your convenience, I have included a list of these jurisdictions below as well as links to their respective reports and motions. It is essential for Salmon Arm to take a strong position as well.

We have so much to be thankful for in Salmon Arm—our city is home to multiple expansive parks, greenways, trails and beautiful scenery. The city and council have already taken an admirable step in its decision not to use rodenticides in parks and on city premises as a matter of policy. Now is the time to make it official.

Common misinformation propagated by the pest control industry

The pest control industry claims that rats return to their dens underground to die once they have been poisoned, and that banning poisons will make a rat problem worse. In fact, studies indicate that the pre-lethal effects of ARs instead make them more accessible to predators, and that rats do often die above ground, increasing the risk of exposure of both predators and scavengers. The reality is that our reliance on poisons is facilitating the rebound of infestations. Clearly poisons do not work, evidenced by the fact that pest control companies remain on contracts to supply poisons for indefinite durations of time.

The TRUTH:

A single owl eats around 1,000 rats per year, whereas we do not even know how many rats are killed each year from ARs because pest control operators are not monitoring the bait stations they set out. It is simply irrational to repeatedly pay for a company to release poison into the environment, while owls will control our pests for free (if we just stopped killing them).

AR's do not address the root cause of rodent infestation problems. Rats are drawn to food and shelter. Structural access to these resources must be addressed if rodents are to be permanently

removed. By eliminating a resident population using AR's, another will move in. Also, in response to poisoning, rats will mate faster in the days to weeks before they die, thereby increasing their population.

Cheaper, more humane, more effective alternatives do exist. For example, snap traps (which can also be placed in a secure tamper proof box) and an easy to use automatic resetting trap such as described in the District of North Vancouver report.

Whether or not municipalities currently use ARs on their own property, it is vital that municipalities take a strong stance against these products in order to pave the way for others to take likewise action themselves. The extensive data before us evidences that mere restrictions are not enough. ARs need to be a thing of the past, and as stewards of the environment, local governments must protect our environment, wildlife and future generations against the devastating harms they pose. Municipalities need to unite and bring this to the attention of the Province, but also to the attention of the public.

The initiative to ban rodenticides is supported by many local organizations (see fact sheet) including BC Nature, Animal Alliance of Canada, Wild Bird Trust of BC, and BC Field Ornithologists. Together we urge the City of Salmon to take the ethical step of banning these horrific products and to join the voices of so many others. With consideration and planning we cannot only control the rat population but preserve the wildlife that endeavors to flourish within the borders of our beautiful city.

Below I have included a more detailed discussion on the harmful impacts posed by rodenticides, specific recommendations for action by Salmon Arm and supporting reference materials, including a campaign Fact sheet and Draft Provincial Resolution. Please feel free to contact me as you review.

Thank you for your time.

Sincerely,

Brodie Blair
Salmon Arm

BACKGROUND

Anticoagulant rodenticides

Rodenticides, colloquially referred to as "rat poisons," are pesticides formulated as tasty baits used to kill rats, mice and other target rodents. The B.C. government acknowledges that anticoagulant baits "cause death by internal bleeding and present a moderate to high risk of secondary poisoning to other animals that might eat the poisoned rat," yet provincial laws permit their continued use.

Harmful impacts

Many of B.C.'s treasured wildlife species face serious risks of anticoagulant rodenticide poisoning. It has been well-documented for over a decade that these products poison non-target species on all levels of the food chain. Examples include owls, hawks, small birds, earthworms, coyotes, and even cougars. It is not uncommon for pets and children to be poisoned as well.

Non-target species can be impacted by direct (primary) and indirect (secondary) poisoning:

- **Primary poisoning:** Anticoagulant rodenticides are administered in a tamper-proof black box. Rats feed on poison bait blocks inside these boxes. Any animal the same size or smaller than a rat

can directly retrieve the poison in this same manner and have demonstrated a willingness to do so. Many non-target species, including songbirds and shrews, are directly poisoned in this way.

- **Secondary poisoning:** When a rat or other small animal consumes the poison, they are not killed immediately. In fact, they can continue to live for days to weeks following the initial consumption. During this time, they continue to feed on the poison (recognizing it as a food source). The highly toxic, persistent, bio accumulative nature of second-generation anticoagulant rodenticides makes them particularly dangerous to secondary consumers, especially where the prey animal has ingested several doses. Nearing death, poisoned animals become lethargic and more vulnerable, making for an easy meal for predators. Owls and other birds of prey are at a disproportionately high risk of secondary poisoning because of their dependence on rodents as a food source.

Not only are owls a treasured species in our community, they are natural predators to rats and other rodents. A single owl eats around 3 rats per night, approximately 1000 per year. By allowing the use of anticoagulant rodenticides, we are killing off the natural predators and helping the rat population to grow overall. It is entirely counter-productive.

RECOMMENDED ACTIONS BY THE CITY OF SALMON ARM

That Council:

1. Adopts the policy of introducing a complete ban of anticoagulant rodenticides on all Salmon Arm owned properties, with immediate effect.
2. Directs staff to communicate this policy direction to residents and businesses including information on the harmful impacts of anticoagulant rodenticides and the availability of ecologically sustainable alternatives.
3. Request the Mayor write, on behalf of Council, to the Provincial Minister of Environment requesting that the Province of British Columbia introduce a Province wide ban of the use of anticoagulant rodenticides, to increase protection for wildlife species.
4. To incorporate humane practices in regards to pest control in all City of Salmon Arm properties.

