September 17, 2018

CITY OF SALMON ARM

ROBERT NIEWENHUIZEN

Director of Engineering and Public Works

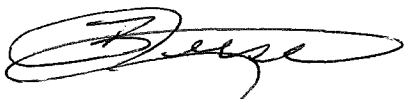

Dear Mr. Niewenhuizen, I am writing regarding reinstatement of the city bus on 10th ST SW. There are several newer senior's retirement homes on 10th SW, the road going up from Picadilly Mall towards Foothill Road.

I live in Hopkins Meadows at 1611 10th ST SW, a new senior's housing development of 30 homes. I am a senior and don't drive and it is treacherous walking in the winter months. There are many other seniors in this area who are asking the same question.

Does city hall require a petition or what can we seniors do to get help with our situation.

Will you please address this matter for us, thank you.

Sincerely,

A handwritten signature in black ink, appearing to read 'Beverly Reese', with a stylized, flowing script.

Subject: Request opportunity to present mikes ?

Hi Nancy & Erin:

When all else fails, go back to square one...

I am copying & Paste:

Mayor NANCY COOPER and council:

Thanks again for installing the Auris loop, those of us with hearing aids are now included . Nevertheless, The stationary microphones that are now being used have some limitations. As an example, when members of council are viewing the screen behind them, they have to move back-and-forth between the screen and the microphone in order to continue to communicate. This is further complicated when the person presenting an idea from the podium , is asking questions. To say nothing of the challenge everyone faces trying to speak into the microphone while shuffling ones papers.

The solution is readily at hand in a moveable microphone, which is clipped over ones ear.

We at MacQuarrie Institute would like to present 2 such microphones to be used by the mayor and presenter, so that everyone will experience what it is like to hear Everything that is going on. We hope that when you discover how little these microphones cost, you will include them in the upcoming budget.

I have a feeling that this is my happy day! If not, I will bring a hard copy to your office.

I would be pleased to come to your office and discuss how a presentation could be made in a few minutes. THANKS for your patience.

Dan MacQuarrie, facilitator

Peace/All My Relations, Dan

Subject: Dog waste bags in parks need to be biodegradable

I am excited that the City is clever enough to provide dog waste bags in parks. I needed one yesterday and appreciated the convenience of having one right there.

HOWEVER, I was deeply unimpressed to note that the bags are IN NO WAY environmentally responsible. They are not marked compostable, biodegradable, or even made with recycled plastic. What they DO say is "100% recyclable" – which is ridiculous. The only way to recycle these bags is to take them home, flush the dog poop there, WASH and DRY the bags, and then store them with your soft plastic recycling until the next time you go to the transfer station (so you'll want to be washing them well!).

I would happily pay an extra few dollars a year in property taxes and/or dog license fees to ensure that the City steps up and provides dog waste bags that are not going to sit in our landfill for 1,000 years. It's terrible. You are essentially ensuring that our dogs' otherwise biodegradable waste will survive long after we are gone. PLEASE take the small amount of action that is required to rectify this situation!

Most sincerely,

Adrienne Munro and Raine the Chihuahua
Canoe, B.C.

October 2, 2018

My name is Ann Jamieson, a resident of Salmon Arm and area since 1947.. Salmon Arm since 1957...

I have been contacted by a resident of Salmon Arm, who is quite knowledgeable and interested in engineering, and wishes to express his ideas with regards to the underpass issue, which has been an on-going issue and concern for many years. He has asked if I would pass on photos and ideas to you.

I am enclosing photos and a drawing which was given to me.

On Sept. 21, 2018 I had a phone conversation with "Barb" and I wish to thank her very much for taking time to talk with me. She explained the referendum to borrow money and if the referendum does not pass that the money already in the plan would remain and not be spent on other things.

She said the person for me to talk to, would be Erin Jackson or Carl Bannister, after I had expressed my wishes to talk to someone in person. If I am unable to achieve this, Barb said she would pass along my letter, photos included, to her and she will give to Erin.

