Moved: Councillor Gonella Seconded: Councillor Lavery

THAT: the Development and Planning Services Committee recommends to Council that Development Variance Permit No. VP-574 be authorized for issuance for Lot 2, Section 11, Township 20, Range 10, W6M, KDYD, Plan 1915 Except Plan EPP115809 and Lots 2, 4, 6, 8, 10 & 12, Township 20, Range 10, W6M, KDYD, Plan EPP115809 which will vary the following provisions of Subdivision and Development Servicing Bylaw No. 4163 and Zoning Bylaw No. 2303 as follows:

i. Subdivision and Development Servicing Bylaw No. 4163, Section 4.11.4 –
extend the maximum permitted combined cul-de-sac length from 160
metres in length in Urban Development Areas to 249 metres for the future
8 Avenue SE; and

5. <u>REPORTS - continued</u>

- 6. Development Variance Permit Application No. VP-574 [0695662 BC Ltd./Massier, G.; 1631 10 Street SE and 1561, 1581, 1621, 1641, 1661 and 1681 9 Street SE; Servicing requirement continued
 - ii. Zoning Bylaw No. 2303, Section 4.12.1 (a) Fences and Retaining Walls increase the maximum permitted combined height of a fence in conjunction with a retaining wall from 2m (6.5 feet) to 6m (19.7 feet).
- G. Massier, the agent for the applicant, outlined the application and was available to answer questions from the Committee.

CARRIED UNANIMOUSLY

Councillor Cannon left the meeting at 9:24 a.m. Councillor Flynn left the meeting at 9:25 a.m.

7. Zoning Amendment Application No. ZON-1269 [City of Salmon Arm; Text Amendment; Accessible Parking Regulations]

Moved: Councillor Lindgren Seconded: Councillor Lavery

THAT: the Development and Planning Services Committee recommends to Council that a bylaw be prepared for Council's consideration, amending Zoning Bylaw No. 2303, as follows, by adding:

 To Section 2.0 Definitions, after "Accessory Use" and before "Accommodation Unit", the following:

Accessible Car Space means a car parking space designated for individuals with mobility limitations, who hold a valid accessible parking permit.

Accessible Van Space means a parking space designated for those with mobility issues designed to allow room for people to load or unload a wheelchair, scooter, walker or similar device that is used to transport a person who has limited ability and hold a valid accessible parking permit.

Accessible Parking Stall means either an Accessible Car Space or an Accessible Van Space.

ii) After Section 11 of Appendix I: Off – Street Parking and Loading, the following:

12. <u>Accessible Parking Stalls</u>

- .1 Accessible Car Spaces are a minimum of 5.8m depth x 2.4m width. Accessible Van Spaces are a minimum of 5.8m depth x 3.3m width, with an additional minimum aisle width of 1.5m. The additional aisle may be shared between neighbouring Accessible Van Spaces.
- .2 Accessible Parking Stalls must be:

5. REPORTS - continued

- 7. Zoning Amendment Application No. ZON-1269 [City of Salmon Arm; Text Amendment; Accessible Parking Regulations] continued
 - (a) clearly identified by both paint markings on the parking space and a freestanding Sign in front of the space that is not less than 1.2m above ground measured to the bottom of the Sign and incorporating the international symbol of accessibility for persons with disabilities. Accessible Van Spaces signage shall also include the words "van accessible";
 - (b) treated with a firm and slip-resistant surface;
 - (c) provided with a curb letdown from the shared access aisle to any raised pedestrian sidewalk that provides connectivity to the Building;
 - (d) constructed with a slope not exceeding 2%; and
 - (e) marked with high-colour-contrast diagonal pavement lines on the access aisle
 - .3 Of the required stalls for all permitted uses, the minimum number of Accessible Parking Stalls shall be provided in accordance with the following table:

| Total Number of Parking Spaces required | Total Number of Accessible Parking Stalls to be Provided | Accessible Car Spaces to be provided | Accessible Van spaces to be provided |
|--|--|--|--|
| 0-5 | 0 | 0 | 0 |
| 6-25 | 1 | 1 | 0 |
| 26-50 | 3 | 2 | 1 |
| 51-100 | 4 | 3 | 1 |
| 100+ | 6 | 4 | 2 |

- .4 Should Accessible Parking Stalls be provided that are in addition to those in Section 12.3 then those Accessible Parking Stalls must be in addition to the required number of parking stalls.
- .5 Parking facilities that are used exclusively for buses, trucks, delivery vehicles, law enforcement vehicles, and vehicular impound are not required to include accessible spaces. However, if such lots are accessed by the public (e.g., impounded vehicle retrieval), one (1) Accessible Parking Stall is to be provided.

Councillor Cannon returned to the meeting at 9:26 a.m.

6. <u>FOR INFORMATION</u>

7. <u>ADJOURNMENT</u>

Moved: Councillor Wallace Richmond

Seconded: Councillor Cannon

THAT: the Development and Planning Services Committee meeting of June 5, 2023

be adjourned.

CSRD Connect Board Meeting Highlights - May 2023

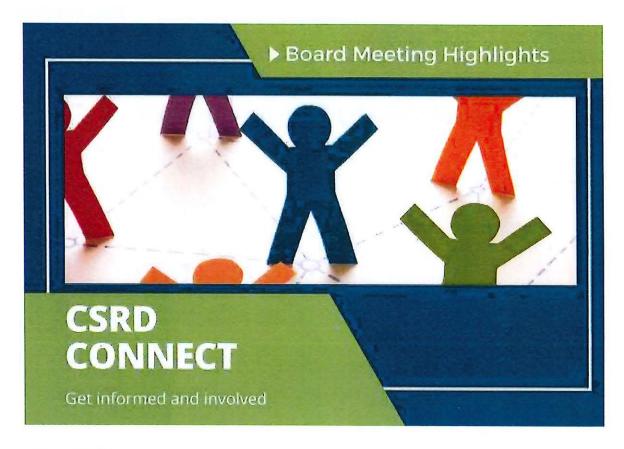

Rhonda West

From: Columbia Shuswap Regional District stserv@civicplus.com>

Sent: Friday, May 26, 2023 3:04 PM

To: Rhonda West

Subject: [External] CSRD Connect - Board Meeting Highlights - May 2023

May 2023

As part of the shift to our new website, the Columbia Shuswap Regional District is now able to integrate our E-newsletter directly with our website's sign-up function. We'd love to hear feedback about our new format. Please email communications@csrd.bc.ca with any comments or suggestions.

Board on the Road

Electoral Area D

Encompassing Falkland, the Salmon Valley, Ranchero and Deep Creek, Electoral Area D was the chosen area to host the CSRD's Board on the Road events for 2023. The May 18, 2023, regular CSRD meeting took place at the Falkland Community Hall. Directors were also treated to a tour of the area, including stops at local agricultural businesses and the Falkland Museum.

While Board on the Road was previously an annual event rotating between the Electoral Areas, this is the first time the CSRD has been able to host a meeting outside of the main Boardroom in Salmon Arm since the pandemic. The location for the 2024 Board on the Road is still to be determined.

Correspondence

Canada Post Request for support

CSRD Directors were asked to provide support of a postal code change process initiated by Canada Post for the Sorrento, Tappen and Blind Bay areas and planned for October 2023. The Board deferred a decision until after the Canada Post public engagement process, which is scheduled to start in July.

Committee Reports

Electoral Area Directors' Committee

In light of the current challenges with affordable housing, the Board agreed write a letter to the Ministry of Housing regarding concerns with additional costs, administration and colder climate application associated with the BC Energy Step Code legislation and the lack of consultation with local governments.

Business By Area

Glenemma Recreation Site

The Board approved using \$80,000 in reserve funds to cover additional costs required by the Agricultural Land Commission to fence the trailhead area. The Glenemma Rec Site and Trail Proposal calls for the development of a day-use parking lot and staging area which would accommodate non-motorized, motorized and equestrian uses. It would also include a non-motorized trail network, a motorized youth skills development trail, a vault toilet,

picnic tables, hitching posts for horses and garbage and recycling containers. Work on the project will begin this season.

Electoral Area D Community Works Funds

Four community projects in Electoral Area D will be moving ahead after Columbia Shuswap Regional District (CSRD) Directors voted to support the use of <u>Community Works Funds</u> at Thursday's Board on the Road Meeting held in the Falkland Community Hall.

The newly funded projects include:

an ice chiller replacement for the Falkland and District Curling Club for \$160,480, revitalization work for Silver Creek Community Hall for \$220,721, upgrades to the Salmon Valley Senior Citizens Hall for \$86,394, emergency electrical upgrades at the Falkland Museum for \$13,249.

All four items were approved unanimously by Board Directors, with Electoral Area D Director Dean Trumbley recusing himself from the vote on the funding for the Falkland Museum due to a conflict of interest.

Administration Bylaws

Shuswap Watershed Council

The Board is recommending a <u>referendum</u> be conducted on the continued use of a <u>parcel tax</u> to fund the activities of the Shuswap Watershed Council on a permanent basis.

Currently the Shuswap Watershed council is funded through a parcel tax of \$9.07 per property. A parcel tax is a flat rate fee applied to each parcel of land in the proposed service area.

The Shuswap Watershed Council is a non-profit group focused on protecting, maintaining and enhancing water quality and promoting safe recreation in the Shuswap.

Directors voted unanimously in favour of taking the issue to a full assent vote for all eligible voters in Electoral Areas C, D, E, F, and G and the District of Sicamous. The assent vote and its associated bylaws needs final approval from the Provincial Ministry of Municipal Affairs before officially proceeding.

Land Use Matters

Electoral Area G: Cannabis Retail Licence

Copper Island Cannabis Co. has applied to the provincial Liquor and Cannabis Regulation Branch (LCRB) to obtain a licence to operate a non-medical cannabis retail store at 1245 Trans-Canada Highway in Sorrento. These applications can not be approved unless there is a positive recommendation from the local government in the area. The Board unanimously agreed to support the proposal. The final decision on issuing the licence rests with the LCRB.

For information and background reports for the other Development Services items discussed at this meeting, please see the <u>May 18, 2023 Board meeting agenda</u>. If you have questions about a specific application, contact the planning department at plan@csrd.bc.ca

Closed meeting releases

The resolutions released from the May 18, 2023 Board Meeting are as follows:

THAT: in accordance with the provisions of the Solid Waste Management Plan Public and Technical Advisory Committee Terms of Reference,

Laura Baer,

Barry Hunchak,

Jennifer Taylor,

Barbra Fairclough,

Alan Scales

be appointed to serve on the Public and Technical Advisory Committee effective May 18, 2023 and expiring upon completion of the Solid Waste Management Plan Review.

Next Board Meeting

Thursday, June 15, 2023

The Regular CSRD Board Meeting will be held in the CSRD Boardroom, at 555 Harbourfront Drive NE, Salmon Arm. The Regular Board meeting public session generally starts at 9:30 AM (PT) / 10:30 AM (MT). Any scheduling changes to the meeting start time will be noted on the Meeting Calendar on the CSRD's website.

The public is encouraged to join the meeting in-person or via **Zoom**. The access link can also be found on the **Meeting Calendar** of the CSRD website under the Board meeting date.

Please note: the CSRD Connect newsletter is not a substitute for the regional district's Board meeting minutes, which cover all agenda items. Minutes are available for public review at the <u>Agendas & Minutes</u> page of our website, <u>www.csrd.bc.ca</u>

- Sept 10th 11:00am to 4:00pm

BACKGROUND:

In order to obtain a Special Event Permit from the Liquor and Cannabis Regulation Branch for special events on public land, the event organizers must obtain permission from the Local Government to host such events. A liquor safety plan is required as a condition of obtaining Council approval for the application.

The liquor safety plans for the referenced events have been reviewed and approved by the RCMP. The Manager of Permits and Licensing therefore advises there are no objections from City Staff or the RCMP for the use of City Lands for the Special Events as set out in the Motion for Consideration.

Respectfully submitted,

Prepared By:

Maurice Roy, RBO/CRBO Manager of Permits & Licensing

To:

His Worship Mayor Harrison and Council

Date:

May 24, 2023

Subject:

UBCM Communities Grant Program

MOTION FOR CONSIDERATION:

THAT:

City staff be authorized to submit a grant application to the UBCM Complete

Communities 2023/2024 Program up to an amount of \$150,000;

AND THAT:

the 2023 budget contained in the 2023 - 2027 Financial Plan Bylaw be amended to

reflect a Complete Communities Assessment in the amount of \$150,000, funded

from a UBCM Complete Communities Grant.

BACKGROUND:

The UBCM Complete Communities program supports communities in undertaking assessments to inform land use decision-making, considering housing need, supply, and location; providing transportation options including increased walkability; and making connections to infrastructure investment and servicing decisions.

"Complete Communities" is a broad concept and can be defined in several different ways. For the purposes of the program, complete communities are areas within a community – which provide a diversity of housing to meet identified community needs and accommodate people at all stages of life, and provide a wider range of employment opportunities, amenities, and services within a 15-20 minute walk. (More complete details are available at:

https://www2.gov.bc.ca/assets/gov/housing-and-tenancy/tools-for-government/publications/complete-communities-guide.pdf)

Many of the principles associated with Complete Communities are common with those of "Smart Growth," and consistent with the growth management policies contained in Section 4.4 of the Official Community Plan (OCP).

Staff propose making a grant application to the maximum permitted (\$150,000) to UBCM, seeking to engage a consultant to perform a Complete Communities assessment of the "Residential High Density" area identified south of the "Commercial City Centre" area in the OCP. The intent would be to inform policy in the upcoming OCP review for the "Residential High Density" area, and what would be the transportation, land use and infrastructure implications of building out that area as anticipated.

CITY OF SALMON ARM

Date: June 12, 2023

Moved: Councillor

Seconded: Councillor

THAT: Council accept the Project Charter for the Official Community Plan review identified as Attachment #1 to the staff report dated June 2, 2023;

AND THAT: Council direct the issuance of a RFP for Official Community Plan public engagement services.

CITY OF SALMONARM

To:

His Worship Mayor Harrison and Council

Date:

June 2, 2023

Subject:

Official Community Plan Bylaw No. 4000 Review

MOTION FOR CONSIDERATON:

THAT:

Council accept the Project Charter for the OCP review presented by Planning

Department staff on June 12, 2023; and

AND THAT: Council direct the issuance of a RFP for OCP public engagement services.

BACKGROUND:

The City's Official Community Plan (OCP) (Bylaw No. 4000) was adopted by Council on November 14, 2011, and is now approaching 12 years old. As the City's overall document to manage change in the community, and to guide the future growth and future decision making, it is essential that the plan remains current and relevant to the conditions and circumstances in which it is used. Given the level of growth and change in the community over the last dozen years, it is therefore an appropriate time to consider a review of the OCP, and the City's Corporate and Strategic Plan (2022) recognized this and directed that a review be undertaken as a short term priority (2022-2024).

In follow up to the initial OCP review outline provided to Council on May 8, the following is attached for Council review and approval:

- 1. Project Charter (detailed project plan)
- 2. OCP Gantt Chart (detailed schedule of activities)
- 3. Draft RFP for Public Engagement Program
- 4. Draft Terms of Reference for OCP Steering Committee

Project Charter

This document provides a more detailed outline of the plan to complete the OCP review (the Project). The plan proposes that the engagement process be undertaken using a consultant (further direction is provided in the RFP document), while staff will undertake policy drafting. At present the Project budget is \$200,000 (including staff backfill expenses). Once the RFP process is complete, staff will report back with any additional budget requirements, that could be addressed through the 2024 budget.

The Charter identifies assumptions being made, risks to the Project, and any mitigations that are possible to manage the identified risks. The highest risks remain around resources, budgets and the timeline.

The Charter also identifies a series of timeline milestones against which progress can be evaluated to determine if the Project is on schedule and making progress. A more detailed outline of the tasks that make up the milestones is provided in the OCP Gantt Chart. These tasks may shift as the Project moves forward. Early milestones relate to the issuance and processing of the RFP and the identification of major issues to address, both by Council at a workshop, and the community through an online survey instrument.

Finally the Charter identifies clear roles and responsibilities for the participants (Council, Staff, Consultants, Steering Committee) in the Project.

RFP for Public Engagement Program

This document outlines a request to consultants to provide proposals regarding the public engagement program, and what the Project requires in this respect (Part B, Sections 2, 3 and 4).

The RFP outlines that the City is seeking a consultant with demonstrable experience in the design and implementation of a broad and equitable community engagement program. The RFP indicates that the primary consulting services should be accommodated in a budget of \$125,000 (leaving \$75,000 of the budget for staff backfill expenses), and to provide details of a supplementary engagement program that they consider as activities and processes that would enhance the primary program. Once the RFP submissions are received, the City can determine if the primary consulting services are adequate to meet the needs of the City, and what if any, of the supplementary program the City would like to engage. At this point, the City will be in a position to determine if the current \$200,000 budget is adequate or if additions are needed.

The consultant is asked to develop a public engagement process that is targeted and focused in its approach, and include a wide variety of strategies and methods to involve key stakeholder groups, to seek out feedback from harder to reach voices, to design a program that "meets people where they are at," and makes engagement with the program as simple and convenient as possible for the community.

The RFP deliverables include:

- The design of a public consultation program
- The effective implementation of the approved program
- Interim reports on results and effectiveness
- Presentation of interim reports to Steering Committee
- Presentation of an engagement summary report to Council
- Document design and production of the OCP
- Production of all mapping related to the OCP

The RFP will be reviewed by a sub-committee of the Mayor, a member of Council and staff, who will make a recommendation that will be ratified by Council prior to a contract being prepared with the consultant. It is anticipated that the RFP will process conclude in Q3 2023, and the contract will be awarded to the Proponent in Q4 2023. The anticipated conclusion of the Project is Q1 2025.

OCP Steering Committee (OCP-SC) Terms of Reference

The terms of reference outlines the purpose, operations and membership of a committee to assist with the public engagement process. The purpose of the OCP-SC is to support and assist Council

to ensure that the revised OCP document is reflective of and connected to the public input received as part of the public engagement. It will act as intermediary between Planning Department staff and the engagement consultants, to both continuously evaluate the effectiveness of the engagement process and to determine if outputs (draft policy) are connected to inputs (public comments).

The OCP-SC will work with City staff and the public engagement consultant on tasks including:

- Assisting in the development of the engagement plan
- · Approving the engagement plan
- Monitoring the effectiveness of the engagement plan
- Making recommendations to the consultant
- Sharing information on the engagement plan and encouraging public participation
- Sharing draft plan content with their respective constituencies or networks
- Providing guidance to staff in the drafting of OCP policy

The OCP-SC is not intended to function as a method to provide input into the content of the new OCP, and is not formulated as a "content creation" committee directing the preparation of draft policy (which could significantly limit the range of public input). It is instead to ensure that the resulting policy drafts created by staff are connected to the input that arrives through the engagement program.

Membership of the OCP-SC would consist of sixteen (16) members:

- One (1) member of Council
- One (1) member from SA Economic Development Society
- One (1) member from Interior Health
- One (1) member from Shuswap Trail Alliance
- One (1) member from Shuswap Recreation Society
- One (1) member from Shuswap Family Resource and Referral Society
- One (1) member from Downtown Salmon Arm
- One (1) member from Shuswap Association for Community Living
- One (1) member from Salmon Arm and Shuswap Agricultural Association
- One (1) member from SCIP Shuswap Construction Industry Professionals or Realtor
- Six (6) Citizens-at-large

Staff would actively recruit the members of the OCP-SC, by reaching out to the above noted agencies and advertise for the citizens-at-large members.

Staff are seeking Council acceptance of the Charter and related documents to allow the OCP review process to actively start.

Gary Buxton

Director of Planning & Community Services

PURPOSE

A comprehensive review and rewrite of the City of Salmon Arm Official Community Plan (OCP).

The current OCP dates to November 2011, and is now approaching 12 years old. The OCP is the City's principal tool to manage change in the community, and to guide the future growth and future decision making. It is essential that the plan remains current and relevant to the conditions and circumstances in which it is used.

Given the level of growth and change in the community since the OCP was approved, it is necessary to undertake a review of the OCP, so that it addresses issues, trends, patterns and concerns that are relevant to the current community. Significant changes affecting the community since 2011 include:

- Climate change and greenhouse gas emissions
- Significant infrastructure planning and upgrades in the community
- Shifting transportation options
- Changing housing and housing related costs
- Changing commercial and retail related patterns

It is essential that policy guidance contained in the OCP addresses these changes and provides direction that is both current and relevant, and addresses any policy gaps that have emerged since 2011.

OBJECTIVES AND SUCCESS CRITERIA

The review and rewrite of the OCP (the Project) is identified in the City's Corporate and Strategic Plan (2022), and directed that a review be undertaken as a short term priority (2022-2024).

Overall success would be defined as the completion of a comprehensive community planning document within a two (2) year time period from the start of activities. This would then provide ongoing guidance for Council decision making for the next 5-7 years (assuming that significant unanticipated changes in the community do not appear).

Secondary success criteria would be:

- Identification of data gaps and the determination of how to address those gaps
- Completion of a successful comprehensive public engagement program (measured by survey of participants and the community)
- Successful recruitment and successful operation of a project Steering Committee.

REQUIREMENTS

Adequate budget and staffing resources are required to undertake the Project. Financial resources are required to be able to engage contracted services to perform the public engagement. With only 3 technical and 1 administrative staff position in the Planning Department, it is not possible to undertake effective public engagement without significant degradation of service levels for day to day departmental functions (e.g. various permit review processes).

Some form of "backfilling" role in terms of an additional staff position is required to free up time on the part of current Planning Department staff (Project Coordinators) to perform the function of policy writing. In the absence of additional resources (subject to Council review and approval), there is the risk of project delays or degradation of service levels for day to day departmental functions.

Filling the backfill role will not be required until 2024. A decision on how to fill this role will not be made until the RFP process has concluded and the budget requirements are clearly understood for 2024.

A competent contractor will be required to be engaged to both design and undertake a robust public engagement plan. Consultants have specific expertise in the area of public engagement that will be more effective both in terms of design and implementation of such programs than if the work is performed by staff.

The details and objectives of the public engagement program will be provided in the Request for Proposals document created to identify the appropriate contractor.

PROJECT ASSUMPTIONS AND/OR CONSTRAINTS

At present the project budget is \$200,000. It is assumed at this point that until otherwise identified that this will be adequate to achieve the desired objective(s).

Once the public engagement RFP process has concluded, the City will have more information on the amount required to perform this part of the process. The amount remaining in the budget once public engagement costs have been removed, will indicate the ability to then fund any "backfill" role in the Planning Department. At that point in time, if funds are inadequate to provide both public engagement and backfill services, then a decision will need to be made on whether to increase the overall Project budget in 2024/2025, or to make adjustments to the Project timeline. The backfill role will not be required until 2024. Continued need for the backfill role in 2025 will be determined by the Project schedule through 2023 and 2024.

It is assumed that staff have both the capacity and ability to perform the required tasks. Staff capacity will be somewhat contingent on the backfill role. All current staff in the Planning Department have experience in both public engagement activities and drafting of policy documents.

It is assumed that through the RFP, that a competent consultant can be engaged to undertake the public engagement portion of the Project.

PRELIMINARY RISK STATEMENT

The following initial Project risks are identified, along with potential mitigation options:

| Risk: | Likelihood: | Impact: | Potential Mitigation(s): |
|--|---------------------|-------------|---|
| Inadequate budget | Moderate | Significant | RFP management and review. Adjustment of budget for 2024 and 2025 by Council as needed or desired. Adjusted (slowed) Project schedule. |
| Inadequate staff backfill resources Either through inadequate budget or inability to recruit | Moderate to High | Significant | Expanded / enhanced recruitment program. Consider consultant services as an option to a staff position. Adjusted (slowed) Project schedule. Adjusted service levels (slower) in the Planning Department. |

| Inability to source consulting services | Low | Significant | Adjustment of budget for 2024 and 2025 by Council as needed or desired. |
|---|------|-------------|---|
| | · · | | Adjusted (slowed) Project schedule. |
| | | | Reissue an amended RFP. |
| Unanticipated / significant public issues or concerns | Low | Moderate | Early identification of public concerns. Adjusted (slowed) Project schedule. |
| Timeline extended / milestones unmet | High | Moderate | Adjustment of budget for 2024 and 2025 by Council as needed or desired. |

SUMMARY MILESTONE SCHEDULE

The following outlines a basic Project outline. A more detailed Project schedule is contained in Appendix 1.

| Project Milestone | Forecast Date |
|---|-------------------|
| Project Charter approval (Council) | July 2023 |
| Public engagement RFP | August 2023 |
| Council workshop on issue identification | August 2023 |
| Close RFP process and select consultant | September 2023 |
| Identification of data needs and gaps | September 2023 |
| Community survey on issue identification | Sept. – Oct. 2023 |
| Detailed engagement process design | October 2023 |
| Initial contacts with critical stakeholders | October 2023 |
| Start Steering Committee recruitment | October 2023 |
| Approval of engagement process | November 2023 |
| Appoint Steering Committee | December 2023 |
| Initial Steering Committee meeting | January 2024 |
| Review / approve engagement plan | January 2024 |
| Commence public engagement program | January 2024 |
| Public engagement process details | Jan Nov. 2024 |
| Conclude public engagement program | November 2024 |
| Initial draft document | September 2024 |
| Review / revisions to draft document | Oct Nov. 2024 |

| Draft bylaw ready for review | January 2025 |
|-------------------------------------|------------------|
| Statutory hearing process | Feb. – Mar. 2025 |
| Bylaw adoption / Project conclusion | Mar. – Apr. 2025 |

SUMMARY ESTIMATED BUDGET

The current budget for the Project is \$200,000. It will be funded through a provisional reserve fund that the City has created in recent years, and / or any other funds that Council should choose to direct to the Project. This forecasted amount will be adjusted once the public engagement RFP process has closed, to derive a more precise budget.

| Rough Order of Magnitude (ROM) Item | ROM Estimate (TBD) | |
|--|--------------------|--|
| Public Consultation | \$ TBD | |
| Internal Backfill Staffing Resources | \$ TBD | |
| Miscellaneous (design, printing, materials, meeting logistics, communications) | \$ TBD | |
| Total Budget Estimate | \$200,000 | |

PROJECT GOVERNANCE REQUIREMENTS

Council will have decision making responsibility for review and approval of the resulting OCP document.

Council retains all control of the Project budget and Project scope.

The Project Manager will be accountable for overall Project management and any expenses.

A sub committee of the Mayor, a councillor, the CAO, the Project Manager and the Project Coordinators will review any RFP submissions and make a recommendation to Council on the preferred consultant.

Council will confirm the recommendation on the preferred consultant for public engagement.

The Steering Committee will be responsible for making recommendations to the public engagement consultant on planned activities.

The Steering Committee will be responsible for approving any public engagement plan.

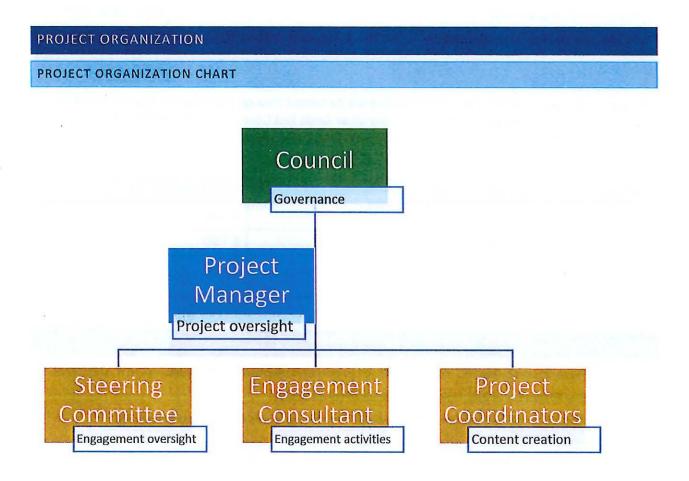

The Steering Committee will be responsible for making recommendations to the Project Coordinators with respect to drafting the resulting OCP document.

PROJECT MANAGER RESPONSIBILITIES

The Project Manager will be responsible for overall management of the Project, including:

- Budget oversight
- Status updates to Council
- Making scope change recommendations to Council
- Oversight and amendments to this plan
- Direction and delegation to staff
- Communication and direction to the public engagement consultant
- Liaison with the Steering Committee
- Ensuring timely and successful completion of the project

· Recommendations for taking any corrective action.