Reports on Anticoagulant Rodenticides

On February 28, 2020, the BC SPCA released a [news story](#) outlining the harmful impacts of anticoagulant rodenticides. In this article, the organization is encouraging their readers to "push our municipalities in the right direction to reduce the use of rodenticides in parks and near greenbelts and areas that are home to B.C. wildlife."

Marie Turcott, Law Student at the University of British Columbia, published a [comprehensive report](#) examining the harmful impacts of anticoagulant rodenticides and critiquing the provincial and federal government's current approach to regulating these products.

The following municipalities have committed to prohibiting the use of ARs on all municipal-owned properties within their jurisdiction, and have formally requested action by the provincial government:

- [District of North Vancouver](#), June 15, 2020
- [District of Saanich](#), July 13, 2020.
- [District of Sooke](#), September 14, 2020

- [City of Colwood](#), August 24, 2020
- [City of Port Moody](#), September 8, 2020
- [City of Victoria](#), September 17, 2020
- [City of North Vancouver](#), September 14, 2020
- [District of Oak Bay](#), September 28, 2020

CONCLUSION

Anticoagulant rodenticides pose serious threats to BC wildlife, the environment, and human health. The permitted and continued use of these harmful poisons is inconsistent with the obligations owed by the government to protect its citizens and the environment from harmful chemicals. Anticoagulant rodenticides are dangerous, ineffective and unlawful - the City/District must take action to reduce the use of these products and petition the BC government to implement a province-wide ban.

Rodenticides <https://static1.squarespace.com/static/5a766a60bce176c268d99786/t/5ec70e48e553460f8682ce60/1590103627704/Turcott+Defending+Nature+Against+Rodenticides.pdf>

ANTICOAGULANT RODENTICIDES

Whereas anticoagulant rodenticides are highly toxic, persistent and bioaccumulative compounds used to eliminate rodent populations by causing death by internal bleeding;

Whereas anticoagulant rodenticides pose serious threats to B.C. wildlife (including raptors, songbirds, coyotes, snakes, racoons) and the environment (including aquatic ecosystems) through primary and secondary poisoning of non-target species, and further threaten children and pets;

Whereas owls and other raptors are at a particularly high risk of secondary poisoning because of their dependence on rodents as a food source, with countless cases of poisoning across B.C. in the past decade;

Whereas anticoagulant rodenticides are actually an ineffective and counterproductive means of controlling rodent populations long-term because they fail to address the root of infestation problems (i.e., access to food, shelter and other attractants), and kill predators that serve as natural and chemical-free methods of pest control (e.g., a single owl eats around 1,000 rats per year);

Whereas the existing risk mitigation measures implemented by the federal and provincial government are incapable of adequately addressing the threats anticoagulant rodenticides pose to the environment, wildlife and human health;

Whereas municipal governments have passed motions to ban the use of anticoagulant rodenticides on city-owned property and petition the B.C. government to implement a province-wide ban;

Therefore, be it resolved that _____ recommend and promote a Province-wide ban on the sale, purchase and use of anticoagulant rodenticides, and call for the Minister of Health to initiate a special review of the registration of anticoagulant rodenticides.

BAN RAT POISONS

that are Killing B.C. Wildlife

Summary

Second-Generation Anticoagulant Rodenticides (SGARs) pose serious threats to B.C. wildlife species, the environment and human health. Their permitted use is inconsistent with the obligations owed by the government to protect its citizens and the environment from harmful chemicals. SGARs are dangerous, ineffective and unlawful - the government must take immediate action to prohibit the use of these products.

Background

The federal and provincial governments have an obligation to treat the well-being and protection of the environment as a primary consideration. It follows that SGARs should not pose any unacceptable risks if their use is to be permitted. To the contrary, despite acknowledging that SGARs are highly acutely toxic compounds that pose serious threats to the health and safety of children and non-target species, the federal government continues to register these products for commercial use.

Problem

SGARs are Dangerous

Poisoning native and endangered wildlife species

Many of B.C.'s treasured species face serious risks of SGAR poisoning. Small non-target mammals, birds and invertebrates feed directly on the SGAR baits, giving rise to the contamination of the food-chain and wider ecosystem. Rodenticides can enter the soil via decomposing carcasses, and poisons have even been found in the aquatic food web.

The highly toxic, persistent, bioaccumulative nature of SGARs makes them particularly dangerous to a wide range of predators and scavengers, including raptors, crows, raccoons, coyotes, weasels and snakes. Owls and other birds of prey are at a particularly high risk of secondary poisoning because of their dependence on rodents as a food source. Between 1988 and 2003, 70% of dead owls from B.C. had residues of at least one rat poison - and the number of owls dying by poisons has only escalated over the recent years.

Threatening children and pets

The American Association of Poison Control Centers receives approximately 10,000 reports of rodenticide exposures in children annually in the United States. Health Canada has determined observations in the U.S. to be representative of the situation in Canada. Since rodenticides are intended to be palatable for their target species, pets will also be inclined to consume these toxic products. Dogs and cats alike may also hunt or catch poisoned rodents, putting them at risk of internal bleeding, and sometimes death.