The photos enclosed show the street and the CSRD building....The plan enclosed is for an overpass over this street. There is room to widen the road for the people and business already living here. The only effect will only effect a few. I'm sure that you have thought of other alternatives other than the underpass, but I appreciate your looking into other expressions of concern from residents of Salmon.

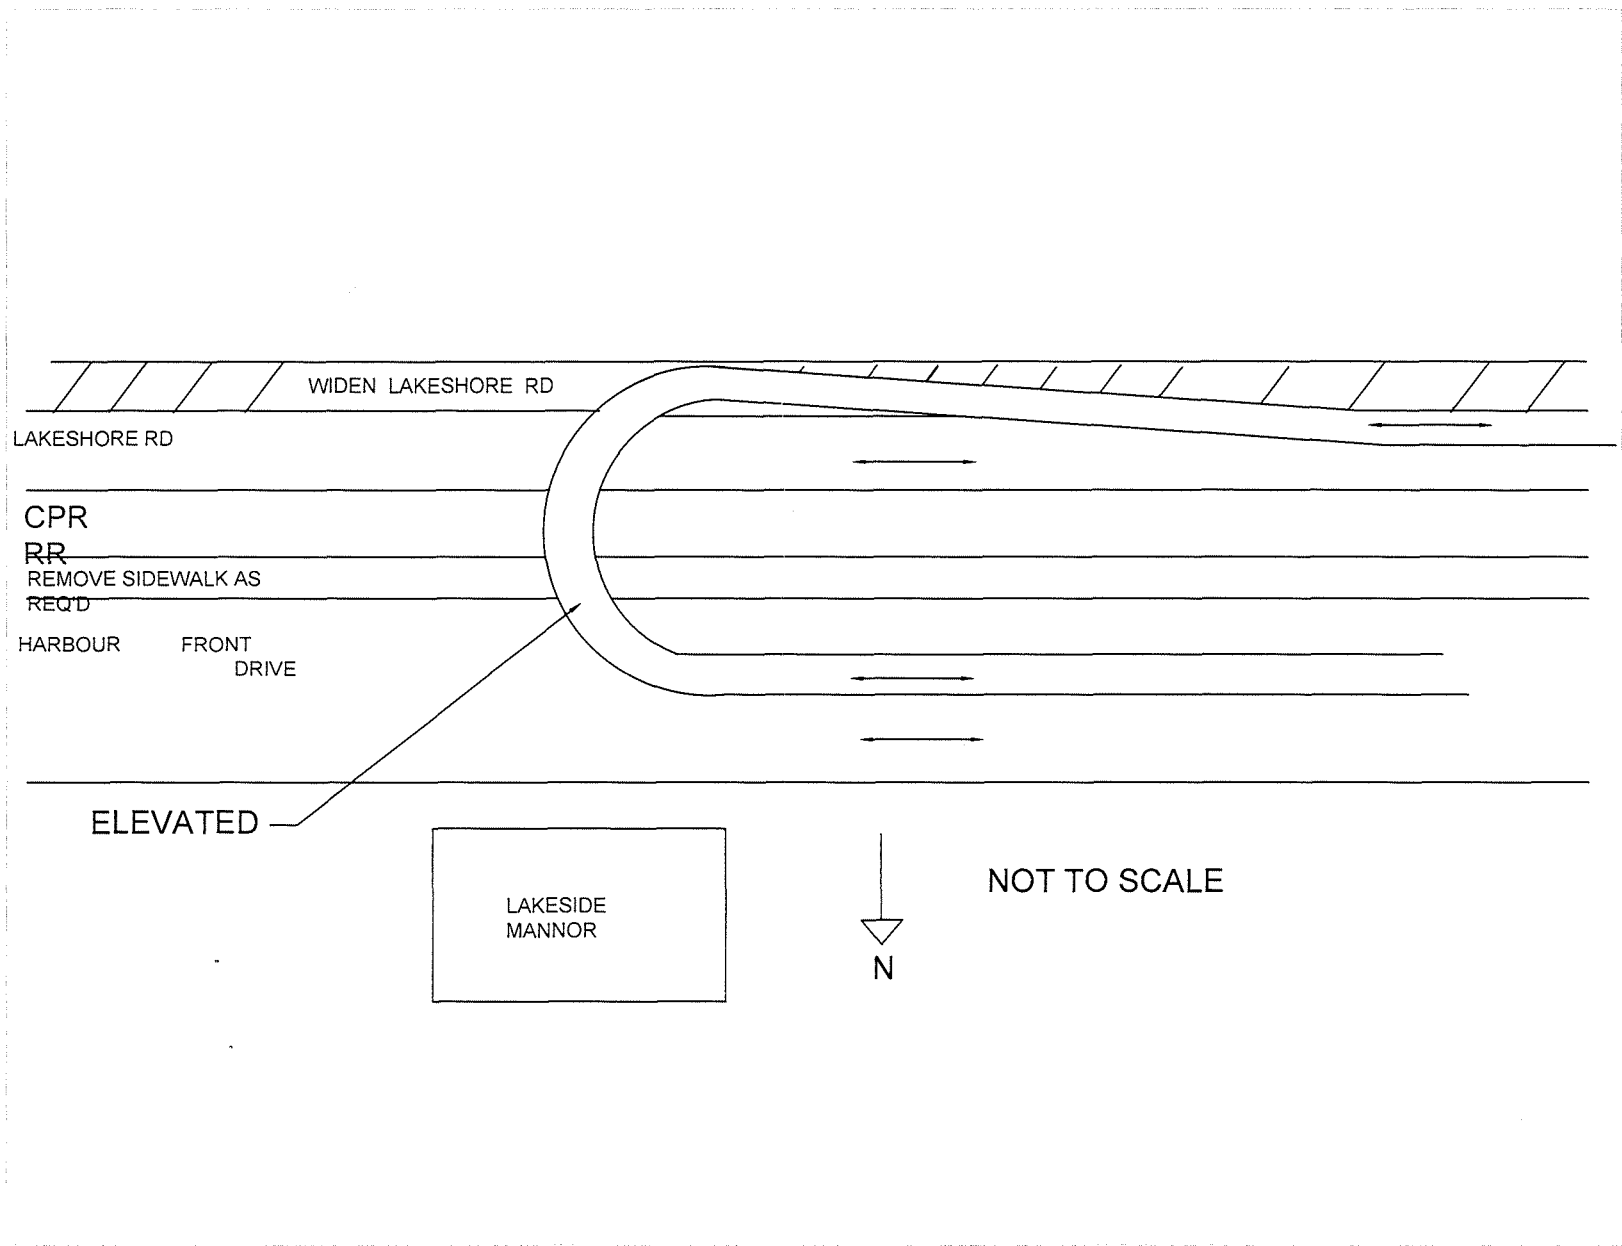

The September 26, 2018 issue of the Salmon Arm Observer is a letter which I agree with 100%....

I lived on the out-skirts of the city for many years and I know that as far as emergency vehicles, at times, took longer than, what is being addressed in concern, from over the railway tracks...to the Prestige Inn and surrounding businesses and residents

I would hate to see the inner core of the city of Salmon Arm being re-arranged to accommodate this underpass.

Sincerely, Ann Jamieson ph: 250) 832-6705 e-mail

Mayor and Council
City of Salmon Arm
PO Box 40
Salmon Arm, BC, V1E 4N2

September 5, 2018

Dear Mayor and Council

RE: Downtown Lighting at Christmas - Hydro Bill

Salmon Arm Downtown Improvement Association is requesting a future exemption on the Christmas Lighting Hydro Bill we receive from the City of Salmon Arm every two years.

Recently we received an invoice for an amount of \$1720.87 for 2017/2018. *Please see attached document.*

We are encouraged by the public to provide more decorations and more lighting for the downtown core. Over the past 5 years we have worked to increase the lighting at our own costs and the result is that we are required to pay more on the hydro bill. Our decorations are for the entire community to enjoy and benefit from, not just the businesses of downtown.

Downtown Salmon Arm is funded by the downtown property owners, not general taxpayers. This bill is an expense that we would like all general taxpayers to participate in.