ROLES AND RESPONSIBILITIES

| | Council | Project Manager | Steering Committee | Project Coordinators | Engagement Consultant |
|--------------------------------------|---------|--------------------|-----------------------|-------------------------|--------------------------|
| TASK | | | | | |
| Project Planning | С | R | С | С | 1 |

| Document Crafting | | Α | С | R | С |

Responsible - the person who will actually complete the task.

Accountable - the role or person who is ultimately held accountable for the activity.

Consulted - the person who can assist with the completion of the task, but is not the 'doer'.

Informed - the person or people who need to be informed about the progress or completion of the task.

APPENDICES

APPENDIX 1

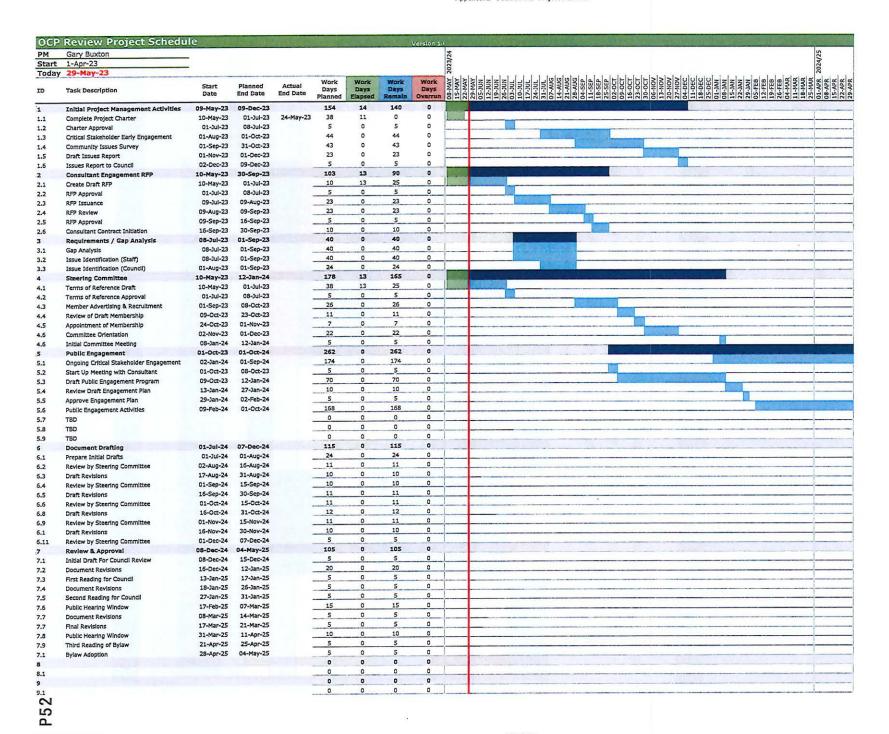

Detailed Project Schedule

APPENDIX 2

OCP Public Engagement RFP (draft)

APPENDIX 3

Steering Committee Terms of Reference

Official Community Plan (OCP) Bylaw 4000 Review and Rewrite Steering Committee Terms of Reference OCP-SC

Purpose:

The purpose of the Official Community Plan Steering Committee (OCP-SC) is to support and assist Council to ensure that the revised OCP document is reflective of and connected to the public input received as part of the engagement process.

Mandate:

The OCP-SC will act as intermediary between Planning Department staff and the engagement consultants, to both continuously evaluate the effectiveness of the engagement process and to determine if outputs (draft policy) are connected to inputs (public comments).

The OCP-SC will work with City staff and the public engagement consultant as part of the OCP review process, including:

- Assisting in the development of the OCP engagement plan
- Approving the OCP engagement plan
- Monitoring the effectiveness of the OCP engagement plan
- · Making recommendations to the consultant on amendments to the engagement plan
- Sharing information on the engagement plan and encouraging public participation with their respective constituencies or networks
- Sharing draft plan content with their respective constituencies or networks
- Providing guidance to staff in the drafting of OCP policy in accordance with the public input received

The OCP-SC is not intended to function as a method to provide input into the content in the review of the OCP, and is not formulated as a "content creation" committee directing the preparation of draft policy (which could significantly limit the range of public input). It is instead to ensure that the resulting policy drafts created by staff are connected to the input that arrives through the engagement program.

Meetings:

The OCP-SC will meet as is necessary. A regular schedule of meetings will be established at the first meeting of the OCP-SC. Special meetings may be held at the call of the Chair. There will be more frequent meetings initially as the OCP-SC forms and the engagement plan is reviewed.

Procedures:

The meeting rules and procedures will be in accordance with the Council Procedure Bylaw. Minutes will be kept and shared with Council as they are produced. Minutes will not identify individuals but will record discussions among the group generally.

The OCP-SC will select a chairperson from its' members at the initial meeting.

Membership:

OCP-SC members will be appointed by Council. To the extent possible, the OCP-SC will have a diverse membership with respect to gender, age and socio-economic and cultural background, and will consist of **sixteen (16)** members with experience and interest in community growth and development and managing and guiding change in the community.

Membership:

- One (1) member of Council
- One (1) member from SA Economic Development Society
- One (1) member from Interior Health
- One (1) member from Shuswap Trail Alliance
- One (1) member from Shuswap Recreation Society
- One (1) member from Shuswap Family Center
- One (1) member from Downtown Salmon Arm
- One (1) member from Shuswap Association for Community Living
- One (1) member from Salmon Arm and Shuswap Agricultural Association
- One (1) member from SCIP Shuswap Construction Industry Professionals or Realtor
- Six (6) Citizens-At-Large.

The identified organizations or community sectors will be notified by staff and asked to nominate a representative and submit written requests from their membership proposing the appointment. They will also identify an alternate who will attend in the absence of the appointed member.

There will be a public call for Citizens-At-Large members. Council will appoint Citizen-At-Large members after reviewing the submitted applications. Citizen-At-Large members will be recruited on the basis of the member's interest in overall community development and not on the basis of representation of any specific group or issue of interest (although membership in an organization or group does not preclude participation in an "at-large" manner).

Members will serve for the duration of the OCP review project. If a member from an organization or community sectors resigns, then the alternate shall join the OCP-SC, or the organization may nominate a new representative. Citizen-At –Large members may be replaced by Council using the methods for initial recruitment. The decision to replace a resign member will consider the time remaining in the OCP review project.

Council may remove a member of the OCP-SC and reappoint accordingly. Grounds for removal include behaviour that is not consistent with the Committee Code of Conduct Policy.

Quorum:

Quorum will be constituted by nine (9) or more members of the OCP-SC.

Decision Making:

The OCP-SC will undertake the majority of its' decision making by seeking to achieve consensus, where almost all elements of the decision are unanimously agreed to, but there may be less important elements that are not.

When consensus is not possible, the OCP-SC will seek agreement amongst the group, where most of the elements of the decision are acceptable, when other less important elements may not be acceptable.

When agreement is not possible, then the OCP-SC may use majority voting of members to reach a decision.

Decisions of the group will be made as a group, and will not be assigned or credited to any individual on the OCP-SC. At any point, a member of the group may ask that their dissenting opinion to any decision be recorded, and it will be duly recorded.

Staff Support:

The Planning Department will provide the required professional, secretarial and administrative support. Other City staff will attend as is necessary.

The OCP-SC chairperson or the OCP Project Manager may request the attendance of subject matter experts or other members of the public that are not members of the OCP-SC to attend to provide information to the Committee.

Neither staff or members of the public attending an OCP-SC will have a vote in any decision made by the OCP-SC. Members of the public attending may address the OCP-SC only with the approval of the OCP-SC chairperson, upon request.

Review of Terms of Reference:

Council will review these Terms of Reference as is necessary.

Item 9.4

CITY OF SALMON ARM

Date: June 12, 2023

Moved: Councillor

Seconded: Councillor

THAT: the Mayor and Corporate Officer be authorized to execute the 2023/2024 Annual Operating Agreement for Transit Services between the City of Salmon Arm and BC Transit.

File: 8500-Transit AOA

TO:

His Worship Mayor Harrison and Members of Council

FROM:

Robert Niewenhuizen, Director of Engineering and Public Works

DATE:

June 2, 2023

SUBJECT:

ANNUAL TRANSIT OPERATING AGREEMENT

RECOMMENDATION:

THAT:

The Mayor and Corporate Officer be authorized to execute the 2023/2024

Annual Operating Agreement for Transit Services between the City of Salmon Arm

and BC Transit.

BACKGROUND:

BC Transit has forwarded the 2023/2024 Draft Annual Operating Agreement (AOA) for the Shuswap Regional Transit system for approval.

The agreement is based on the Transit Service Agreement which is the principal overarching service agreement. Each year, the AOA confirms the budgeted service levels, revenue projections and cost structure for the transit system.

BC Transit continues to focus on building back transit ridership to pre-pandemic levels and supporting community's across BC through their ongoing recovery. As of January 2023, total ridership has recovered to more than 90 per cent compared to 2019-2020 levels. BC Transit is anticipating further economic uncertainty in the months and years ahead, the \$150.6 million operating grant announced by the Province in the recently tabled provincial budget will enable BC Transit to maintain existing service levels for 2023-24. It is anticipated that BC Transit will continue to face challenges with fuel price volatility and a higher price per litre is reflected in the operating budget for the Shuswap Transit system. As previously advised, BC Transit has reverted back to billing based on actual expenditures instead of budget and the City is therefore responsible for managing price volatility within its own reserve.

At the end of March 2022 the City received an additional COVID Safe Restart and Recovery Contribution equal to \$41,448. The City has the benefit of utilizing this funding stream to offset any reduced revenues and municipal share of operating costs. Given the timing of the announcement in 2022, BC Transit was unable to incorporate the additional funding into the 2022/2023 AOA. However staff have requested this funding be applied to the 2023/2024 operating year and the AOA and City's 2023 budgets reflect this.

Staff have reviewed the agreement as presented along with the projected revenues and expenses associated with the 2023/2024 AOA and the City's 2023 Transit Services budgets are sufficient and therefore do not require an amendment at this time.

Respectfully submitted,

Robert Niewenhuizen, AScT

Director of Engineering and Public Works

SUPPLY OF BULK AVIATION FUELS AND RELATED DELIVERY SERVICES

STAFF RECOMMENDATION

THAT:

Council accept the proposal from PetroValue Products Canada Inc. at their quoted unit prices for the Supply of Bulk Aviation Fuels and Related Delivery Services for a term of three (3) years commencing July 1, 2023

BACKGROUND

The current contract for the Supply of Bulk Aviation Fuels and Related Delivery Services has expired. As such, a Request for Proposal (RFP) was issued and advertised on BC Bid and sent to four (4) suppliers. The RFP closed on Thursday May 18, 2023 at which time only one (1) proposal was received. Staff have reviewed the proposal with conformance with the RFP documents. The cost summary is as follows:

AvGas 100LL

| Contractor | Base Mark-up Price | Service and Delivery Charges | Other Charges | Total (before Taxes) |
|-----------------------------|-----------------------|------------------------------|------------------|----------------------|
| PetroValue Products Canada. | \$0.02 | \$0.09 | \$0.00 | \$0.11 |

Jet A1

| Contractor | Base Mark-up Price | Service and Delivery Charges | Other Charges | Total (before Taxes) |
|-----------------------------|-----------------------|------------------------------|------------------|----------------------|
| PetroValue Products Canada. | \$0.02 | \$0.08 | \$0.00 | \$0.10 |

The cost of bulk fuel (rack rate) is highly variable because it is based on crude oil prices and is established by the refineries on a weekly basis. The proposals identified the vendor's mark up prices, service and delivery costs and other charges, which will be added to the rack rate and then invoiced to the City following delivery. The vendor will be required to provide the City with proof of actual per liter bulk aviation fuel costs when the vendor invoices the city.

PetroValues proposal demonstrated a commitment to meeting the fuel supply demands of the Shuswap Regional Airport in a safe and responsive manner. The City has been purchasing fuel

from PetroValue since 2015 and staff have no concerns with awarding the contract to this company again.

Staff are recommending that the contract be awarded to PetroValue Products Canada Inc., in accordance with their proposal for a term of three (3) years, expiring June 30, 2025.

Respectfully submitted,

Robert Niewenhuizen, AScT

Director of Engineering & Public Works

CITY OF SALMON ARM

Date: June 12, 2023

Moved: Councillor

Seconded: Councillor

THAT: the 2023 Budget contained in the 2023 – 2027 Financial Plan be amended to reallocate \$23,500.00 additional funding to the Zone 2 Pump Station Design, funded from the 10 Avenue SE (30 – 33 Street SE) Upgrade;

AND THAT: Council approve the award of the Zone 2 Pump Station 100% Design to WSP Canada Inc. for the total estimated price of \$21,049.00 plus taxes as applicable.

File: 2023-43

TO:

His Worship Mayor Harrison and Members of Council

FROM:

Robert Niewenhuizen, Director of Engineering and Public Works

PREPARED BY:

Gabriel Bau, City Engineer

DATE:

June 12, 2023

SUBJECT:

ZONE 2 PUMP STATION DESIGN - BUDGET AMENDMENT

STAFF RECOMMENDATION

THAT:

The 2023 Budget contained in the 2023 to 2027 Financial Plan be amended to reallocate \$23,500.00 additional funding to the Zone 2 Pump Station Design, funded from:

• 10 Avenue SE (30 - 33 St SE) Upgrade

AND THAT:

Council approve the award of the Zone 2 Pump Station 100% Design to WSP Canada Inc., for the total estimated price of \$21,049.00 plus taxes as

applicable.

BACKGROUND

The Zone 2 Pump Station is located in Canoe immediately northeast of the Water Treatment Plant on the lakeside of the CP Rail tracks. This station was put into service in 1970. Reconstruction is necessary to meet current water demands, and reduce risk of flooding and equipment obsolescence.

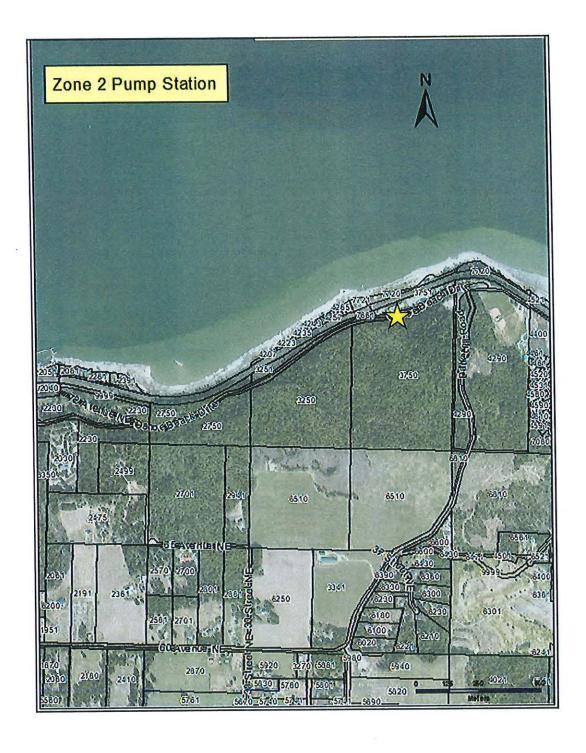

As of May 2023, WSP has completed the 90% detail design of the Zone 2 pump station. The final 10% design involve getting the water works approval from Interior Health, the building permit from the City, and BC Hydro connection. Once this part of the design is completed, the total cost for construction will be adjusted.

WSP was selected in 2021 as part of a competitive process to provide consulting services regarding the design and construction of the Zone 2 pump station. WSP fee to move the project from 90 to 100% included in their original quote is \$21,049.00. WSP upholds their fee. In order to cover this cost (plus contingency), additional funds are required. Staff recommends to transfer funds from the 10 Avenue SE (30 - 33 St SE) Upgrade project.

10 Avenue SE (30 – 33 St SE) Upgrade project could be retendered this year, subject to available funds. Original approved budget was \$335,000. Council approved to transfer \$80,000 to 8 Ave NE Watermain construction in May 2023, and remaining available budget is \$255,000. Staff budget estimate required to proceed with 10 Avenue SE Upgrade project based on tenders received is approximately \$695,000.

On another note, a separate staff report will be provided to Council to move the project into the construction phase, and staff plans to recommend to proceed with an Alternative Approval Process once the design is completed. The 2023 approved construction budget for the Zone 2

Environmental Advisory Committee Citizen at Large Membership Appointment

SALMONARM

TO:

Mayor Harrison & Members of Council

DATE:

June 5, 2023

FROM:

Erin Jackson, Chief Administrative Officer

PREPARED BY:

Barb Puddifant, Executive Assistant

SUBJECT:

Environmental Advisory Committee - Citizen at Large membership

appointment

Background:

The Environmental Advisory Committee membership currently includes 13 voting members; one (1) Council representative, three (3) Citizens at Large, a member representing each of the Forest and Agricultural Industries, members from five (5) organizations and from the Adams Lake and Neskonlith Bands. The current term of the three Citizen at Large members will expire December 31, 2023.

One of the Committee's three appointed Citizens at Large, Michael Simpson, has stepped down and will not be completing his term. Staff has advertised this position in the newspaper, on the City website, social media and in the lobby of City Hall. Two (2) applications (attached as Appendix A) were received by the June 2, 2023 closing date, from the following individuals:

Sarah Johnson Bob Demulder

It is recommended that Council appoint one Citizen at Large to complete the existing term.

The Committee also has a vacancy for a member from the Agricultural Industry. The application deadline for this position is June 23, 2023.

Respectfully submitted,

Erin ackson

Chief Administrative Officer

[ZON-1264; Brentwell Construction Ltd./Crevier, L. & S.; 31 4 Street SE; Text Amendment; Addition to Definitions and to R-5 (High Density Residential Zone)]

CITY OF SALMONARM

TO:

His Worship Mayor Harrison and Members of Council

DATE:

May 25, 2023

SUBJECT:

Zoning Bylaw Text Amendment Application No. 1264 **Development Variance Permit Application No. 582**

Legal:

Lot 3, Block 1, Section 14, Township 20, Range 10, W6M KDYD, Plan 936

Civic: 31 - 4 Street SE

Owner/Applicant: Brentwell Construction Ltd, Crevier, L. A. & S. P.

MOTION FOR CONSIDERATION

THAT:

A bylaw be prepared for Council's consideration, adoption of which would amend Zoning Bylaw No. 2303 as follows:

1) Amend Section 2.2 - Definitions - Secondary Suite - e) and f) to read:

e) must be located within a building or portion of a building of residential occupancy; and

f) must be located within a building or portion of a building where both dwelling units constitute a single real estate entity.

2) Amend the R-5 Zone - Section 10.3.13 to add "Secondary Suite" as a permitted accessory use.

AND THAT:

Final Reading of the Bylaw be withheld subject to Ministry of Transportation and Infrastructure approval.

AND FURTHER THAT: Development Variance Permit No. 582 be authorized for issuance for Lot 3. Block 1, Section 14, Township 20, Range 10, W6M KDYD, Plan 936 to vary provisions of Zoning Bylaw No. 2303 - Appendix 1, Table A1-1 - Multi-Family R-5 & Suite – reduce the number of required off-street parking spaces from five (5) to four (4).

STAFF RECOMMENDATION

THAT:

The motion for consideration be adopted.

PROPOSAL

The purpose of these applications is to amend the Zoning Bylaw to accommodate the development of secondary suites within a duplex, and address on-site parking requirements. The Zoning Bylaw amendments would be applicable to all R-5 Zone parcels, while the variance for parking is isolated to the subject parcel.

BACKGROUND

The subject parcel is located at 31 – 4 Street SE, just south of Fletcher Park (Appendix 1). It is designated High Density Residential (HR) in the City's Official Community Plan (OCP) and zoned R-5 (High Density Residential) in the Zoning Bylaw (Appendix 2 and 3). The parcel is approximately 460 square metres in area, and features a recently developed duplex building (site photos attached as Appendix 4).

The Zoning Map attached shows the mix of zones in the immediate area, predominantly Residential (R-1, R-5 and R-8), with nearby institutional and Commercial zones further to the north, west and east. Land uses adjacent to the subject parcel include the following:

North: Residential land (R-1 Single Family Residential) South: Residential land (R-5 Multi Family Residential)

East: Road (4 Street SE) and P-3 (Institutional) land beyond

West: Residential land (R-1 Single Family Residential)

Section 8.4.46 of the OCP states that *duplex* development that is not part of a multiple family development is exempt from a form and character residential development permit application.

OCP POLICY

Within the OCP, the subject parcel is designated High Density Residential (HR) and is in Residential Development Area A, considered the highest priority for development. The proposed zoning amendment would align with the OCP's Urban Residential Objectives listed in Section 8.2 and the Urban Residential Policies listed in Section 8.3, including providing a variety of housing types, housing options, and supporting compact communities. In terms of siting, the proposal appears aligned with OCP Siting Policies under Section 8.3.19, including good access to transportation routes, recreation, community services, and utility servicing.

Secondary Suites

Policy 8.3.25 of the OCP provides for the consideration of secondary suites in all Residential designated areas via a rezoning application, subject to compliance with the Zoning Bylaw and the BC Building Code.

COMMENTS

Ministry of Transportation & Infrastructure

MOTI has granted preliminary approval (Appendix 5). Final Reading is subject to MOTI approval.

Engineering Department

No Concerns. Recommendation of support for requested parking variance. Servicing information provided to applicant in advance of development (Appendix 6).

Public Consultation

Pursuant to the *Local Government Act*, Zoning Bylaw, and Development Variance Permit Procedures Bylaw notices are mailed to land owners within a 30m radius of the application. The notices outline the proposal and advises those with an interest in the proposal to provide written submission prior to the Hearing and information regarding attending the Hearing. Further to the Zoning Bylaw amendment, newspaper ads are placed in two editions of the local paper in advance of the Statutory Public Hearing. It is expected that the Hearings for these applications will be held on June 26, 2023.

Planning Department

BC Building Code Changes

As per Appendix 7, effective December 2019 the BC Building Code (BCBC) adopted changes to allow for secondary suites in more building types (other than single detached dwellings), providing additional options for land use planning. Examples of building types where the BCBC allows for suites include

townhouse-style developments (including duplexes) where a dwelling and its suite are separated from other parts of the building by a vertical fire separation. The BCBC governs how suites are built and does not allow for the contravention of local land use bylaws. Amending the Zoning Bylaw as proposed below would provide the City with additional housing options.

In order to align with the current BCBC and allow for suites to be an option within the R-5 Zone (and others), Staff propose amendments to the definition of Secondary Suite. The current definition reads as such:

SECONDARY SUITE means a dwelling unit conforming to the Building Regulations of British Columbia which is accessory to the principal dwelling unit and must meet the following criteria:

- a) cannot exceed a maximum floor space of 90 square metres (968.8 square feet);
- b) cannot exceed a maximum of 40% of habitable floor space of the building;
- c) must have a separate entrance;
- d) must be an integral part of the building and have at least one heated wall or floor in common with the principal dwelling unit;
- e) must be located within a building of residential occupancy containing only one other principal dwelling unit; and
- f) must be located in and part of a building which is a single real estate entity.

As the current definition is specific to a suite within a single family dwelling, the proposed changes would allow for suites within additional building types as in bold and underlined below:

SECONDARY SUITE means a dwelling unit conforming to the Building Regulations of British Columbia which is accessory to the principal dwelling unit and must meet the following criteria:

- a) cannot exceed a maximum floor space of 90 square metres (968.8 square feet);
- b) cannot exceed a maximum of 40% of habitable floor space of the single real estate entity;
- c) must have a separate entrance;
- d) must be an integral part of the building and have at least one heated wall or floor in common with the principal dwelling unit or single real estate entity;
- e) must be located within a building or portion of a building of residential occupancy; and
- f) must be located within a building or portion of a building where both dwelling units constitute a single real estate entity.

Staff consider the addition of *secondary suite* as an accessory use in the R-5 Zone to be a positive option, allowing an additional housing type and an alternative for increased density on smaller residential parcels, which would otherwise require some form of consolidation with adjacent parcels in order to achieve a developable minimum parcel area. Given housing market trends and the small lot sizes in the High Density Residential designated city centre area, staff believe it is reasonable to allow for the inclusion of an option for secondary suites within the R-5 Zone, which may not have timely potential for consolidation to larger parcel sizes.

In consideration of the subject parcel, the surrounding neighbourhood has been undergoing slow redevelopment with a mix of old and new single family housing, newer multi-family development, as well as institutional and commercial development. The subject parcel is located in an area well-suited for higher density residential development featuring sidewalks and transit routes, within close walking distance of the City centre. As noted, the Residential — High Density (HD) designation in the City's Official Community Plan (OCP) supports the proposed development scenario, which in the opinion of staff aligns with broad OCP policies.

The proposal also aligns with the strategic themes identified in the Salmon Arm Community Housing Strategy considering density and diversity that fits with the character of the community, and developing opportunities to address rental housing needs. Within the Community Housing Strategy, Duplex, Row House, and Semi-Detached Housing accounted for 18% of dwelling types within Salmon Arm (2016).

The maximum residential density permitted under R-5 zoning is 100 dwelling units per hectare of land. As the subject property is 0.046 hectares in area, the maximum permitted density would be 4 dwelling units assuming: 1) the present gross areas of the subject parcel; and 2) no density bonus. With a density

bonus under R-5 zoning, the maximum density is 130 units per hectare, or 5 units on 0.046 hectares, with a height increase to 15 m. All that being said, the constraints presented by the small parcel area of the subject parcel limits the development potential to less than 5 units.

Table 1 - R-5 Zoning Analysis (0.046 hectare area)

| | R-5 Permitted/Required | R-5 with Bonus | Proposed |
|-------------------------|------------------------|------------------------|--------------------|
| Density | 4 units | 5 units | 2 units + 2 Suites |
| Height | 12 m | 15 m | 8.8 m |
| Parcel Coverage | 55 % | 70 % | 35% |
| Setback – front | 5 m | 5 m | 8.8 m |
| Setback – interior side | 2.4 m - 2.0 m (VP-521) | 2.4 m - 2.0 m (VP-521) | 2.0 m (VP-521) |
| Setback – rear | 5 m | 5 m | 5.6 m |
| Parking | 5 | 5/6 | 4 |
| Small Car Spaces | 20 % (1) | 20 % (1) | n/a |

It is important to note that the building on the subject parcel exists and is not under application. The R-5 zoning and interior side parcel line variances from 2.4m to 2m were approved at the pre-development stage in 2020 (ZON-1191 and VP-521). Staff are of the opinion that the proposed development of suites within the existing building should align well with the residential development to the area.

Development Cost Charges

Staff note that consistent with the Development Cost Charge Bylaw, secondary suites within any single real estate entity are exempt from DCCs.

Parking Variance

With respect to parking requirements relative to the proposed development concept, a 2-unit development within the R-5 Zone with 2 secondary suites would be required to provide 5 parking stalls. 4 parking spaces are proposed (Appendix 8). The provision of on-site parking is practical and necessary, as the opportunity for on-street parking at this site is somewhat limited, however staff note public parking options along Okanagan Avenue and feel that the requested reduction is reasonable and manageable at this downtown location.