SGARs are Ineffective

Short-term and counterproductive

SGAR baiting is not an effective method of controlling infestations long-term. Clearing a resident population simply makes space for new groups to move in, and poisoned rats mate faster to compensate for their thinning numbers. By distracting from the root of the problem (i.e., accessible food and shelter), relying on SGARs permits infestations to rebound. SGARs also reduce the efficacy of natural, costless and chemical-free rat control by poisoning raptors and other rodent predators. For instance, a single barn owl consumes an average of 1,000 rodents per year.

SGARs are Unlawful

Failure of risk mitigation measures

The existing risk mitigation measures are incapable of adequately addressing the threats that SGARs pose to the environment. Requiring SGARs to be kept in tamper-proof bait boxes fails to stop target and non-target animals from directly consuming these products and thereafter being ingested by predators. Rats have been shown to feed on highly toxic indoor-restricted baits and move outdoors. Further, poisoned rats have been found to spend more time outside of their dens during all hours of the day and die above ground. Since rodents will disperse away from buildings and into surrounding natural habitats, the secondary-exposure risk for predators is not acceptably mitigated.

Inconsistent with the current regulatory framework

Despite the risks and contrary to the IPMA, SGAR use is not being replaced by non-toxic alternative measures of pest control. In B.C. alone, brodifacoum sales have increased by 19% and bromadiolone sales have increased by 279% between 2003 and 2015, with a total of 91kg of rodenticide active ingredient sold in 2015. While this may not seem like a significant amount, consider that most SGARs are formulated at less than 0.01% active ingredient given their high toxicity.

Solution

The precautionary principle enunciated by the federal *Pesticide Control Products Act* provides that full scientific certainty is not required to amend or cancel the registration of a product where there are reasonable grounds to believe such action is required to deal with a threat to the environment. It follows that SGARs should cease to be registered.

In the interim, B.C. must take action to protect its precious wildlife by (a) implementing a regulation that prohibits the sale, purchase or use of SGARs; and (b) urging the Minister of Health to initiate a special review of the registration of SGARs.

Questions & Answers

What are Rodenticides?

Rodenticides, colloquially referred to as “rat poisons,” are pesticides used to kill rats, mice, and other rodents. Rodenticides are typically formulated as baits, which are designed to attract animals by incorporating flavours such as ground meat, vegetables, fish oil, molasses, or peanut butter. Most of the rodenticides used today are anticoagulant compounds that interfere with blood clotting and cause death from excessive bleeding. Deaths typically occur between four days and two weeks after rodents begin to feed on the bait.

What are Second-Generation Anticoagulant Rodenticides?

SGARs were developed in the 1970s to control rodents that are resistant to first-generation anticoagulants (FGARs), and such as, were designed to be highly toxic. Despite delivering a lethal dose in a single feeding, these poisons cause a slow, painful death for all consumers. Today, SGARs are the predominant form of rodent control worldwide. SGAR active ingredients that are currently registered in Canada include brodifacoum, bromadiolone, difenacoum and difethialone.

Why should we ban SGARs?

Wildlife advocates believe that banning SGARs is imperative to protect vulnerable and endangered species, including the barn owl, who are critically threatened by the widespread use of SGARs in agricultural and urban areas. SGARs are particularly dangerous in comparison to other means of rodent control because they are highly toxic, but take days to kill. This means that rodents may continue to feed on the bait and end up ingesting far beyond the lethal dose by the time of their deaths. Worse yet, these poisons can persist in animal tissues at high levels, posing greater risks to non-target species that feed upon animals that have consumed the bait.

Will banning SGARs make rat problems in B.C. worse?

No - in fact, SGARs may actually be making rat problems worse. Again, by poisoning animals that feed on rodents, SGARs are effectively reducing a natural and chemical-free method of pest control. By eliminating the ability to rely on poisons, the pest control industry will be incentivized to develop informed, efficacious rodent management solutions. Some humane and sustainably-focused pest management companies have introduced more effective means of approaching rat infestations that do not involve harmful chemicals.

If poisons are ineffective, why do people still use them?

Poisoning is the easiest and cheapest method of controlling rats, and it is in the economic interests of pest control operators using poisons not to inform customers that results will only be temporary if preventative measures are not implemented. Surveyed pest control professionals have admitted that poisons alone fail to provide a long-term solution. Broader public education is needed to dispel the myth that using SGARs is the key to managing rodent infestations.

What alternative methods of pest control are available?

The primary step that sustainability-oriented pest management companies (like Humane Solutions) recommend is “rat-proofing” the premises of your home by addressing the active and potential access-points in the structures. Food and other resources that attract rats must be secured or eliminated. There are many resources online that can help homeowners manage rat problems themselves. Goodnature traps are nontoxic, and have been shown to be effective, more humane, and are inaccessible by non-target species, such as squirrels.

How are Rodenticides Regulated in Canada?

Pesticides in Canada are regulated by a multi-tiered legislative scheme. The mandate of the federal *Pest Control Products Act* (PCPA) is to protect the health of Canadians and the environment against unacceptable risks from the use of pesticides. Reasonable certainty that no unmitigable harm to the environment is required to justify the registration of pest control products. B.C.'s *Integrated Pest Management Act* (IPMA) builds on this mandate by implementing a proactive and preventative approach to managing pest populations. Toxic chemicals must be treated as a last resort, and used in a manner that minimizes hazards to the environment.

How does the Federal Government Regulate SGARs?

The PCPA sets the standards for regulation of pesticides in Canada. The Pest Management Regulatory Agency (PMRA) is the Health Canada branch responsible for administering the PCPA and Regulations. Its main responsibilities include registering pest control products, re-evaluating pesticides currently on the market, and promoting sustainable pest management strategies. Pesticides must be registered under the PCPA before they can be manufactured, possessed, handled, stored, imported, distributed, or used in Canada. The PMRA must conduct a science-based evaluation of a product's risks and efficacy controlling the intended pest before approving registration.

SGARs are currently registered for commercial use only, meaning that are not available to the general public for use around the home. In response to concerns regarding secondary exposure risks, the PMRA imposed requirements that SGARs must be contained in tamper-resistant bait stations or placed in locations inaccessible to children and animals.

Does B.C. have jurisdiction to regulate SGARs?

Yes - Provinces may further restrict or prohibit the use, sale, storage, transportation and disposal of registered pesticides in their jurisdiction through the enactment of regulations, as long as they are consistent with and no less protective than the federal legislation. B.C.'s IPMA sets out requirements for the use and sale of pesticides in the province.

Licenses are required to sell, use or provide a service respecting SGARs. The IPMA Regulation sets out that licensees must act in accordance with integrated pest management principles (e.g., considering practical alternatives to pesticide use and the protection of human health and the environment). When they are needed, pesticides must be used in a manner that minimizes hazards to human health and the environment.

What can municipal governments do?

While municipalities do not have the jurisdiction to pass community-wide bans on rodenticides, they can implement bans on the use of poisons on City-owned property. Local governments can also submit and endorse resolutions to the Union of B.C. Municipalities for consideration.

In June 2020, the District of North Vancouver adopted a landmark motion to ban anticoagulant rodenticides on all District-owned properties and petition B.C. to follow suit. The ban was met with tremendous support as recent owl deaths have raised awareness of the harmful effects of rodenticides on wildlife. The District of Saanich council unanimously passed its own motion in July 2020. The City of Richmond is currently considering a similar motion that has been referred to staff and will be heard in fall 2020.

DRAFT Notice of Motion

To: Mayor and Council
From: Councillor _____
Date: [Publish Date]
Subject: Anticoagulant Rodenticides in the [City/District] of _____

RECOMMENDATION

That Council:

- 1. Adopts the policy of introducing a complete ban on use of anticoagulant rodenticides on all City/District of _____ owned properties, with immediate effect.*
- 2. Directs staff to communicate this policy direction to residents and businesses, including information on the harmful impacts of anticoagulant rodenticides and the availability of more ecologically sustainable alternatives.*
- 3. Requests that the Mayor write, on behalf of Council, to the provincial Minister of Environment, requesting that the Province of British Columbia introduce a province-wide ban on the use of anticoagulant rodenticides, to increase protection for wildlife species.*
- 4. To incorporate humane practices in regards to pest control in all City/District of _____ properties.*

BACKGROUND

Anticoagulant Rodenticides

Rodenticides, colloquially referred to as "rat poisons," are pesticides formulated as tasty baits used to kill rats, mice and other target rodents. The BC government acknowledges that anticoagulant baits "cause death by internal bleeding and present a moderate to high risk of secondary poisoning to other animals that might eat the poisoned rat," yet provincial laws permit their continued use.

Rodenticide use is regulated at the Provincial level and therefore under current legislation the City/District of _____ is unable to fully ban anticoagulant rodenticides. However, we are able to create policies which would eliminate their use in all City/District of _____ -owned facilities and lands.

Harmful Impacts

Many of BC's treasured wildlife species face serious risks of anticoagulant rodenticide poisoning. It has been well-documented for over a decade that these products poison non-target species on all levels of the food chain. Examples include owls, hawks, small birds, earthworms, coyotes, and even cougars. It is not uncommon for pets and children to be poisoned as well.

Non-target species can be impacted by direct (primary) and indirect (secondary) poisoning:

- **Primary Poisoning:** Anticoagulant rodenticides are administered in a tamper-proof black box. Rats feed on poison bait blocks inside these boxes. Any animal the same size of or smaller than a rat can directly retrieve the poison in this same manner. Many non-target species, including songbirds and shrews, are directly poisoned in this way.
- **Secondary Poisoning:** When a rat or other small animal consumes poison from the bait box, they are not immediately killed. In fact, the animal can continue to live for days to weeks following the initial consumption. During this time, they continue to feed on the poison having recognized it as a food source. The highly toxic, persistent, bioaccumulative nature of second-generation anticoagulant rodenticides makes them particularly dangerous to secondary consumers, especially where the prey animal has ingested several doses. Nearing death, poisoned animals become lethargic and more vulnerable, making for an easy meal for predators.

Owls and other birds of prey are at a disproportionately high risk of secondary poisoning because of their dependence on rodents as a food source. Not only are owls a treasured species in our community, they are natural predators to rats and other rodents. A single owl eats around 3 rats per night, approximately 1000 per year. By allowing the use of anticoagulant rodenticides, we are killing off the natural predators and helping the rat population to grow overall. It is entirely counter-productive.

Reports on Anticoagulant Rodenticides

On February 28, 2020, the BC SPCA released a [news story](#) outlining the harmful impacts of anticoagulant rodenticides. In this article, the organization is encouraging their readers to “push our municipalities in the right direction to reduce the use of rodenticides in parks and near greenbelts and areas that are home to B.C. wildlife.”

Marie Turcott, Law Student at the University of British Columbia, published a [comprehensive report](#) examining the harmful impacts of anticoagulant rodenticides and critiquing the provincial and federal government's current approach to regulating these products.

The following municipalities have committed to prohibiting the use of ARs on all municipal-owned properties within their jurisdiction, and have formally requested action by the provincial government:

- [District of North Vancouver](#), June 15, 2020
- [District of Saanich](#), July 13, 2020
- [District of Sooke](#), September 14, 2020
- [City of Colwood](#), August 24, 2020
- [City of Port Moody](#), September 8, 2020
- [City of Victoria](#), September 17, 2020
- [City of North Vancouver](#), On September 14, 2020
- [District of Oak Bay](#), September 28, 2020

CONCLUSION

Anticoagulant rodenticides pose serious threats to BC wildlife, the environment, and human health. The permitted and continued use of these harmful poisons is inconsistent with the obligations owed by the government to protect its citizens and the environment from harmful chemicals. Anticoagulant

rodenticides are dangerous, ineffective and unlawful - the City/District must take action to reduce the use of these products and petition the BC government to implement a province-wide ban.

Mayor Alan Harrison and City Council
Box 40
Salmon Arm, BC V1E 4N2

Dear Friends,

RE: Salmon Arm Pride Project Committee Public Art Recommendation

The Shuswap District Arts Council has established a cross-sector committee to create a festival that celebrates and brings awareness to the LGBTQ2S+ community. In its inaugural year, the Salmon Arm Pride Project will feature a 4-day exhibition at the Art Gallery from October 14 to 17, 2020, as well as online events, activities, outreach and safe space education.

Among the committee's goals is to consult widely on every idea, ensuring the authentic voice of lived experience informs all decisions. The idea of public art was brought to committee in the spring of 2020, and after much consideration, would like to recommend the following two public art ideas:

1. Tri-Rainbow Crosswalk: At the corner of Hudson and McLeod, there is a three-way intersection that would be an ideal spot for three unique Pride flags; the 6-colour rainbow commonly used to represent the LGBTQ2S+ community, the trans flag of 3-colours/5 stripes, and the Philadelphia flag of 8-colours that is implicitly inclusive of people of colour. All three of these flags are used together in the Progress flag, which is a unifying symbol for the LGBTQ2S+ community.

2. Flag Pole Repair and New Flag: The Arts Centre has a flag pole on the Hudson Avenue side of the building that has been re-purposed as a banner pole to hold our annual exhibition schedule. The committee would like to see the Progress flag flown at the top. This would require new hardware at the top of the existing flag pole, and the pole would still be capable of supporting the annual schedule banner.

Attached please find an image to help Council and staff imagine the painted crosswalks. The committee would make its members available to discuss options and explanations for all the Pride flag patterns. This would be an idea public art project to complete in the year between our first and second Pride Project festivals.

Sincerely,

A handwritten signature in black ink, appearing to read "Tracey Kutschker".

Dear Council Members,

The Royal Canadian Legion #62 requests permission to conduct our Annual Poppy Campaign and public canvassing for funds October 30, 2020 to November 10, 2020.

Due to the current COVID-19 situation, we will not be having a Parade of Veterans this year but will be having a modified Remembrance Day Ceremony on November 11th, at the Cenotaph.

In keeping with current health restrictions from the Provincial Health, we are going to request that the general public do not attend the ceremony at the cenotaph this year. Members of the Legion & invited dignitaries will be placing the wreaths at the cenotaph.

We are going to be working to provide coverage of the Cenotaph Ceremony via a local radio station for the citizens of Salmon Arm.

Would you please forward a copy of this letter to the Public Works Foremen so that the borrowing of barricades and "No Parking" signs can be arranged for the day of Ceremonies.

A letter of liability insurance with City of Salmon Arm will be forwarded by our insurance agent.

We look forward to your Approval, Confirmation.

Fraternally,

Barbara Byers

City of Salmon Arm
500 2 Ave NE
Salmon Arm, BC V1E 4N2

Dear Mayor Harrison and City Councillors,

RE: Spooky StoryWalk®

With Halloween slowly approaching, we decided to organize a Spooky StoryWalk®. We received an approval from the publisher to use the book "Go Away, Big Green Monster!" by Ed Emberley.

We would like to organize this event on **October 29, from 10am till 4pm at Blackburn Park.**

We will set up a table at the end of the trail and will give each child a free book.

To prevent creating a crowd and to ensure social distancing, each mounted page will be at least 16ft apart (one family allowed at each "page") and only one family at a time will be allowed by our table (keeping 6ft social distance). The StoryWalk® will be available from 10am till 4pm so families will have enough time to come and enjoy the story (+ to get a free book).

I am writing this request for the City's permission to organize this Spooky StoryWalk®, so we can keep bringing joy to children and their parents/caregivers.

Thank you so much for your help.

Sincerely,

Pavlina Cannon

SACP 2021 Grant-in-Aid Request

We thank the Mayor and Council for their past endorsements and respectfully request Salmon Arm City Council for a grant-in-aid for the coming year. As you are aware, due to the Covid-19 Pandemic, our normal operations were suspended in March and SACP has only just begun to begin partial functions.

Without prejudice and in consideration of fiscal constraints imposed upon all levels of government and our subsequent reduced operating costs, for the coming year we are requesting a reduced sum of \$3,500 rather than the normal request of \$5,000.

Some of last year's funds were used to train all of its members in the use of Automated External Defibrillators and to refresh their First Aid Skills. Other funds were used to upgrade and maintain SACP's status with BC Registry Services.

As you are aware, SACP's main functions are to act as 'extra eyes and ears' for the RCMP, support ICBC, and support the City of Salmon Arm with its activities upon request.

We have recently begun our annual September radar Speed Watch campaign in consultation and conjunction with our local RCMP detachment, and have notified School District 83 of details regarding sites and times. We are pleased to report that this September, our Speed Watch patrols have increased in number over previous years due to dedicated Members anxious to resume duties and serve the public.

We also look forward to recommencing our successful Stolen Automobile Recovery and Lock Out Auto Crime programs in the near future.

Sincerely,

Paula Weir
SACP President

RE: Salmon Arm Citizen's Patrol Funding.

The Salmon Arm Citizen's Patrol continues to be an active volunteer group that supports a number of community events in the community of Salmon Arm. The group is made up entirely of volunteer members who donate their time in the community. Due to COVID -19 their activities have been curtailed somewhat but his dedicated group of volunteers has remained connected and active through it all.

When fully active they provide proactive patrols within the community and it is through their efforts that programs like Speed Watch, Lock-Out Auto Crime, and the ICBC Stolen Auto Recovery program exist and are such a success. Additionally, when called upon they are a visible deterrent in targeted areas to prevent property crime and contribute to safer traffic flow. In instances of a civil emergency the community relies heavily on police and community resources. The Salmon Arm Citizens Patrol members are a community resource that can assist as part of the Shuswap Emergency Program.

In short, they are a dedicated volunteer group that supports the community, the RCMP and other critical programs. I would like to support the Salmon Arm Citizen's Patrol in their request for financial support for the upcoming fiscal year of 2021 as per their attached letter and historic funding levels.

Sincerely,

S/Sgt. Scott West
NCO i/c Salmon Arm RCMP Detachment

The Salmon Arm and Shuswap Lake Agricultural Association
SHUSWAP SANTA PARADE

City of Salmon Arm
Box 40 500-2nd Ave NE
Salmon Arm, BC. V1E 4N2

Re: Shuswap Santa Parade

This is a request from the Salmon Arm and Shuswap Lake Agricultural Association to hold an annual Shuswap Santa Parade, scheduled for Saturday, December 5, 2020 from approximately 3pm to 5pm.

This route will remain on the South Side of the Trans-Canada Highway – not crossing over it, as per the Salmon Arm Fair Parade Route has done for years.

The assembly point (marshalling area) for entries will be the same as the Fair Parade; between Blackburn Park and the South Fair Grounds on 5th Street SW between 5th Ave. SW and 10th Ave SW - but facing 5th Ave SW direction now. The Parade will leave Blackburn Park - 5th Street SW road at approximately 3pm and finish back at that location at approximately 5pm.

The Parade route on city streets will be as per the attached map, then entering the South Fair Grounds at 5th Ave for the final section through the South Grounds exiting back to the marshalling area through Blackburn Gate and re-parking along 5th Street SW, where the parade will disband.

We would like permission to close the following roadway closures to non-parade traffic on Saturday afternoon to assist in organizing parade floats and facilitating the Parade procession:

- A. We are requesting event date/time No Parking zone signs up along the route 2 days prior to the event, so the public have fair warning

12:00pm (Noon) – 5pm Closure

- B. 5th St SW between Blackburn Park and the South Fair Grounds from 5th Ave SW to 10 Ave SW and along the North Side Lane of 10th Ave SW from Shuswap St to 5th St SW ending at Blackburn Park (to allow for float organization and letting East Bound traffic through). Parade set up for Marshalling will begin at 12:00pm (noon)

1:45pm – 5pm Closures

- C. 5th Ave SW between; 10th Street SW to Shuswap St S.
 - D. 10th Street SW between; 5th Ave SW to 10th Ave SW.
 - E. 10th Ave SW between; 10th Street SW and Shuswap St S
 - F. Shuswap Street S between; 10th Ave SW and 5th Ave. SW
- G. We also request permission to have the use of traffic barriers dropped at the designated street corners and picked up after the Parade is finished. We request that four (4) road barriers be placed at each of the corners of
- 3rd St SW and 5th Ave SW

Subject: Request for a letter of support for R.J. Haney Heritage Village & Museum CERIP Funding

Hello Erin

As discussed yesterday, I am writing a funding application to the Community Economic Recovery Infrastructure Program under the Destination Development funding stream. Could you write a letter of support for our application? Information regarding the project objectives and the description of the project is below. If you would like more information, please let me know. The application deadline is October 29, 2020. Could I have your letter of support by October 22, 2020?

Thank you for your continued support.

Susan

Proposed projects must be created with the following economic recovery objectives in mind:

- Shovel-ready projects that can be expedited
- Provides job opportunities and immediate stimulus
- Strengthens the destination offering to elevate B.C.'s competitiveness and reputation as a 'must visit' travel destination
- Supports B.C.'s destination development plan for the Shuswap-North Okanagan
- Increases the capacity of tourism destinations to welcome visitors, including adjusting to COVID-19 protocols

The project is located at R.J. Haney Heritage Village & Museum, situated on 40 acres of the Shuswap's prettiest heritage farmland, 12 acres of the property is dedicated to the heritage village.

Recipient of the 2018 Thompson-Okanagan-Kootenay Commercial Building Awards "Award of Merit" and the Associations Canada 150 Lasting Legacy Project, the Montebello Building is fronted by nine exhibits representing the commercial core of downtown Salmon Arm in 1910. Over the past three years, six of the building's dioramas have been completed.

The project finishes the remaining three dioramas, the Bank of Hamilton, Bedford's Pharmacy, and the Lingford Photo Studio, to complete the streetscape that tells the region's pioneers and settlers stories. Referencing archival records, the Museums Curator and Heritage Interpretation Designer, Cuyler Page, recreate interior design plans.

Essential for interpretive programming, the project will engage visitors and increase public appreciation of community museums and cultural tourism sites and their relevance and value by offering a one of a kind visitors experience.

Visitors need to know they are entering a site that takes their health seriously. Modifications and installation of sneeze guards and other social distancing Covid-19 protocols are also required to safely open to the public. These measures will improve the visitor's experience.

This project is an investment in developing a premier tourism destination and anchor for the Shuswap by attracting local and travelling visitors. It will also offer an opportunity for meaningful employment creating new jobs in the hospitality tourism sector. Both will provide long-term growth of tourism experiences, revenue and jobs.

CARE KITS FOR

Community

Hello and Welcome to our Care Kits for Community **Challenge!** This joint initiative was born to raise funds for those in our community who will be seeking assistance from **the CMHA Shuswap-Revelstoke, the SAFE Society and the Salvation Army's Lighthouse Shelter** this Fall/Winter season. Funds will be used to create Care Kits for individuals that may include the following items (items will be sourced locally where possible):

- Small denomination gift cards for grocery stores and Walmart
- Full size shampoos, conditioners, soaps, shaving supplies
- Toothbrushes/toothpastes
- Underwear (sizes S-XL in modern cuts)
- Warm socks
- Gloves and toques
- Purse packs of Kleenex
- Small individual hand sanitizers
- Bus tickets
- Lunch kit friendly foods (for kids and adults)
- Comfort treats like chocolates
- Pajamas, nighties, sleepwear
- Slippers
- Underarm deodorants

Your \$10 donation provides a complete Care Kit to someone in need. We will be collecting donations from September 28th – October 19th, 2020 and plan to deliver the completed Care Kits to our three recipient organizations by mid-November. Our ask to you is to get your staff on board to donate as many \$10 Care Kits as you can! The business/team that donates the most will win a staff pizza party from Panago in Salmon Arm. You can donate in two ways: Online by visiting www.womenwhowine.ca/product/care-kits-for-community and choosing your business/team from the drop down, OR by e-transferring your \$10 donation to info@womenwhowine.ca and indicating your team or business in the message section. ** We are registered for auto deposit, no security question is necessary. In 2019 we raised enough for 400 Care Kits! We would love to surpass that goal in 2020. Thank you for helping those less fortunate in our community ♥

Questions? Call Kailee at 250-852-1137 or email at info@womenwhowine.ca

Subject: Free Service on Election Day

Hi Robert,

We are currently in the process of determining which transit systems will be offering free election day service on October 24. **If this is something that you would like to offer in the Shuswap Regional Transit System, please let me know as soon as possible.** Communication for this initiative has already been pre-approved by the Province under the election communication guidelines.

Due to the tight timeline associated with the snap election, we will be able to provide the following promotions:

- Media advisory
- Web alerts
- Social media posts
- Banners at the bottom of the web page

Please remember that both conventional and custom transit (handyDART) need to be considered, and it is not recommended to offer free service for one without the other.

Thanks
Chelsea

Re: Community Economic Recovery Infrastructure Program (CERIP)

As announced on September 17, 2020 the Province of British Columbia has allocated up to \$90 million to support community economic resilience, tourism, heritage, and urban and rural economic development projects.

CERIP funded projects will help communities impacted by COVID-19 and support B.C.'s post-pandemic economic recovery through investment in **four key application-based streams**:

Community Economic Resilience supports initiatives through investment in short term, small scale public infrastructure meeting the economic recovery objectives of initial job creation in the community and ancillary job creation in other areas hard hit with COVID -19 such as local retail and services.

Destination Development invests in the development, conservation, repair, or rehabilitation of new or existing tourism infrastructure and amenities to assist in the re-emergence and resiliency of the tourism sector, creating jobs that will provide long term benefits for the tourism sector and local communities.

Unique Heritage Infrastructure supports projects focused on the conservation, repair, rehabilitation and development of cultural heritage infrastructure to help communities safeguard and enjoy their heritage places while creating employment through the stewardship of cultural heritage.

Rural Economic Recovery improves the prosperity and quality of life in rural communities through projects that create jobs, develop economic infrastructure, support a vibrant local business sector, and accelerate economic recovery.

The CERIP provides an opportunity for Indigenous applicants, local governments, tourism organizations, heritage leaders and not-for-profit organizations to apply for infrastructure funding that supports projects and initiatives for public use and that benefit and create jobs, support economic development and recovery from the impacts of COVID-19. We encourage indigenous and local government applicants to consider partnering with and ask that you reach out to not-for-profit applicants in your communities wherever possible for their consideration and applicability to CERIP. CERIP is designed to support projects that are construction ready in 2021 and can be completed by March 31, 2023. Every grant application is assessed in the context of the program eligibility guidelines.

The final approval of projects and funds will not occur until a new cabinet is sworn in.

The online Local Government Information System (LGIS) portal will be open for applications on October 1, 2020 and will close application intake on October 29, 2020 at 11:59 p.m. All applications must be submitted through LGIS with the exception of Indigenous applicants applying through the Unique Heritage Infrastructure Stream who will be directed to apply via the First Peoples Cultural Council's web portal.

In order to access LGIS, the online application, applicants require a business BCeID. All applicants' business BCeIDs must be linked to the LGIS online application by ministry program staff. It is recommended that new BCeIDs are obtained as soon as possible to allow enough time to link the BCeID to the online application system. Program information such as application instructions and links to resource documents are available at www.gov.bc.ca/CERIP.

The ministries and their delivery partner contacts are available to provide advice as you prepare your application. For information on the four streams, please see specific contacts in the table below:

His Worship Mayor Alan Harrison and Council
City of Salmon Arm
E-mail: cityhall@salmonarm.ca

Dear Mayor Harrison and Council:

What a year so far! With a global pandemic being the centre of attention for most of this year, I am happy to move the focus back to a familiar month of gratitude. I am pleased to announce that October will once again be declared Foster Family Month in British Columbia. It is my particular honour this year to celebrate the 30th year of Foster Family Month proclamations. Some members of your community have been foster parents for those 30 years, and some are brand new. All are critically important to the health and safety of our province's most vulnerable children.

As the Provincial Director of Child Welfare, I am pleased to acknowledge, with deep gratitude, the many caregivers who have given their time and love to raising young people in British Columbia. This month, we recognize their dedication to improving the lives of those children who need them, and who may continue to need them as they grow.

This year has been challenging, both globally and provincially. I know that the pandemic has been difficult for most British Columbians, and most certainly for these caregivers, who have taken on the additional challenge of conducting visits with social workers and families virtually. Last year, Government announced an increase to the Family Care Rate in February, and although this will have helped to lessen the stress of this year for caregivers, we know there is more work to do. The pandemic has shown us that we need to continue being creative in finding solutions to support caregivers, children, and families.

Please join me in celebrating October as Foster Family Month to show those in your community how important the role of a caregiver is. Please make time to honour the incredible individuals and households who are dedicated around the clock to ensure children and youth in care are safe and cared for. Although the global pandemic has halted in-person festivities, I invite you to find new ways to champion and promote the hard work of these caregivers in your community.

On behalf of the Government of British Columbia, thank you for your continued support in recognizing the extended family and foster caregivers in your community.

Sincerely,
Cory Heavener
Provincial Director of Child Welfare

RE: Letter of Support For New Horizon's Grant

Our Branch 62 Salmon Arm Legion is applying for a New Horizons grant to fund a project that targets seniors that are becoming socially isolated in our community due to the Covid 19 pandemic.

We have become aware that two other programs that filled this gap in seniors social activities have seized their operations due to the inability to provide the weekly meal programs. We believe the need for our below noted project is greater now than ever before. Many seniors that are not living in care facilities are becoming socially isolated. This can not only cause forms of depression but also increases the vulnerability of some seniors to scams and family abuse.

Our anticipated project will target three key issues for our community seniors keeping within a social atmosphere in a carefully controlled Covid 19 preventative manner as set out by our Provincial Health Authority.

- Provide a weekly chef created seniors healthy diet three course meal.
- Provide low key instrumental music provided by local musicians
- Provide a 15 – 20 minute presentation by local professionals that addresses key issues facing our seniors today. (ie: Fraud, How to properly use PPE, How to access help from various Provincial and Federal agencies, Wills and POA's, etc. etc.)

Our Legion building can safely seat 46 persons in measured socially distanced manner. Keeping within our own Branch's safety first, we will limit seating for these weekly events to 30 seniors. The events will be held on Mondays when our Branch is usually closed. The Branch's bar will be closed during this time as well.

We require a letter of support from senior community leaders or organizations to send forward with our application for a \$25,000 New Horizons grant. We trust that you find value in supporting our cause and will issues a letter of support for us.

If approved, please forward said letter to the undernoted e-mail address.

Please note that this is a time sensitive request with need for supporting letter by the end of the week of 16 October, 2020.

Thank-you for your anticipated support,

Harley Belt, Executive Director
Salmon Arm Branch 62 Legion