It is not unlike the flowers that are planted downtown. These are for everyone to enjoy, citizens and visitors alike. The cost of purchasing and maintaining them are the responsibility of the City.

We are requesting the same model be applied to the Christmas lighting.

Thank you for your time.

Regards

Lindsay Wong

Mr. Carl Bannister
Chief Administrative Officer
City of Salmon Arm
Box 40
Salmon Arm BC V1E 4N2

Dear Mr. Bannister:

Re: Provincial Keep of Prisoners Program

In April 2018, the RCMP "E" Division provided formal notification to withdraw from the responsibilities of administering the KOP program, effective October 1, 2018. As a result, the KOP program administration will transfer to BC Corrections.

BC Corrections will now be responsible for reimbursement to municipalities for the costs of maintaining provincial prisoners in local police detention facilities, which will include:

- receiving and processing quarterly billings from municipalities;
- distributing quarterly reimbursement payments to municipalities in accordance with the existing funding model; and
- reporting quarterly summary and statistical information to Policing and Security branches.

This administrative change will not change the amount of funding available to municipalities through the KOP program and the formula upon which municipalities are reimbursed through the KOP program are not affected by this new arrangement.

There are no changes related to maintaining federal prisoners in local police detention facilities.

Lastly, billings from municipalities for provincial prisoners should be submitted to the Ministry of Public Safety and Solicitor General, Corrections Branch beginning with the quarter ending September 30, 2018. Invoices should be directed via email to:

Ministry of Public Safety and Solicitor General
Corrections Branch
Attn: Alvin Law, Finance Clerk
Direct Phone: 778.974.2914
Email: JAGCFC@Victoria1.gov.bc.ca

Subject: 2018 CP Holiday Train

September 28, 2018
Mayor Nancy Cooper
City of Salmon Arm
500 - 2nd Avenue NE
PO Box 40
Salmon Arm BC V1E 4N2

via email: ncooper@salmonarm.ca

Dear Mayor Cooper:

I am pleased to announce that the 2018 CP Holiday Train will be making a stop in Canoe on Saturday, December 15, 2018. Thanks to the generous support of great communities like yours, the Holiday Train raised over \$1.5 million and 300,000 pounds of food in 2017, bringing our total to \$14.5 million and 4.3 million pounds of food raised since 1999 to help those in need.

FOOD BANK DONATIONS

During promotion of the Holiday Train event in your community, CP will encourage donations be made to the local food bank of your choice. In previous years, your community's chosen organization has been the Salvation Army Care and Share Center. If this has changed, please let us know by November 1st what organization you would like to support. We recommend connecting with your chosen food bank as soon as possible. The most successful Holiday Train stops are those where a true partnership is present between the food bank and elected officials.

CP HAS HEART

CP Has Heart is our community investment program aimed at improving the heart health of men, women and children in communities across North America. Heart disease can affect anyone regardless of age or gender, but is manageable and in some cases preventable using the right proactive measures.

Prevention is key to eliminating the effects of heart disease and one of the ways in which we hope to help is by spreading the message of quality nutrition. This year, we continue to encourage those attending the events to make a monetary donation or donate heart healthy food items, because regardless of circumstance, we believe everyone should have access to healthy, nutritious food.

HOSTING A SAFE & FUN EVENT

Safety is always our top priority, and our goal is to continue to make the Holiday Train event safe and fun for everyone. To this end, we ask your office to manage any road or crossing blockages related to this event, including marking a safe perimeter around the Holiday Train for the duration of the show. We have found that something as simple as “Do Not Cross” tape works well for this purpose, although our preference, if possible, would be to erect barricades that clearly mark out the area. This offers a safe zone for lowering the stage door as well as getting people on and off the train, and helps to prevent people from trying to cross through the train as well. Additionally, police or security presence at nearby train track crossings can help to ensure safe passage for the train into and out of your community.

Members of the CP Police Service will be on hand to help manage crowds, but we do appreciate your continued support – including the involvement of your local enforcement officials – in keeping the Holiday Train event in your community a safe one.

SOCIAL MEDIA

We use social media to invite community members to the event and encourage food bank donations. Follow us on Facebook, Twitter and Instagram and share our message with #CPHolidayTrain and #HealthyDonations.