CONCLUSION

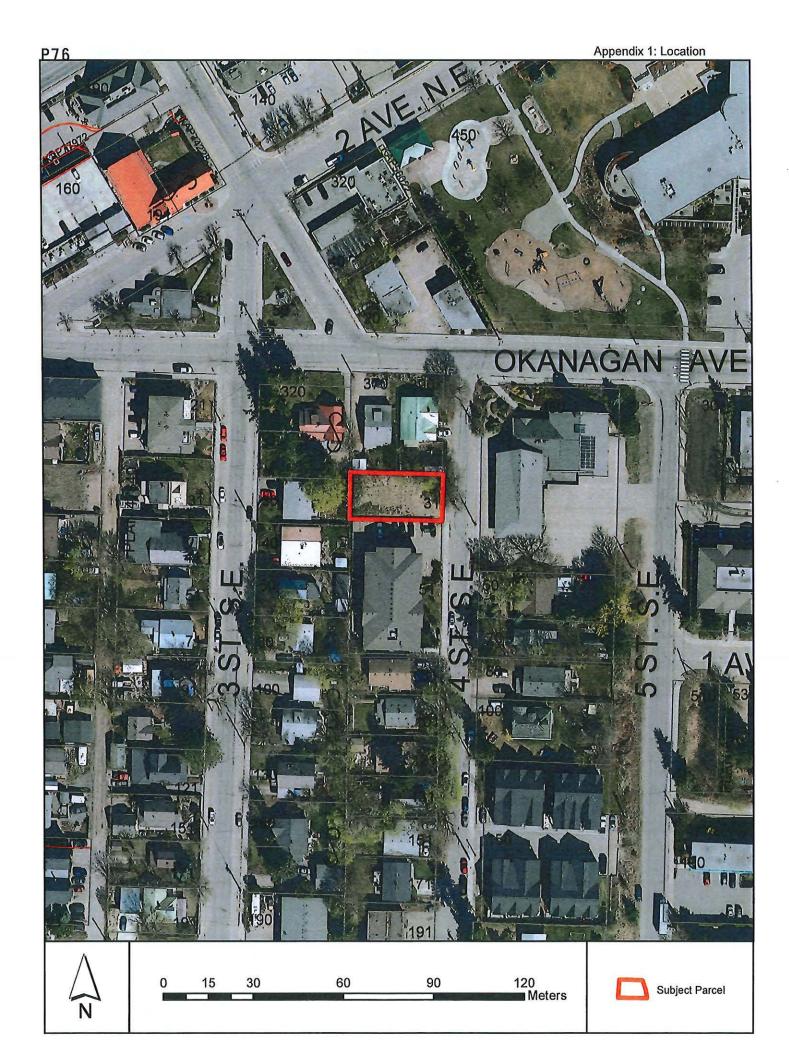

Staff view the proposed Zoning Bylaw amendments as presented to be consistent with OCP residential objectives and policy, as well as the Community Housing Strategy. The additions proposed to the Zoning Bylaw serve to clarify municipal policy, support housing diversity in the city centre area, and provide opportunity for an additional housing format and purpose built rentals supported by updates to the BC Building Code. The proposed Zoning Bylaw amendments and the variance for parking reduction are supported by staff.

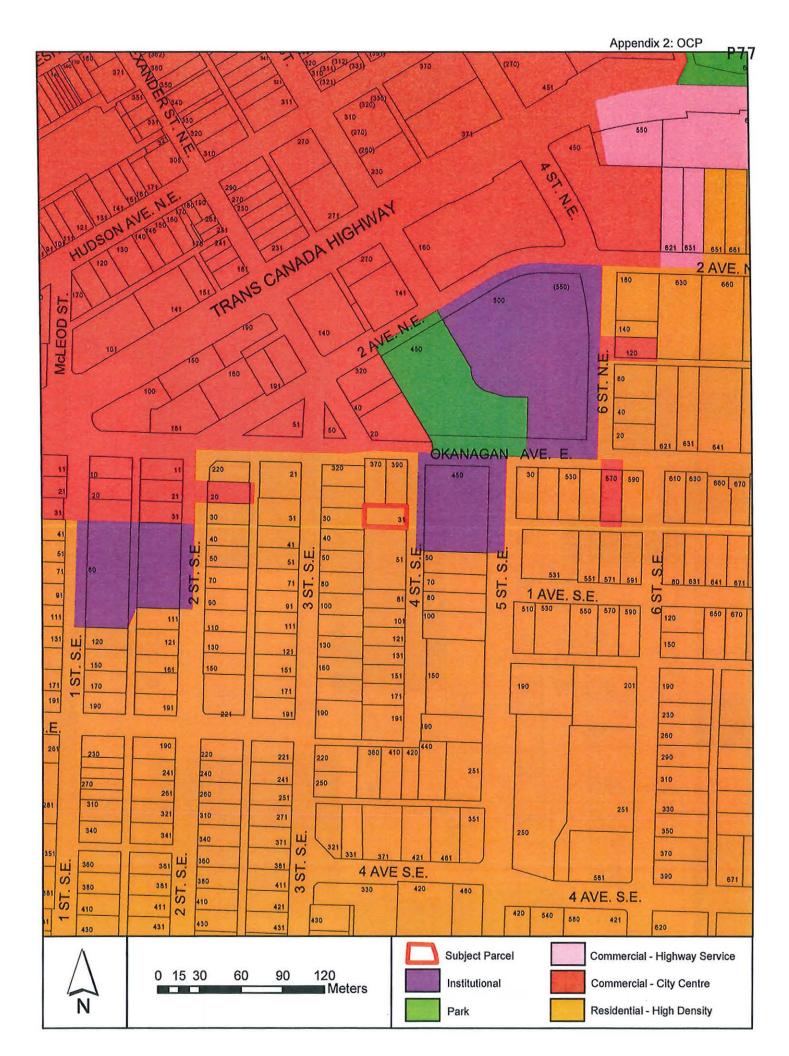

While this proposal relates to the R-5 Zone, if Council wishes to create similar provisions for secondary suites in the R-2 and R-4 Zones, Council could direct Staff to prepare an additional Zoning Bylaw Amendment.

Further to your referral dated March 30, 2023, we provide the following servicing information.

Comments are based on the Subdivision/Development as proposed in the referral. If the development plans for the property change significantly, comments below may change

General:

- 1. Full municipal services are required as noted herein. Owner / Developer to comply fully with the requirements of the Subdivision and Development Services Bylaw No 4163. Notwithstanding the comments contained in this referral, it is the applicant's responsibility to ensure these standards are met.
- Comments provided below reflect the best available information. Detailed engineering data or other information not available at this time, may change the contents of these comments.
- 3. Property under the control and jurisdiction of the municipality shall be reinstated to City satisfaction.
- Owner / Developer will be responsible for all costs incurred by the City of Salmon Arm during construction and inspections. This amount may be required prior to construction.

Roads / Access:

- 4 Street SE, on the subject property's eastern boundary, is designated as an Urban Local Road standard, requiring 20.0m road dedication (10.0m on either side of road centerline). Available records indicate that an additional 2.919m road dedication is required (to be confirmed by a BCLS).
- 2. 4 Street SE is currently constructed to a Local Road standard. No further upgrading is required.
- 3. The applicant is requesting to reduce the number of parking stalls from five to four. 4 Street SE is located in the downtown area, with easy access by foot to many facilities. There are multiple locations on and adjacent to 4 Street where parking is available. Staff do not consider the reduction in onsite parking by one parking stall to be significant and therefore the Engineering Department recommends that the request to reduce the number of parking stalls from five to four be approved.

No. B19-05 December 12, 2019

Secondary Suites, Changes to Design and Construction Requirements British Columbia Building Code 2018 Revision 2

The purpose of this bulletin is to provide information about Revision 2 changes to the British Columbia Building Code 2018 (BC Code) for the design and construction of new secondary suites. Changes are effective December 12, 2019 and apply to projects for which a permit is applied for on or after this date.

A separate bulletin B19-04 discusses how the BC Code changes to secondary suite requirements may impact land use planning.

Background

The BC Code introduced requirements for secondary suites in 1995. Therefore, the National Building Code (National Code) provisions were not adopted when they were first published in 2010. The BC Code requirements have not been substantially updated since 1995.

The adopted changes:

- harmonize with the form and approach of the National Code, and most of its technical requirements:
- incorporate historical requirements from the BC Code that provide a higher level of health and safety; and
- adapt some requirements based on application to existing buildings and to coordinate with other requirements.

The Province of British Columbia (B.C.) is working to remove barriers to secondary housing forms. These mid-cycle revisions to the BC Code aim to increase options for the design and construction of new secondary suites in buildings. Allowing the construction of more secondary suites in more building types helps create more housing units while providing an acceptable level of health and fire safety to occupants. These changes provide local authorities with more options for land use planning.

The definition of secondary suite in the BC Code is not to be equated with similar terms in land use bylaws. Land use bylaws may define or use the term secondary suite to describe housing types. The term might carry a different meaning in bylaw than the meaning assigned in the BC Code. It is often appropriate to set aside the BC Code terms when considering land use and zoning matters.

Including solutions for design and construction of secondary suites in the BC Code does not allow owners to contravene land use bylaws. Land use bylaws govern where secondary suites are permitted whereas the BC Code governs how they are to be built. **Before constructing a secondary suite, check with the local authority.**

The BC Code governs the design and construction of new secondary suites including alterations to existing buildings to add a secondary suite as well as new work or alterations within a secondary

Building and Safety Standards Branch

PO Box 9844 Stn Prov Govt Victoria BC V8W 9T2

Email: <u>building.safety@gov.bc.ca</u>
Website: <u>www.gov.bc.ca/buildingcodes</u>

suite. It is not intended that the BC Code be used as evaluation metrics or retroactive construction requirements for existing secondary suites.

Changes to the Definition of Secondary Suites

The BC Code previously defined a secondary suite as "a dwelling unit

- having a total floor space of not more than 90 m² in area,
- having a floor space less than 40% of the habitable space of the building,
- located within a building of residential occupancy containing only one other dwelling unit, and
- located in and part of a building which is a single real estate entity."

The **new** definition states that a *secondary suite* means "a self-contained *dwelling unit* located within a *building* or portion of a *building*

- completely separated from other parts of the building by a vertical fire separation that has a
 fire-resistance rating of not less than 1 h and extends from the ground or lowermost
 assembly continuously through or adjacent to all storeys and spaces including service
 spaces of the separated portions,
- of only residential occupancy that contains only one other dwelling unit and common spaces, and
- where both dwelling units constitute a single real estate entity."

The previous definition placed limits on floor space as a mechanism to moderate fire load and occupant load. This revision **discontinues the prescribed floor space amounts and percentage distribution**. New requirements as well as some existing and revised requirements, moderate risks attributed to fire load and occupant load as compensatory measures. **Check with the local authority on floor space allowances.**

It cannot be assumed that the owner occupies one of the dwelling units, nor that the occupant of the dwelling unit has direct control over the secondary suite or use by its occupants as a means of increasing the level of safety. A secondary suite is not a subordinate suite to a principle suite. However, there are health and safety opportunities and benefits that come with a house with a secondary suite having single ownership that may not be available for units with separate ownership. Typical requirements for separately-owned dwelling units have been adjusted to accommodate the interest, coordination, and maintenance that is available with single ownership.

In addition, this change adopts and adapts permissions in the National Code to allow the construction of secondary suites in a building that may contain more than one dwelling unit or other occupancy. These permissions are limited and only apply where a dwelling unit and its secondary suite are completely separated from other parts of the building with continuous vertical fire-rated construction. These permissions do not apply where any portion of the dwelling unit and its secondary suite are above or below another dwelling unit or other occupancy.

Examples of buildings where the BC Code allows the construction of secondary suites include sideby-side duplexes and also row houses where a vertical fire separation separates the portion with the dwelling unit with the secondary suite from the remainder of the building. Examples where secondary suites are not permitted are up/down duplexes and apartment buildings where dwelling units are above or below other dwelling units.

The contents of this Bulletin are not intended to be provided as legal advice and should not be relied upon as legal advice. For further information, contact the Building and Safety Standards Branch.

The following illustration provides examples of the types of buildings in which the BC Code allows the construction of secondary suites and where secondary suites are not permitted. Before constructing a secondary suite, check with the local authority.

Local government contact information is available here: http://www.civicinfo.bc.ca/directories.

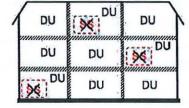

SINGLE REAL ESTATE ENTITY

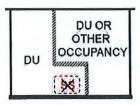

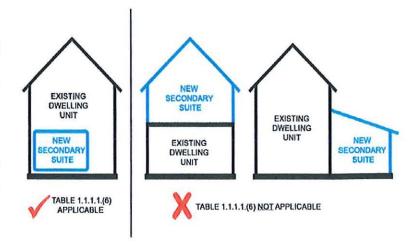

Changes to Alterations to Existing Buildings to Add a Secondary Suite

Some previous requirements were based on the premise of 'finishing' an unfinished basement and dealing with the hardships that may exist when working within the confines of an existing home. Some accommodation for when existing construction poses a practical or financial hardship is necessary to avoid abandoning projects or creating disincentives to permits and inspections.

This change distinguishes requirements for new construction with no existing construction imposing hardship - from requirements for alterations to existing buildings where existing construction poses a hardship. Division A provides Table 1.1.1.(6) containing Alternative Compliance Methods that are considered adequate but may only be used where existing construction acts as a practical barrier to compliance with the acceptable solutions in Division B of the BC Code.

Brentwell Construction Ltd. 1009 Kalamalka Lake Rd. Vernon, BC V1T 6V4 August 14, 2020

City of Salmon Arm 500 2 Avenue NE Salmon Arm, BC V1E 4N2

Re: Variance Rationale - 31 4th Street SE

We are requesting to have 4 parking stalls for the duplex rather than the amount required by the City of Salmon Arm. With the location being in close proximity to downtown, we believe that tenants will take advantage of this and walk or bike to and from the duplex which would minimize the use for more than one vehicle per unit/ suite. There is also off-street parking on 4 Street and Okanagan Avenue that could be used, without negatively impacting neighboring dwellings.

With rental properties in such high demand in the area, we hope that the City can allow this variance.

Thank you,
Brentwell Construction Ltd.

CITY OF SALMON ARM

BYLAW NO. 4579

A bylaw to amend "District of Salmon Arm Zoning Bylaw No. 2303"

WHEREAS notice of a Public Hearing to be held by the Council of the City of Salmon Arm in the Council Chambers at City Hall, 500 – 2 Avenue NE, Salmon Arm, British Columbia and by electronic means, on June 26, 2023 at the hour of 7:00 p.m. was published in the and , 2023 issues of the Salmon Arm Observer;

AND WHEREAS the said Public Hearing was duly held at the time and place above mentioned;

NOW THEREFORE the Council of the City of Salmon Arm in open meeting assembled enacts as follows:

- 1. "District of Salmon Arm Zoning Bylaw No. 2303" is hereby amended as follows:
 - a) Section 2.2 Definitions Secondary Suite e) and f) to read:
 - e) Must be located within a building or portion of a building of residential occupancy; and
 - f) Must be located within a building or portion of building where both dwelling units constitute a single real estate entity.
 - b) Amend the R-5 Zone Section 10.3.13 to add "Secondary Suite" as a permitted use.

2. SEVERABILITY

If any part, section, sub-section, clause of this bylaw for any reason is held to be invalid by the decisions of a Court of competent jurisdiction, the invalid portion shall be severed and the decisions that it is invalid shall not affect the validity of the remaining portions of this bylaw.

3. ENACTMENT

Any enactment referred to herein is a reference to an enactment of British Columbia and regulations thereto as amended, revised, consolidated or replaced from time to time.

4. EFFECTIVE DATE

CORPORATE OFFICER

| This bylaw shall come into full force and e | effect upon adoption of same. |

Item 10.2

CITY OF SALMON ARM

Date: June 12, 2023

Moved: Councillor

Seconded: Councillor

THAT: the Bylaw entitled City of Salmon Arm Zoning Amendment Bylaw No. 4590 be read a first and second time.

[ZON-1269; City of Salmon Arm; Text Amendment; Accessible Parking Regulations]

CITY OF SALMONARM

To:

His Worship Mayor Harrison and Members of Council

Date:

May 25, 2023

Subject:

Zoning Bylaw Amendment Application No. 1269

Accessible Parking Regulations

STAFF RECOMMENDATION

THAT:

A bylaw be prepared for Council's consideration, amending Zoning Bylaw No. 2303, as follows, by adding:

i) To Section 2.0 Definitions, after "Accessory Use" and before "Accommodation Unit", the following:

Accessible Car Space means a car parking space designated for individuals with mobility limitations, who hold a valid accessible parking permit.

Accessible Van Space means a parking space designated for those with mobility issues designed to allow room for people to load or unload a wheelchair, scooter, walker or similar device that is used to transport a person who has limited ability and hold a valid accessible parking permit.

Accessible Parking Stall means either an Accessible Car Space or an Accessible Van Space.

ii) After Section 11 of Appendix I: Off - Street Parking and Loading, the following:

12. Accessible Parking Stalls

- .1 Accessible Car Spaces are a minimum of 5.8m depth x 2.4m width. Accessible Van Spaces are a minimum of 5.8m depth x 3.3m width, with an additional minimum aisle width of 1.5m. The additional aisle may be shared between neighbouring Accessible Van Spaces.
- .2 Accessible Parking Stalls must be:
 - (a) clearly identified by both paint markings on the parking space and a freestanding Sign in front of the space that is not less than 1.2 m above ground measured to the bottom of the Sign and incorporating the international symbol of accessibility for persons with disabilities. Accessible Van Spaces signage shall also include the words "van accessible";
 - (b) treated with a firm and slip-resistant surface;
 - (c) provided with a curb letdown from the shared access aisle to any raised pedestrian sidewalk that provides connectivity to the Building;

- (d) constructed with a slope not exceeding 2%; and
- (e) marked with high-colour-contrast diagonal pavement lines on the access aisle
- .3 Of the required stalls for all permitted uses, the minimum number of Accessible Parking Stalls shall be provided in accordance with the following table:

| Total Number of Parking Spaces required | Total Number of Accessible Parking Stalls to be Provided | Accessible Car Spaces to be provided | Accessible Van spaces to be provided |
|--|--|--|--------------------------------------|
| 0-5 | 0 | 0 | 0 |
| 6-25 | 1 | 1 | 0 |
| 26-50 | 3 | 2 | 1 |
| 51-100 | 4 | 3 | 1 |
| 100+ | 6 | 4 | 2 |

- .4 Should Accessible Parking Stalls be provided that are in addition to those in Section 12.3 then those Accessible Parking Stalls must be in addition to the required number of parking stalls.
- .5 Parking facilities that are used exclusively for buses, trucks, delivery vehicles, law enforcement vehicles, and vehicular impound are not required to include accessible spaces. However, if such lots are accessed by the public (e.g., impounded vehicle retrieval), one (1) Accessible Parking Stall is to be provided.

PURPOSE

To introduce Zoning Bylaw text amendments that would add accessible parking regulations into the Zoning Bylaw, in order to have enforceable minimum standards.

BACKGROUND

Prior to 2018 accessible parking regulations were addressed by the BC Building Code. However, with revisions to the BC Building Code, the specific parking regulations were removed. This was viewed as a way in which to harmonize the BC Building Code with the National Building Codes and standards. Prior to the Code changes in 2018, the Province communicated with local governments that the accessible parking regulations would be removed from the Code and if communities desired accessible parking regulations then those requirements would have to be included in the Zoning Bylaw (see Appendix 1). Under the previous regulations (BC Building Code requirements) if more than 50 parking spaces were required for a development, one of every 100 stalls had to be accessible with a minimum width of 3.7m. The City of Salmon Arm did not make the recommended changes to the Zoning Bylaw at that time. There are no current regulations governing accessible parking stalls.

In formulating the proposed amendments, staff researched information published by the Province and regulations of other communities. In 2020, the BC Office of Housing and Construction Standards published the *Building Accessibility Handbook*, an illustrated supplement to the BC Building Code. The *Building Accessibility Handbook* offers recommendations for accessible car spaces, location and signage (Appendix 2). The proposed amendments align with those recommendations in the *Building Accessibility Handbook*.

Staff also researched the accessible parking regulations for Kamloops, Kelowna, Vernon, Nelson and Victoria in an effort to find a consistent format or rationale to formulate a parking schedule. Each community bylaw considers the same general factors, including - number of car spaces, number of van spaces, dimensions of stalls, surfacing and identification of the stalls, and access to building. However, each community has a slightly different formula for the number of required stalls. The following table is a summary of accessible parking space requirements compared to the proposed accessible parking space scale.

Table 1. Community Comparison: Number of Required Accessible Parking Stalls

| | Total Spaces Required: 0-5 Stalls (#of Accessible Car Space / # Accessible Van Spaces required) | Number of Total Spaces Required: 6-25 (#of Accessible Car Space / # Accessible Van Spaces required) | Number of Total Spaces Required: 26-50 (#of Accessible Car Space / # Accessible Van Spaces required) | Number of Total Spaces Required: 51-100 (#of Accessible Car Space / # Accessible Van Spaces required) | Number of Total Spaces Required: +100 (#of Accessible Car Space / # Accessible Van Spaces required) |
|-----------|---|--|---|--|---|
| Kelowna | 0/0 | 1/0 | 2-3/1 | 3/1 | Increases 1 stall per 100 stalls/2 |
| Kamloops* | 0/* | 1/* | 2/* | 3-4/* | 5-8 stalls until +200 then 2% of overall spaces |
| Nelson◆ | 1/0 | 2/0 | 3/0 | 4/0 | Increases 1 stall for every 15 additional stalls |
| Victoria+ | 0 | 0/1 | 1/1 | 2-3/1 | 1 for every 25 stalls/scaled to increase as accessible car spaces increases |

^{*}At least 50% of accessible spaces provided must be van accessible.

The proposed bylaw amendments touch on each of the above mentioned factors found in parking regulations of other municipalities as well as the Building Accessibility Handbook - stall type, stall dimensions, stall identification and design. It should be noted that the accessible parking spaces, as proposed, are not in addition to the required number of spaces, the accessible spaces are to be provided within the required total number of spaces. This aligns with the formulas of other communities mentioned previously. For example, if a development required 150 parking stalls, then four of those stalls would have to be accessible car spaces and three would have to be accessible van spaces for a total of seven spaces within the 150 overall parking space count.

The proposed changes to the Zoning Bylaw would provide consistency to development, in particular multifamily and commercial development. Effectively, the proposed amendments increase the required number of spaces from one of every 100 stalls to five (three accessible car stalls, 2 accessible van stalls) in 100 stalls and include location and signage details not required under the current regulations. The proposed amendments align more consistently with the current provincial guidelines and the regulations of other communities. Further, the proposed amendments account for increased demand of accessible parking that comes with population growth and the more inclusive design of buildings, infrastructure and amenities.

No. B18-09 December 17, 2018

Regulatory Changes to Accessible Parking Requirements

The purpose of this bulletin is to provide information about the removal of historical accessible parking requirements from the BC Building Code and resources to support local governments in regulating accessible parking in their bylaws.

Legislation

Part 14 of the *Local Government Act* [RSBC 2015] enables local governments and the Islands Trust to make decisions on planning and land use within their jurisdiction. Section 525 of the *Local Government Act* provides local governments with the authority to establish off-street parking requirements, including specific design standards for accessible parking.

The *Building Act* [SBC 2015] establishes the Province as the primary authority to establish building requirements. The *Building Act* was adopted to support consistency in the building regulatory system by eliminating the patchwork of building requirements that varied across the province. At the same time, the Province recognized that the need for consistency must be balanced with flexibility in order for local governments to meet specific community needs. Section 5 of the *Building Act* allows for such flexibility by providing local governments the authority to establish building requirements for matters identified as unrestricted by regulation.

There are two reasons for which a matter may be unrestricted under Section 5 of the Building Act:

- The matter is subject to a particular location or unique circumstance; therefore, the local government is best positioned to set the requirements; or
- A local government aims to achieve an objective under an existing statutory authority and the enacted building requirement is necessary to achieve that objective.

Background

In February 2016, the Province approved accessible parking spaces as an unrestricted matter under the *Building Act*, for which local governments could retain or establish their own requirements in bylaws. The Building and Safety Standards Branch distributed an information bulletin titled Building Act: Update for Local Governments to support local governments.

The Building and Safety Standards Branch consulted with stakeholders about accessibility requirements in the BC Building Code in February 2018. The consultation feedback on parking generally indicated that the BC Building Code's historical parking requirements were insufficient.

To address the regulatory overlap between the BC Building Code and municipal bylaws and in support of harmonizing the BC Building Code with the National Code, accessible parking provisions are not included in the BC Building Code 2018, which became effective December 10, 2018.

Building and Safety Standards Branch
PO Box 9844 Stn Prov Govt
Victoria BC V8W 9T2
Email: building safety@gov bc ca

Email: <u>building.safety@gov.bc.ca</u>
Website: <u>www.gov.bc.ca/buildingcodes</u>

Regulatory Change

The BC Building Code 2018 is harmonized with the National Building Code 2015, which does not include requirements for accessible parking spaces.

While previous editions of the BC Building Code did provide the minimum requirements for accessible parking in instances where off-street parking was either required by local government bylaw or provided voluntarily by the building owner, the regulatory overlap between the *Local Government Act* and the BC Building Code had the potential to cause confusion regarding which requirements should be followed. Removing historical accessible parking requirements from the BC Building Code 2018 clarifies that local governments are best suited to regulate accessible parking spaces according to their communities' needs. Local governments that do not already have their own accessible parking requirements in their bylaws may wish to consider amending their bylaws to incorporate accessible parking requirements.

The BC Building Code 2018 requires a greater level of building accessibility by combining the requirements of the National Building Code 2015 with BC's historical requirements. In aligning more closely with the National Building Code, the BC Building Code achieves greater consistency not only with the National Building Code, but also with codes from other Canadian jurisdictions.

Resources

Several resources are available to support enhancing accessible parking, as outlined below.

The <u>Accessible Design for the Built Environment standard</u> (CSA B651-18) provides guidance on accessible parking standards. Local governments who do not already regulate accessible parking may adopt these standards or establish requirements that work best for their communities.

The City of Ottawa developed <u>Accessibility Design Standards</u> to support the design of accessible on and off-street parking.

The <u>Accessibility for Ontarians with Disabilities Act</u>: Integrated Accessibility Standards includes requirements governing the design of public spaces in the built environment.

The Social Planning and Research Council, with input from various communities, developed an <u>Accessible Community Bylaw Guide</u>. For a sample Model Accessible Parking Bylaw, please review pages 72-25.

British Columbia Building Code 2018

Although accessible parking is no longer regulated by the BC Building Code, guidance to support local governments to establish accessible parking requirements in their bylaws is available in the Notes of the BC Building Code.

Building and Safety Standards Branch

Email: <u>building.safety@gov.bc.ca</u>
Website: <u>www.gov.bc.ca/buildingcodes</u>

Implications

Local governments that do not already have accessible parking requirements in their bylaws may wish to develop requirements that meet the specific needs of their communities. Bylaws with existing accessible parking requirements will continue to apply without overlap with the BC Building Code.

Local governments are best positioned to set accessible parking requirements based on the demographics, types of buildings developed, and the specific needs of their communities.

Communities without specific bylaw provisions will be unable to enforce minimum standards for accessible parking after December 10, 2018.

| Scheme | BC Building Code 2012 | BC Building Code 2018 | |
|--|--|---|--|
| Local Government Bylaw with Accessible Parking Requirement | Local bylaw applies. Building owners must provide the minimum number of accessible parking spaces in the BC Building Code or, if accessible spaces are required in the local bylaw, the minimum number of accessible spaces in the bylaw. | Local bylaw applies. | |
| | Building owners must comply with which ever requirement is greater. | | |
| Local Government Bylaw without Accessible Parking Requirement | Where parking is required by local government, or parking is provided voluntarily by the building owner, building owners are required to comply with the minimum accessibility requirements in the BC Building Code. | The 2012 accessibility requirements are provided in the Notes of the 2018 BC Building Code. Local governments can amend their bylaw to reproduce these requirements or to include their own. In the absence of accessible parking requirements in bylaws, local governments will be unable to enforce minimum standards for accessible parking. | |
| Code Provisions | One of every 100 spaces must be accessible when 50 or more spaces are provided. Minimum width of 3.7m required. | Guidance provided in the Notes of the BC Building Code. | |

The contents of this Bulletin are not intended to be provided as legal advice and should not be relied upon as legal advice. For further information, contact the Building and Safety Standards Branch.

For more information about the changes to accessibility requirements, please see technical bulletin 18-05: Accessibility in the British Columbia Building Code 2018.

Intent: To exempt certain areas of buildings

from the requirements of Sentence 3.8.2.3.(1),

which would otherwise require an accessible path of travel, on the basis that it is impractical

and onerous to provide access to and from

- 2) Except as required by Sentence (3), access is not required
- a) to service rooms.
- b) to elevator machine rooms,
- c) to janitor's rooms,
- d) to service spaces,
- e) to crawl spaces,
- f) to attic or roof spaces,
- g) reserved,
- h) reserved,
- i) within portions of a *floor area* with fixed seats in an *assembly occupancy* where those portions are not part of the *accessible* path of travel to spaces designated for wheelchair use,
- j) within floor levels of a suite of residential occupancy that are not at the same level as the entry level to the suite,
- k) reserved, or
- within those parts of a floor area that are not at the same level as the entry level, provided <u>facilities</u> and uses provided on any raised or sunken level are also <u>accessible</u> on the entry level.
- **3)** In an *assembly occupancy*, the number of spaces designated for wheelchair use within rooms or areas with fixed seats shall conform to Table 3.8.2.3. (See also Article 3.8.3.21. for additional requirements.)

same level as the entry level

Attributions [F74-OA2]

these areas.

Intent: To limit the probability of an insufficient number of spaces for manual wheelchairs, which could lead to people who use manual wheelchairs being excluded from certain rooms and areas.

Table 3.8.2.3.

Designated Wheelchair Spaces
Forming Part of Sentence 3.8.2.3.(3)

| Number of Fixed Seats in Seating Area | Number of Spaces Required for Wheelchairs | | |
|---------------------------------------|---|--|--|
| 50 and under | 2 | | |
| <u>51 – 150</u> | 4 | | |
| <u>151 – 300</u> | 5 | | |
| <u>3</u> 01 – 500 | 6 | | |
| 501 – <u>5</u> 00 <u>0</u> | 6, plus one additional space for each increment of up to 150 in excess of 501 fixed seats | | |
| 5 001 and over | 36, plus one additional space for each increment of up to 200 in excess of 5 001 fixed seat | | |

The 2018 edition of the British Columbia Building Code has increased the ratio for required accessible viewing spaces.

3.8.2.4. Path of Travel to Storeys Served by Escalators and Moving Walks

1) In a *building* in which an escalator or inclined moving walk provides access to any floor level above or below the entrance floor level, an interior *accessible* path of travel shall also be provided to <u>those</u> floor levels. (See Note A-3.8.2.4.(1).)

A-3.8.2.4.(1) Path of Travel to Storeys Served by Escalators and Moving Walks.

In some buildings, escalators and inclined moving walks are installed to provide transportation from one floor level to another floor level so as to increase the capacity to move large numbers of persons. Some buildings located on a sloping site are accessible from street level on more than one storey and an escalator or inclined moving walk is provided for internal movement from floor to floor. In both these situations, a person with a physical disability must be provided with an equally convenient means of moving between the same floor levels within the building. This can be accomplished by providing elevators or a platform-equipped passenger-elevating device.

2) The route from the escalator or inclined moving walk to the *accessible* path of travel that leads from floor to floor as required by Sentence (1) shall be clearly indicated by appropriate signs. (See also Article 3.8.2.10.)

3.8.2.5. Path of Travel to Parking Areas and Passenger-Loading Zones

(See Note A-3.8.2.5.)

Attributions [F73-OA1]

Intent: To limit the probability that people using a manual wheelchair or other manual mobility assistance device will not be able to move about within a building without the assistance of another person.

Attributions [F73-OA1]

Intent: To limit the probability that people using a manual wheelchair or other manual mobility assistance device will not be able to find the way to an accessible path of travel in the building.

- A-3.8.2.5. Parking Areas. In localities where local regulations or bylaws do not govern the provision of or dimensions of accessible parking spaces, the following provides guidance to determine appropriate provisions. If more than 50 parking spaces are provided, parking spaces for use by persons with physical disabilities should be provided in the ratio of one for every 100 parking spaces or part thereof. Where parking spaces are provided, parking spaces for use by persons with physical disabilities should also be provided for each accessible viewing position and for each accessible sleeping room or bed space. Parking spaces for use by persons with physical disabilities should
- (1) be not less than 2 400 mm wide and provided on one side with an access aisle not less than 1 500 mm wide,
- (2) have a firm, slip-resistant and level surface,
- (3) be located close to an entrance required to conform to Article 3.8.2.2.,
- (4) be clearly marked as being for the use of persons with physical disabilities, and
- (5) be identified by a sign located not less than 1 500 mm above ground level, with the International Symbol of Access (Figure A-3.8.2.5.-A).

Section 3.8. Accessibility

Figure A-3.8.2.5.-A
"International Symbol of Access" sign

A general guide for the slip resistance of materials is provided in the Appendix of this handbook.

Asphalt, concrete and firm, compacted gravel are acceptable parking surfaces. Curb ramps should be not less than 1500 mm wide. Parallel parking spaces should be not less than 7000 mm long. If more than one parking space is provided for persons with physical disabilities, a single access aisle can serve two

adjacent parking spaces. The arrangement shown in Figure A-3.8.2.5.-B allows the shared use of an access aisle to serve two adjacent parking spaces provided for use by persons with physical disabilities. Parking to accommodate vans and other vehicles equipped with platform lifts or side ramps should be provided greater dedicated space. The design of the path of travel should accommodate loading to and from lifts and ramps, where intended. Vertical clearance must also be considered.

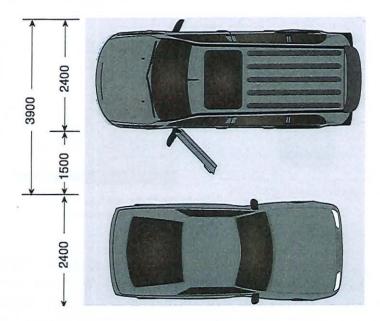

Figure A-3.8.2.5.-B Shared access aisle

The access aisle may serve more than one parking stall and should have the same level surface as the parking stalls it serves. Consider the movement around doors and ramps so that there is enough space and it is not necessary to travel behind other cars or be in a position where it is difficult to be seen by other drivers. Figure 3.8.2.5. shows a shared aisle serving two stalls. The CSA B651, Accessible Design for the Built Environment standard is another source of information for accessible parking stall quantities and design.

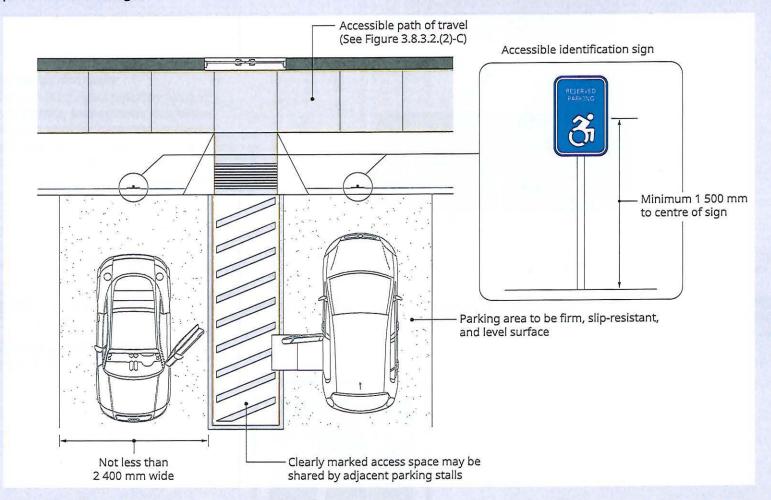

Figure 3.8.2.5.
Parking stall access aisles

1) An accessible path of travel shall be provided between parking stalls for persons with disabilities and an accessible entrance referred to in Article 3.8.2.2. (See Note A-3.8.2.5.(1).)

A-3.8.2.5.(1) Path of Travel to Parking. It is not intended that a separate accessible entrance must be provided from the parking area. The designer may choose to designate the entrance leading to the parking area as the required entrance or to provide a properly identified and unobstructed path of travel from the parking area to the entrance which is accessible. The entrance chosen should, in any case, be the closest entrance to the parking area and one normally used by the occupants of the building. Long paths of travel are not recommended.

- 2) Where a passenger-elevating device serves one or more indoor parking levels, an *accessible* path of travel shall be provided between <u>each</u> parking level <u>containing stalls for persons with disabilities</u> and all other parts of the *building* required to be *accessible* in accordance with Subsection 3.8.3.
- 3) Passenger-loading zones shall comply with Subsection 3.8.3. and be provided with an *accessible* path of travel to an *accessible* entrance referred to in Article 3.8.2.2.

Attributions [F73-OA1]

Intent: To limit the probability that people using a manual wheelchair or other manual mobility assistance device will not be able to travel between exterior parking spaces and a building entrance without the assistance of another person.

Attributions [F73-OA1]

Intent: To limit the probability that people using a manual wheelchair or other manual mobility assistance device will not be able to travel between indoor parking spaces and a building entrance without the assistance of another person.

Attributions [F73-OA1]

Intent: To state the application of Subsection 3.8.3. regarding exterior passenger-loading zones.

Where there are several buildings with parking areas or passenger-loading zones, parking stalls and loading zones should be designed and located to accommodate access to all buildings by people with disabilities and close to an accessible entrance.

The design should leave adequate space for side- and rear-loading vehicles.

It is recommended that the number of parking stalls be calculated to suit specific needs. Some buildings such as medical clinics may need more accessible parking stalls than other buildings.

3.8.2.6. Controls and Outlets

1) Except as provided in Sentence 3.5.2.1.(3), controls for the operation of *building* services or safety devices, including electrical switches, thermostats, faucets, door and window hardware and intercom switches, that are intended to be operated by the occupant and are located in an *accessible floor area* shall comply with Subsection 3.8.3. (See Note A-3.8.2.6.(1).)

Attributions [F74-OA2]

Intent: To state the application of Subsection 3.8.3. regarding controls.

Intent: To direct Code users to Sentence 3.5.2.1.(3) for the requirement regarding controls in passenger elevators.

CITY OF SALMON ARM

BYLAW NO. 4590

A bylaw to amend "District of Salmon Arm Zoning Bylaw No. 2303"

WHEREAS notice of a Public Hearing to be held by the Council of the City of Salmon Arm in the Council Chambers at City Hall, 500 – 2 Avenue NE, Salmon Arm, British Columbia and by electronic means, on June 26, 2023 at the hour of 7:00 p.m. was published in the and , 2023 issues of the Salmon Arm Observer;

AND WHEREAS the said Public Hearing was duly held at the time and place above mentioned;

NOW THEREFORE the Council of the City of Salmon Arm in open meeting assembled enacts as follows:

- 1. "District of Salmon Arm Zoning Bylaw No. 2303" is hereby amended by adding:
 - To Section 2.0 Definitions, after "Accessory Use" and before "Accommodation Unit", the following:

Accessible Car Space means a car parking space designated for individuals with mobility limitations, who hold a valid accessible parking permit.

Accessible Van Space means a parking space designated for those with mobility issues designed to allow room for people to load or unload a wheelchair, scooter, walker or similar device that is used to transport a person who has limited ability and hold a valid accessible parking permit.

Accessible Parking Stall means either an Accessible Car Space or an Accessible Van Space.

- ii) After Section 11 of Appendix I: Off Street Parking and Loading, the following:
 - 12. Accessible Parking Stalls
 - .1 Accessible Car Spaces are a minimum of 5.8m depth x 2.4m width. Accessible Van Spaces are a minimum of 5.8m depth x 3.3m width, with an additional minimum aisle width of 1.5m. The additional aisle may be shared between neighbouring Accessible Van Spaces.
 - .2 Accessible Parking Stalls must be:

- (a) clearly identified by both paint markings on the parking space and a freestanding Sign in front of the space that is not less than 1.2m above ground measured to the bottom of the Sign and incorporating the international symbol of accessibility for persons with disabilities. Accessible Van Spaces signage shall also include the words "van accessible";
- (b) treated with a firm and slip-resistant surface;
- (c) provided with a curb letdown from the shared access aisle to any raised pedestrian sidewalk that provides connectivity to the Building;
- (d) constructed with a slope not exceeding 2%; and
- (e) marked with high-colour-contrast diagonal pavement lines on the access aisle
- .3 Of the required stalls for all permitted uses, the minimum number of Accessible Parking Stalls shall be provided in accordance with the following table:

| Total | Total Number of | Accessible | Accessible Van |
|-----------|-----------------------|---------------|----------------|
| Number of | Accessible Parking | Car Spaces to | spaces to be |
| Parking | Stalls to be Provided | be provided | provided |
| Spaces | | | |
| required | | | |
| 0-5 | 0 | 0 | 0 |
| 6-25 | 1 | 1 | 0 |
| 26-50 | 3 | 2 | 1 |
| 51-100 | 4 | 3 | 1 |
| 100+ | 6 | 4 | 2 |

- .4 Should Accessible Parking Stalls be provided that are in addition to those in Section 12.3 then those Accessible Parking Stalls must be in addition to the required number of parking stalls.
- .5 Parking facilities that are used exclusively for buses, trucks, delivery vehicles, law enforcement vehicles, and vehicular impound are not required to include accessible spaces. However, if such lots are accessed by the public (e.g., impounded vehicle retrieval), one (1) Accessible Parking Stall is to be provided.

2. SEVERABILITY

If any part, section, sub-section, clause of this bylaw for any reason is held to be invalid by the decisions of a Court of competent jurisdiction, the invalid portion shall be severed and the decisions that it is invalid shall not affect the validity of the remaining portions of this bylaw.

3. ENACTMENT

Any enactment referred to herein is a reference to an enactment of British Columbia and regulations thereto as amended, revised, consolidated or replaced from time to time.

4. EFFECTIVE DATE

This bylaw shall come into full force and effect upon adoption of same.

5. CITATION

This bylaw may be cited as "City of Salmon Arm Zoning Amendment Bylaw No. 4590"

Item 10.3

CITY OF SALMON ARM

Date: June 12, 2023

Moved: Councillor

Seconded: Councillor

THAT: the Bylaw entitled City of Salmon Arm Fee for Service Amendment Bylaw No. 4592 be read a first, second and third time.

[Parking Violations]

P10city of SALMONARM

TO:

His Worship Mayor Harrison and Council

DATE:

May 30, 2023

SUBJECT:

Amendment to Fee for Service Bylaw No.2498

RECOMMENDATION:

THAT:

Fee for Service Bylaw No. 2498 be amended as follows:

Line Item 3 of Appendix 3 in Schedule B be replaced with

| • | Parking Violations (Bylaw No. 3668) | |
|----|-------------------------------------|---------|
| 3. | All Parking Violations | \$50.00 |
| | If paid within 2 days | \$25.00 |

AND THAT:

Line Item 5. of Appendix 3 in Schedule B be amended to delete the reference to Marine Park NE Parking Lot.

BACKGROUND:

Through amending Bylaw 4522, City Council recently amended the parking fees for the metered downtown streets and parking lots. The rate moved from .25 cents an hour to \$1.00 per hour. The streets and parking lots in the downtown which are not metered have provision for 1 or 2 hour free parking. The current fine for violations to the parking regulations is \$35.00, which may be reduced to \$10.00 if paid within 2 days.

Since the implementation of the parking fee increase it seems the use of the Inner Core parking lot has declined substantially. It is suspected that some of the inner core users may now be parking on the street for extended periods of time, which is causing some problem for the downtown merchants who need those parking spaces for customers. It is also apparent that the \$10.00 penalty if paid within two days is so low that there is no incentive to pay for parking on an hourly basis. The Downtown Parking Commission discussed this matter at their meeting of May 16, 2023 and, with the intended goal of discouraging the parking abuses, unanimously passed a motion to forward to Council the recommendation to raise parking fines to \$50.00, which may be reduced to \$25.00 if paid within 2 days.

With regard to the Marine Park Parking Lot, the parking fees currently indicated in the Fee for Service Bylaw have the parking fee set at \$4.00 per day for a regular stall or \$6.00 a day for a motor home or truck and trailer stall. As noted above, the parking rate was increased from .25 per hour to \$1.00 per hour, including the pay by plate machine serving the Marine Park lot. This housekeeping amendment is to simply delete the outdated daily parking reference in the bylaw.

CITY OF SALMON ARM

BYLAW NO. 4592

A bylaw to amend "District of Salmon Arm Fee for Service Bylaw No. 2498"

WHEREAS, it is deemed desirable and expedient to alter the fees imposed by "District of Salmon Arm Fee for Service Bylaw No. 2498";

NOW THEREFORE the Council of the City of Salmon Arm, in open meeting assembled enacts as follows:

1. Schedule "B" -

a) Sentence 3. of Appendix 3 in Schedule B:

| [| | Parking Violations | |
|---|----|------------------------|---------|
| Ì | 3. | All Parking Violations | \$35.00 |
| ļ | | If paid within 2 days | \$10.00 |

be replaced with:

| | Parking Violations | |
|----|------------------------|---------|
| 3. | All Parking Violations | \$50.00 |
| | If paid within 2 days | \$25.00 |

b) Sentence 5. of Appendix 3 in Schedule B be amended by deleting the reference to "Marine Park NE Parking Lot" in its entirety.

SEVERABILITY

2. If any portion of this Bylaw is held invalid by a Court of competent jurisdiction, then that invalid portion shall be severed and the remainder of this Bylaw shall be deemed to have been adopted without the severed portion.

ENACTMENTS

3. Any enactments referred to herein is a reference to an enactment of British Columbia and regulations thereto, as amended, revised, consolidated or replaced from time to time.

EFFECTIVE DATE

This Bylaw shall come into full force and effect upon adoption of same.

CITATION

5. This Bylaw may be cited as the "City of Salmon Arm Fee for Service Amendment Bylaw No. 4592".

CITY OF SALMON ARM

Date: June 12, 2023

Moved: Councillor

Seconded: Councillor

THAT: the Bylaw entitled City of Salmon Arm Subdivision and Development Servicing Bylaw No. 4293 be read a first and second time.

City of Salmon Arm Memorandum from the Engineering and Public Works Department

TO:

His Worship the Mayor and Members of Council

FROM:

Robert Niewenhuizen, Director of Engineering and Public Works

PREPARED BY:

Jenn Wilson, Service Delivery Management Coordinator

DATE:

June 5, 2023

SUBJECT:

SUBDIVISION AND DEVELOPMENT SERVICING BYLAW UPDATE

RECOMMENDATION:

THAT:

The Subdivision and Development Servicing Bylaw No. 4293 be read a first and

second time.

AND THAT:

The Subdivision and Development Servicing Bylaw No. 4163 be repealed upon

final reading of the Subdivision and Development Servicing Bylaw No. 4293

The Subdivision and Development Servicing Bylaw No. 4163 was adopted by Council on October 11, 2016. Since then, the Engineering Department staff have been collecting 'housekeeping' updates and recommendations for updates through master planning documents. Staff have completed a draft update and completed a thorough review of the City's Subdivision and Development Servicing Bylaw No. 4163 against current best practices. The review process has resulted in a final draft of a new bylaw intended to be streamlined, modernized, user friendly, legally sound and consistent with updated master plans.

The previous bylaw update was significant and included several rounds of consultation with local engineers and developers as well as a thorough legal review. The proposed changes in this update are generally minor in nature, as such a legal review and consultation with external stakeholders is not recommended by staff.

The most significant changes incorporate recommendations from the City's Stormwater Master Plan (ISL Engineering, 2020) and the City's Active Transportation Plan (Urban Systems, 2022) into Schedule B, Part 1 and 2, Design Criteria and Standard Drawings.

Staff carefully considered all master plan recommendations and opted not to include all recommendations during this revision cycle. Generally, these recommendations would require either a significant service level change or broader multi-departmental coordination.

The key changes to the documents are listed below.

Bylaw:

- Revision of definition of 'Low Density Residential to be consistent with the Official Community Plan definition.
- Addition of a 12m Urban Single Lane Hillside road cross-section (first introduced in the Park Hill development).
- Addition of bike lane or paved shoulder requirements on rural roads where indicated by the Official Community Plan.
- Removal of 'Fire Hydrants' from the list of works and services exempt for infill developments. Note: if density increases, fire hydrant gaps should be filled.

Design Criteria:

- Addition of information regarding Engineers and Geoscientists BC (EGBC) Firm Permit to Practice requirements.
- Addition of Illumination plans and Individual Lot Grading plans to design drawing submission set requirements
- Addition of a reference to BC Active Transportation (BCAT) Design Guide as best practices for AT design as well as to new/revised standard drawings
- Addition of Multi-use Path design specifications
- Addition of a maximum driveway width for residential and commercial properties, allowing wider driveways on wider lots, to a maximum of 8m and 10m respectively.
- Addition of recommendations for the City Stormwater Master Plan including:
 - Requirement to include considerations for the impact of Climate Change and a 10% increase to design flows, at minimum
 - Addition of enhanced recommendations for infiltration systems, specifically addressing risk management
 - A set run-off rate based on a basin wide calculation for flows entering into sensitive ecosystems
 - o A requirement for all culverts to accommodate the 100-year flood events
 - Updates to the run-off and roughness coefficients and Intensity-Duration-Frequency (IDF) curves
- Clarification on street lighting specifications
- Addition of a bee and drought friendly boulevard seed mix

Drawings:

- Update of CGS-8 Trail Type 1 (Multi-use Path) to meet AT Master Plan recommendation (BCAT best practices) of 3-4m width.
- Update of CGS-9 Trail Type 2 to meet AT Master Plan recommendation (BCAT best practices) of 2-3m width.
- Update RD-3 Urban Collector Road Cross-Section to meet BCAT best practices including the addition of an offset multi-use path (MUP) on one side of the roadway and removal of the bike lanes.
- Update of RD-9 Rural Arterial Road Cross-Section to meet BCAT best practices for rural roads with a widened paved shoulder of 2.5m or an offset MUP where right of way (ROW) and topography permit.
- Update of RD-8 Rural Collector Road Cross-Section to meet BCAT best practices for rural roads with a widened paved shoulder of 2.0m or an offset MUP where ROW and topography permit.

- Update of RD-7 Rural Local Road Cross-Section to improve AT capacity of rural roads with a widened gravel shoulder of 1.5m or an offset MUP.
- Update of RD-6A Industrial Area Road Cross-Section to improve AT capacity of industrial roads with a widened gravel shoulder of 1.5m or an offset MUP.
- Update of RD-6B New Industrial Park Cross-Section to improve AT capacity of industrial roads with inclusion of a 2.0m offset MUP.
- Update of CGS-5 Sidewalk Crossing at Driveway Entrance to the BCAT best practices.
- Update of CGS-6 Wheelchair Sidewalk Ramp to the BCAT best practices including tactile attention indicators in high use areas.
- Additional of drawings RD-11A Temporary 20m Cul-de-sac and RD-11B Temporary Lane Cul-de-sac.
- Update of ST-7 IDF curve to most recent Environment Canada Data.
- All drawings are sealed per Engineers and Geoscientists British Columbia (EGBC) requirements.

Construction Specifications

- Addition of MMCD Supplemental Specifications for Horizontal Direction Drilling
- Addition of MMCD Supplemental Specifications for Sanitary Pipe Lining

Construction Specifications:

EXECUTIVE SUMMARY

Stigma towards people experiencing poverty has a negative impact on their ability to access services and seek support. The Salmon Arm Poverty Reduction, De-Stigmatization, and Awareness Campaign was developed to improve social outcomes in the community by increasing service awareness and reducing stigma. The goal was both to highlight the many community organizations who are ready to help as well as ensure that people feel safe accessing those services.

Originally, project partners proposed a social media or advertising campaign to share information about services and bust myths around poverty. Ultimately, project partners co-created a pilot-and-test approach where tactics relied more heavily on building relationships and engaging community members in important conversations about stigma. The resulting campaign was a by-Salmon Arm, for-Salmon Arm project. It became a collaborative effort of the City of Salmon Arm, Indigenous Rise Up, CMHA Shuswap-Revelstoke, the Social Impact Advisory Committee (SIAC), the Salmon Arm Observer, and the consultant team at Urban Matters CCC Ltd.

Over the course of four months, project partners came together to plan, develop, and promote content that showcased local services and organizations as well as the stories of everyday people who are experiencing poverty and stigma. Learning opportunities were also provided to the broader community in the form of workshops, where participants were able to deepen their understanding about the different factors of poverty and stigma.

Impact and Learnings

As a result, the campaign reached various important audience groups across the community. For example, tens of thousands of residents were reached through articles written in the Salmon Arm Observer. This is a testament to the power of telling a good story, but also the interest the community has in this topic. Engagement measurements show high levels of engagement with the articles, something that is difficult to achieve.

The community at large was also engaged through a workshop series. Though these workshops reached a smaller group of individuals, passion and engagement were high. A common question from participants was, "What can we do next?" Whether it was looking for ways to tell their story, or seeking places to volunteer or advocate, participants of the workshops and webinar were highly engaged and vested in the topic of anti-stigma. It is clear that there is a strong appetite for local initiatives that can help reduce poverty and improve community well-being among residents.

Additionally, dedicated anti-stigma workshops were held for people with lived and living experiences. These had a particularly deep impact. Participants reported feeling inspired and engaged. They expressed feeling seen, heard, valued – and even experiencing healing of some past trauma. The workshop provided a learning opportunity for individuals to understand their own experiences and begin to express them, sparking conversations that have continued to take place beyond the workshops. Coupled with learning and education, the empowerment of people with lived and living experience form two key aspects that lead to meaningful social change.

Considerations for Next Steps

Moving forward, the City of Salmon Arm and Social Impact Advisory Committee can continue to work with community agencies to promote services in the community and support anti-stigma efforts. This could look like:

- Continuing to promote services such as BC 211 to increase service awareness and track social service referrals
- Exploring ways to support the creation of a volunteer network, a made in Salmon Arm solution to connect community members with open volunteer positions
- Launching a project that extends the concept of using personal storytelling to bust myths and stigma about poverty
- Continuing to work with community partners to write and publish stories that address stigma as well as promote opportunities to get involved in community events and initiatives

In any future initiatives that the City chooses to pursue, one thing is clear: Salmon Arm has strong community partners and champions who are committed to creating positive social change. They bring the local knowledge, trust, and collaboration needed to meaningfully engage the community, and possess the ability to inspire people to take action. Working with trusted community partners also helps to ensure sustainable social change as strong and committed partnerships are important for maintaining momentum, sustaining initiatives beyond short-term fixes, and ultimately, creating a more inclusive community.

Campaign Reach at a Glance

Salmon Arm Observer Feature Articles:

- 7 articles written by local media
- 4 feature pages published in the Salmon Arm Observer
- 32,106 users reached online through Facebook

BC 211 Service Utilization During Campaign:

 23 total contacts between January and April 2023

Workshop and Webinar Participation:

- 5 learning workshops offered
- 69 unique individuals attended

Background

The City of Salmon Arm is a diverse community with a range of social, demographic, cultural, and economic groups. A wide network of social support exists for its community members and the city serves as a central hub of services for the Columbia Shuswap region. However, misconceptions about poverty and homelessness exist in the community, which adversely affect social well-being and belonging.

Tension continues to rise between members of the public and those who are experiencing homelessness. Stigma and hate against individuals living in poverty have become commonplace on social media. Frustrated by the visible signs of homelessness and poverty, community members have pushed for more action by the City of Salmon Arm to address growing social issues.

At the same time, local assessments show that about 13 percent of the population in Salmon Arm is living in poverty, earning a median income of \$17,527 compared to the community-wide median of \$48,987. A 2021 Social Impact Assessment identified "lack of knowledge of available services" as the top barrier to people living in poverty from accessing services, meaning many of those who need support from social-serving organizations don't know where and how to access the services they need.

There is a strong reluctance among those living in poverty to reach out and access services due to fear of stigma and discrimination. For example, clients may register for coupon programs at community organizations but don't use them due to feelings of stigma and shame. The Social Impact Advisory Committee (SIAC) also recognized that there are many among the community who have hidden experiences of poverty. Many people struggle with meeting their basic needs, especially among seniors, newcomers and immigrants, and low-income families, though they may not be experiencing visible signs of poverty such as homelessness.

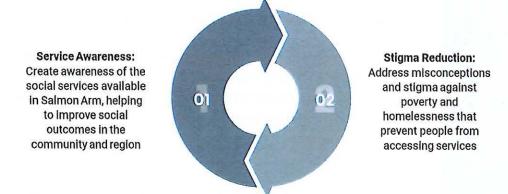

Seeing the need to address stigma around poverty and increase awareness about community services, the City of Salmon Arm and SIAC applied, and subsequently received, funding from the Union of BC Municipalities through the Poverty Reduction Planning and Action Grants to create and implement a community-wide poverty reduction campaign. Following a competitive bid process, Urban Matters CCC Ltd., was the consultant team hired to support the launch of this campaign.

"The City recognizes
that it can play a
valuable role in
convening different
parties to facilitate
solutions to complex
problems, although it
may not actually be
responsible for
providing services in
that area. Where
resources allow, the
City plans to continue
playing a role in this
way as needed."

– Social Wall-Being Roles and Responsibilities, City of Salmon Arm

The Campaign

The Salmon Arm Poverty Reduction, De-Stigmatization, and Awareness Campaign was developed to improve social outcomes in the community through two pathways: increasing service awareness and reducing stigma. The goal was both to highlight the many community organizations who are ready to help as well as ensure that people feel safe accessing those services.

After discussions with the SIAC, the campaign shifted from an initial idea of launching a social media campaign to one that focused on partnerships and building capacity within the community. The approach of seeking deliberate partners to create content, spread the word, and recruit participants resulted in innovative and unique strategies. The campaign featured a series of articles in the local newspaper, the Salmon Arm Observer, and a series of workshops with current or potential community champions. The result was a pilot project that used various key tactics to achieve the project goals.

Service Awareness

This work was aimed towards community members who are experiencing stigma and hidden poverty. These are individuals or families who are not currently in crisis but do not have adequate income or support to consistently meet their basic needs. It was hoped that by sharing information about local services and stories of what poverty looks like across the community, people would be encouraged to reflect on their own needs and access the services they need.

Tactics included:

- 1. Publish a series of bi-weekly features to showcase the work and impact of local service providers in partnership with the Salmon Arm Observer.
- 2. Promotion of BC 211, a free and confidential service that helps connect people to community resources.

Stigma Reduction

This aspect of the campaign was directed towards groups who may have the ability to influence narratives in the community and spark action, thereby gradually reducing stigma. For example, people with lived and living experience hold firsthand knowledge and experience of poverty and stigma. They would be able to identify key topics for public-facing messaging and if able, share their personal stories.

Tactics included:

- 1. Facilitate workshops for people with lived and living experience to learn about stigma and feel empowered to deliver their own anti-stigma initiatives for the community.
- 2. Delivery an informational webinar for the general community to learn about the complex nature of poverty and the ongoing stigma that people experience.
- 3. Deliver a dedicated workshop for community leaders and changemakers to gain a deeper understanding of poverty and reflect on how they may be able to better support those living in poverty through their everyday work and impact.

Campaign Timeline

| 2023 | January | February | March | April |

| Deliver community webinar and workshops | | | | |

Insights Gained

- Access to technology is a barrier for those experiencing poverty.
 Campaigns focused on reaching this target audience should utilize various platforms and both print and digital methods.
- » Social media comments show the community is generally receptive to grassroots, communityled solutions to address poverty. They are more likely to show distrust and frustration towards systems and institutions.
- » Content creation and social media management take time and effort. It is important to have a dedicated resource or partner who can play a central role in content creation, social media posting, and data collection.

CAMPAIGN DELIVERY

Storytelling in the Salmon Arm Observer

Stories are a powerful tool for communication. They can inspire and motivate us and help us make sense of the world around us. In this project, it was identified early on that storytelling would have an important role in addressing stigma and creating a sense of community. This led to a partnership with the Salmon Arm Observer, one of the community's main news media platforms.

In collaboration with the Observer's knowledgeable and engaged editorial team, a series of features were developed that focused on education and storytelling around poverty. For eight weeks, a feature page was included in the Observer on a biweekly basis. Each feature page contained profiles on local organizations and services as well as interviews with those who have lived or living experience with poverty, as well as an ad for BC 211 services (see next section).

Each feature page was dedicated to a specific topic. In total, there were four feature topics:

- 1. Poverty and stigma in Salmon Arm
- 2. Food security
- 3. Children and youth
- 4. Seniors

Online Reach

Collaboration and partnership with the Salmon Arm Observer resulted in meaningful outcomes and insights. Originally, four articles were planned for the biweekly feature pages. In total, seven articles were written by local journalist Martha Wickett with support from the Observer's editorial and publishing team.

After the articles were published in the print edition, they were posted on the Observer's Facebook page. In total, seven social media posts achieved a reach of 32,106 with an average post engagement rate of 9.5 percent. (Industry experts note that a good social media engagement rate on Facebook posts ranges between 1 to 5 percent, depending on the target audience, industry, and location.)¹

Definitions:

Comment – a response that is often provided as an answer or reaction to a blog post or message on a social network.

Engagement Rate – a metric used to describe the amount of interaction (e.g., likes, shares, comments) that a piece of content receives.

Reach – the number of people who saw a particular Facebook post from your Page.

Online Engagement

Four out of the seven articles garnered a total of 29 comments. Commentors noted that they found the stories and information helpful. Some engaged in further discussion to share insights and offer ideas for support.

While many praised the work and effort of individuals and community organizations, negative comments were directed towards systemic issues within public institutions. For example, community members noted difficulties in finding appropriate medical care and the lack of emergency physicians in the community. There were also comments regarding a lack of "budget" for seniors as well as limited housing options for seniors. One commentor also noted a perceived lack of action and intervention by City Council to provide an emergency shelter for those experiencing homelessness.

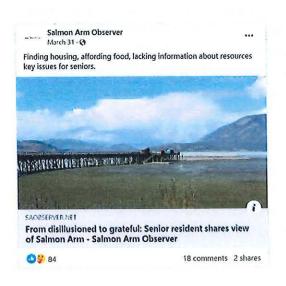

Though the quantity of comments is limited (29 in total), they indicated that people are generally receptive to community-led solutions and efforts to address poverty and are more likely to show frustration towards systems and institutions.

¹Sehl, Katie, and Shannon Tien. 2019. "6 Ways to Calculate Engagement Rate on Social Media." Hootsuite Social Media Management. April 10, 2019. https://blog.hootsuite.com/calculate-engagement-rate/.

Fortunately, there were no indications of hateful and stigmatizing language towards individuals experiencing poverty in any of the publicly visible comments related to the articles. It was originally noted by member organizations of the Social Impact Advisory Committee that hateful comments can be commonly found on local community pages. Throughout this campaign, project partners did not report receiving hateful comments and noted only positive reactions from their network and the community.

Medium of Communication

This service awareness campaign also leveraged both print news media as well as digital social media channels. Using both methods of communication meant community members across Salmon Arm were able to engage with the stories and information in multiple ways. During initial discussions with the SIAC, it was noted that many of those who experience poverty often lack digital literacy and access to technology. Therefore, it would be best to find alternative ways of sharing the content.

Leveraging Community Partnerships

Another added benefit of collaborating with the Salmon Arm Observer was having one central voice in the community to collect and share stories. The SIAC identified that social media content creation and posting requires time and effort to monitor consistently and effectively. Pursuing a purely digital campaign through social media, which was originally considered, meant project stakeholders and partners would need to be actively involved in sharing content and monitoring engagement.

"Such great information. Thank you for sharing, many families can benefit from this."

Facebook comment from Salmon Arm community member

Some stakeholders and partners did not have existing or active social media accounts, which would limit reach. This is due to the nature of social media where amplification is crucial.

Though a social media campaign would have the potential to reach a wide audience, especially through paid promotions, it would require much more coordination and effort on the part of the project stakeholders and partners. It also takes a significant amount of time to establish an engaged following. Concerns about reaching only those who were already following social service organizations made this a less appealing option (i.e., preaching to the choir). Therefore, it was determined that digital communications would be a less effective method for reaching campaign goals. This decision led to a partnership with the Salmon Arm Observer.

One consideration in choosing communication channels and platforms for promotion is the ability to collect metrics and data. The Salmon Arm Observer was able to collect social media metrics through its Facebook page, which were crucial in understanding the reach and impact of the stories created. This was an above and beyond service that they provided for this campaign. It is recommended that project partners in campaigns such as this have the ability and capacity to collect data and measurements to help inform initiatives.

Ultimately, collaboration with the Salmon Arm Observer strengthened relationships between the City of Salmon Arm, the SIAC, and the local media. Together, these three entities hold strong influence in the community and can continue to champion local initiatives and shape conversations around poverty.

Promotion of BC 211

Formally launched in 2010, BC 211 is a centralized resource for a range of community, social, and government services. Its origins can be traced back to the "Red Book," a physical directory containing a range of community, social, and government services that began publication in 1953. The service has run since then, with expansions to other non-emergency human services such as crisis and information lines. In 2020, the service expanded to serve all of British Columbia. In 2022, the service was integrated with United Way British Columbia.

Currently, BC 211 offers three distinct services:

- 1. **Information and Referral Helpline** Provides 24/7, free, and confidential support through phone, text, email, and chat in more than 150 languages.
- 2. **Community Resource Listings** Maintains a database of more than 15,500 lists for vital community programs and services, which are monitored and updated to reflect the most current information.
- 3. Data Analysis Collects and analyzes data to determine the top needs as well as unmet needs across BC.

As a centralized resource for British Columbians, BC 211 was consistently promoted through the feature pages in the Salmon Arm Observer. A quarter-page ad was included alongside articles and service listings.

Insights Gained

- » Providing an up-todate, informative, and easy to use resource guide or service directory takes time and capacity. There is an opportunity to explore solutions for updating Salmon Arm listings regularly.
- » Exposure to BC 211 ads were limited to the print publication of the Salmon Arm Observer. Promotion can be expanded through other methods, such as posters and websites at various locations across the community, to broaden reach.
- » BC 211 continually seeks to improve its data collection methods. This data can be used by the City of Salmon Arm and the SIAC to identify emerging needs in the community.

Though there are a few existing resources and guides that contain a list of local services, promoting BC 211 was chosen for several reasons:

- It can serve as an initial point of contact for those who are experiencing hidden and/or chronic poverty but are not necessarily in crisis, a key target audience for the project.
- As a free, confidential, and multi-platform service, BC 211 offers an accessible way to explore a range of services with less fear of stigma and judgment compared to accessing a local, in-person service.
- As a provincially funded service with robust staffing and capacity, BC 211 provides a sustainable way of ensuring information about available supports and services that can be updated easily and consistently.
- It also provides dedicated marketing support to print promotional materials as well as develop graphics such as the ad placed in the Observer.

Data about service requests to BC 211 (below) shows a steady increase in its utilization in Salmon Arm since it first launched provincially in 2018 Statistics from the campaign duration show that requests for service had no significant increase compared to requests made in 2022. Therefore, we can likely infer that the newspaper advertisements did not result in any increase in usage of the BC 211 service. However, as the data for 2023 is still only the first four months, and we do not have the monthly breakdown of 2022 to compare high call rates, there may be a change in usage that is not yet detected.

Additionally, though the reach of the online articles was high, the BC 211 ad did not always appear next to the articles as online layouts were different than print layouts. This means not everyone who viewed the online articles would have viewed the BC 211 advertisement.

Anti-Stigma Education

In conjunction with increasing awareness around available social services, the campaign also included opportunities for the community to participate in anti-stigma education. Three anti-stigma workshops were held, tailored to three distinct target audiences.

Lived Experience Workshops

The first set of workshops were tailored for people with lived and living experience of poverty. These three-hour, in-person sessions focused on dialogue and facilitated conversation about participants' personal experiences as well as approaches to de-stigmatizing poverty. They were designed to include exercises to support participants in building the skills to share their personal stories.

What resulted was a robust discussion about stigma and how it affects individuals. The exercises and workbook tools prepared for the workshop were not covered within the time allotted and participants appreciated the opportunity to take the workbook home and complete it independently.

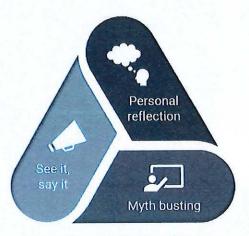

Part of the approach to these workshops was to embrace fluidity. Facilitators prepared materials of possible interest and ensured there was material to teach, to reflect on, and to support participants to explore their own stories. However, each workshop was different. The content focus became tailored to each group. The facilitators did not cut off the conversation to keep the workshop on schedule, and dialogue meandered through the topics.

This conversational style was important to ensure that the workshops stayed engaging, shifted towards each group's curiosity and knowledge level, and gave room to examine challenging topics. This approach is part of a trauma-informed approach that honors and empowers participants to be active directors of their own learning.

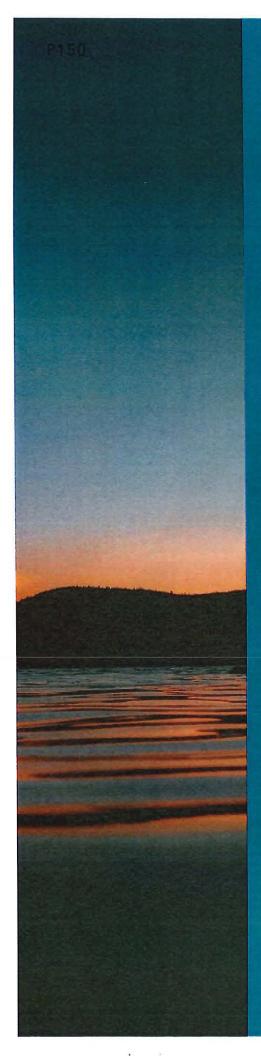

Community Webinar and Stakeholder Workshops

Next, two virtual sessions were conducted: an informative webinar for the community at large as well as a workshop for community champions and invited stakeholders. Each of the virtual sessions were 1.5 hours long and were more informative than conversational. They were designed to cover the same content about stigma and its impacts as the Lived Experience Workshops but emphasized addressing stigma through person-first language, using destigmatizing language, and addressing internal biases and stigmas.

How to address stigma

Participants, for the most part, expressed appreciation and enjoyed the workshops. Some noted that they were glad this was being discussed as it was "sorely needed." Participants appreciated the personal stories shared by facilitators. One concern raised by participants was that the message needed to be spread further to people who were not aware of what stigma is and how it affects people. Participants also wanted to be directed to actions they could take outside of their own attitudes and personal interactions. They were looking for places to volunteer, ways to advocate, or other active methods of continuing to break down stigma.

Insights Gained

Participants in all three workshops were highly engaged and reported learning valuable information. Participants with lived experience were particularly enthusiastic about the workshops and shared that they felt seen, heard, and understood. Some described it as healing to participate. Several individuals said they didn't know that other people were experiencing the same things or even that their experiences were being influenced by stigma, and that learning in a safe space made them feel better. The Lived Experience workshop was able to support people in seeing themselves as advocates rather than victims or targets.

Further insights include:

- » Use a trauma-informed approach to engage people with lived and living experience. This means planning ways to make engagement opportunities a safe space for sharing and providing options for follow-up support.
- » Collaborative relationships with community partners enhances the recruitment process. Local groups and organizations have built the connection and trust needed to meaningfully engage individuals. Take the time to clarify roles and commitments regularly.
- » Plan to promote engagement opportunities through various platforms and methods to ensure diverse audience groups are reached.
- » Consider and experiment with different formats for educational opportunities (e.g., full-day workshop versus two half-day workshops, self-directed options, etc.) to ensure adequate time is available to cover content and questions.
- » Virtual sessions require active conversation management. Use an array of conversation tools (e.g., Question and Answer feature, mute function, etc.) to guide the discussion and keep it on track.
- » Help participants connect their learning to action by preparing resources and opportunities and guiding them towards the next step.

WHAT WORKED WELL

Trauma-Informed Approach

Trauma-informed approaches to facilitation include recognizing that the impacts of trauma are widespread and have direct impacts on individuals and communities. Stigma towards poverty can cause trauma directly and indirectly through negative experiences such as rejection, repeatedly telling one's story through a negative lens to secure resources and service access, or perpetuating poverty due to a lack of awareness of services which could disrupt the cycle.

As part of this campaign, all workshops were designed with a trauma-informed approach.

- All workshops were prefaced with an introduction that included statements on personal safety and the availability of support during the workshop. Facilitators articulated that the topic can be highly emotional, outlined ways in which facilitators could support participants, and referenced resources for further support if needed.
- Facilitators "checked expectations at the door" to allow workshops to flow in the best way
 for each group. Taking a flexible approach to facilitate allowed participants in the Lived
 Experience workshops to direct their own experiences. Insights and experiences were
 encouraged, and participants shared freely.
- A "circle guardian" helped ensure people had support at any time during the workshop if desired. The guardian was a second facilitator who had the stated task of taking care of the workshop participants. They invited participants to indicate if they needed support and also had the power to pause the conversation at any point. If so, the guardian would direct the whole group to do a grounding activity (three deep breaths) before continuing the workshop. The guardian could check in on participants, keep time, add insight, and ensure the flow of the workshop. Having an option for participants to ask for some support during workshop without disrupting it is a helpful tool.

"The workshop allowed me to feel what I needed to in a healthy way."

Lived Experience workshop participant

Partnering with organizations for the Lived Experience workshops ensured that
participants were invited by a trusted person who was also available for follow-up if
needed. This structure ensures that existing trusted relationships are leveraged for the
benefit of participants.

Facilitators with Lived and Living Experience

It's important to consider the knowledge and presence of the workshop facilitator as the leader and tone setter for anti-stigma education. In this campaign, the workshop facilitator possessed lived experience of poverty and was able to draw on that experience during the webinar and workshops. By sharing personal stories throughout the classes, they were able to provide insights and relate the subject matter to real-life examples.

Timely and Relevant Content

Participants said repeatedly that the information and workshops were timely given other events in the community. An increase in visible homelessness and limits to available services for support has been a big topic in the community. This has brought out stigmas and fears on social media and other platforms. Participants were appreciative of the conversation. Some shared that they felt they had new tools to talk about difficult subjects, like homelessness.

"Thank you for the perspective and information. It really does outline the issues around stigma and barriers to anyone attempting to seek help."

Community webinar participant

OPPORTUNTIES FOR IMPROVEMENT

Promotion and Recruitment of Workshop Participants

Promotion for the community workshops proved more challenging than expected. Though recruitment for the Lived Experience workshops was successful, it was due to the efforts of partner organizations to promote and recruit participants. They recruited from within their own programs and contacts and as a result, were able to fill workshops and reach the desired number of participants.

The initial intention was that more project partners would promote the workshops and recruit people with lived experiences. While materials for this promotion were provided, it was found that posters were not effective for recruitment, or that recruitment through word of mouth, invitation, sharing with clients, etc. was not happening. Similarly, the majority of participants in the webinar and workshop were sourced through email invitation. Promotion through the City's website did result in many attendees for the webinar.

Recruitment efforts require energy and community champions to spread the word, share the event, and personally invite people. In the future, it would be best to clarify roles for promotion and ensure that project partners know how to promote and when to do so. It would be helpful to have dedicated champions of promotion and recruitment and clarify that commitment. Materials need to be provided well in advance alongside an agreed upon promotion strategy with roles.

Content and Conversation Management

The Lived Experience workshops were not allocated adequate time to cover all of the prepared material. As a new workshop, more information was included than there was time to present. In the future, it would be recommended to extend the workshop into either a full day or two half-day events to give space for action-oriented planning and discussion. Participants of all workshops were eager to talk about solutions but there was not enough time for this.

Alternatively, a pivot in future workshops to emphasize the healing nature of understanding stigma could replace some of the content on storytelling. The individual workbook activities could be discussed with interested participants in a follow-up workshop. Participant reflections could then become part of a group or individual storytelling exercise that creates sharable materials. For virtual sessions, it's important to have proactive conversation management and be prepared to redirect conversation when needed. In this iteration, participants had the option to unmute.

However, conversations about complex social issues can be extremely personal and fraught with emotion, sometimes leading to sidetracks in conversation. In the future, using the Question-and-Answer function instead of the chat function may be more effective to keep conversations on track.

Prepare a Call to Action

Participants in all workshops were keen to know how to take action after the workshops. While facilitators provided Lived Experience participants with materials and ideas around personal storytelling and resources, participants wanted more sustained actions. The question of "what's next?" arose at every event. This speaks to the eager and willing community of people in Salmon Arm who want to know how to improve the situation and support their community.

In the future, it would be good to consider facilitating these workshops in partnership with an organization or group that is working to do sustained anti-stigma work, or that is looking for volunteers. This would help give participants a place or path to channel their energy and actions after gaining more knowledge about poverty and stigma. These workshops would lend themselves well as an introduction to anti-stigma for volunteers, or as the first of a multi-part series that helps participants create their own content, such as a zine, social media page, or video.

Data and Metrics

| April 3 | Stakeholder workshop over Zoom (virtual) | 10 |
| Total unique individuals | | 69 |

Final Reflections and Recommendations

The Salmon Arm Poverty Reduction, De-Stigmatization, and Awareness Campaign helped improve social outcomes in several ways:

- 1. Facilitated healing and empowerment of individuals with lived experience by incorporating and elevating their voices in campaign activities.
- 2. Elevated the knowledge and voices of those with lived experience to promote empathy, community building, and personal reflection around poverty.
- Provided community members with the knowledge they need to better address prejudice and stigma in their daily lives and become better allies to those experiencing poverty.
- 4. Leveraged existing resources such as the Salmon Arm Observer and helped build on the work of skilled partners, improving the system of support in the community rather than adding complexity.
- 5. Strengthened the relationships between the City of Salmon Arm, the Social Impact Advisory Committee, and the Salmon Arm Observer who can continue to play key roles in shaping community narratives and advocacy.
- 6. Increased access to and availability of information about resources by promoting local services in the Salon Arm Observer, sharing information through articles about social serving organizations, and promoting BC 211.

The anti-stigma workshops for people with lived and living experiences had a deep impact. Participants were inspired and engaged. One participant came to the workshops twice, brought a friend the second time, and attended the public webinar. She reported that these workshops have inspired her to find her voice and become a champion. Another participant became an active volunteer at one of the partner organizations, helping to expand programming. We are told that she felt this was important because of her experience at the workshop. Conversations amongst almost all participants have continued between each other and with the partner organizations.

The campaign also tested new ways to share information about community resources. Multiple methods of communications and engagement were used to distribute information and engage the community in dialogue, including print media, social media, advertisements, and both virtual and in-person workshops. As a result, tens of thousands of residents in Salmon Arm were reached through the articles. For future projects or promotions, a multi-pronged approach seems to be a viable way to spread information in Salmon Arm.

Considerations to Address Gaps

Throughout this project three main gaps were observed that affected the outcomes of the project. While the project was successful overall, addressing these three gaps will:

- 1. Help continue and build on the success of this project.
- 2. Strengthen community preparedness to expand on this project and anti-stigma initiatives in general.
- 3. Continue to build awareness of services.
- 4. Continue to build connections, relationships, and skills of residents to support each other and their community.

Establish a Community Volunteer Organization

During the workshop series, a common comment or question from participants was, "What can we do next?" Whether it was looking for ways to tell their story, or seeking place to volunteer or advocate, participants of the workshops and webinar were highly engaged and vested in the topic of anti-stigma. There is a strong appetite for projects or tasks that can help reduce poverty and improve community wellbeing amongst Salmon Arm Residents.

However, knowing where to direct people was a challenge. There are many community organizations in the community, but their need for volunteers varies. Recruiting and training volunteers can put pressure on organizational capacity, and applying to multiple organizations to find the right fit for a volunteer can be draining on the person wishing to offer their time and skills. Finding the best use of volunteer time takes thoughtful coordination and people who can manage application, intake, training, skills assessment, and assignment for volunteers. Similarly, that person(s) can support organizations in identifying what roles they can ask for volunteer support with, determine the scope of the roles, and assist with recruitment.

Canadian Mental Health Association Shuswap-Revelstoke Mental health for all

Please note that inclusion of an organization does not indicate its endorsement by CMHA, nor does its exclusion imply lack of approval.

Contact CMHA to update any changes of service.

Salmon Arm currently does not have a volunteer coordination or volunteer bureau program outside of singular organizations. Given the expression of a desire to help, even if 50 percent of workshop participants volunteered for even four to eight each month, that is 34 volunteers providing between 136 and 272 hours of community support each month!

Enhance and Promote BC 211

Providing an up-to-date, informative, and easy to use resource guide or service directory remains a challenge. Locally, the CMHA produces a community services guide. This brochure is distributed by CMHA and provided online. Peers at CHMA Shuswap-Revelstoke took the lead on editing, researching, and formatting the guide. It includes resources for the Shuswap area related to medical services, food security, community supports, government services, Indigenous community supports, legal resources, municipal services, crisis support, mental health and substance use, transportation, employment, libraries, housing, and access to basic needs (like hygiene).

The ongoing challenge with print resources such as this guide is ensuring it reaches the right audience. Presently the guide is shared with agencies and online. Another challenge is that printed guides are static, capturing the resources at a moment of time rather than being able to add updates regularly. They take a lot of work to produce and distribute. These are important resources for community, though, and distribution can be supported by efforts from the SIAC and other agencies to ensure the information is printed and displayed in as many places as possible.

Alternatively, there is BC 211. However, any directory is only as good as the information provided. It is still under-utilized, according to statistics collected to date. This service utilization can be improved by:

- Increased promotion to a broader audience Other promotional means may help, such as
 flyers in grocery stores, recreation centers, or other areas where a wide cross-section of
 people may be exposed to them, or online promotion.
- Increased participation by local services Local services have the option of updating their listings as regularly as they like via email. Keeping up to date on listings requires capacity (such as an assigned staff person) but can help the public be aware of services.
- 3. Further work with BC 211 to support promotion and listing updates This is still a relatively new service. Communication with BC 211 indicates that there is a strong desire to make this service relevant for all BC residents. The program's early origins in the Lower Mainland mean that their historical data and tracking originate from larger metropolitan areas. Adapting this service to serve smaller communities will take time. There may be opportunities to partner together and collaborate to find solutions for promotion in this new context. BC 211 is a funded program that may be able to come with resources for this type of work.

Increasing the Availability of Peer Supports

Peer driven programming is limited in availability in Salmon Arm. CMHA Learning Studios offers peer support workers and a variety of programming, and other organizations offer a range of programs where peers with shared experiences can meet and connect. However, during this campaign, no peer-led and facilitated organization or group was identified. Peer voices (those of people with lived and living experience of a subject or situation) can offer support, guidance, and unique perspectives to the community that help identify barriers and remove obstacles for people.

Peer programs could include but are not limited to:

- Peer navigator programs for accessing services
- Peer advocacy groups
- Peer support groups

Considerations for Next Steps

The City of Salmon Arm and the SIAC have identified themselves as convenors in the community related to social well-being. The responsibilities connected to this role and for continued momentum with this anti-stigma work include supporting the community through being a facilitator and communicator. Moving forward, the City of Salmon Arm and SIAC can continue to work with community agencies to promote services in the community and support anti-stigma efforts. In support of this role, the following opportunities are offered for consideration:

Promoting and Tracking Social Service Referrals

- The community can continue BC 211 promotion through the distribution of flyers or
 posters, available from BC 211. Posting an advertisement for their services on the City's
 and SIAC members' websites would help enhance visibility of the resource in the
 community.
- BC 211 collects data on the kinds of services that are requested, and referrals made. This
 information could support the SIAC in identifying emerging needs in the community. There
 is also an opportunity for the Committee to help share information with service providers
 on how to update their information and maintain accuracy on BC 211 as their services may
 change periodically.

Building on Momentum in the Community

- Now that this workshop has been created it can be replicated. A future project may be to
 extend the Stigma Busting Through Storytelling workshop concept to include writing
 workshops and perhaps publication of those stories. Some communities have produced
 online video content or other social media spaces for sharing lived experience stories.
- The Salmon Arm Observer is interested in continuing to write and publish stories that help reduce stigma on community issues. As a resource and partner, community serving organizations can reach out to the editorial team with stories, events, or opportunities for the community to get involved and keep the conversation going.
- Explore supporting a community partner or organization's volunteer network. A Salmon
 Arm volunteer coordination organization could help to connect interested community
 members with volunteer positions. This kind of structure can also increase the capacity of
 organizations to host volunteers by supporting with training, screening, and intake
 processes. Building a network of volunteers who have some training and support to take
 on roles in the community would help to both build organizational capacity and assist
 caring community members to find ways to contribute.

Overall, this pilot-and-test campaign has surfaced several key learnings that can be used for future initiatives and campaigns. By collecting data and embracing iterative improvements, the City of Salmon Arm, the SIAC, and its partner can make informed decisions that ultimately lead to more effective and successful implementations.

Item 19.1

CITY OF SALMON ARM

Date: June 12, 2023

The following motion was released from the In-Camera Council Meeting of May 23, 2023:

0041-2023 (ic)

THAT: Council authorize the request from the Salmon Arm Folk Music Society to construct improvements on the City owned property located at $541\,3^{rd}$ Street SW subject to building permit approval.

CARRIED UNANIMOUSLY

TEL 250.833.4096 FAX 250.833.4097 EMAIL info@rootsandblues.ca

MAILING Box 21, Salmon Arm, BC V1E 4N2
LOCATION 541-3rd St SW, Salmon Arm, BC V1E 1S9

May 15, 2023

City of Salmon Arm Box 40 100 - 30 Street SE Salmon Arm, BC V1E 4N2

Attn. Erin Jackson, Chief Administrative Officer RE: Permission to build projects

Dear Erin:

The Salmon Arm Folk Music Society is seeking approval from the City to pursue two construction projects on the City owned property located on 541 3rd St SW, Salmon Arm.

The SAFMS intention with the City's support is to construct:

- 1. A new detached storage/works building;
- 2. Add 7 rooms (4 top and 3 bottom floor) to the building on the property currently used for an office.

Attached to this message you will find the preliminary building plans for the two construction projects.

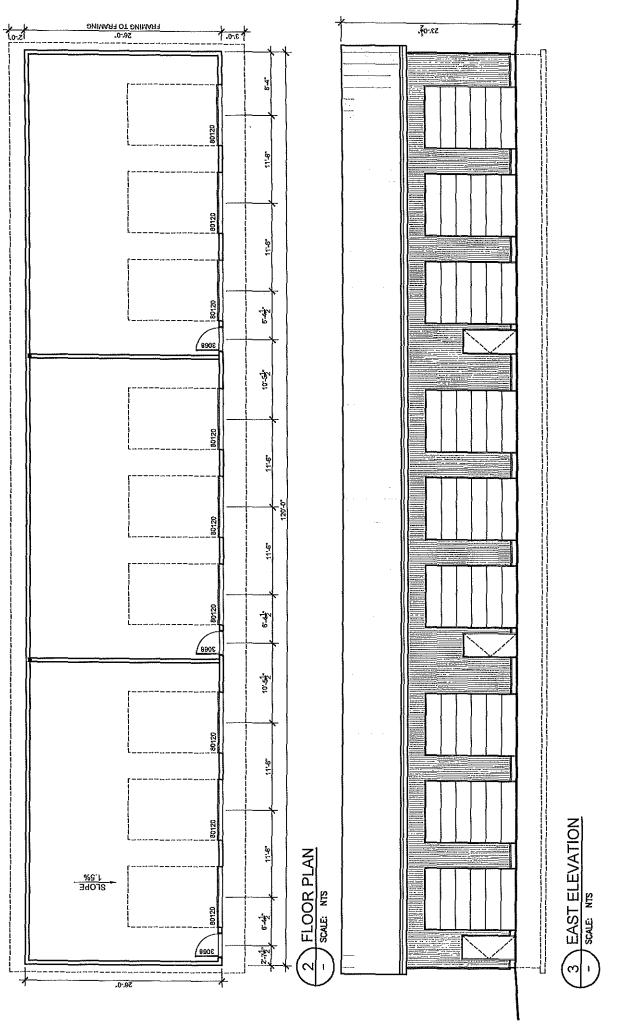

In the past seven years, SAFMS has invested to improve the property and we plan to spend up to \$225,000 internal funds on this project. Additional funding (\$221,250) to complete the project has been generously provided by the BC Arts Infrastructure grant program. The Provincial funding requires the project to be completed by the end of 2025.

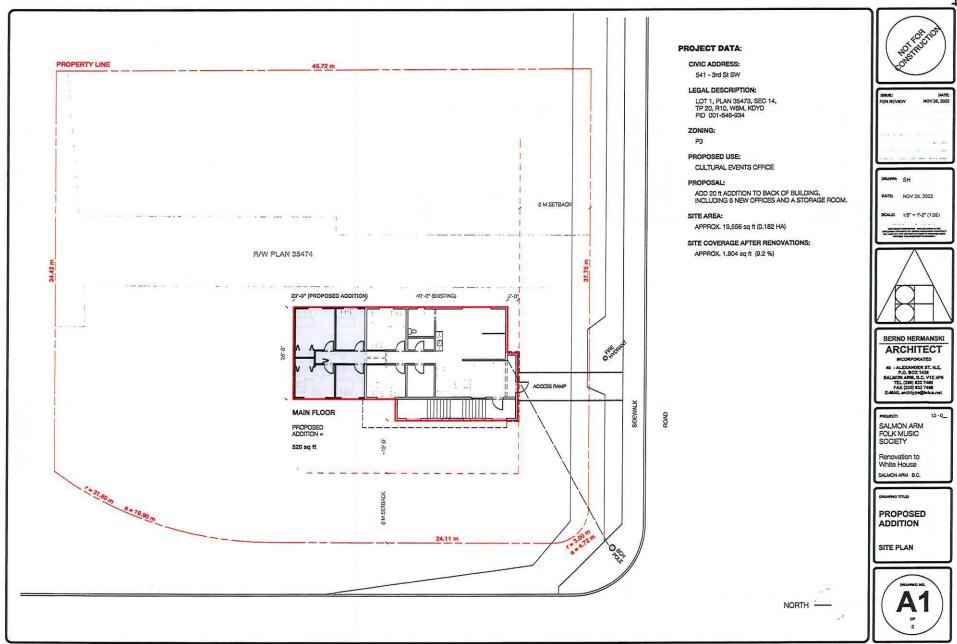

Please do not hesitate to contact me if you require more information.

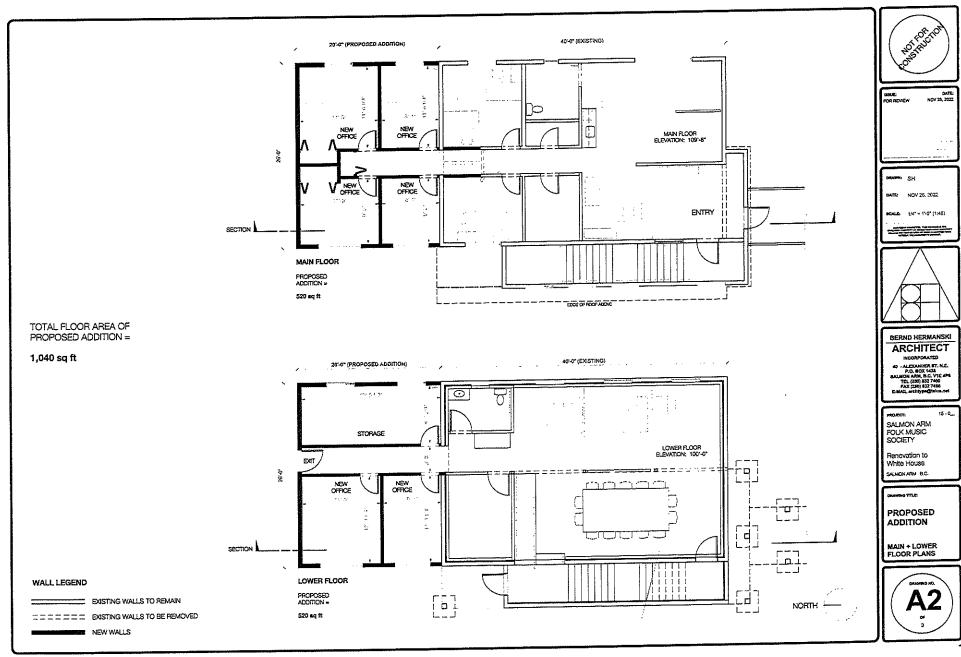

Thank you,

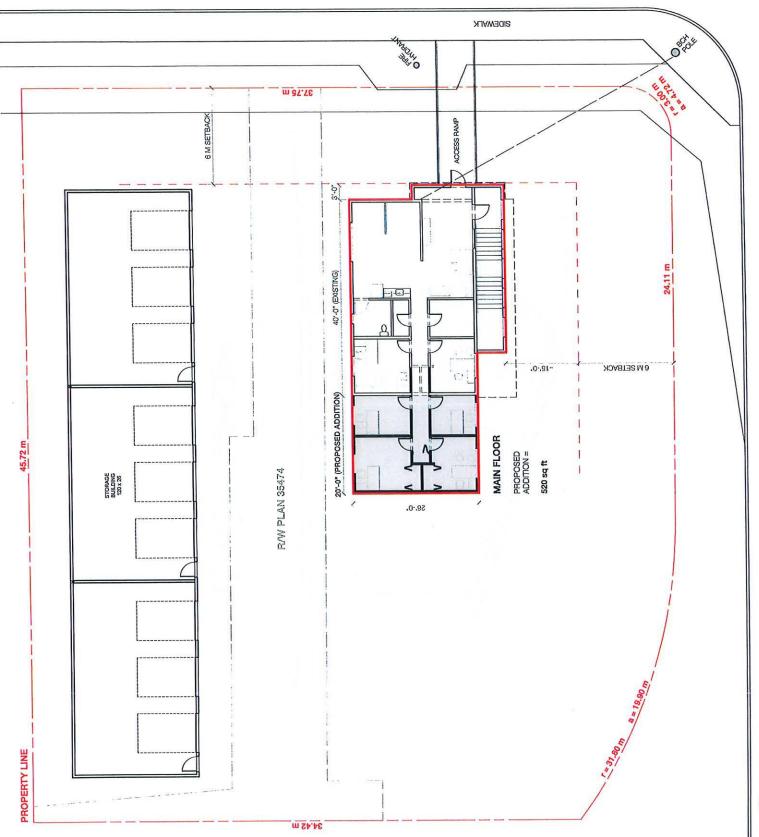

Toni Starkell Administrative Services Manager clerical@rootsandblues.ca

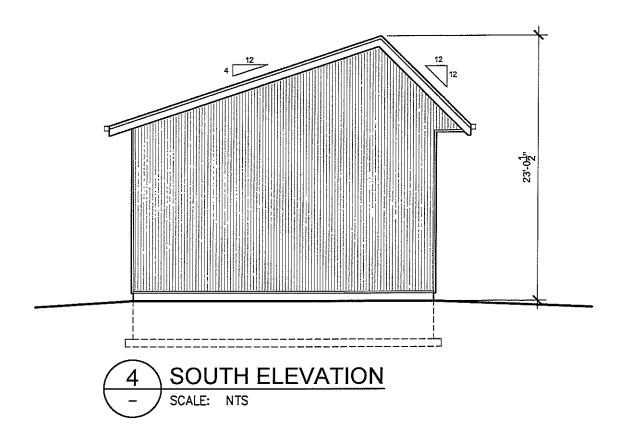

Item 22.1

CITY OF SALMON ARM

Date: June 12, 2023

Moved: Councillor

Seconded: Councillor

THAT: Development Variance Permit No. VP-581 be authorized for issuance to vary the Subdivision and Development Servicing Bylaw No. 4163, for the 30 Avenue NE frontage of That Part of the North East ¼ of Section 19 shown on Plan B4242; Township 20; Range 9, W6M, KDYD, waiving the requirement to upgrade 30 Avenue NE, including road widening and ditching.

[Vandermeer, R. & M.; 2900 40 Street NE; Servicing requirements]

SALMONARM

TO:

His Worship Mayor Harrison and Members of Council

DATE:

June 8, 2023

SUBJECT:

Development Variance Permit Application No. VP-581 (Servicing)

Legal: That Part of the North East 1/4 of Section 19 Shown on Plan B4242; Township 20;

Range 9, W6M, KDYD

Civic Address: 2900 40 Street NE

Owner/Applicant: Ruth and Mike Vandermeer

MOTION FOR CONSIDERATION

THAT:

Development Variance Permit No. VP – 581 be authorized for issuance to vary the Subdivision and Development Servicing Bylaw No. 4163, for the 30 Avenue NE frontage of That Part of the North East ¼ of Section 19 Shown on Plan B4242; Township 20; Range 9, W6M, KDYD, waiving the requirement to upgrade 30 Avenue NE, including road widening and ditching.

STAFF RECOMMENDATION

THAT:

Development Variance Permit No. VP – 581 be authorized for issuance to vary the Subdivision and Development Servicing Bylaw No. 4163, for the 30 Avenue NE frontage of That part of the North East ¼ of Section 19 Shown on Plan B4242; Township 20, Range 9, W6M, KDYD, to waive the requirement to upgrade 30 Avenue NE, subject to the owner providing the required road dedication (approximately 3.965m);

AND THAT:

the owner submit a cash in lieu payment amounting to the cost of upgrades to 30 Avenue NE (including road dedication and ditching) minus the value of the road dedication (including legal and surveying fees). The final amount of the cash in lieu payment shall be approved by the City Engineer.

PROPOSAL

The applicant is requesting to waive servicing upgrades that would be triggered by the proposal for the construction of a single family dwelling. A letter submitted by the applicant in support of their application is attached as Appendix 5.

BACKGROUND

The subject property is approximately 6.11ha (2.47ac) in area (see Appendices 1 and 2). The subject property is designated Acreage Reserve in the City's Official Community Plan (OCP) (Appendix 3). The subject property is zoned A2 (Rural Holding Zone) in Zoning Bylaw No. 2303 (Appendix 4). The A2 zoning permits agricultural development and limits residential development to a single family dwelling and a Rural Detached Suite. The subject property is within the Agricultural Land Reserve (ALR).

Adjacent land uses include the following:

North: A2 (Rural Holding Zone) – Agriculture and Single Family Residence South: A2 (Rural Holding Zone) – Agriculture and Single Family Residence

A2 (Rural Holding Zone) - Agriculture and Single Family Residence West: A2 (Rural Holding Zone) - Agriculture and Single Family Residence

The applicant has submitted a Building Permit for a single family dwelling. As a requirement under the Building Permit, the applicant is required to upgrade 30 Avenue NE to the Rural Local Road (RD-7) Standard. Cost estimates, provided by the applicant's consulting Engineer, for the upgrades are \$77,042.96. 30 Avenue NE in this section is approximately 198m in length (Appendix 6). Servicing upgrades to the 40 Street NE frontage are not required. The subject property does not use 30 Avenue NE for access.

COMMENTS

Engineering Department

The Engineering Department has provided comments which form the basis for the above staff recommendation. The Engineering Department comments are attached as Appendix 7. Staff do not support the variance request and cite that the existing road width does not accommodate two-way traffic, therefore, road dedication and a cash in lieu contribution for the future improvement of 30 Street NE is needed to address this concern. Staff have presented a compromise that should the owner dedicate the land needed to widen the road, the land value, legal and survey costs incurred by the owner can be deducted from the cash in lieu contribution.

At the June 5, 2023 the Development and Planning Services Committee requested that staff provide estimates for land surveying, legal and land values. The information is included as Appendix 8.

Building Department

No concerns

Fire Department

No response

Public Consultation

Pursuant to the Local Government Act and the Development Variance Permit Procedures Bylaw notices are mailed to land owners within a 30m radius of the application. The notices outline the proposal and advises those with an interest in the proposal to provide written submission prior to the Hearing and information regarding attending the Hearing. It is expected that the Hearing for this application will be held on June 12, 2023.

Planning Department

When considering servicing variances a number of factors are taken into consideration, including physical or legal constraints such as ALR status, scale of proposed development and growth potential in the area. The subject property is outside the Urban Containment Boundary and is within the ALR - development potential on the subject property and adjacent properties is limited given the lack of servicing, OCP polices and ALR designation.

Generally, road improvements, such as road widening and construction, occur at the time of development or as capital projects. Lands within the Acreage Reserve designation of the OCP have limited development potential and there are few infrastructure demands in these areas due to lower density. Infrastructure improvements in the Acreage Reserve area are rarely made a priority as capital projects and with limited development potential infrastructure improvements through development do not occur often. The Subdivision and Development Servicing Bylaw is structured so that should a Building Permit be applied for there is an opportunity for the City to evaluate existing infrastructure and require levels be brought to current standard. In the staff analysis of a servicing variance, the timing and location of capital projects and the development potential of adjacent lands are considered.

Staff recognize that there are constraints on future development potential in the area; however, completely offsetting the cost of upgrading and construction of 30 Avenue NE onto the future developer/land owners or the City is problematic. Waiving the requirements entirely would place additional financial burden on the City for the improvements in the future or increase costs onto future developers of adjacent properties. Staff do not recommend the variances as requested by the applicant be granted and have provided an alternative to providing the full scope of servicing requirements.

Variance permit Application: Ruth and Mike Vandermeer

Requesting variance to Bylaw #4163

History (Refer to attached aerial view of property and adjacent properties)—The City of Salmon Arm has requested road upgrades under Bylaw 4163 to 30th Ave Ne. These upgrades have been triggered by our residential building permit.

Property Address: 2900 40th St. NE

Property Size: 15 Acres

Construction type: Single family residence

Current Building Permit # 17267B

Property Description: Our property is bordered on the west by 40th Street NE (Paved Road), which provides sole access to our (under construction) residence via the existing driveway. To the North, part of our property is bordered by 30th Ave NE, which ends in a cul-de-sac. This road provides access to 3 rural properties. The road works being requested by the City are where 30th Ave NE partially runs parallel along our property line on the North side

Rationale for variance request - Refer to Bylaw 4163

Section 3.0:

3.1.2 (i) There is no need for the capacity for increased flow as;

- a) 30 Ave NE is a no through road that ends in a cul-de-sac.
- b) Just 3 rural properties are accessed along 30 Ave NE at or near the end of the cul-de-sac. All are zoned A-2 and are designated as Acreage Reserve in the OCP. None of these properties are likely to be developed in the future
- c) We will not be requiring any access to our property via 30 Ave NE. We will be accessing our new home via the existing driveway off 40th St. NE
- d) We are not developing our property. We are simply building a single family home. We would understand if we were subdividing and requiring access and services off 30 Ave NE. Such a development would result increased traffic flow, but that is not the case with our construction.

3.1.2 (ii) Safety is not a concern:

- a) We are not now, nor will we in the future be drawing on any services that may be present along 30 Ave NE
- b) If safety has been a concern in the past, then why hasn't the City addressed it already?

Section 5.0:

5.3.1 (a)(b) Exemptions

- a) The bylaw plainly states that new works and services <u>shall not be required</u> where
 - a. "The Development is limited to the construction of an addition to a Low Density Residential Dwelling or the construction of a Building or Structure accessory to a Low Density Residential Dwelling" We understand that ours is not an addition to an existing low density dwelling, but we don't understand why the building of a new home of the same location as the old home,

- which utilizes no more land including building and landscaping as the old home, would face different rules as an addition. Theoretically, certain additions to homes may require different access, or require services on an adjacent street – why would those be exempt?
- b. "Existing Works and Services have sufficient capacity for any demands directly attributable to the proposed Development." Our construction in no way impacts any existing works and services in place along 30th Ave NE

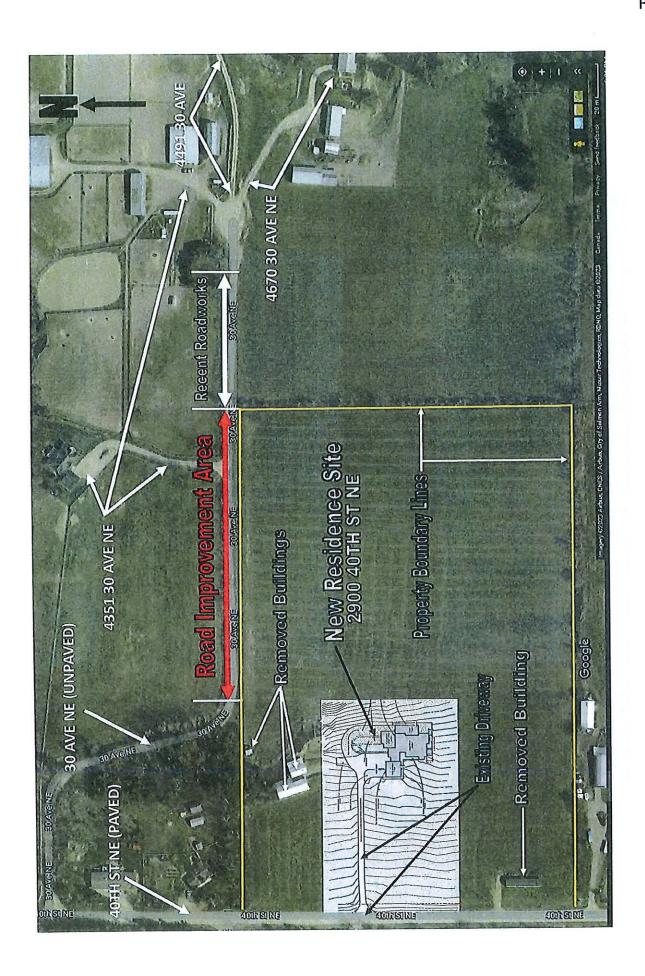

Further:

- 1. As mentioned, 30th Ave NE does not provide any access to our property, therefore, the upgrades would provide no value or benefit to us in any way no additional or improved access or services and no increase in property value. Any improvement to this road would be for the sole benefit of the 3 rural properties that are accessed from 30 Åve NE.
- 2. 30th Ave NE has received recent upgrades (ditching/grading) to the East of our property line extending towards the end of the road at the cul-de-sac. These improvements end at our property line on the Northeast corner. We are not sure why these improvements weren't completed to extend along 30th Ave NE where it runs parallel to our property.
- 3. We are not developing our property. We are simply rebuilding a new home on a pre existing home site. We would understand if we were subdividing and requiring access and services off 30th Ave NE as a development would result in increased traffic flow etc., but that is simply not the case.
- 4. With the addition of our new home onto this property, the City will benefit from an increase in assessment value and thusly, increased tax revenue for many years to come. That in turn will help provide funding for any future upgrades to 30th Ave NE

Thank you for your attention and consideration.

Memorandum from the Engineering and Public Works Department

TO:

Director of Development Services

DATE:

11 May 2023

PREPARED BY: Chris Moore, Engineering Assistant

SUBJECT:

VARIANCE PERMIT APPLICATION FILE NO. VP-581 R. Vandermeer, - 2900 - 40 Street NE, BC V1E 1Z6

OWNER: AGENT:

Mike Vandermeer

LEGAL:

That Part of the North East 1/4 of Section 9 Shown on Plan B4242:

Township 20, Range 9, W6M, KDYD

CIVIC:

2900 - 40 Street NE

Further to the request for variance dated 23 March, 2023; the Engineering Department has reviewed the site and offers the following comments and recommendations relative to the requested variance.

The applicant is requesting that Council waive the requirements of the Subdivision and Development Servicing Bylaw No. 4163 (SDSB) to upgrade the frontage on 30 Avenue NE to the Rural Local Road (gravel) standard (RD-7).

Background:

Where construction of a home is proposed on bareland within the rural area, the SDSB requires full upgrade of the road(s), works and services within the property's frontage. This generally helps to bring the existing City roads closer to the current approved standards.

The subject property has extensive frontage onto 40 Street NE which is constructed to the current rural standard, and no upgrades are required. However, the property also has frontage onto 30 Avenue NE at rear / side of the property which currently only has a road width of 4.5 to 5.2m, with no shoulder. The RD-7 standard is 7.3m road width with a 1.25m shoulder, and it is generally accepted that for two vehicles to pass safely a minimum width of 6.0m is required.

Insufficient road width makes two way traffic difficult, especially in rural areas with large farm vehicles. However, 30 Avenue NE is a very quiet cul-de-sac with only 3 properties beyond the subject property and further subdivision is not supported by the OCP.

It is noted that the City does not have sufficient dedication in this location to widen the road and ditching, and 3.965m additional dedication is required (to be confirmed by a BCLS). Widening could be completed under a right of way from the subject property, which can be requested at Building Permit stage, but it would be preferable if the applicant was willing to provide the additional 3.965m dedication that is required.

Recommendation:

The Engineering Department recommends that the request to waive the requirements of the Subdivision and Development Servicing Bylaw No. 4163 (SDSB) to upgrade the frontage on 30 Avenue NE to the Rural Local Road (gravel) standard (RD-7) be denied. The current road width does not meet the bylaw standard and although 30 Avenue NE has low traffic volumes, widening the road to allow for two way traffic will improve traffic safety in this location. Should the owner be willing to provide the additional 3.965m of dedication that is required from the subject property on the 30 Avenue NE frontage, staff would support a cash in lieu payment for the future road widening less the value of the dedication given, together with legal and surveying costs.

Legal:

Lot 1, Section 30, Township 20, Range 9, W6M, KDYD, Plan EPP123104

Civic Address:

3390 - 30 Street NE

Owner:

Terry McLeod

Agent/Applicant: Launch Construction Ltd. (Brad Long)

MOTION FOR CONSIDERATION

THAT:

Development Variance Permit No. VP-567 be authorized for issuance to vary the Subdivision and Development Servicing Bylaw No. 4163, for the frontage of Lot 1, Section 30, Township 20, Range 9, W6M, KDYD, Plan EPP123104 as follows:

- waive the installation of a bike lane (including ditching);
- ii) waive the provision of a Statutory Right of Way in favour of the City for the bike lane: and
- iii) waive the installation of one (1) fire hydrant.

STAFF RECOMMENDATION

THAT:

Development Variance Permit No. VP-567 be authorized for issuance to vary the Subdivision and Development Servicing Bylaw No. 4163, for the frontage of Lot 1, Section 30, Township 20, Range 9, W6M, KDYD, Plan EPP123104 as follows:

- waive the installation of a bike lane (including ditching) and; i)
- ii) waive the installation of (1) fire hydrant.

AND THAT:

the owner provide the road dedication for the required off-site works;

AND FURTHER THAT: the applicant/owner submit a cash in lieu payment amounting to the cost of bike lane installation (including road dedication and ditching) minus the value of the road dedication (including legal and surveying fees). The final amount of the cash in lieu payment shall be approved by the City Engineer.

PROPOSAL

The applicant is requesting to vary Subdivision and Development Bylaw No. 4163 to waive the requirement to upgrade the existing roadway to the required standard. The requirements to upgrade the road frontage are triggered by a building permit for a single-family dwelling. The owner has provided a letter of rationale in support of their application (Appendix 6).

BACKGROUND

The subject property is in the North Broadview area and is designated Acreage Reserve (AR) in the City's Official Community Plan (OCP), zoned A-2 (Rural Holding) in the City's Zoning Bylaw and is entirely within the Agricultural Land Reserve (ALR) (Appendices 1 to 5). The property is approximately 30 acres in size and currently contains an older (built in 1930) single-family dwelling (that is to be demolished) and two

accessory buildings/structures. All lands within the ALR are subject to the regulations of the Agricultural Land Commission.

Adjacent land uses include the following:

North: single family dwelling and accessory buildings/structures (ALR) Zoned A-2

South: vacant lot (ALR)

Zoned A-2
East: single family dwelling and accessory buildings/structures (ALR)

Zoned A-2

West: 30 Street NE; single family dwellings Zoned A-2, R-1, & R-8

COMMENTS

Fire Department

No Fire Department concerns.

Engineering Department

Engineering staff have provided a response to the application (Appendix 7). The RD-9 Rural Arterial Road Cross-Section is included as Appendix 8. An Opinion of Probable Costs (OPC) provided by Lawson Engineering is included as Appendix 9. The OPC amount of \$162,910.44 does not include surveying or legal costs that may be associated with the construction of the works. The approximate area affected by the improvements is shown on the map included as Appendix 10.

Staff are recommending that the owner provide a cash in lieu payment for the installation of the bike lane and ditching so that the works may be completed at a later date. Typically, the cash in lieu amount is calculated from the OPC that is provided by the owner's consulting engineering. However, given the complexity of the legal status of the road, staff is recommending that this be taken into account. The amount suggested is calculated by obtaining the value of the land (total area for road, bike lane and ditching) and subtracting the legal and surveying costs undertaken by the owner.

As shown on Appendix 10, the subject property line extends to the centerline of 30 Street NE. In this location, 30 Street NE fronting the subject property is deemed by staff to be a *Transportation Act* Section 42 Road, meaning that if public money is spent on a travelled road, then the travelled portion (asphalt to asphalt) is deemed and declared to be a highway. City records indicate that 30 Street NE has been maintained as a public road.

The required off-site works are to be constructed outside of the existing asphalt area, beyond that portion of "Section 42" road. In order to construct the required off-site works, the total area of road, bike lane and ditching must either be dedicated to the City as 'road' or a statutory right of way granted in favour of the City. The dedication or right-of way area is approximately 2022m² and would have to be confirmed by a surveyor. Appendix 10 shows the approximate amount of land that that would be needed for the road dedication or Statutory Right of Way.

It should be noted that at the time that the bike lane and ditching is to be installed by the City it is likely that ALR regulations would require additional approvals from the ALC in order to permit a trail corridor through ALR land.

As noted in the staff recommendation and the enclosed report from the Engineering Department, waiving the requirement to install one fire hydrant is supported as Engineering staff feel that the installation of the fire hydrant would not significantly improve fire safety, while at the same time would increase on-going maintenance costs in an area with limited infrastructure.

At the June 5, 2023 Development and Planning Services Committee meeting, the Committee requested that staff provide cost estimates for land values, surveying and legal costs. The information is attached as Appendix 11.

Building Department

No concerns.

Public Consultation

Pursuant to the Local Government Act and City of Salmon Arm Development Variance Permit Procedures Bylaw, notices are mailed to land owners within a 30m radius of the application. The notices outline the proposal and advise those with interest in the proposal to provide written submission prior to the Hearing and information regarding attending the Hearing. It is expected that the Hearing for this application will be held on June 12, 2023.

Planning Department

Development Variance Permits are considered on a case-by-case basis, and in doing so, a number of factors are taken into consideration. These factors include site-specific conditions, such as lot configuration and connecting new infrastructure to existing infrastructure to ensure continuity of services.

30 Street NE is designated as both an Urban Arterial Road and Rural Arterial Road, meaning it is an important corridor for facilitating movement through the community. Staff note that the adjacent parcels to the west of the subject property along this corridor have development potential (i.e. all have the potential to rezone to R-8 to permit either a secondary or detached suite) and highlight the need to consistently meet the standards required along this key roadway.

30 Street NE is identified as a "bike route" in Map 12.2 – Cycle Network Plan of the OCP. The City of Salmon Arm is committed to making it safer, easier, and more enjoyable to walk, bicycle, and use other forms of active transportation, as detailed in Connect Salmon Arm, the City's Active Transportation Network Plan (ATNP). 30 Street NE is noted in the ATNP. The request to waive this requirement entirely is not supported by staff.

CONCLUSION

The minimum servicing levels specified by the City's Subdivision and Development Servicing Bylaw have been adopted to ensure that basic infrastructure is provided to support development. The implication of granting variances to minimum service levels is that these costs (the burden of providing minimum servicing) are then deferred to future property owners or the City (taxpayers).

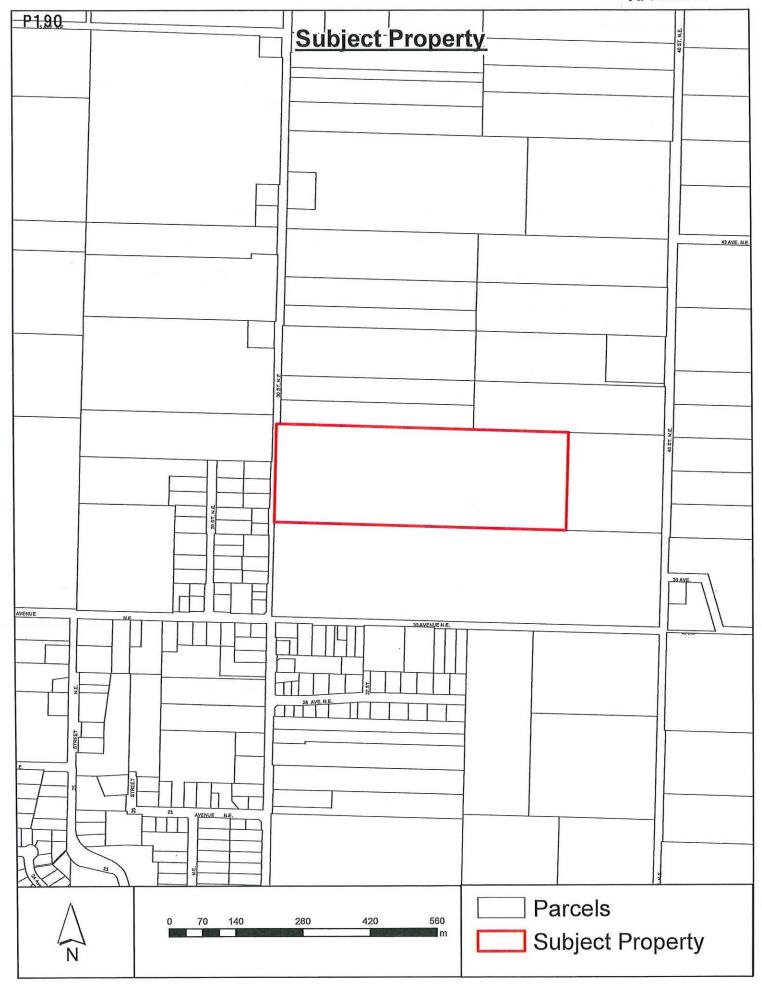

Staff recognize the financial constraints on development; however, waiving the requirements of the Subdivision and Development Servicing Bylaw No. 4163 would place an additional financial burden on the City for those improvements in the future or increase costs onto future developers of adjacent properties. As such, Staff recommends the requested variance to waive the requirement to construct facilities be denied, and that cash in lieu be provided.

> Mayor and City Council Salmon Arm

February 15, 2023

- > My name is Terrance (Terry) McLeod, I purchased 30 acres of farm land in the city limits address of 3390-30 St NE in the spring of 2022. I planned on building a homestead with the intention of raising some feeder cows, keeping my horses and putting up my own feed of alfalfa for the rest of my workable years. I am 59 years old, I was born and raised in NE BC where I also farmed. I moved to Alberta 13 years ago where I had a ranch and farmed also, sold that ranch last spring before moving back to Salmon Arm.
- > I have had the main services put in, most of which I did on my own with a small back hoe and cat I own. I have built a hay/equipment shed and shop with a small 800 sq ft suite on one end of the building. This suite was originally planned for my ranch hand who was to live there and assist me in the haying and raising cows. I will now be residing in it until you, the city decides.
- > I hired an architect out of Vernon, brought on a house building contractor out of Blind Bay to assist me with the construction of my new and final home. We followed the regulations set by the city and ALC for building restrictions to the T, I have done all permitting as required, and much to my surprise, Salmon Arm comes back with having requested I install lights, sidewalks, fire hydrants and a possible bike lane in front of my acreage.
- > I have sent in a letter from Lawson Engineering asking for a variance to these requests as I would be the only acreage on the street with this in front. I am also asking for a variance regarding the deposits for future upgrades. I had to have the property surveyed at the request of city planning and development. When I had this done, it was brought to my attention that my property line is still out to the center line of the 30ST road way. This was never removed from my title and it is my property today.
- > I will forgive the property to the center line for any upgrades requested, I will also want the city to pay for any surveys required to move the property line. I will also request that the city forgive me of any future upgrade costs in lieu of these, I will hand the property back to the City of Salmon Arm. I paid 27,000\$ to have the property surveyed, I will not be spending any more on surveys for the city to use at their disposal. Let's move forward and please allow my variance of building my final home at peace. > I would like to build my house without anymore surprises, let me live on my dream acreage and retire with some cows, horses and putting up hay for feed.
- > Yours truly, honestly, Terry McLeod.

SUBJECT: OWNER:

VARIANCE PERMIT APPLICATION FILE NO. VP- 567
T. McLeod, PO Box 10038 Salmon Arm, BCV1E 3B9

APPLICANT:

Launch Construction Ltd., 2154 Eagle Bay RD. Blind Bay, BC V0E 1H1 THE NORTH ½ OF THE SOUTH ½ OF THE SOUTH WEST ¼ SECTION 30

TOWNSHIP 20 RANGE 9 W6M KDYD EXCEPT PLAN 3127

CIVIC:

LEGAL:

3390 - 30 Street NE

Further to the request for variance dated March 20, 2023; the Engineering Department has reviewed the site and offers the following comments and recommendations relative to the requested variances.

The applicant is requesting that Council waive the following requirements of the Subdivision and Development Servicing Bylaw No. 4163 (SDSB):

1. Waive the requirement to upgrade 30 Street NE to the RD-9 Rural Arterial Road Cross Section

Background:

30 Street NE is designated as a Rural Arterial Road and upgrading to the RD-9 standard is required under the SDSB. Upgrades required include bike lane construction and associated road widening and ditching.

30 Street NE is heavily used by vehicles and the Active Transportation Network Plan (October 2022) identifies 30 Street NE as part of the City's Long Term Bicycling Network.

During the development of this property, it became apparent that the City does not own any dedication on the east side of 30 Street NE and that the property's title currently extends to the centre line of the road. This portion of 30 Street NE is considered to be a Section 42 road, as when public money has been spent on a travelled road that is not a highway, the travelled road is deemed and declared to be a highway. The City does not therefore require dedication to maintain use of the road, although dedication would be required if the City wants to widen the road in the future.

Recommendation:

Since the City's Active Transportation Network Plan identifies 30 Street NE as part of the City's Long Term Bicycling Network, the Engineering Department recommends that the request to Waive the requirement to upgrade 30 Street NE to the RD-9 standard be denied. There is

little benefit in installing a cycleway on a short length of 30 Street NE and the Cycleway would be better done on a larger scale as part of a Capital Works Project. Staff would therefore recommend taking a cash in lieu payment for upgrading to the RD-9 standard. The City would also require a right of way over the property for the construction of the cycleway, but since the owner has indicated a willingness to provide the City with full dedication, staff would recommend that the cash in lieu payment be reduced by the value of the dedication given, together with legal and surveying costs.

2. Waive the requirement to install one new fire hydrant.

Background:

One additional Fire Hydrant is required to meet the Low Density spacing requirement of 150 meters, as required by the SDSB. However, based on the Rural spacing requirement of 300m, the spacing requirements are already met. The southern half of the lots on the west side of 30 Street NE are in the Urban Containment Boundary, with the northern half and the subject property being located in the Rural area. It is accepted practice on roads with mixed zoning to work to the highest standard. However, in this instance an additional fire hydrant will be of little benefit as based on the Urban spacing to the south and Rural spacing to the north, all properties are already covered.

Recommendation:

The Engineering Department recommends that request to waive the requirement to install one new fire hydrant be approved. An additional hydrant in this location, although required by the SBDB will not significantly improve fire safety and will leave the City with increased ongoing maintenance costs.

MOTION FOR CONSIDERATION

THAT:

Development Variance Permit No. VP-574 be authorized for issuance for Lot 2, Section 11, Township 20, Range 10, W6M, KDYD, Plan 1915 Except Plan EPP115809, and Lots 2, 4, 6, 8, 10 & 12, Township 20, Range 10, W6M, KDYD, Plan EPP115809 which will vary the following provisions of Subdivision and Development Servicing Bylaw No. 4163 and Zoning Bylaw No. 2303 as follows:

- Subdivision and Development Servicing Bylaw No. 4163, Section 4.11.4 extend the maximum permitted cul-de-sac length from 160 metres in length in Urban Development Areas to 249 metres for the future 8 Avenue SE, and
- ii. Zoning Bylaw No. 2303, Section 4.12.1 (a) Fences and Retaining Walls increase the maximum permitted combined height of a fence in conjunction with a retaining wall from 2 m (6.5 feet) to 6 m (19.7 feet).

STAFF RECOMMENDATION

THAT:

Council support the Motion for Consideration.

PROPOSAL

The proponents submitted a subdivision application in January 2019 (Letter of Conditions issued in response on June 26, 2019) to subdivide the parcel at 1631 10 Street SE into forty-one (41) residential parcels (Appendix 1 & 2). This subdivision application triggers works and services, including extending the road network through the subject parcel to provide access to lands beyond to the north, south, and west, none of which are developed at this time. Prior to road installation on the adjacent parcels, the applicant has requested that Council vary the Subdivision and Development Servicing (SDS) Bylaw requirement for cul-de-sac length to allow their development to proceed. As well, the applicant has requested the Zoning Bylaw requirement for the combined height of a fence and retaining wall be increased across multiple parcels.

BACKGROUND

The subject parcel is within Area B on the eastern edge of the Hillcrest residential area, located just west of 10 Street SE and the Byer's View subdivision. The application to subdivide proposes future roads (8 and 9 Avenue SE) and 41 new parcels approximately 600 to 800 square metres in area (Appendix 2).

The future 8 Street SE is intended to continue to both the south and west and eventually connect to the larger future road network within Area B, while the 9 Street SE is intended to extend south beyond the subject parcel, with an emergency access to 10 Street SE under development by the applicant.

The parcel is designated "Residential Low Density" in the City's Official Community Plan (OCP), is within the Urban Containment Boundary, and is zoned Residential Suite Zone (R-8) in the Zoning Bylaw (Appendix 3 & 4). The R-8 Zoning request was approved by Council in 2019. Site photos are attached as Appendix 5. The applicant has provided plans detailing their requests attached as Appendix 6.

COMMENTS

Engineering Department

Comments attached as Appendix 7 provide recommendation to support requests.

Fire Department

Recommendation of support for requests noting future road connections.

Public Consultation

Pursuant to the *Local Government Act* and City of Salmon Arm Development Variance Permit Procedures Bylaw notices are mailed to land owners within a 30m radius of the application. The notices outline the proposal and advises those with an interest in the proposal to provide written submission prior to the Hearing and information regarding attending the Hearing. It is expected that the Hearing for this application will be held on June 12, 2023.

Planning Department

Cul-De-Sac Length

The length of a dead end road is restricted in order to limit the number of vehicles using a single access point, as well as to ensure emergency vehicle access and minimize associated safety risks. The applicant is requesting a variance to the SDS Bylaw to advance their subdivision to permit development within an area of limited road access, as shown in Appendix 6.

OCP policy 13.3.9 supports utilizing the SDS Bylaw to identify works and services required at time of subdivision. The purpose behind servicing requirements is to ensure that properties under development are connected to the expected municipal systems and to ensure that each system, including the City's road network, is extended to mitigate any gaps.

Within this development, 8 Street SE and 9 Street SE offer some contrasting elements. The installation of the emergency access route connecting 9 Street SE to 10 Street SE will allow 9 Street SE to meet the 160 m cul-de-sac length requirement once completed. 9 Street is expected to ultimately remain a cul-de-sac on the adjacent parcel to the south, with no connection or continued access to the south.

8 Street SE falls within a different category as it is intended to connect to a larger road network within Area B which is not yet developed. While it may be a dead end road for some time, 8 Street SE must be considered in a separate category from 9 Street NE as it is not intended to remain as a dead end and will ultimately offer connections to multiple routes for access and exit.

As development advances within Area B prior to connections being established, the City must contend with a preliminary road network. Staff note that there is no timeline for the required infrastructure instalment over the adjacent lands and some concerns exist with limited access routes. However, staff support the variance be granted for the cul-de-sac length of the future 8 Street SE with the understanding that future connections will be developed.

Fence and Retaining Wall

OCP Policy 8.3.22 suggests minimizing cut, fill and retaining walls on hillside areas, as well as the preparation of grading plans prior to servicing and construction. As noted in the OCP, a grading plan undertaken in advance can help ensure consistency between neighbouring parcels and could proactively direct a related variance application to address steep slopes across multiple parcels.

The applicant has provided such a grading plan (Appendix 6) and requests the variance across multiple parcels. Considering the steep slopes present and to avoid future variance requests, staff appreciate that the applicant has taken this approach for consistency across the proposed parcels. The grading plan details two retaining walls along a shared rear parcel line. The variance requested would apply to both walls as presented, with the 6 m height request accounting for the tallest possible point of a combined retaining wall and fence structure. Staff note that the 6 metre height requested is the maximum height on the southern parcels and that the size of the wall decreases moving north across the terrain.

Staff do have a concern regarding the requested variance considering the following:

1. The 6 m increased height requested is relatively large with respect to the 2 m maximum, which should be considered in combination with the proposed wall's length across multiple parcels, which could create an overall imposing structure.

However additional factors also affect this parcel and should be considered with the requested variance, primarily the steep terrain (Appendix 8), and further that the undeveloped parcels most affected are in the hands of the developer. Further, Staff note that the proposed walls are set back from the parcel lines, allowing for maintenance access, as well as an opportunity for landscaping to mitigate the visual impacts (although such landscaping would be up to the homeowner).

Thus, in support of the requested variance, staff note the following:

- 1. There is an opportunity (at the homeowner's discretion) for landscaping to mitigate the visual impact of the proposed retaining wall;
- 2. The setbacks from parcel lines allow for maintenance access;
- The steep sloping terrain provides a reasonable rationale for some form of retaining wall to create level yard areas across this development, a common approach for single family;
- 4. The applicant's lot grading plan allows for consideration across multiple parcels; and
- 5. The bulk of the affected parcels are owned by the developer and a future purchaser will be able to consider the presence of the retaining wall.

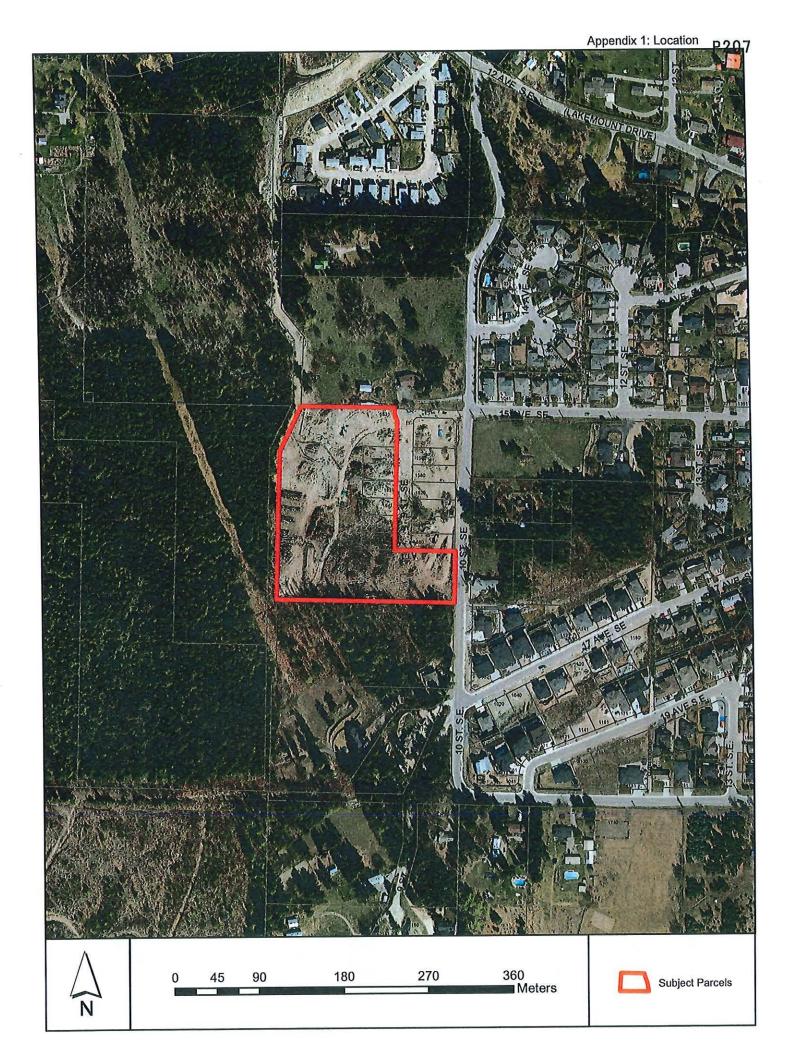

CONCLUSION

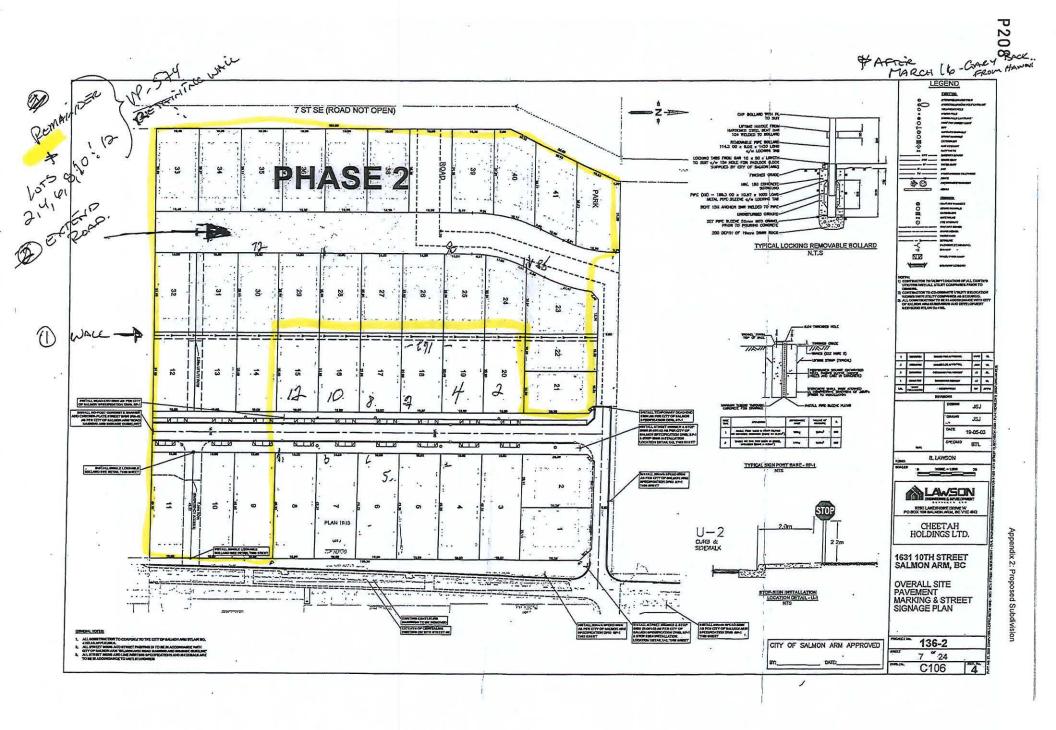

Staff support the requested cul-de-sac length extension for 8 Street SE given the expected future road network connections. While considering the retaining wall staff would typically not support a variance of such magnitude, however factoring in the steep slopes, the largely undeveloped stage of the area, the siting of the retaining walls off the parcel lines (allowing for maintenance and potential landscaping), and the applicant's comprehensive approach, staff support the requested variance.

& 1681 - 9 Street SE

Further to the request for variance dated March 30, 2023; the Engineering Department has reviewed the site and offers the following comments and recommendations relative to the requested variance:

1. Zoning Bylaw No. 2303 Section 4.12.1 (a) to increase the combined retaining wall and fence height from 2m to 6m

Background:

1631 10 Street SE is a steep, challenging site with approximately 16m level difference from 9 Street SE to proposed 8 Street SE. The developer had initially proposed a 2:1 slope from the higher lots to the lower lots, together with one 3m high wall. Current proposal has two 3m high walls with a slope in between. This reduces the overall impact on the lots and increases the usable depth of the yards.

It is not practical to develop these lots without significant retaining walls and approving the over height retaining wall for all lots in one application is preferred to individual applications on a lot by lot basis.

The proposed upper wall is located above the existing 3m wide drainage easement and proposed swale. This will allow drainage from the wall to daylight into the swale and will also provide a legal route for access to the bottom of the upper wall for maintenance purposes. The details of both the wall and the drainage design will be subject to approval at the Building Permit stage.

Recommendation:

The Engineering Department recommends that request to increase the combined retaining wall and fence height from 2m to 6m be approved.

2. Subdivision & Development Servicing Bylaw No. 4163 Schedule B, Part 1, Section 4.11.4 to increase the maximum permitted length of a cul-de-sac / dead end road (proposed 8 Street SE) from 160 m to 249 m.

Background:

The Subdivision and Development Servicing Bylaw specifies that cul-de-sac dead end roads shall not exceed 160 meters in length in the Urban area. After this distance a secondary access shall be constructed which provides greater options for emergency access / egress. There is currently 249m from the intersection with phase 1 (where there are two points of access) to the centre of the proposed cul-de-sac at the south end of phase 2 on proposed 8 Street SE. 10 lots would be located beyond the 160m limit.

There are future plans to extend 8 Street SE to the north and to the south through further subdivisions and although the timing of these extensions is unclear, ultimately this road will loop both north and south and the 249m cul-de-sac is not expected to be a permanent situation.

In addition, to overcome the 160m limit, the developer has offered to increase the road width at the entrance to phase 2 to create a double width road, which would essentially provide two access roads from phase 1 to the north end of phase 2, reducing the cul-de-sac length to 200m. This would leave only the last 2 lots beyond the 160m limit, which staff would consider a minor variance. However, it is undesirable to have a double width road and both staff and the developer would prefer not to use this as a solution.

Refer to attached plan for clarification.

Recommendation:

Staff do not feel that 10 additional lots beyond the 160m limit is a significant variance, considering this is not likely to be a permanent situation and there are plans to extend 8 Street SE in the future. The option to construct a double width road is available to the applicant and this would mean that only 2 lots are beyond the 160m limit, however this option would not be recommended by staff. The Engineering Department recommends that the request to to increase the maximum permitted length of a cul-de-sac / dead end road (proposed 8 Street SE) from 160m to 249m be approved.

Item 23.1

<u>CITY OF SALMON ARM</u> NOTICE OF PUBLIC HEARING

Notice is hereby given that the Council of the City of Salmon Arm will hold a Public Hearing virtually and in the Council Chambers at City Hall, 500 – 2 Avenue NE, Salmon Arm, British Columbia, on Monday, June 12, 2023 at 7:00 p.m.

1) Proposed Amendment to Zoning Bylaw No 2303:

Proposed Rezoning of Lot A, Section 13, Township 20, Range 10, W6M, KDYD, Plan 14385 from R-1 (Single

Family Residential Zone) to R-8 (Residential Suite Zone).

Civic Address: 2760 Auto Road SE

Location: West of 30 Street SE on the South side

of Auto Road SE

Present Use: Single Family Dwelling

Proposed Use: To rezone a single family dwelling

to permit a secondary dwelling

Owner/Agent: EWDS Holdings Ltd./D. Shoesmith

Reference: ZON-1265 Bylaw No. 4580

The staff report for the proposal is available for viewing on the City of Salmon Arm website at https://www.salmonarm.ca/431/Public-Hearing-Notices from May 30, 2023 to June 12, 2023 inclusive. Those who deem their interest affected by the proposed bylaws are urged to review the online file, contact the undersigned or phone the Development Services Department at 250.803.4000 to obtain the facts of the proposal prior to the hearing.

Meetings are being held in person and virtually. If you wish to attend virtually, a link to the virtual meeting is available in the Agenda section on our website www.salmonarm.ca.

City Council encourages the continued use of the city's website to stay informed on current Development applications and Council Agendas.

Sue Wood, Director of Corporate Services

May 31 and June 7

To: His Worship Mayor Harrison and Members of Council

Date: May 3, 2023

Subject: Zoning Bylaw Amendment Application No. 1265

Legal: Lot A, Section 13, Township 20. Range 10, W6M, KDYD, Plan 14385

Civic Address: 2760 Auto Road SE

Owner/Applicant: EWDS Holdings Ltd. (David Shoesmith)

STAFF RECOMMENDATION

THAT: a bylaw be prepared for Council's consideration, adoption of which would amend

Zoning Bylaw No. 2303 by rezoning Lot A, Section 13, Township 20. Range 10, W6M, KDYD, Plan 14385 from R1 (Single Family Residential) to R8 (Residential Suite Zone).

PROPOSAL

To rezone a single family dwelling R1 (Single Family Residential Zone) property to R8 (Residential Suite Zone).

BACKGROUND

The subject property is approximately 0.20ha (0.50ac) in area with a single family home (Appendix 1 & 2). The subject property is designated Residential Medium Density in the City's Official Community Plan (OCP), and zoned R1 (Single Family Residential) in the Zoning Bylaw (Appendix 3 & 4).

Adjacent land uses include the following:

North: Single Family Residence Zoned R1
South: Single Family Residence Zoned A2
East: Single Family Residence Zoned R1
West: Single Family Residence Zoned R1

Policy 8.3.25 of the OCP provides for the consideration of secondary suites in all Residential (High, Medium, and Low) designated areas via a rezoning application, subject to compliance with the Zoning Bylaw and the BC Building Code. Appendix 5 illustrates a two lot subdivision proposal that has been submitted for review by the applicant. The existing single family dwelling would remain on the proposed Lot 1 and the proposed Lot 2 would be vacant. Should the rezoning be adopted the R8 zoning would apply to both proposed parcels.

Based on parcel area, the subject property has potential to meet the conditions for the development of a secondary suite or detached dwelling, including sufficient space to meet the parking requirement.

COMMENTS

Engineering Department

The Engineering Department has no concerns to the rezoning of this property.

Building Department

No concerns with the rezoning.

Fire Department

No concerns.

Public Consultation

Pursuant to the Local Government Act and City of Salmon Arm Zoning Bylaw, notices are mailed to land owners within a 30m radius of the application. Newspaper ads are placed in two editions of the local paper in advance of the Statutory Public Hearing. The notice outlines the proposal and advises those with an interest in the proposal to provide written submission prior to the Statutory Public Hearing and information regarding attending the Hearing. It is expected that the Hearing for this application will be held on June 12, 2023.

Planning Department

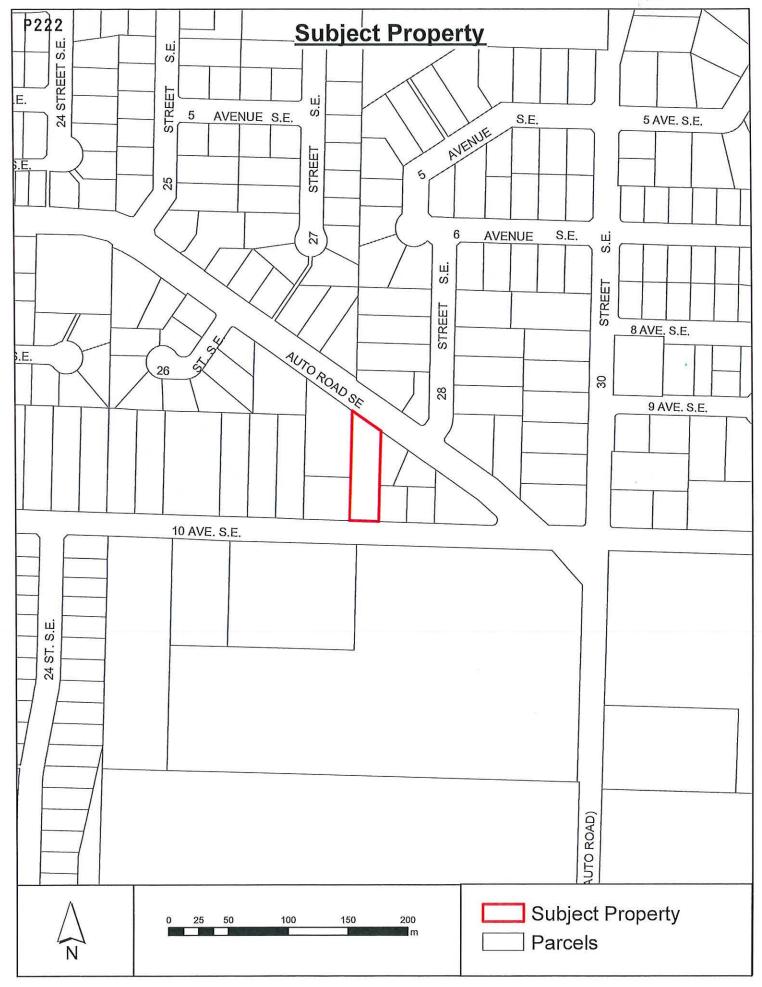

Secondary suites are supported by the previously mentioned OCP policy and the proposed layout of the unit is compliant with zoning requirements, including an additional off-street parking space for the suite. Staff support the rezoning of the subject property from R1 (Single Family Residential Zone) to R8 (Residential Suite Zone).

CITY OF SALMON ARM

BYLAW NO. 4580

A bylaw to amend "District of Salmon Arm Zoning Bylaw No. 2303"

WHEREAS notice of a Public Hearing to be held by the Council of the City of Salmon Arm in the Council Chambers at City Hall, 500 – 2 Avenue NE, Salmon Arm, British Columbia and by electronic means, on June 12, 2023 at the hour of 7:00 p.m. was published in the May 31 and June 7, 2023 issues of the Salmon Arm Observer;

AND WHEREAS the said Public Hearing was duly held at the time and place above mentioned;

NOW THEREFORE the Council of the City of Salmon Arm in open meeting assembled enacts as follows:

1. "District of Salmon Arm Zoning Bylaw No. 2303" is hereby amended as follows:

Rezone Lot A, Section 13, Township 20, Range 10, W6M, KDYD, Plan 14385 from R-1 (Single Family Residential Zone) to R-8 (Residential Suite Zone), attached as Schedule "A".

2. SEVERABILITY

If any part, section, sub-section, clause of this bylaw for any reason is held to be invalid by the decisions of a Court of competent jurisdiction, the invalid portion shall be severed and the decisions that it is invalid shall not affect the validity of the remaining portions of this bylaw.

3. ENACTMENT

Any enactment referred to herein is a reference to an enactment of British Columbia and regulations thereto as amended, revised, consolidated or replaced from time to time.

4. EFFECTIVE DATE

This bylaw shall come into full force and effect upon adoption of same.

Subject: Tax Prepayment Plan

Body Dear Mayor and Council,

I would like to suggest some changes to the current Property Tax Prepayment Plan. Under the current system, there is very little benefit to the taxpayer as the taxes are all paid in advance and very little interest is paid. It is much better for people to save their tax money in an interest paying bank account and then pay their taxes at the end of June. I was enrolled in the prepayment system but stopped after I realized I was paying entirely in advance and there was no benefit other than not having to make a single large payment. The City benefits much more as it receives tax revenue in advance and regularly

therefore providing a smoother revenue stream. I believe more people would participate in the prepayment plan if the taxes were collected in a plan that starts Jan 1st each year and continues through every month of the year. Taxes would then be collected for 6 months in advance and 6 months in arrears benefitting the City and taxpayers. The City also would not have to pay interest which could be used for other purposes. At the start of each year the monthly payment would be adjusted to reflect the tax increase for the year and on July 1 when the exact amount is known a credit or extra tax amount would be applied to the tax account. If you would like more information regarding this system, I would recommend you contact the City of Calgary finance dept. Thanks for your consideration in this regard.

Vic De Groot

[External] City Hall hours of operation

Good afternoon Rhonda,

I was given your email address to send a letter intended for Salmon Arm Mayor & Council. I assume you will ensure the letter gets into the correct hands. Thank you.

Mayor & Council,

I arrived at City Hall today at 1:01 pm today, along with three other individuals only to find your doors locked and a notice on the door saying you are closed from 1-2 pm and there is a drop box available for use. I would like to make a couple of comments:

- I find it unbelievable there is a necessity to close your doors for an hour every day rather than stagger your lunch breaks. I realize this started during Covid, and that was understandable. However, the days of Covid limitations and restrictions are long gone.
- I searched the hours of operation for several other City offices including Vernon, Armstrong, Sicamous, Enderby, Revelstoke and Kelowna. All are open from 8:30 am to 4:30 pm with the exception of Kelowna which is open from 8:00 4:00 (all for an 8 hour period each day).
- When I returned to City Hall after 2 pm, there were several people lined up waiting for the cashier. One elderly gentleman who was having an issue being able to stand while he waited, asked the cashier why it was necessary to close, and wondered why you didn't stagger your lunch breaks. He had come to the office once, had to return home, and come back again.
- When I phoned later and asked the receptionist about your hours, she instructed me that there was a "drop box" available. However, I wanted a "paid" stamp on my invoice as I was leaving a postdated cheque. I fail to understand how there is a perception that a "drop box" will be adequate for an hour out of your 7.5 hour day (leaving the doors open only 6.5 hours each day). One of the individuals in the office when I returned needed garbage stickers. You cannot get paid stamps, or garbage stickers from a "drop box".
- One person trying to get through your locked doors was a visitor to Salmon Arm looking for the Visitor Centre. There was nothing on the door to indicate that she could go around the back to find it, and that they are, in fact, open from 1 2.

I believe this is probably not likely the first complaint you have received (I heard several in my short time there today), and I'm wondering if the issue will be readdressed sometime soon. I believe the citizens of Salmon Arm have the right to arrive at your office at any time during the work day and find your doors open.

Thank you for your consideration.

Your truly,

Maureen Defoe

Subject: [External] Canoe Beach Gazebo

Dear Mayor and Council of Salmon Arm,

I would like to request a reservation for the use of the Gazebo at Canoe Beach. It's for a 70th birthday. The date I'm looking at is Sunday, July 2nd. Time would be from 4:00 pm - approximately 9:00 pm. I'm not sure of the number of people but probably between 30 & 50.

Thank you for your consideration of this request.

City of Salmon Arm Box 40 100 - 30 Street SE Salmon Arm, BC V1E 4N2

Attn. Erin Jackson, CAO, and Bylaw Enforcement RE: Regionally Recognition and Beer Garden Approval

Dear Erin:

The Salmon Arm Folk Music Society (SAFMS) would like to request a letter from the City recognizing the ROOTSandBLUES Festival as a regionally significant cultural event. The letter of support will be included in the SEP application the SAFMS will submit to allow alcohol sales during the event.

The second request the SAFMS is seeking the City's support is the permission to operate four alcohol serving areas during the Salmon Arm ROOTSandBLUES Festival from August 18th to 20th, 2023.

For 2023, the wine lounge is now a tasting lounge offering the opportunity to the regional wineries, breweries and cideries to promote their products to the RB patrons.

Another change under consideration is allowing minors in the Main Beverage garden. Similar to the Barn Beverage Garden we are considering installing module fencing to include the Blues Stage to allow alcohol consumption in this area. This area will have paid security to ensure minors are not served and no alcohol enters the main event grounds.

Although the SEP regulations in BC allow alcohol to be served to the entire event site the SAFMS believes it is important to separate alcohol consumption from the general event areas to support the RB's reputation as a family centric event.

Four Alcohol Serving Area Schedules:

- Main Beverage Garden and Tasting Lounge (patron area)
 - o Aug 18^h 3pm to 12:30am
 - o Aug 19th 10:00am to 12:30am
 - o Aug 20th 10:00am to 12:30am
- Barn Beverage Garden (patron area)
 - o Aug 18^h 3pm to 12:30am
 - o Aug 19th 10:00am to 12:30am
 - o Aug 20th 10:00am to 12:30am
- VIP Lounge (private access area)
 - o Aug 18^h 3pm to 12:30am
 - o Aug 19th 10:00am to 12:30am
 - o Aug 20th 10:00am to 12:30am
- Volunteer Party (private access area)
 - o Aug 20th to 21st -10pm to 3:00am

Please do not hesitate to make contact if you require more information.

Thank you,

Toni Starkell Administrative Services Manager clerical@rootsandblues.ca

Mayor and Council City of Salmon Arm PO Box 40 Salmon Arm, BC V1E 4N2

May 31, 2023

Dear Mayor and Council

RE: REQUEST TO CLOSE ALEXANDER STREET FOR ROOTS AND BLUES KICK OFF CONCERT

Downtown Salmon Arm, in collaboration with the Salmon Arm Folk Music Society, is requesting pedestrian-use only of the 300 block of Alexander Street (from Hudson Street to Lakeshore Road) on Thursday, August 17, from 3 pm – 10 pm for the 2023 ROOTSandBLUES KICK-OFF CONCERT. This will allow time to clear the street of cars, set the mobile stage, and have sounds equipment prepared before the 6:00 pm showtime.

The inaugural Kick Off Concert event in 2022 drew an estimated crowd of 1,200 local and visiting music lovers to the heart of Salmon Arm. With additional promotion in all festival material and through Downtown Salmon Arm channels, higher participation is anticipated this year. This free concert from the ROOTSandBLUES Festival provides a considerable boost to Downtown Salmon Arm members and the Salmon Arm community.

Attached, please find the street map for the requested closure. Please let me know if you require further details to consider and approve this request.

Thank you for your time and support.

With respect,

Jennifer Broadwell, Manager Cc: Kevin Tobin, AD, ROOTSandBLUES

DOWNTOWN SALMON ARM 250 SHUSWAP STREET NE, PO BOX 1928 SALMON ARM, BRITISH COLUMBIA V1E 4P9 June 5, 2023

Good morning Rhonda West,

I am writing to you today on behalf of Cornerstone Christian Reformed Church Outreach Team. We enjoy hosting a free BBQ in Septembers for our Community around us and Salmon Arm in general. This years date is September 16th,2023. The Community BBQ includes not only food but games and a time for the community to get to know its neighbors.

We are growing and would like to ask to be able to use an area of the street by our church. The area is from 2151 12th Avenue NE to 22nd Street NE. No driveways will be blocked in this process.

If approved we would ask that we would be allowed to borrow city barricades to make the blockage more visible.

Thank you so much for your help,

Abby VanderMeulen

On behalf of Cornerstone CRC Outreach Team

2151 11 Ave NE, Salmon Arm

My personal phone number

To whom it may concern.

Hi, my name is Brian. I wanted to set more Transit bus times. From Blind Bay to Salmon Arm, I am going to a CMHA Clubhouse but only able to get the bus once a week, on a Thursday.

It would be nice to go 3 times a week and eventually up to 5. I have a mental illness and it would be so good for me to go to the clubhouse. I am an adult male and would like more transportation to town.

Brian Andrews

reserve Blackburn Park picnic tables

Body

Hello Mayor and council members. We moved here 16 years ago from Terrace BC. Since then many people from Terrace have moved to Salmon Arm. Ed and I organized a Terrace get together a few years after we moved here. At that time we met at Marine Peace Park. Ed and I are requesting the use of Blackburn Park for our picnic. We are hoping to invite other Terracites from the surrounding area of the Okanagan as well. We feel this would be suitable because of the covered picnic tables. The playground would be an asset for possible children

attending. This would be a lunch time into early afternoon gathering and of course no alcoholic beverages.

A low key social get together.

We have set a tentative date for July 22nd, 2023.

Thank-you for your cooperation and Ed and I look forward to hearing from you!

Sarah deWalle

May 18, 2023

Dear Sir,

Re: Salmon Arm Fair and Parade

This is a request from the Salmon Arm Fair Committee to hold the annual Salmon Arm Fair Parade, scheduled for Saturday, September 9, 2023, from approximately 10:15 am to 12:30 p.m. While it appears we no longer have mandated Covid restrictions for gathering, this request is still subject to all Provincial Medical Officers Covid 19 restrictions at the time of the Parade.

The Parade route for 2023 will follow the same route as 2022, ensuring volunteer, participant, and spectator safety from start to finish.

The assembly point for non-livestock and tractor entries will be the road between the south Fairgrounds and Blackburn Park at 5th and 5th. The parade will move south on 5th St to 10th Ave then East to Shuswap; North on Shuswap, crossing the TCH, right turn on Hudson where the parade will turn left on Ross St to Lakeshore Dr. turning left on Lakeshore to 10th St by the Waterslide; south on 10th St. to 5 Ave; east on 5th Ave. SW; and south on 5th St. SW by Blackburn Park where the parade will disband.

We would like permission to close the following roadways to non-parade traffic on Saturday morning to assist in organizing parade floats:

- A. 5th St SW between Blackburn Park and the fair grounds.
- B. 5th Ave from 10th St SW to 5th St SW South Lane only from Linden Court.
- C. 10th Ave SW from Shuswap St to 5th St SW ending at Blackburn Park. North side lane to allow float organization and letting East Bound traffic through. Parade marshaling will begin at 7:00 a.m.
- D. 5th Ave from 3rd St SW to 5th St SW from Thursday 8am September 7th to September 10th 5pm to assist in a safe fair set up and tear down.
- E. I would work with City Public works for traffic barriers dropped at the designated street corners.
- F. We would request to borrow traffic signs, hi vis vests, and directional paddles for the volunteers who will be directing traffic at the intersections.
- G. We request that five (5) road barriers be placed at each of the corners of 3rd St SW and 5th Ave SW and the corner of 5th St SW and 5th Ave SW to assist in setting up ticket booths.
- H. We are requesting to extend the No Parking zones from previous years to include the following:

- -Shuswap St from 5th Ave. SW to Hudson St, both sides
- Hudson St to Ross St and Ross St to Lakeshore
- -Lakeshore from Ross to 10th St, both sides

If the City staff will drop off the No Parking signs on Friday night, we will arrange to put them up Saturday morning.

- I. We also request permission to use the Safeway Field for parking September 8th -10th, 2023.
- J. Insurance policies/certificates of insurance for The Salmon Arm and Shuswap Lake Agricultural Association naming the City of Salmon Arm will be provided.

Thank you in advance,

Sincerely,

Mc Ewan

Jim McEwan Salmon Arm Fair manager

Att. Map of Parade route

The 2023 SALMON ARM FAIR PARADE ROUTE

The 2023 SALMON ARM FAIR PARADE ROUTE

The annual Salmon Arm Fair Parade will be from 10:15am to 12:00pm Saturday, September 9, 2023. Roadways on the parade route will be closed from approximately 9 a.m. to 12 p.m. and parking will not be permitted along the parade route. The parade route begins 5th St and 10th Ave SW. The parade continues east on 10th Avenue, turning north on Shuswap St SW, crossing the Highway 1.

After crossing the highway, the parade will turn right down Hudson St to Ross St. Here the parade turns left on Lakeshore Dr. And continues to the end of Lakeshore where it will turn south and cross the highway once again. Once across the highway, the parade will be south on 10th St SW turning left on 5th Ave SW and finish at the form up area on 5th St between 5th Ave & 10th Ave SW.

| To, |
| The Honorable Mayor and Council of City of Salmon Arm |
| City Hall |
| P O Box 400 |
| Salmon Arm BC |

After consulting with City Staff, we have found a pitch that is suitable for use. We met with City Staff on the grounds at the Downtown Fields and have found a suitable area that works in between the soccer fields. We have purchased the Cricket Matt that will be laid down and paid for installation (approx. \$4600.00) but are asking the city if they would be able to contribute the work for the construction of the cement under pad. The team currently has 25 players from Salmon Arm and is playing weekly matches in Vernon, Revelstoke, Kelowna, Vancouver and would like to be able to host matches locally. This would bring in players from all over BC. Currently we don't have a pitch to practice and call our Home Grounds. The costs would be fairly minimal as it's about a day's work to get it all done.

Lake2Lake Ride for Rwanda September 16-17, 2023

The Wellspring Foundation for Education will be hosting our annual <u>Lake2Lake Ride for Rwanda</u> cycling fundraiser. This ride will travel through various areas within the City of Salmon Arm. We wanted to ensure that you were well informed of our proceedings. Should you have any questions or concerns, please do not hesitate to reach out to Sarah via email at <u>sarah@thewellspringfoundation.org</u>.

Ride Route: View on Strava (Dav 1, Dav 2)

When: September 16 - 17, 2023

Route Saturday, September 16th

- Entering city of Salmon Arm heading north via Auto Road
- Continue north onto 30th Street SE
- Turn left onto Okanagan Ave East
- Turn right at Alexander Street NE
- Turn left at Lakeshore Drive
- Slight left, then right onto Hwy #1 & riders will travel along for 69km

Estimated Time:

- Leave Vernon Christian School at 9:00am (slow riders) 10:00am (fast riders)
- Enter City of Salmon Arm between 11:00 am 2:00 pm
- Arrive at Eagle Bay Camp between 1:30pm (fast riders) 4:30pm (slow riders)

Route September 17th

- Enter city of Salmon Arm via TransCanada Hwy 1, travelling south
- Turn right off TransCanada Hwy and onto Salmon River Road
- Turn right onto 10th Ave SW
- Turn left onto 50th Street SW
- Turn right onto 50th Ave SW
- Turn left onto 70th Street SW
- Turn right onto 70th Ave SW
- Turn left onto 80th Street SW
- Leave city of Salmon Arm and continue onto Salmon River Road

Estimated Time:

- Leave Eagle Bay Camp at 9:00am (slow riders) 9:15am (fast riders)
- Enter City of Salmon Arm between 10am 12:30pm
- Arrive at Vernon Christian School between 12:30pm 4:00pm

Estimated Number of Participants: We anticipate between 75 – 100 participants.

Other information about the ride

- RCMP will be made aware of the ride
- Paramedic mobile unit participation
- Various rest stations with water, snacks & washrooms
- Rider support vehicles & baggage transport
- Signage & volunteers along route & intersections
- No traffic barriers or road stoppages

FW: Rural Housing Crisis Survey for Parliamentary Secretary for Rural Development-6

questions

From: Kathy Hartman ·

Sent: Monday, May 29, 2023 11:44 AM

To: Kathy Hartman <

Subject: [External] Rural Housing Crisis Survey for Parliamentary Secretary for Rural Development-6 questions

To the CAO and Directors of Thompson/Shuswap/Columbia,

We (the New Denver and Area Housing Society) asked for, and received, a meeting with Roly Russell, Parliamentary Secretary for Rural Development and several AD Ministers of Housing, Land Use Policy, Rural Opportunities, and EFO. We discussed how the rural housing crisis need different solutions than the current opportunities that are very much geared to urban living. After explaining the situation, they asked if New Denver was unique, or if we had any evidence that other communities in BC has a similar issue. They were very interested in some of the suggested solutions. They asked that we return with evidence on just how widespread the issue is in rural BC. I thought I'd start in the Columbia Basin. We will take your anecdotal evidence back to the Ministry.

The issue: In New Denver, we don't have a housing crisis, we have an empty homes crisis. Stats Can is a bit misleading. According to the CBT State of the Basin occupied by usual residents table, only about 18% of our homes are 'not occupied by the usual resident' (a 2nd home) in New Denver. A quick count of my neighbourhood (The Orchard), on March 1 2023, indicated 53% of the homes were 'dark'. Some homes were snowbirds, some were on a winter vacation, but the large majority were 2nd homes left empty for most of the year. Most 2nd homes remain empty, are not Air BandB-ed, are rarely offered up as rental stock and almost never as year-round rental stock. Young families can't find rentals and the skyrocketing price of homes have driven them out of the area. Our businesses are closing for lack of customers and those that are open can't find staff. We are building a 10-unit affordable housing unit, but that doesn't solve the problem that families can't find year-round homes.

My request: If anyone of your staff and/or council or housing society could answer the following 6 survey questions and return this anecdotal evidence to us within the next two weeks, I will compile it and request a second meeting. We know the solutions to the rural housing issue. They were really interested in hearing these ideas. They want to hear from you. Thank you.

Survey: Please do not concern yourself with absolute accuracy. Anecdotal is fine.

- What percentage of homes in your community do you feel are 'dark' in the off-season?
- 2. How much rental stock do you feel you have for families that move into your community?
- 3. Are the houses for sale in your community affordable to the people who want to live year round in your community?
- 4. What are the causes of 'dark houses" in your community?
 - o Air B and B
 - Snowbirds
 - Minimally used second properties

- o Other
- 5. What percentage of 2nd homes are owned by in province and out of province owners
- 6. What would you like to see the provincial government do to help increase the rental stock and the affordability of housing (both renting or buying) for year-round residents.

Thank you for taking the time to do this. I will get back to you with the response form our second meeting. Pease send your answers to kathyhartman@hotmail.com. You may contact me there anytime if you have questions or you'd rather do the survey over the phone.

Cheers

Kathy Hartman

To: Transportation, Active TRAN:EX <ActiveTransportation@gov.bc.ca>

Subject: [External] BC E-Bike Rebate Program

Hello,

We are excited to share that the province <u>announced</u> a new e-bike incentive program. The <u>BC E-Bike Rebate Program</u> launches on June 1, 2023. The program provides income-tiered rebates (\$350-1,400) for all B.C. residents. There is \$6 million in funding available. Please consider promoting the program to your residents to provide affordable and accessible transportation options. Contact us at <u>ActiveTransportation@gov.bc.ca</u> to request a media kit.

Complementary <u>safety education</u> is being provided through HUB Cycling. This includes free on-line courses and free/low cost in-person options in many communities across B.C. (with more locations coming soon).

There is also an option for Indigenous and local governments to provide supplemental funding through the Program for rebates reserved for your local residents. Please contact ActiveTransportation@gov.bc.ca if you are interested in learning more.

Thank you for your continued support for active transportation. These new e-bike rebates help more people access the active transportation facilities your communities are building.

Thank you,

Active Transportation Team

FW: Information Session for the Local Community Accessibility Grant Program

From: Accessibility <accessibility@sparc.bc.ca>

Sent: Thursday, June 1, 2023 10:01 AM

Subject: [External] Information Session for the Local Community Accessibility Grant Program

SPARC BC is excited to invite you to join our webinars to learn more about the Local Community Accessibility Grant Program!

On May 29th, the second day of National Accessibility Week, the Accessibility Directorate with the Ministry of Social Development and Poverty Reduction (MSDPR) announced that \$5 million is allocated for local and regional governments to aid in implementing accessibility initiatives.

This initiative provides one-time funding for local governments, of up to \$25,000, to remove barriers for persons with disabilities by implementing one of the initiatives identified in their Accessibility Plans, or by their Accessibility Committees or feedback mechanisms.

In our webinar we will discuss:

- Eligible projects for the \$25K grant,
- The two Streams local or regional governments can apply for,
- Your responsibilities when receiving the grant,
- The application process and timing,
- Followed by a question and answer.

Please note, our webinars will feature ASL interpretation as well as CART captioning.

Between June and July, 2023 we will be doing a series of information sessions over zoom every Tuesday from 10-11:30am. To sign up for one of the sessions please click this link:

https://us06web.zoom.us/webinar/register/WN cqUuSnHnRg-sREN6mfAaTQ#/registration

You can also learn more by reading our Program Overview which you can find on our website through this link: https://www.sparc.bc.ca/partnerships/local-community-accessibility-grant-program/

If you have any questions, please reach out to accessibility@sparc.bc.ca or you can call Lily, the Accessibility Initiatives Manager, directly on 604-718-7748.

We're excited to work with you to make your community more accessible!

Warm regards,

Lily Connor

June 2, 2023

Mayor and Council,

BC Hydro is once again offering local government officials the opportunity to meet with senior company executives during the week of September 18, at the 2023 UBCM Convention in Vancouver, to discuss an issue of concern facing your community.

As always, we are pleased to meet with you outside of UBCM to discuss and resolve any issues.

If you would like to arrange a meeting, the deadline to submit the attached request form is **Friday**, **June 30**. Please return the form to Matt Lahti (matt.lahti@bchydro.com).

We will provide full meeting details in early September when we confirm the date and time.

If you have any questions, please don't hesitate to contact me.

Sincerely,

Dag Sharman Community Relations Manager, Southern Interior 250-308-7633 dag.sharman@bchydro.com

Sharon Gregson Coalition of Child Care Advocates of BC 2772 East Broadway Vancouver, BC V5M 1Y8

Mayor Alan Harrison The City of Salmon Arm 500 - 2 Avenue NE Salmon Arm, BC V1E 4N2

Subject: Urgent - UBCM Child Care Resolution

To Honourable Mayor Alan Harrison and Council,

The Coalition of Child Care Advocates of BC is a longstanding, non-profit organization dedicated to the creation of a high-quality, affordable, accessible child care system in BC. We appreciate that your Council shares this vision to support families with young children, and the local economy in your community.

In recent years there has been measurable progress toward a quality child care system in BC with historic provincial and federal investments. New publicly-funded affordability measures for families including \$10aDay sites, wage enhancements for educators, and more licensed programs are making a positive difference.

However, local and Indigenous governments and nonprofit organizations across BC are still facing significant child care challenges, with demand for licensed child care outstripping supply, and a severe shortage of early childhood educators.

One of the major obstacles facing local governments when they want to expand child care in their communities is the grant-based application process required to access provincial capital funding. The current process places a major burden on applicants, usually local government staff working with non-profit agencies, requiring them to coordinate all aspects of design, development, and implementation. Significant technical expertise and organizational capacity are also necessary to complete the online applications, which often does not exist at the local level or pulls resources away from other municipal duties.

To address this urgent issue, we request that your Council adopt the resolution shared below, as originally supported by the Regional District of Nanaimo, or a similar resolution. Once adopted we hope the resolution will be forwarded to your local area association and on to the 2023 UBCM Convention.

This resolution urges the Ministry of Education and Child Care to provide multi-year funding to local and Indigenous governments and non-profit organizations to enhance their organizational capacity to coordinate the current grant applications process.

The resolution further requests the Ministry of Education and Child Care to replace the current grant-based application process with a systematic expansion of universal child care that upholds UNDRIP obligations and supports the involvement of, but does not rely on, local and Indigenous governments and nonprofit organizations to coordinate design and implementation.

Evidence-based research makes clear that such a systemic approach will lead to a more equitable and accessible child care system across British Columbia.

Thank you for your attention to this matter, and for recognizing that child care is a priority for healthy communities. Please reach out should any clarification be required.

Yours sincerely,

| × | The state of the s |
|---|--|
| | |
| | |

Sharon Gregson Spokesperson \$10aDay Coalition of Child Care Advocates of BC

Sample Resolution

WHEREAS the Ministry of Education and Child Care is responsible for B.C.'s \$10/day child care program, and ChildCareBC's growing system of universal child care has been life-changing for families, with demand far outstripping supply;

AND WHEREAS the current grant-based process to expand universal child care relies on grant applicants to coordinate all aspects of design and implementation, and local and Indigenous governments and nonprofit organizations often lack the resources to successfully manage this process in accordance with UBCM-funded child care needs assessments and action plans:

THEREFORE BE IT RESOLVED that while the Province continues to rely on individual grant applicants to plan and develop child care expansion, that instead, the Province provide multi-year funding to local and Indigenous governments and nonprofit organizations to support resources to coordinate this process:

AND BE IT FURTHER RESOLVED that UBCM urge the Ministry of Education and Child Care to replace the current grant-based application process with a systematic expansion of universal child care that upholds UNDRIP obligations and supports the involvement of, but does not rely on, local and Indigenous governments and nonprofit organizations to coordinate design and implementation.