EVENT INFORMATION

We will be in touch with you within the next few weeks to discuss additional event information such as the exact stop location, promoting the event, riding the train and confirmation you will be able to join us on stage at this year’s event to help present a donation to your chosen charitable organization.

Your CP contacts for this year’s Holiday Train are community relations members Christine Brown and Brenda Land. They will be contacting you soon with further information, and can be reached at Holiday_Train@cpr.ca.

I look forward to your community’s participation in this year’s CP Holiday Train program.

Sincerely,

Mike LoVecchio

Subject: Crime Stoppers

Att Barb,

As requested I have drafted a brief invitation to our Shred Day in Salmon Arm on October 13th at Piccaddily Mall. See attachement.

This will be our first outside of Vernon where we had our first ever shredding day back in May. We are hoping for another successful event and the reception we received from Salmon Arm businesses when we took posters around was most encouraging.

If you have any questions or would like more information about Crime Stoppers please contact me.

Sincerely,

Mike Remington

President

To Mayor and Council -----Salmon Arm

On behalf of North Okanagan/ Shuswap Crime Stoppers I would like to invite you to our first annual Shred Day in Salmon Arm on October 13th from 10am to 3pm at Piccaddily Mall.

This will be a great opportunity for people and companies to shred and destroy their confidential documents safely. This is so important given the many incidents of identity theft.

We are working with the support of Inland Shredding, Save on Foods, who are assisting with hot dogs (pay by donation) and Piccaddily Mall.

Cost is \$5 per banker size box and all money raised goes to running the local Crime Stoppers which is run entirely by volunteers. We are independent of the RCMP and rely on fund raising and donations to pay (up to \$2,000) for successful Tips.

Since inception we have recovered almost \$20 million in stolen goods and drugs in the North Okanagan/Shuswap.

In addition to shredding and raising funds we will use this opportunity to educate visitors on how Crime Stoppers works and how we can assist your community to reduce crime. We are always looking for local volunteers for our board as we cover from Lumby to Revelstoke.

We are working directly with municipalities in our region to have signs installed that provide awareness of how to contact us with Tips in guaranteed anonymity. Such sign-age has been shown to effectively reduce crime.

I look forward to meeting with you,

Mike Remington,

President

Hiroshima City University
Graduate School of Peace Studies
Master's Degree Program

September 2018

To: Honorable members of the Mayors for Peace,
From: AOKI Nobuyuki, President, Hiroshima City University

The first Graduate School of Peace Studies at a public university to be established in April 2019

As a university located in the city that experienced the first atomic bombing in human history, Hiroshima City University launched the Hiroshima Peace Institute as an affiliated research institute in April 1998, and has dedicated itself to academic research that aims to contribute to the abolition of nuclear weapons and to the cultivation and dissemination of peace in general.

And Hiroshima City University is now pleased to announce the establishment of the Graduate School of Peace Studies (Master's Degree Program) commencing in April 2019.

It provides a curriculum that fosters graduates who have acquired; i) analytical academic methodologies in specialized areas such as peace studies, international politics, international law and international relations, and ii) the specialized and wide-ranging skills needed to analyze a diversity of real world problems.

Students will be prepared for career paths such as;

- i) researchers who have the intellectual ability to propose effective preventive measures aimed at avoiding and solving disputes;
- ii) journalists and mass-media specialists who have acquired the skills and ability to share information with civil society and the international community from a peacebuilding perspective; and
- iii) international officials who can contribute to the drafting and formulation of international public policy aimed at building and realizing peace, and national and regional public servants involved with public policy and internationally related work.

To welcome students from abroad, Hiroshima City University will conduct special entrance examinations for foreign students and will conduct some courses of the Graduate School of Peace Studies in English to accommodate such students. In addition, we have a tuition exemption system (with an application review) in order to support workers engaged in the work of creating and disseminating peace.

We would be most grateful if you could disseminate this information to the officials of your city as well as

to the relevant educational institutions.

For details on the curriculum and entrance examination information and related matters, please access the following links:
