K. Campbell – email dated September 27, 2021 – Agenda 23.2 Sept 27, 2021 water bottling plants in the city of salmon arm.

L. and J. Lazzarotto – email dated September 27, 2021 – Follow up our Letter of April 25, 2021

Following three calls for submissions and questions from Council, the Public Hearing was closed at 7:25 p.m. and the next item ensued.

3. Zoning Amendment ZON-1205 [Optland, D.; 4091 Highway 97B SE; A-2 to M-1]

The Director of Development Services explained the proposed Official Community Plan Amendment Application.

Submissions were called for at this time.

D. Optland, the applicant, was available to answer questions from Council.

F. and L. Popien, 2941 65 Avenue NE, outlined concerns with the proposed road reserve network area.

Following three calls for submissions and questions from Council, the Public Hearing was closed 8:10 at p.m.

Councillor Flynn declared a conflict and left the meeting at 8:11 p.m.

24. RECONSIDERATION OF BYLAWS

1. City of Salmon Arm Zoning Amendment Bylaw No. 4473 [ZON-1219; DeMille's Farm Market; Text Amendment; C-8 - Farm Produce Commercial Zone] - Third Reading

0499-2021 Moved: Councillor Cannon
 Seconded: Councillor Lindgren
 THAT: the bylaw entitled City of Salmon Arm Zoning Amendment Bylaw No. 4473 be read a third time.

CARRIED UNANIMOUSLY

Councillor Flynn returned to the meeting at 8:13 p.m.

2. City of Salmon Arm Zoning Amendment Bylaw No. 4474 [ZON-1220; Text Amendment; Regulating Ground Water Bottling] - Third Reading

0500-2021 Moved: Councillor Wallace Richmond
 Seconded: Councillor Lavery
 THAT: the bylaw entitled City of Salmon Arm Zoning Amendment Bylaw No. 4474 be read a third time.

CARRIED UNANIMOUSLY

3. City of Salmon Arm Zoning Amendment Bylaw No. 4452 [ZON-1205; Optland, D.; 4091 Highway 97B SE; A-2 to M-1] - Third Reading

0501-2021 Moved: Councillor Lindgren
 Seconded: Councillor Flynn
 THAT: the bylaw entitled City of Salmon Arm Zoning Amendment Bylaw No. 4452 be read a third time.

CARRIED UNANIMOUSLY

25. QUESTION AND ANSWER PERIOD

Council held a Question and Answer session with the members of the public present.

2. IN-CAMERA SESSION - continued

0502-2021 Moved: Councillor Eliason
 Seconded: Councillor Cannon
 THAT: pursuant to Section 90(1)(c) labour relations or other employee relations; (e) the acquisition, disposition or expropriation of land or improvements, if the council considers that disclosure could reasonably be expected to harm the interests of the municipality; and (g) litigation or potential litigation affecting the municipality; of the Community Charter, Council move In-Camera.

CARRIED UNANIMOUSLY

Council moved In-Camera at 8:33 p.m.
Council returned to Regular Session at 8:53 p.m.

26. ADJOURNMENT

0503-2021 Moved: Councillor Lindgren
 Seconded: Councillor Flynn
 THAT: the Regular Council Meeting of September 27, 2021, be adjourned.

CARRIED UNANIMOUSLY

The meeting adjourned at 8:53 p.m.

CERTIFIED CORRECT:

CITY OF SALMON ARM

Minutes of the Community Heritage Commission Meeting held by electronic means on **Monday, September 20, 2021** at 2:00 p.m.

PRESENT:

Deborah Chapman, R.J. Haney Heritage & Museum (entered the meeting at 2:02 p.m.)
 Pat Kassa, R.J. Haney Heritage & Museum
 Cindy Malinowski, R.J. Haney Heritage & Museum (entered the meeting at 2:02 p.m.)
 Linda Painchaud
 Maureen Shaffer
 Mary Landers
 Councillor Debbie Cannon, Chair
 Kevin Pearson, Director of Development Services
 Barb Puddifant, City of Salmon Arm, Recorder

ABSENT:

The meeting was called to order at 2:00 p.m.

1. Introductions and Welcome**2. Acknowledgement of Traditional Territory**

We acknowledge that we are gathering here on the traditional territory of the Secwepemc people, with whom we share these lands and where we live and work together.

Deborah Chapman and Cindy Malinowski entered the meeting at 2:02 p.m.

3. Approval / changes / additions to Agenda

The Agenda for the September 20, 2021 Community Heritage Commission Meeting was approved by general consensus of the Commission members.

CARRIED UNANIMOUSLY

4. Approval of Minutes of May 17, 2021 Community Heritage Commission Meeting

Moved: Mary Landers

Seconded: Pat Kassa

THAT: the minutes of the Community Heritage Commission Meeting of May 17, 2021 be approved.

CARRIED UNANIMOUSLY

5. **Old Business /Arising from minutes**

a) **Heritage Inventory - update**

The Heritage Inventory has not been added to over the summer months. Pat Kassa will arrange a time with Deborah Chapman to review the archives at R.J. Haney Heritage & Museum.

b) **2571 Lakeshore Road NE (Ebl House) – Statement of Significance - update**

Kevin Pearson has arranged a historical title search of this property and the findings will be shared with the Commission when available. The results of the title search will be instrumental to applying for a Statement of Significance.

6. **New Business**

a) **Heritage Week**

Heritage Week will be held in February, 2022. In view of current COVID-19 restrictions the Commission will work on updating the Power Point presentation in the event that a physical display will not be permitted. Councillor Cannon will meet with Lana Fitt, Economic Development Society, to discuss the use of a TV for the power point presentation.

Mary Landers spoke regarding the annual Heritage Conservation Awards presented during Heritage Week. The Commission will discuss possible candidates at a future meeting.

b) **Projects and Community Heritage Commission Budget**

The Commission discussed the City owned building at 31 Hudson Avenue NE, formerly leased by the Shuswap Lake Senior Citizens' Society who vacated the building in August, 2021. Rob Niewenhuizen, Director of Engineering & Public Works will be invited to the October 18, 2021 meeting to provide information on possible maintenance and renovations required and an estimated cost.

Kevin Pearson outlined that it will be Council's decision as to whether or not this building is sold, demolished or renovated. Kevin Pearson will research the Municipal Bylaw, notice of which is on title to this building, to determine the level of protection afforded to the building.

Mary Landers suggested exploring grant opportunities that may be available for renovations and maintenance on heritage buildings.

7. **Other Business &/or Roundtable Updates**

8. **Next Meeting**

October 18, 2021 at 2:00 p.m.

9. **Adjournment**

The Community Heritage Commission Meeting of September 20, 2021 adjourned at 2:39 p.m.

Debbie Cannon, Chair

Moved: Gudrun Malmqvist

Seconded: Kim Sinclair

THAT: the minutes of the Social Impact Advisory Committee Meeting of May 21, 2021 be approved as circulated.

CARRIED UNANIMOUSLY

6. Old Business/Arising from minutes**a) SPARC Update**

Councillor Wallace Richmond spoke regarding the SPARC BC presentation of the Social Impact Assessment to Council at the Regular Council Meeting of August 9, 2021. A review of the proposed strategic direction and the framework for moving forward as well as identifying the impact on specific groups will be discussed at the next meeting of the Committee. The Assessment identified 5 key recommendations; Economic Success, effective partnerships, community approach to safe and inclusive spaces, improving access to service and support and continuing the strength of the community as well as the role of the City.

Erin Jackson reported that the Assessment was sent to the Province and UBCM and it has been accepted.

7. New Business**a) Access to Recreation Services**

Kim Sinclair expressed concerns regarding the closure of the gym, sauna and weight room at the Salmon Arm Recreation Centre. He spoke about the value of these services to the community and the importance of people with the Vaccine Passport to have access.

Erin Jackson communicated that these services have been closed since the onset of COVID-19 and is not related to the enforcement of the Vaccine card program. The gym is a small space with challenges for social distancing and closing of these facilities was a risk management decision. A staff shortage also has presented challenges in relation to having these facilities open to the public.

Gudrun Malmqvist, Jen Gamble and Jo-Anne Crawford spoke regarding negative responses in the community to the Vaccine card, challenges with staff mental health, retaining staff, challenges with access to services and the misinformation being circulated throughout the community. Jen Gamble spoke regarding the

7. **New Business - continued**

b) **Access to Recreation Services - continued**

public perception regarding RCMP response to altercations and protesting. Erin Jackson said the City is in communication with the RCMP, the School District and Interior Health to obtain up to date information.

Janet Keats outlined Interior Health's plans to host discrete Vaccination clinics to enable the vulnerable population more access to vaccines.

8. **Other Business &/or Roundtable Updates**

Councillor Wallace Richmond spoke regarding the UBCM Convention and the meetings with the Ministries of Housing, Health, Agriculture, Transportation, Education as well as the Solicitor General. Mayor and Council were able to make the Ministries aware of local issues including the need update the hospital, a new school, additional housing, an increase to staffing for the RCMP as well as other needs in our community.

Patti Thurston reported that there are approximately 200 children waiting to access mental health counselling within our community.

Tim Gibson reported that fall programs are underway and that the summer programs were successful.

Kim Sinclair reported that staffing remains challenging and that his group is seeing an increase in more complex cases involving youth mental health and anxiety. Restoring activities and getting people back into interacting in the community is challenging.

Gudrun Malmqvist spoke regarding the ongoing need for housing and the financial pressures being felt by seniors. Invitations have been sent out to community groups to attend the Community Resource Coalition on September 28, 2021.

Jen Gamble reported that Immigrant Services is slowly reopening and new staff have been hired and are being trained to move forward with a new employment program.

Jo-Anne Crawford reported that they are continuing to hire and train new staff. Retaining staff in a COVID-19 environment is challenging and a Canadian Mental Health program for staff will be available to support mental health.

Janet Keats reported that Interior Health nurses are helping out where needed and are providing support to Long Term Care facilities. Interior Health is increasing support in areas where there is low vaccination and providing vaccine support to vulnerable populations.

9. Next meeting – Friday, October 15, 2021 at 8:00 a.m.

10. Adjournment

Moved: Patti Thurston

Seconded: Jo-Anne Crawford

THAT: the Social Impact Advisory Committee Meeting of September 24, 2021 be adjourned.

Moved: John McDermott

Seconded: Keith Watson

THAT: the minutes of the Shuswap Regional Airport Safety Committee Meeting of June 8, 2021 be approved as circulated.

CARRIED UNANIMOUSLY

6. Airport Managers Update

- a) Airport busy with fire suppression activity due to the wildfires in the surrounding area
- b) Audit findings submitted to Transport Canada. Corrective actions created
- c) Runway displaced by 1600ft and no night flying
- d) Medivac airplane turned away (night landing)
- e) 5100 flights recorded to 1st August. Expecting ~ 7500 by end of year
- f) Lines painted infield lead in/out
- g) Land use in supplement needs updating. Hopefully sign-off with Taxiway Charlie in a couple of weeks
- h) Sign locations changed for Taxiway Charlie

7. Old Business / Arising from minutes

- a) Table Top Exercise – update
 - a. Due to the wildfires experienced this year, the CSRD have been very busy with emergency response. Exercise has been postponed to a later date.
- b) Taxiway Charlie update
 - a. Deficiencies have been addressed, currently waiting for WSP (consultant) to submit a letter confirming the project is complete and constructed as per the design. This will then be submitted to Transport Canada for final approval. The Canadian Air Pilot and Canadian Flight Supplement will have to be updated with the new Taxiway information.
- c) Airport Operations Manual – update
 - a. Submitted to Transport Canada for review
- d) Rental & Lease areas – rate review
 - a. Discussed the expansion of the hanger lease areas
 - b. Budget for the survey of additional lease areas in 2022
 - c. City is currently reviewing the lease rates, we anticipated that there will be an increase in the coming year.

7. Old Business / Arising from minutes - continued

- e) Audit and Corrective Action Plan (CAP) – update – OLS penetrations
 - a. Received correspondence from TC indicating that the Process Inspection completed on Oct 1, 2020 is now considered closed. The short term corrective actions have been found to be acceptable, and the long term corrective actions have been verified by means of continuous monitoring.
- f) Airport Certification
 - a. Pros/Cons of certification vs regulate airport was discussed
 - b. The general consensus of the committee is, that losing certification would have no real impact on airport operations.
 - c. The current certification means that the Shuswap Regional Airport is held to the same regulatory & safety standards as any of the larger airport that offer scheduled services (i.e. Vancouver YVR, Kelowna YLW, Calgary YYC, Toronto Pearson YYZ, etc.)
 - d. If the airport was to lose certification, the committee stressed the importance of maintaining the current service levels. Adopt the current AOM and parts of the SMS documents that were deemed necessary (wildlife management, emergency response plan, etc.) to provide safe operations of the Airport.

Moved: Terry Rysz

Seconded: Gord Newnes

THAT: the Airport Operations Committee recommends to Council and to the Airport Commission, that the Shuswap Regional Airport enter into discussions with Transport Canada expressing the intent to relinquish the current certification and to become a registered aerodrome.

CARRIED UNANIMOUSLY

8. New Business

- a) Emergency Response Plan – update
 - a. M. Clarkson created a new ERP due to the findings from the audit. Review of new plan is underway.
- b) Hangar Lease areas
 - a. The Kosick Holdings proposal for land lease was reviewed and discussed.
 - b. The Committee supported the request and felt that it was consistent with the Airport development plans

8. New Business - continued

c) 2022 Draft Budget

- a. Was presented and discussed,

Moved: John McDermott

Seconded: Gord Newnes

THAT: the Airport Operations Committee support the proposed 2022 Shuswap Regional Airport Budget as presented.

CARRIED UNANIMOUSLY

d) Airport Appreciation Day June 26, 2022

- a. Request from the Salmon Arm Flying Club Flight 80 was reviewed and discussed.

Moved: Keith Watson

Seconded: Jeremy Neufeld

THAT: the Airport Operations Committee support the Airport Appreciation Day on June 216, 2022 and the budget as presented.

CARRIED UNANIMOUSLY

9. Other Business &/or Roundtable Updates

None

10. Next meeting – Wednesday, November 17, 2021**11. Adjournment**

Moved: Terry Rysz

Seconded: Keith Waston

THAT: the Shuswap Regional Airport Operations Committee Meeting of September 15, 2021 be adjourned.

THAT: The minutes of the Active Transportation Committee Meeting of July 5, 2021 be approved.

CARRIED UNANIMOUSLY

5. Presentations**6. Old Business / Arising from Minutes****a) Planning Grant - update**

Councillor Lavery thanked the Task Force for their part in the grant application process with the City of Salmon Arm being the successful recipient of a \$50,000.00 Provincial Planning Grant.

Councillor Lavery outlined the next steps and the Request for Proposals process as well as the importance of identifying priorities and the involvement of the Task Force in this process. Jenn Wilson provided details on the preparation of the RFP and outlined staff involvement and the role of the successful proponent. Councillor Lavery suggested that a draft of the RFP be reviewed by the Active Transportation Task Force and that the Task Force, or a sub-group of the Task Force be involved in the selection process, working with City staff.

Phil McIntyre-Paul spoke regarding redefining the role of the Task Force to support moving forward now that the grant application process is complete. Councillor Lavery, Craig Newnes and Phil McIntyre-Paul will work together on a revisions to the existing Terms of Reference.

Mayor Harrison summarized that the Task Force will work on wrapping up the RFP process, redefining Terms of Reference and stressed the importance of establishing priorities that reflect the consistency and cohesive thinking of the Task Force.

7. Sub-Group Updates

RFP sub-group - There have not been any meetings of the sub-group since the grant application was completed. This sub-group could be involved in the process of reviewing the RFP and the selection process reporting back to the main table of the Task Force. A meeting of this group will be scheduled in the near future.

Interim Ideas Sub-Group

This sub-group did not meet over the summer and have scheduled a meeting for October 18, 2021 to continue work on initiatives and goals to formulate recommendations to

7. Sub-Group Updates - continued

Council as well as identifying short, medium and long term goals. An update will be provided at the next meeting of the Task Force.

Councillor Lavery spoke regarding the value of both sub-groups and the importance of sharing ideas with other local governments on the consultancy process. Councillor Lavery will explore the potential of having a presentation on the process to the Task Force.

8. New Business

a) UBCM Convention – Minister Meeting

Mayor Harrison outlined the Mayor and Council meeting with the Ministry of Transportation and Infrastructure, Rob Fleming, during the UBCM Convention. The discussions with the Minister included active transportation in the City. The Ministry announced that the recipients of the Planning Grants would be announced at the conclusion of the UBCM.

9. Other Business &/or Roundtable Updates, Ideas and Questions

File: 5225.10.02

TO: His Worship Mayor Harrison and Members of Council

FROM: Robert Niewenhuizen, Director of Engineering and Public Works

PREPARED BY: Jenn Wilson, City Engineer

DATE: September 14, 2021

SUBJECT: **DRAINAGE MASTER PLANNING AND FUNDING STRATEGY**

STAFF RECOMMENDATION

THAT: Council adopt in principle the Stormwater Master Plan update completed by ISL Engineering and Land Services (April 2020)

AND THAT: Council direct staff to create an implementation plan for a Stormwater Utility to provide consistent and specific funding towards necessary drainage infrastructure replacements, upgrades, extensions and operations and maintenance.

BACKGROUND

The City of Salmon Arm commissioned an update of the original Stormwater Master Plan (Dayton Knight, 2007) through a competitive procurement process. ISL Engineering was selected to complete the update and provided the final report April 2020.

ISL created a hydraulic model of the City's major trunk storm lines to aid in determining existing and future capacity concerns. The model was calibrated the model using precipitation and flow monitoring data. Future state modeling was completed using standard growth factors for development and increased peak flows to account for climate change. A final report was prepared inclusive of recommendations for existing and future upgrades to the urban system to reduce or eliminate capacity issues.

Recommendations included several upgrades and expansion of infrastructure, some changes to the City's operations and maintenance procedures and updates to the design guidelines in the Subdivision and Development Servicing Bylaw.

A copy of the Executive Summary has been attached for reference as well as several figures from the report.

Stormwater infrastructure is funded out of general revenue, competing with other departments for funding which has resulted in significant underfunding over the years. Often capital projects have been funded using grant money which is unsustainable. A stormwater funding strategy was identified as a short-term priority in the City's strategic plan and in 2015-2016 the City began to look at options for creating a stormwater utility or otherwise finding a steady and consistent funding for stormwater projects. With the Stormwater Master plan on the horizon the project was delayed until better data regarding funding requirements was available.

The City has been working to improve asset management practices including collecting inventory, valuing and assessing asset condition, establishing existing service levels, assessing operations and maintenance best practices and assessing risk of funding levels for existing infrastructure. The completion of the Master Plan as well as some advancement in collecting drainage inventory allowed staff to create a draft 20 year infrastructure plan including Operations and Maintenance, Major Maintenance, Studies and Assessments and Capital Works (replacement, upgrade and new). It should be noted that at this point several assumptions are required to fill in data gaps. Staff believe the information to have a moderate confidence level.

The figure below illustrates the funding anticipated as necessary to continue the existing levels of service and minimize risk of flooding and property damage. As noted, existing funding levels are not anticipated to be sufficient.

Figure 1: 20-year Drainage Budget requirements (Medium confidence level)

STAFF COMMENTS

The Stormwater Master Plan was prepared by ISL Engineering in a very balanced and realistic manner with awareness to the City's current budget constraints. The improvements suggested within the plan address both existing capacity issues and future capacity needs. Future capacity funding will be partially addressed by developer contributions and the timeline may be adjusted based on actual community growth. We recommend the plan be adopted in principle and factored in to the City's long term planning.

Figure 1 represents budget requirement projections based on maintaining current drainage service levels throughout the community. The confidence level in the data is medium as the collection of infrastructure data (quantity, quality and cost) is approximately 2/3's complete and several annual budgets are being estimated as an annual recurring cost as opposed to specific projects identified through condition and risk analysis.

The information available to date is sufficient in staff's opinion to move forward with a funding strategy for steady consistent life-cycle funding of drainage assets. Staff recommend that Council direct staff to continue the investigation into a drainage utility or other funding strategy.

Respectfully submitted,

Robert Niewenhuizen, ASCT
Director of Engineering and Public Works

Integrated Expertise. Locally Delivered.

Stormwater Master Plan

ISL Engineering and Land Services
City of Salmon Arm
Final Report

Executive Summary

Introduction

The City of Salmon Arm (the City) engaged ISL Engineering and Land Services Ltd. (ISL) to provide an update and expansion of the City's existing Stormwater Master Plan (SMP) in order to identify areas of existing and future hydraulic deficiencies. This report includes an assessment of the City's current stormwater infrastructure capacity and the future needs for projected populations with the intent to incorporate the new stormwater objectives recently adopted in the City's Design Criteria and develop a comprehensive long-term capital plan that is aligned with the City's annual available budget.

Study Objectives

The objectives of developing the SMP include:

- To assess existing drainage conditions and determine design criteria for the stormwater drainage system including runoff rates and volumes.
- To inventory and analyze existing stormwater infrastructure as well as natural drainage conveyance.
- To determine what, if any, upgrades to the existing stormwater conveyance system to meet present needs as well as upgrades required to handle increased flows due to future growth.
- To develop stormwater infrastructure plans to manage increased runoff resulting from future growth.
- Produce drainage basin specific stormwater management plans that use best management practices to minimize the effect to the natural hydrological and hydro-geological regimes.
- To maintain existing topography wherever possible with special attention given to potential erosion risks impacting the area.
- Produce an optimized 20-year infrastructure plan that balances capacity, condition, alternative routing, and capacity restriction in favor of surface flow, as appropriate.
- To ensure the planned stormwater management system meets regulatory authority requirements.
- To serve as a quality control benchmark for future system design.
- Provide a framework for future development Stormwater Management Reports (SWMRs) to design stormwater management and erosion control measures.

Conclusions

Drainage Basins

- **Drainage Basin A: Hobson Creek**
 - This drainage basin was included in the XP-SWMM model; therefore, refer to the following sections for conclusions and recommendations.
- **Drainage Basin B: Leonard Creek**
 - This drainage basin was included in the XP-SWMM model; therefore, refer to the following sections for conclusions and recommendations.

- **Drainage Basin C: South Street**
 - This drainage basin was included in the flow monitoring analysis and in the XP-SWMM model; therefore, refer to the following sections for conclusions and recommendations.
- **Drainage Basin D: McGuire Lake**
 - This drainage basin was included in the flow monitoring analysis and in the XP-SWMM model; therefore, refer to the following sections for conclusions and recommendations.
- **Drainage Basin E: Okanagan Avenue**
 - This drainage basin was included in the flow monitoring analysis and in the XP-SWMM model; therefore, refer to the following sections for conclusions and recommendations.
- **Drainage Basin F: Lakeshore Terrace**
 - This drainage basin was included in the flow monitoring analysis and in the XP-SWMM model; therefore, refer to the following sections for conclusions and recommendations.
- **Drainage Basin G: Lakeshore**
 - This drainage basin was included in the flow monitoring analysis and in the XP-SWMM model; therefore, refer to the following sections for conclusions and recommendations.
- **Drainage Basin H: Broadview South**
 - This drainage basin was included in the flow monitoring analysis and in the XP-SWMM model; therefore, refer to the following sections for conclusions and recommendations.
- **Drainage Basin I: 10 Avenue**
 - This drainage basin was included in the XP-SWMM model; therefore, refer to the following sections for conclusions and recommendations.
- **Drainage Basin J: Broadview North**
 - This drainage basin was included in the XP-SWMM model; therefore, refer to the following sections for conclusions and recommendations.
- **Drainage Basin K: Lakeshore North**
 - This drainage basin was included in the XP-SWMM model; therefore, refer to the following sections for conclusions and recommendations.
- **Drainage Basin L: Raven Subdivision**
 - This drainage basin was not included in the XP-SWMM model nor assessed as part of the flow monitoring program due to the low growth anticipated within the basin. It is recommended that this area be monitored for concerns and evaluated in more detail should concerns arise, especially in the case that significant development is proposed for this area.
- **Drainage Basin M: Canoe Creek West**
 - This drainage basin was not included in the XP-SWMM model nor assessed as part of the flow monitoring program due to the low growth anticipated within the basin. It is recommended that this area be monitored for concerns and evaluated in more detail should concerns arise, especially in the case that significant development is proposed for this area. A high-level review of the impact of tailwater conditions on the basin was completed as it relates to the previously proposed pipe network upgrades in the area as well as proposed future development.

- **Drainage Basin N: Canoe Creek Northwest**
 - This drainage basin was not included in the XP-SWMM model nor assessed as part of the flow monitoring program due to the low growth anticipated within the basin. It is recommended that this area be monitored for concerns and evaluated in more detail should concerns arise, especially in the case that significant development is proposed for this area. A high-level review of the impact of tailwater conditions on the basin was completed as it relates to the previously proposed pipe network upgrades in the area as well as proposed future development.
- **Drainage Basin O: Engineers Point**
 - This drainage basin was not included in the XP-SWMM model nor assessed as part of the flow monitoring program due to the low growth anticipated within the basin. It is recommended that this area be monitored for concerns and evaluated in more detail should concerns arise, especially in the case that significant development is proposed for this area.
- **Drainage Basin P: Wilcox Creek**
 - This drainage basin was not included in the XP-SWMM model nor assessed as part of the flow monitoring program due to the low growth anticipated within the basin. It is recommended that this area be monitored for concerns and evaluated in more detail should concerns arise, especially in the case that significant development is proposed for this area.
- **Drainage Basin Q: Gleneden Creeks**
 - This drainage basin was not included in the XP-SWMM model nor assessed as part of the flow monitoring program due to the low growth anticipated within the basin. It is recommended that this area be monitored for concerns and evaluated in more detail should concerns arise, especially in the case that significant development is proposed for this area.
- **Drainage Basin R: Upper Syphon Creek**
 - This drainage basin was not included in the XP-SWMM model nor assessed as part of the flow monitoring program due to the low growth anticipated within the basin. It is recommended that this area be monitored for concerns and evaluated in more detail should concerns arise, especially in the case that significant development is proposed for this area.
- **Drainage Basin S: Lower Syphon Creek**
 - This drainage basin was not included in the XP-SWMM model nor assessed as part of the flow monitoring program due to the low growth anticipated within the basin. It is recommended that this area be monitored for concerns and evaluated in more detail should concerns arise, especially in the case that significant development is proposed for this area.
- **Drainage Basin T: Palmer Creek**
 - This drainage basin was not included in the XP-SWMM model nor assessed as part of the flow monitoring program due to the low growth anticipated within the basin. It is recommended that this area be monitored for concerns and evaluated in more detail should concerns arise, especially in the case that significant development is proposed for this area.
- **Drainage Basin U: Moutell Creek**
 - This drainage basin was not included in the XP-SWMM model nor assessed as part of the flow monitoring program due to the low growth anticipated within the basin. It is recommended that this area be monitored for concerns and evaluated in more detail should concerns arise, especially in the case that significant development is proposed for this area.

- **Drainage Basin V: Rumball Creek**

- This drainage basin was not included in the XP-SWMM model nor assessed as part of the flow monitoring program due to the low growth anticipated within the basin. It is recommended that this area be monitored for concerns and evaluated in more detail should concerns arise, especially in the case that significant development is proposed for this area.

- **Industrial Park**

- This drainage basin was not included in the XP-SWMM model nor assessed as part of the flow monitoring program due to the low growth anticipated within the basin. It is recommended that this area be monitored for concerns and evaluated in more detail should concerns arise, especially in the case that significant development is proposed for this area.

Existing System

- Results of the piped (minor) stormwater drainage system within the City under the 1:5, 1:25, and 1:100 year storm conditions are summarized below and discussed in further detail in Section 6.2:
- The 1:5 year storm event was used to show the potential ultimate design flows and capacities that may have been utilized in older design scenarios. Model results indicate that surcharge is observed primarily in the west portion of the system and in the areas closer to the outfalls to Shuswap lake.
- The 1:25 year storm event is utilized to assess the minor system's capability of handling runoff. The surcharging areas are consistent with those highlighted under the 1:5 year storm event with a number of them being amplified.
- The major system is intended to handle runoff from storms up the 1:100 year storm event. Although, the major system was not evaluated in detail as part of the SMP, this scenario was utilized to show the impacts of this storm of the surcharging conditions of the existing system. Model results are consistent with the 1:25 year event, with surcharging and capacity issues amplified further.
- A number of areas of concern were identified by the City. These include areas with significant surface ponding, manhole lid displacement, basement flooding, and inlet inundation.

Future System

- The proposed stormwater system concept comprises of stormwater management facilities, along with sewers that discharge into Shuswap Lake and Canoe Creek.

Recommendations

Servicing Bylaw

The following recommendations have been made based on the guidelines of similar and proximal municipalities as well as ISL's past experience:

- **Alternative Stormwater Systems (7.2)**
 - Note that the MAR is to be calculated according to the method outlined in *Stormwater Planning: A Guidebook for British Columbia* (Ministry of Water, Land and Air Protection, 2002). This is approximately equal to a 1:2 year storm event, which is consistent with the 24-hour MAR of approximately 20 mm as outlined in the *Subdivision and Development Services Bylaw No. 4163*.

- The need for a hydrogeological investigation in support of proposed infiltration systems is to be assessed on a case-by-case basis. For small scale applications, a study may not be needed if the underlying soils can be shown to be conducive to infiltration (even through surface observations potentially), no previous flooding issues have been identified, and no evidence of significant groundwater migration is found. Consideration for slope stability impacts of the proposed infiltration system is to be incorporated with a buffer applied in the case of steep slopes. This is to protect against slope failures due to groundwater migration.
- Design Flows (7.4)
 - Revise the included run-off coefficient table to align with the land uses provided in the *City of Salmon Arm Zoning Bylaw No. 2303* to reduce variations in interpretation.
 - Provide a minimum and maximum percent impervious (impermeable) table for each of the land use types in the run-off coefficient table for use in hydraulic modelling. Typically modelling programs incorporate the catchment slope and soil type for infiltration as separate parameters.
 - Provide updated Salmon Arm Airport IDF data; the current period is 1964 to 1990, whereas the Environment Canada data includes 1964 to 2011.
- Minor System Design (7.5)
 - The currently noted Manning's 'n' roughness coefficient for PVC (0.009) is the minimum of the general range of values typically used. It is more conservative to use a value of 0.011.
- Catchbasins (7.10)
 - Provide approved catchbasin types and associated rating curve(s).
- Major Flow Routing (7.11)
 - All culverts to be sized based on the 1:100 year storm event rather than only those crossing arterial roadways.
- Quantity Control (7.16)
 - Detention basins are to be sized to control flows for up to and including the 1:100 year storm event to a rate of 1.3 L/s/ha or a rate approved by the City according to Section 5.2.

Operations and Maintenance

- Additional inspections/checks are recommended at catchbasins, manholes, and culverts after significant rainfall events as a preventative measure to monitor surcharging, excess ponding, and potential clogging due to debris to ensure the stormwater system is prepared for a future storm event.
- It is recommended that fields be added to the City's GIS database to log the last date each item was checked, comments on condition, and a date of last formal cleaning.
- An annual budget item for CCTV inspection is recommended to allow for targeted inspection of older pipes or problematic areas.

Existing System

- The identified areas of concern as shown in Figure 6.4 should be resolved on a case-by-case basis using the solutions recommended in Section 6.3 and as shown in Figure 6.14.
- The total cost of the proposed existing system upgrades is approximately \$6.4 million as shown in Table ES-1 and is proposed to be completed over the next 5 years.

Table ES-1: Existing Upgrades Cost Estimate Summary

Item	Existing System Upgrades			Total Cost (Rounded) ¹
	Areas of Concern			
	2	3	Canoe	
Gravity Sewers	\$245,000	\$0	\$2,635,000	\$2,900,000
Stormwater Management Facilities ²	\$945,000	\$410,000	\$265,000	\$1,600,000
Overland Conveyance	\$0	\$0	\$1,180,000	\$1,200,000
Mobilization and Demobilization	\$125,000	\$40,000	\$1,180,000	\$600,000
Total Cost (Rounded) ¹	\$1,400,000	\$500,000	\$4,500,000	\$6,300,000

¹ Costs are representative of 2019 prices.

² SWMF costs include the cost of stripping, excavation, landscaping, and an outlet control structure.

- The lack of stormwater sewers or capacity in stormwater sewers in certain parts of the City was noted. It is recommended that the City monitor these areas as potential areas of concern and propose upgrades as needed.
- A detailed evaluation of the Canoe Detention Pond as well as the downstream pipe network should be undertaken to account for the impact of the Shuswap lake level in the proposed pond and pipe network upgrades as a substantial portion of the Canoe system is experiencing tailwater conditions. It may be recommended that the capacity of the existing Canoe Detention Pond as well as the proposed Pond 6 be expanded in addition to pipe upgrades to significantly reduce the discharge flows to the downstream network in order to reduce the potential for surface ponding due to pipe surcharge under tailwater conditions. Additionally, it is recommended that overland conveyance be implemented in a number of locations to convey flows through the major system as the minor system is likely to be inundated based on the maximum Shuswap Lake level.
- Funding of \$100,000 (2019 dollars) should be set aside each year for storm maintenance and rehabilitation projects.

Future System

- The future stormwater system should be designed based on *City of Salmon Arm Subdivision and Development Servicing Bylaw No. 4163* and design criteria presented in this SMP.
- Construct a future stormwater servicing system as denoted in Figure 7.2 and discussed in Section 7.2. The total cost of these additions to the stormwater system are approximately \$14 million, as shown in Table ES-2, to be completed over a period of 15 years.

Table ES-2: Future Concept Cost Estimate Summary

Item	Future System Concept							Total Cost (Rounded) ¹
	Urban Development Area							
	1	2	3	4	5	6	7	
Stormwater Management Facilities ²	\$1,575,000	\$2,535,000	\$950,000	\$330,000	\$425,000	\$445,000	\$445,000	\$6,700,000
Gravity Sewers	\$1,120,000	\$3,850,000	\$75,000	\$35,000	\$30,000	\$395,000	\$285,000	\$5,800,000
Outfall Structures	\$45,000	\$45,000	\$45,000	\$25,000	\$25,000	\$25,000	\$25,000	\$200,000
Mobilization and Demobilization	\$270,000	\$645,000	\$105,000	\$40,000	\$50,000	\$85,000	\$75,000	\$1,300,000
Total Cost (Rounded) ¹	\$3,000,000	\$7,100,000	\$1,200,000	\$400,000	\$500,000	\$1,000,000	\$800,000	\$14,000,000

¹ Costs are representative of 2019 prices.

² SWMF costs include the cost of stripping, excavation, landscaping, and an outlet control structure.

- The proposed staging plan for the stormwater system upgrades places the priority on the existing system upgrades, while the future system upgrade timeline is based on proximity to Shuswap Lake as well as Highway 1 in conjunction with development type. These assumptions as well as cost estimates for each stage are outlined in Section 7.7. Costs are shown in Table E-3 below.

Table ES-3: Staging Plan Cost Summary

Horizon	Timeline	Existing System Upgrades	Future System Concept	Total Cost (Rounded) ¹
5	2019-2024	\$6,300,000		\$6,500,000
10	2024-2029		\$2,100,000	\$2,000,000
15	2029-2034		\$7,900,000	\$8,000,000
20	2034-2039		\$4,000,000	\$4,000,000
Total Cost (Rounded)¹		\$6,500,000	\$14,000,000	\$21,000,000

¹ Costs are representative of 2019 prices.

- Future SWMFs should be sized according to the parameters in Section 5.8 as described in Table 7.3.
- Drainage to the stormwater ponds should be considered at the time of the subdivision application/development permit.
- The proposed SWMFs (ponds) should be equipped with outlet control structures, while the downstream discharge sewers should include an outfall structure at the downstream discharge location.
- Low impact development measures should be considered on a site-specific basis and should be reviewed by the City to determine if their implementation is desired.
- Separate reviews should be prepared to support each subdivision application/development permit to ensure compliance with the overarching SMP.

- The SMP should be reviewed and updated after significant periods of growth or every five years to update the hydrodynamic model and analysis with any capital upgrades completed by the City, and the most up-to-date growth plans. This could provide clarity on the planned location of development, the density of the proposed development, and the potential corresponding upgrades. This should also be undertaken when considering densification within the established.

CITY OF SALMON ARM Storm Water Drainage Overview

EXISTING DRAINAGE SYSTEM

Rural Drainage System

- 125 km of ditches
- 980 Standard Culverts
- 40 Stream Crossing Culverts

Urban Drainage System

- 15 Stormwater Ponds
- 20 Underground Retention Units
- 2360 Storm Services
- 2090 Catchbasins
- 683 Manholes
- 85 km of Storm main
- 3 Stormwater Treatment Units
- ?? Headwalls and Inlet/Outlet structures

TO: His Worship Mayor Harrison and Members of Council

DATE: October 5, 2021

SUBJECT: Council Procedure Bylaw Amendment No. 4479

Recommendation:

THAT: the bylaw entitled City of Salmon Arm Council Procedure Amendment Bylaw No. 4479 be read a first, second and third time.

AND THAT: staff be directed to develop a policy for Electronic Meeting Management.

Background:

Bill 10 *Municipal Affairs Statutes Amendments Act* includes amendments to the Community Charter that allow municipalities to conduct regular and committee meetings electronically, if authorized by a procedures bylaw. Local governments were not permitted to initiate the process of amending their procedure bylaws to allow for fully electronic meetings until the new authorities in the Community Charter took effect on September 29, 2021.

The City of Salmon Arm Council Procedure Bylaw No. 4276 currently authorizes electronic special meetings and electronic participation of up to three members of Council for regular meetings. It should be noted that electronic participation is different than conducting a fully electronic meeting in that some members of Council, staff and the public would be meeting in person while a fully electronic meeting would be held entirely by electronic means except for one municipal officer that would attend in Council

Chambers to ensure that the public has a location to listen to and observe the meeting (unless, due to an emergency it is deemed unsafe to do so).

Council Procedure Amendment Bylaw No. 4479 (attached as Appendix A) has been prepared for Council's consideration. If adopted, this amendment will allow all members of Council to participate electronically in regular meetings. The bylaw could be adopted as soon as October 25, 2021, following the notification required under section 94 of the Community Charter. In conjunction with the mandatory advertising, staff also plan to create a fact sheet on how members of the public can participate in meetings and will continue providing support to anyone who needs technical assistance with the GoToMeeting platform.

Offering a hybrid meeting model on an ongoing basis lowers the barriers to participation for the public, Council and staff. Members of the public may choose to attend in person at City Hall (with appropriate safety protocols in place), by telephone or via their computer. If the Provincial Health Officer directs that meetings cannot safely be conducted in person, then the City will ensure that adequate information is shared with the public so there is no confusion about how they can participate.

It is also recommended that staff develop a policy for Electronic Meeting Management, in keeping with best practices identified by the Province. The bylaw provides the authority to hold electronic meetings, but the rules governing how the meetings are managed are best addressed through policy. If Council is agreeable to this, a policy would be brought forward for consideration at a future date.

Respectfully,

Erin Jackson

Acting Chief Administrative Officer / Director of Corporate Services

CITY OF SALMON ARM

BYLAW NO. 4479**A bylaw to amend "City of Salmon Arm Council Procedure Bylaw No. 4276"**

WHEREAS pursuant to the provisions of the *Community Charter*, SBC 2003, c.26, Council shall, by bylaw, establish the procedures that are to be followed for the conduct of its business;

AND WHEREAS Council has adopted Procedure Bylaw No. 4276;

AND WHEREAS it is deemed desirable to amend the existing procedure bylaw;

NOW THEREFORE Council of the City of Salmon Arm in open meeting assembled enacts as follows:

1. "City of Salmon Arm Council Procedures Bylaw No. 4276" is hereby amended as follows:

PART 2 – Council Meetings

Time and Location of Meetings is hereby amended with the addition of:

5. (1):

or the meeting is meeting is conducted by means of electronic or other communication facilities.

- (a) For meetings that are open to the public and conducted by means of electronic or other communication facilities, the Corporate Officer will designate a location for the public to hear, or watch and hear, the meeting proceedings. A designated municipal officer must be in attendance at that location.

Electronic Meetings is hereby deleted in its entirety and replaced with:

6. (1) Provided the conditions set out in section 128(2) of the *Community Charter* are met,

- (a) a regular Council meeting may be conducted by means of electronic or other communication facilities, subject to the following advance public notice:

- (i) the way in which the meeting is to be conducted by means of electronic or other communication facilities; and

- (ii) the place where the public may attend to hear, or watch and hear, the proceedings that are open to the public.

- (b) Members of council who are participating in a meeting conducted in accordance with section 128 are deemed to be present at the meeting.
- (2) Provided the conditions set out in section 128.1 (2) of the *Community Charter* are met,
 - (a) a special Council meeting may be conducted by means of electronic or other communication facilities, subject to the following advance public notice:
 - (i) the way in which the meeting is to be conducted by means of electronic or other communication facilities; and
 - (ii) the place where the public may attend to hear, or watch and hear, the proceedings that are open to the public.
 - (b) Members of council who are participating in a meeting conducted in accordance with section 128.1 are deemed to be present at the meeting.
- (3) Provided the conditions set out in section 128.2 (2) of the *Community Charter* are met,
 - (a) a Council committee meeting may be conducted by means of electronic or other communication facilities, subject to the following advance public notice:
 - (i) the way in which the meeting is to be conducted by means of electronic or other communication facilities.
 - (b) Members of a Council committee who are participating in a meeting conducted in accordance with section 128.2 are deemed to be present at the meeting.
- (4) Provided the conditions set out in section 128.3 (2) of the *Community Charter* are met,
 - (a) a member of Council or Council Committee who is unable to attend in person at a regular Council meeting, special Council meeting or Council committee meeting may participate in the meeting by means of electronic or other communication facilities.
 - (b) Members of Council or Council committee who are participating in a meeting conducted in accordance with section 128.3 are deemed to be present at the meeting.

2. SEVERABILITY

If any part, section, sub-section, clause of this bylaw for any reason is held to be invalid by the decisions of a Court of competent jurisdiction, the invalid portion shall be severed and the decisions that it is invalid shall not affect the validity of the remaining portions of this bylaw.

3. ENACTMENT

Any enactment referred to herein is a reference to an enactment of British Columbia and regulations thereto as amended, revised, consolidated or replaced from time to time.

4. EFFECTIVE DATE

CITY OF SALMON ARM

To: Mayor Harrison and Members of Council
 Date: September 29, 2021
 From: Chelsea Van de Cappelle, Chief Financial Officer
 Subject: Permissive Tax Exemption – 2022

Recommendation:

That Bylaw No. 4476 cited as "City of Salmon Arm Tax Exemption Bylaw No. 4476," be given three readings.

Background:

Council, at the Regular Council Meeting held on October 13, 2020, adopted Bylaw No. 4415 granting various Organizations a Permissive Tax Exemption for a two (2) year period 2021 and 2022.

No new qualifying applications have been received requesting a Permissive Tax Exemption for the 2022 taxation year. However there is one (1) property requiring an update. This is the final year of the current three (3) year permissive tax exemption cycle and new applications will be required of all applicants next year for exemption in 2023.

Pursuant to Section 224 of the *Community Charter*, adoption of this bylaw will exempt the subject properties from not only the general municipal tax, but also, taxes levied by other governments (e.g. School, Regional District, Regional Hospital, Library, MFA and BCAA). The City is still responsible for payment of the exempted taxes levied by other governments, and the remaining tax base must make up this difference.

It is important to note that statutory exemptions (legislated pursuant to the *Community Charter*) allow churches and the property they sit on, an automatic or statutory exemption. Council has historically granted a Permissive Tax Exemption to churches for the remaining property of up to two (2) acres. For Societies, Senior Facilities and Sports Clubs, Council has historically permissively exempted all land and improvements, provided they are owned by a charitable, philanthropic or other not-for-profit organization.

Cornerstone Christian Reformed Church

The Cornerstone Christian Reformed Church (Church) subdivided their property (1191 22 St NE) in Plan EPP106191 into two (2) separate parcels – 2151 and 2110 11 Avenue NE. The newly created parcel (2110 11 Avenue NE) has been rezoned and subsequently sold to a private, for-profit owner. As confirmed with BC Assessment Authority (BCAA), the new parcel will not receive a permissive tax exemption as it is owned by a for-profit owner.

Council granted a Permissive Tax Exemption for a two (2) year period 2021 and 2022 to the Cornerstone Christian Reformed Church on the original property noted above (1191 22 St NE). The property received a statutory exemption for the church and land on which the church stood and a permissive exemption on the two (2) acres of the property surrounding the church

as it was more than two (2) acres, 0.563 acres of land was taxable. Council's policy allows up to a maximum of two (2) acres surrounding churches and accessory uses for permissive exemption. Following the subdivision of the property, the area surrounding the building is now less than two (2) acres; therefore would be fully tax exempt.

As advised by BCAA, the permissive tax exemption bylaw should be updated to reflect the new civic address and revised legal description of the property owned by the Church. The Church did not submit a formal application for Council's consideration. However, it is recommended that Council grant a permissive exemption on the remaining parcel for 2022.

The estimated permissive tax exemption value for 2022 is \$7,251.00 (General Municipal - \$3,534.00 and Other Governments \$3,717.00).

Pursuant to Section 227 of the Community Charter, the City of Salmon Arm is required to advertise all properties being considered for a permissive tax exemption and the value of said exemptions. As such, advertisements will appear in the Salmon Arm Observer on October 6 and October 13, 2021 respectively.

This bylaw must be adopted by October 31, 2021 to be in effect for the 2022 tax year. Therefore, it is recommended that Council adopt Bylaw No. 4476 to exempt the subject property for the 2022 year.

Respectfully submitted,

Chelsea Van de Cappelle, CPA
Chief Financial Officer

CITY OF SALMON ARM

BYLAW NO. 4476**Being a bylaw to exempt from taxation certain lands and improvements for the year
2022**

WHEREAS it is provided by Section 224 of the Community Charter, that the Council may by bylaw exempt from taxation any lands and improvements as therein specified;

AND WHEREAS the Council of the City of Salmon Arm deems it necessary and expedient to exempt from taxation for all purposes, the whole of the taxable assessed value of the land and improvements on certain properties situate within the City of Salmon Arm;

AND WHEREAS Section 224 of the Community Charter provides that every building set apart and in use for public worship and any church hall which Council considers necessary thereto, and the land upon which the building or hall actually stands, shall be exempt from taxation;

AND WHEREAS such area of lands surrounding the church building or hall as may be determined by Council shall be exempt from taxation, such area so exempted to be determined by bylaw in accordance with Subsection 2 (f) of Section 224 of the Community Charter;

NOW THEREFORE the Council of the City of Salmon Arm by affirmative vote of at least two-thirds of all the members thereof enacts as follows:

1. CHURCHES

- a) In addition to the statutory exemption for every building set apart and in use for public worship and the land upon which the building actually stands, all church halls located on the same property or adjacent property owned by the Church or its Trustees shall also be exempted, including the land upon which the halls stand, for the year 2022.
- b) Where the property on which a church is located does not exceed two (2) acres, all such land shall be exempt from taxation for the year 2022.
- c) Where there is a residence located on the same property as a church, the residence and any ancillary buildings and the land upon which the residence and ancillary buildings actually stand, as well as any area of land deemed to be associated with the use and enjoyment of the residential and ancillary buildings, shall be assessed and taxed as residential property for the year 2022.
- d) Where the property on which a church is located exceeds two (2) acres, the area of land exempt from taxation, including the statutory exemption, shall be two (2) acres.

1. Lot A, Plan EPP97409, Section 24, Township 20, Range 10, Except Plan EPP106191
(2151 11 Avenue NE)
Registered Owner and Occupier: Cornerstone Christian Reformed Church
(04437.003)

6. SEVERABILITY

If any part, section, sub-section, clause of this bylaw for any reason is held to be invalid by the decisions of a Court of competent jurisdiction, the invalid portion shall be severed and the decisions that it is invalid shall not affect the validity of the remaining portions of this bylaw.

7. ENACTMENT

Any enactment referred to herein is a reference to an enactment of British Columbia and regulations thereto as amended, revised, consolidated or replaced from time to time.

8. EFFECTIVE DATE

This bylaw shall come into full force and effect upon adoption of same.

TO: His Worship Mayor Harrison and Council
DATE: October 5, 2021
FROM: Erin Jackson, Director of Corporate Services
PREPARED BY: Caylee Simmons, Executive Assistant
SUBJECT: Checkout Shopping Bag Regulation Bylaw No. 4478

Recommendation:

THAT: the City of Salmon Arm Checkout Bag Regulation Bylaw No. 4478 be read a first, second and third time.

Background:

At the December 10, 2018 Regular Meeting, Council directed staff to prepare a report that included a draft bylaw, a recommended stakeholder engagement process and a draft communication plan for the prohibition of single-use plastic shopping bags in the City of Salmon Arm. Council moved forward with the engagement process and adopted the City of Salmon Arm Checkout Bag Regulation Bylaw No. 4297 on June 10, 2019.

In July 2019, the BC Court of Appeal quashed the City of Victoria's Single Use Plastics Bylaw ruling that municipalities must receive approval from the Minister of Environment prior to adoption of such a bylaw. The City of Salmon Arm did not obtain Ministerial approval prior to adoption, making Checkout Bag Regulation Bylaw No. 4297 unenforceable. Although the City's bylaw was not valid many businesses in Salmon Arm continued to offer alternatives to single use checkout bags and citizens embraced the move to reducing single use bags as well.

The COVID-19 pandemic created uncertainty around reusable bags however, the BC CDC has confirmed that COVID-19 transmission from handling reusable containers such as grocery bags has not been documented and that it is safe to continue to use reusable bags.

In July 2021, the Province amended the *Community Charter* to allow local governments to ban single-use plastics, including plastic checkout bags, without approval of the Ministry. Staff have worked with the Ministry of Environment staff to ensure the proposed bylaw meets the provisions for local government to regulate single use plastics.

It is proposed that the bylaw not come into full force and effect until July 1, 2022, thereby providing businesses with a transition period to use their existing plastic bag stock and source reusable bag options.

Following third reading staff will engage the business community to provide information regarding the proposed bylaw and assist businesses with adhering to the bylaw. Businesses will be provided printable posters and documents to assist with the implementation of the bylaw.

The set fines for any offence are outlined in the proposed bylaw and includes an amendment to the Municipal Ticket Information Bylaw No. 2760. Staff intend to support businesses as they transition to the requirements of the bylaw without the issuance of fines.

The adoption of Checkout Shopping Bag Regulation Bylaw No. 4478 will repeal previous bylaw Checkout Shopping Bag Regulation Bylaw No. 4297.

Erin Jackson
Director of Corporate Services

CITY OF SALMON ARM

BYLAW NO. 4478**A bylaw to regulate the use of checkout shopping bags**

WHEREAS the City of Salmon Arm desires to regulate the business use of single use checkout bags to reduce the creation of waste and associated municipal costs, to better steward municipal infrastructure and/or property, including sewers, streets and parks, and to promote responsible and sustainable business practices that are consistent with the values of the community;

AND WHEREAS Section 8(6) of the *Community Charter* authorizes a municipality to regulate in relation to business

NOW THEREFORE the City of Salmon Arm, in open meeting assembled, enacts as follows:

1. DEFINITIONS

"Checkout Bag" means:

- a) any bag intended to be used by a customer for the purpose of transporting items purchased or received by the customer from the business providing the bag; or
- b) bags used to package take-out or delivery of food;
- c) and includes Paper Bags, Plastic Bags, or Reusable Bags;

"Business" means any person, organization, or group engaged in a trade, business, profession, occupation, calling, employment or purpose that is regulated under the Business Licence Bylaw and, for the purposes of Section 3, includes a person employed by, or operating on behalf of, a Business;

"Paper Bag" means a bag made out of paper containing at least 40% of post consumer recycled paper content, and displays the words "Recyclable" and "made from 40% post-consumer recycled content" or other applicable amount on the outside of the bag, but does not include a "Small Paper Bag";

"Plastic Bag" means any bag made with plastic, including biodegradable plastic or compostable plastic, but does not include a Reusable Bag;

"Reusable Bag" means a bag with handles that is for the purpose of transporting items purchased by the customer from a Business and is:

- a) designed and manufactured to be capable of at least 100 uses; and
- b) primarily made of cloth or other washable fabric;

"Small Paper Bag" means any bag made out of paper that is less than 15 centimeters by 20 centimeters when flat.

2. CHECKOUT BAG REGULATIONS

- 1) Except as provided for in this Bylaw, no Business shall provide a Checkout Bag to a customer.
- 2) A Business may provide a Checkout Bag to a customer only if:
 - a) the customer is first asked whether he or she needs a bag;
 - b) the bag provided is a Paper Bag or a Reusable Bag; and
 - c) the customer is charged a fee not less than:
 - a. \$0.25 per Paper Bag; and
 - b. \$2.00 per Reusable Bag.
- 3) For certainty, no Business may
 - a) sell or provide to a customer a Plastic Bag; or
 - b) provide a Checkout Bag to a customer free of charge.
- 4) No Business shall deny or discourage the use by a customer of his or her own Reusable Bag for the purpose of transporting items purchased or received by the customer from the Business.

3. EXEMPTIONS

- 1) Section 2. does not apply to Small Paper Bags or bags used to:
 - a) package loose bulk items such as fruit, vegetables, nuts, grains, or candy;
 - b) package loose small hardware items such as nails and bolts;
 - c) contain or wrap frozen foods, meat, poultry, or fish, whether pre-packaged or not;
 - d) wrap flowers or potted plants;
 - e) protect prepared foods or bakery goods that are not pre-packaged;
 - f) contain prescription drugs received from a pharmacy;
 - g) transport live fish;
 - h) protect linens, bedding, or other similar large items that cannot easily fit in a Reusable Bag;

- i) protect newspapers or other printed material intended to be left at the customer's residence or place of business; or
 - j) protect clothes after professional laundering or dry cleaning.
- 2) Section 2 does not limit or restrict the sale of bags, including Plastic Bags, intended for use at the customer's home or business, provided that they are sold in packages of multiple bags.
- 3) Notwithstanding Sections 2. 2) c) and 2. 3) b), a Business may provide a Checkout Bag free of charge if:
 - a) the Business meets the other requirements of Section 2. 2);
 - b) the bag has already been used by a customer; and
 - c) the bag has been returned to the Business for the purpose of being re-used by other customers.

4. OFFENCE

- 1) A person or a business commits an offence and is subject to the penalties imposed by this Bylaw, the Municipal Ticket Information Utilization Bylaw and the Offence Act if that person:
 - a) Contravenes a provision of this Bylaw;
 - b) Consents to, allows, or permits an act or thing to be done contrary to this Bylaw; or
 - c) Neglects or refrains from doing anything required by a provision of this Bylaw.
- 2) Each instance that a contravention of a provision of this Bylaw occurs and each day that a contravention continues shall constitute a separate offence.

5. PENALTIES

A corporation or individual found guilty of an offence under this Bylaw is subject to a fine:

- a) If a corporation, of not less than \$100.00 and not more than \$10,000.00; or
- b) If an individual, of not less than \$50.00 and not more than \$500.00

for every instance that an offence occurs or each day that it continues.

6. CONSEQUENTIAL AMENDMENT TO THE TICKET BYLAW

The City of Salmon Arm Ticket Information Utilization Bylaw No. 2760 is amended by inserting, immediately after Schedule 19, the Schedule attached to this Bylaw as the new Schedule 20.

7. SEVERABILITY

If any part, section, sub-section, clause of this bylaw for any reason is held to be invalid by the decisions of a Court of competent jurisdiction, the invalid portion shall be severed and the decision that it is invalid shall not affect the validity of the remaining portions of this bylaw.

8. ENACTMENT

Any enactment referred to herein is a reference to an enactment of British Columbia and regulations thereto as amended, revised, consolidated or replaced from time to time.

9. EFFECTIVE DATE

This bylaw shall come into force and effect July 1, 2022.

10. REPEAL

"The City of Salmon Arm Checkout Bag Regulation Bylaw No. 4297" and all previous versions, consolidations and amendments made thereto are repealed upon adoption of this Bylaw.

CITY OF SALMON ARM

To: His Worship Mayor Harrison and Members of Council

Date: August 10, 2021

Subject: Zoning Bylaw Amendment Application No. 1219
Addition of Licensee Retail Store in C8 Zone

Applicant: DeMille's Farm Market

STAFF RECOMMENDATION

THAT: A Bylaw be prepared for Council's consideration, adoption of which would amend Zoning Bylaw No. 2303 as follows:

1) Section 22 – C-8 - Farm Produce Commercial Zone

Add a subsection to section 22.3 – Permitted Uses – and renumber the balance accordingly;

.2 *licensee retail store*

AND THAT: Final reading be withheld subject to approval of the Bylaw by the Ministry of Transportation and Infrastructure.

PROPOSAL

To amend the Zoning Bylaw to include *licensee retail store* as a permitted use in the C8 (Farm Produce Commercial) Zone as per ALC decision #400/2021 (Appendix 1). Only two properties in the city are zoned C8: 3710 10 Avenue (TCH) SW and 3390 10 Avenue (TCH) SW. Although ALC Application #400/2021 relates specifically to a proposal by DeMille's Farm Market (3710 10 Avenue (TCH) SW) to allow for retail liquor sales, this rezoning would apply to the entire C8 zone.

BACKGROUND

On July 5 of this year, the ALC approved an application for a non-farm use at 3710 10 Avenue (TCH) SW. This approval applies only to the portion of this property that is zoned C8 (note that only the existing retail market is zoned C8).

An ALC Non-Farm Use application was required because DeMille's Farm Market is located within the Agricultural Land Reserve (ALR) and their proposal to sell liquor at the market is considered a non-farm use. Although the ALC application was approved, the C8 zoning does not currently allow for retail liquor sales. In order to permit this use, a text amendment is required to add *licensee retail store* to the C8 zone.

While this text amendment would also apply to Pedro Gonzales at 3390 10 Avenue (TCH) SW (the only other property zoned C8), separate ALC and Liquor Licensing approval would be needed if a *licensee retail store* were also proposed at that location.

DeMille's Farm Market is located at 3710 10 Avenue (TCH) SW (Appendices 2). This property is designated Salmon Valley Agriculture in the City's Official Community Plan (OCP) and zoned Farm Produce Commercial (C8) and Agriculture (A1) in the Zoning Bylaw (Appendices 3 and 4).

See C8 regulations attached as Appendix 5.

The Market is located at the end of a strip of highway commercial businesses in an area consisting of a mixture of commercial and agricultural land, as well as reserve land.

Land uses directly adjacent to the subject properties include the following:

North: Trans Canada Highway and Farmland (in the ALR)	Zoned A2 and C5
South: Farmland (in the ALR)	Zoned A1
East: Pedro Gonzales, Country Camping, and Farmland (some in ALR)	Zoned C3, C8, A1, A2, and A3
West: Farmland	Zoned A1 and A2

DISCUSSION

Policy 7.2.4 shows general support for agri-business opportunities in rural and agricultural areas that are complementary to local agriculture. Although perhaps not exactly an agri-business, staff do feel that this use would be complementary to existing agri-businesses at this location.

The C8 zone of the City of Salmon Arm's Zoning Bylaw does not currently include *licensee retail store* as a permitted use. This use is permitted in all commercial zones except in the C4 (Fuel Service Station Commercial), C8 (Farm Produce Commercial), C9 (Country Inn Commercial), and C10 (High Technology Research & Development) zones. All other commercial zones, as well as three comprehensive development zones, allow for *licensee retail store*.

In addition to requiring Ministry of Transportation and Infrastructure approval, Provincial Liquor Licensing is required by the Liquor and Cannabis Regulation Branch. Proof of appropriate licensing will be required at the building permit stage (or business license stage if no renovations are proposed).

Parking requirements for licensee retail store use is 1 space per 12 sq. m. of retail floor area. If accommodated within the existing building, this may not require additional parking. This would be assessed at the building permit or business license stage.

CONCLUSION

Given that most commercial zones already permit *licensee retail store* use, staff feel that this use would be compatible with the C8 zone and are in support of this application.

Application Status: Under LG Review

Applicant: Birch Haven Farms Ltd.

Local Government: City of Salmon Arm

Local Government Date of Receipt: 10/22/2020

ALC Date of Receipt: This application has not been submitted to ALC yet.

Proposal Type: Non-Farm Use

Proposal: We would like to sell liquor at our Farm Market. Our proposal makes no changes to the size, integrity and continuity of the Agricultural Land Reserve. We will continue to farm lands we own and lease in order to supply our market. In addition our proposal will encourage the farming of agriculture lands and the growth of the industry in our region and throughout BC as we seek out grower and suppliers for our new venture.

1. Quantify and describe in detail all agriculture that currently takes place on the parcel(s).

DeMille's Farm market is a third generation family farm. With roots in California farming, the family moved to the Salmon Arm Valley in 1970 and has owned this property since 1979. From a humble beginning of ten rows of corn and roadside stand, DeMille's now farm 67 acres of our 69 acres site - all of which is in the Agricultural Land Reserve. Famous for our sweet corn, we also grow and sell alfalfa, pumpkins, vegetables, sunflowers and hemp on a total of 130 acres. In addition, our Farm Market sells agriculture products from throughout BC.

2. Quantify and describe in detail all agricultural improvements made to the parcel(s).

SECTION 22 - C-8 - FARM PRODUCE COMMERCIAL ZONE**Purpose**

22.1 The C-8 Zone is intended to provide for the year-round retail sale of farm produce.

Regulations

22.2 On a *parcel zoned C-8*, no *building* or *structure* shall be constructed, located or altered and no plan of subdivision approved which contravenes the regulations set out in the C-8 Zone or those regulations contained elsewhere in this Bylaw.

Permitted Uses

22.3 The following uses and no others are permitted in the C-8 Zone:

- .1 retail sale of farm produce;
- .2 *mobile food vending*; #4240
- .3 *outside vending*; #2837
- .4 *public use*;
- .5 *public utility*;
- .6 *accessory use*.

Accessory Use

22.4 The following *accessory uses* and no others are permitted in the C-8 Zone:

- .1 retail sale of confectioneries and soft drinks;
- .2 retail sale of packaged food stuffs;
- .3 retail sale of bedding plants, processed fruits, shrubs or trees and plant food;
- .4 retail sales of arts and crafts. #3768

Maximum Parcel or Site Coverage

22.5 The maximum *parcel* or *site* coverage for all *buildings* and *structures* shall be 40% of the *parcel* or *site* area.

Maximum Height of Principal Buildings

22.6 The maximum *height* of the *principal buildings* shall be 10.0 metres (32.8 feet).

Minimum Parcel Size or Site Area

22.7 The minimum *parcel* size or *site* area shall be 1,000.0 square metres (10,764 square feet).

Minimum Parcel or Site Width

22.8 The minimum *parcel* or *site* width shall be 20.0 metres (65.6 feet).

Minimum Setback of Principal Building

22.9 The minimum *setback* of the *principal building* from all *parcel* lines shall be 6.0 metres (19.7 feet).

Maximum Sales Floor Area

22.10 The maximum sales *floor area* shall be 680.0 square metres (7,319 square feet). #3768

Outside Storage

22.11 Outside storage shall be screened as per Appendix III.

Parking and Loading

22.12 Parking and loading shall be required as per Appendix I. #3768

SECTION 2 - DEFINITIONS - CONTINUED

HEALTH SERVICES CENTRE means an establishment primarily engaged in furnishing medical, surgical or other services to individuals, including the offices of physicians, dentists and other health practitioners, medical and dental laboratories, out-patient care facilities, blood banks, and oxygen and miscellaneous types of medical supplies and services.

HEIGHT when determining the *height* of *buildings*, except for those *structures* listed in Section 4.4 (Height Exceptions), means the vertically measured distance between the lowest of the average levels of *grade* adjoining each exterior wall of a *building* prior to the start of construction of the *building*, to the roof line of the *building* when roof line means the highest point on any roof top or edge or parapet forming the top line of the (roof) *building* silhouette.

HELIPORT means a facility where an area of land is used for the arrival and departure of helicopters on a regular basis and may or may not include facilities for repair, refuelling and/or overnight storage for same.

HIGH TECHNOLOGY RESEARCH AND DEVELOPMENT means Commercial *office* use involving the research and/or design, including the light assembly and value added production of items and components used in the fields of computer software and programming, electronics, telecommunications, aeronautics, precision engineering, robotics, biochemistry, health care, and related industries. *High Technology Research and Development* does not include activities that may cause a *nuisance* or negative impacts, such as noises, odors, emissions, vibrations or other externalities off the *parcel* line..

HIGHWAY includes a street, road, lane, walkway, viaduct and any other way open to *public use*, but does not include a private right-of-way on private property.

HOME OCCUPATION means any occupation or profession carried out in a home, where the occupation or profession is accessory to the use of a dwelling for residential purposes. A *home occupation* shall not include a *family* or *commercial daycare facility*, boarders, or a *bed and breakfast* (Also see Section 4.5 General Regulations).

HOTEL means a *building* which contains *sleeping units* and may contain assembly, commerce, entertainment, indoor recreation, or *restaurant* uses and premises licensed for beer and wine sales and on-site consumption of alcoholic beverages.

INTENSIVE AGRICULTURE means the use of land, *buildings* and *structures* by a commercial enterprise or an institution for the confinement of poultry, livestock or fur bearing animals, or the growing of mushrooms.

INTERIOR SIDE PARCEL LINE means a *parcel* line other than a rear or *front parcel line* which is not common to a *highway* or *access route*, *excluding lanes* and *walkways*.

KENNEL means any *building*, *structure*, compound, group of pens or cages or property in which or where four (4) or more dogs or cats in total are intended to be trained, cared for, bred, boarded, or kept for any commercial purpose. A dog or cat means a member of the canine or feline species which is two (2) or more months in age.

KEY/CARD-LOCK FUEL INSTALLATION means a private facility, not available to the general public, for the dispensing of motor fuel.

LICENSEE RETAIL STORE means an establishment that specializes in the retail sale of liquor products, and which is licensed in accordance with the Provincial Liquor Control and Licensing Act Regulations. #3223, #3249, #3630

LIGHT INDUSTRY means the wholesaling, warehousing, testing, processing, service, repair or maintenance of an article, substance, material, fabric or compound; and includes artisan and manufacturing shops, and industrial retail sales accessory to the *principal use*, excluding all other industrial uses that create a *nuisance*.

LOWER FLOOR DWELLING UNIT means a dwelling unit located below an industrial, commercial, retail or office use where the uppermost floor of the dwelling unit is more than 1.2 metres below the lowest of the average levels of grade adjoining the dwelling unit, and contains a separate entrance. #3951

MANUFACTURED HOME means a *single family dwelling* manufactured in component parts and constructed to CSA A277 standards with the intention of the parts being transported to a new ultimate *site* and only once fully assembled, attached to a foundation and connected to services is it ready for occupancy.

23. STATUTORY PUBLIC HEARINGS

1. Zoning Amendment Application No. ZON-1219 [DeMille's Farm Market; Text Amendment; C-8 – Farm Produce Commercial Zone]

The Director of Development Services explained the proposed Official Community Plan Amendment Application.

Submissions were called for at this time.

Following three calls for submissions and questions from Council, the Public Hearing was closed at 7:22 p.m. and the next item ensued.

CITY OF SALMON ARM

BYLAW NO. 4473

A bylaw to amend "District of Salmon Arm Zoning Bylaw No. 2303"

WHEREAS notice of a Public Hearing to be held by electronic means as authorized by Ministerial Order M192, British Columbia, on September 27, 2021 at the hour of 7:00 p.m. was published in September 15 and 22, 2021 issues of the Salmon Arm Observer;

AND WHEREAS the said Public Hearing was duly held at the time and place above mentioned;

NOW THEREFORE the Council of the City of Salmon Arm in open meeting assembled enacts as follows:

1. "District of Salmon Arm Zoning Bylaw No. 2303" is hereby amended as follows:

The addition to Section 22 – C-8 – Farm Produce Commercial Zone:

Add a subsection to section 22.3 – Permitted Uses – and renumber the balance accordingly;

.2 licensee retail store

2. SEVERABILITY

If any part, section, sub-section, clause of this bylaw for any reason is held to be invalid by the decisions of a Court of competent jurisdiction, the invalid portion shall be severed and the decisions that it is invalid shall not affect the validity of the remaining portions of this bylaw.

3. ENACTMENT

Any enactment referred to herein is a reference to an enactment of British Columbia and regulations thereto as amended, revised, consolidated or replaced from time to time.

4. EFFECTIVE DATE

This bylaw shall come into full force and effect upon adoption of same.

Subject: Zoning Text Amendment Bylaw - Regulating Ground Water Bottling - ZON 1220

Motion for Consideration

THAT a Bylaw be prepared for Council's consideration, adoption of which would amend the text of Zoning Bylaw No. 2303 as follows:

1. Section 2 - Definitions - Add the following definition for "ground water":

Ground Water means water naturally occurring below the surface of the ground.

2. Section 2 - Definitions - Add to the definition of *light industry*:

In accordance with Section 4.20.1, *light industry* does not permit a *building* or facility used for the bottling of *ground water* either on its own or as a by-product for beverage manufacturing and for the purpose of commercial sale.

3. Section 2 - Definitions - Add to the definition of *private utility*:

In accordance with Section 4.20.1, *private utility* does not permit a *building* or facility used for the bottling of *ground water* either on its own or as a by-product for beverage manufacturing and for the purpose of commercial sale.

4. Section 4 - Retitle General Regulations to "General Regulations and Prohibitions"

5. Section 4 - Add sub-sections 4.20 titled "General Prohibitions" and:

4.20.1 A *building* or facility used for the bottling of *ground water* either on its own or as a by-product for beverage manufacturing and for the purpose of commercial sale in all zones.

Background

Earlier this year, a ground water extraction licence application to the Province for land within the municipality raised concerns by Council on the possibility of a ground water bottling facility locating in the City.

This report is an update to the July 27, 2021 report presented to the Development and Planning Services Committee meeting on August 3, 2021. The above motion for consideration is a result of direction provided to staff at that Committee meeting.

Zoning Bylaw Amendments

A water bottling facility, as is the case for other types of beverage production facilities, is permitted in the General Industrial (M1) and Light Industrial (M2) zones under the use *light industry*. The use "distillery and brewery" (undefined) is also permitted in the M1 and M2 zones. Arguably, a ground water bottling facility could also fit within the defined use *private utility*, also permitted in M1 and M2.

Light industry is a light manufacturing use defined as "...the wholesaling, warehousing, testing, processing, service, repair or maintenance of an article, substance, material, fabric or compound...".

Private utility is defined as: "a system, work, building, plant, equipment, or resource owned privately for the provision of water, sewer, drainage, gas or telecommunication services...".

The proposed zoning bylaw amendments would have the following outcome:

1. A definition for *ground water*, which would be consistent with the BC Water Sustainability Act definition. This definition would effectively differentiate ground water from treated City water.
2. Establish a new "General Prohibition" within the existing General Regulations section. The first prohibition would apply to all zones be:

"A *building* used for the bottling of *ground water* either on its own or as a by-product for beverage manufacturing and for the purpose of commercial sale."

3. Clarify the above prohibition within the definitions for *light industry* and *private utility*. These are permitted uses in the M1 and M2 zones.

Discussion

City staff understands the intent and purpose of Council's direction. The Province is the authority over extraction under the Water Sustainability Act. Without consultation, the unknowns with ground water (supply, demand, quality, impacts of a large-scale commercial extraction license, etc.) remain a mystery.

The City has some control over surface land use and development with its zoning bylaw. *Light industry* is a long-standing land use in Salmon Arm's M1 and M2 zones. The use *light industry* is presently wide open to light manufacturing options and consistent with the Official Community Plan.

The proposed amendments are similar to zoning bylaw regulations adopted by the City of Courtney and the Comox Valley Regional District. As was raised at the August 3 meeting, there are approximately 18 other zoning bylaws in BC with similar regulations. From the options outlined in the July 27 staff report, legal advice was received earlier this month. The advice assisted in firming up the language of the amendments and closing potential loopholes.

As a core service, the City is a provider of treated water for residential, public, commercial and industrial purposes, along with irrigation, and for some agriculture / silvaculture operations. The main source being Shuswap Lake starting at its main Canoe intake and treatment centre and distribution systems, and includes a bulk water supply station (a metered and user pay system). There are several business operating in Salmon Arm dispensing bulk treated City water for commercial retail sale (permitted as *retail store* in various commercial zones). Two business licences and numerous water vending machines exist in various locations and grocery stores.

The additional demands on the City's treated water system due to growth in all sectors could be considered with the present ability of a commercial/industrial operation to utilize ground water. With the amendments, a beverage manufacturer, could locate on a M1 or M2 zoned property, connect to the City's water system, pay the metered commercial rate, and sell products in plastic bottles or single use containers. There would also be no ability to restrict H2O tanker trucks from filling up on a Provincially licenced extraction site and exporting the ground water to jurisdictions where bottling facilities are permitted.

Respectfully,

Kevin Pearson, MCIP, RPP

Re: Regulating Ground Water Bottling

Dear Mayor & Councillors:

I would like to have input into the regulation of ground water bottling.

I am against allowing ground water bottling in general and in particular, against the current proposal within our municipal boundaries. I believe we must, as a municipality, restrict this activity as much as possible

My rationale:

Fresh drinking water is **not** in infinite supply. I believe we must have an accurate assessment of our fresh water resources within our municipality, both surface water and ground water. In terms of population, Salmon Arm is one of the fastest growing communities in British Columbia. Every person who lives here requires fresh water for drinking and washing and agriculture. We are experiencing drought conditions more and more frequently as a result of critical climate change. Drought affects both the supply of surface water that provides much of Salmon Arm's fresh water today and the supply of ground water that many residents draw from their wells. It is conceivable that in the near future, as a result of climate change the City will need to draw from ground water as well as surface water sources to provide water for its citizens. To allow a single enterprise to profit by bottling an important supply of fresh water within municipal boundaries is unwise.

We know that bottling aliquots of fresh water in plastic bottles has a negative impact on our environment. Plastics persist in the environment and create a problem of generating unhealthy waste. We should be doing all we can to minimize this type of enterprise.

Fresh water is more valuable than gold or oil. Fresh water should be a basic human right and not a commodity for profit. Just as we need the air we breathe, we need fresh water to survive. We cannot assume the plentiful supply we have enjoyed to date will always be available given the critical state of the planet in terms of climate change.

Please, as elected members of our municipal government, do what you can to protect the water supplies of our municipality. You have a duty first to ensure that every resident has access to fresh water. There is no obligation during this current environmental crisis to indulge an entrepreneur their wish to bottle water for profit.

Yours truly,

Ruth Brighthouse, MD

Subject: Following up our Letter of April 25, 2021

September 20, 2021

Mayor And Council: In a letter written April 25, 2021 (also attached), my wife and I expressed our concerns with the proposed water bottling plant and the subsequent sale of the water outside of Salmon Arm. We would like to follow up and affirm that we support any action by the City of Salmon Arm to create bylaws that will prevent water from "our " aquifer being bottled for resale. We appreciate your efforts.

On October 4, 2021 a multi-story installation will be officially opened in France by the Canadian Consulate, one of 3 installations around the world, depicting "Turning Off the Plastic Tap" by Benjamin Van Wong. It is an acknowledgement of our Canadian determination to stop the production of single use plastics. Salmon Arm Council is doing the right thing in taking measures to stop this plant.

Len and Jean Lazzarotto

April 25, 2021

Mayor and Council of Salmon Arm:

My wife and I live at 1540 60th St. SE Salmon Arm on a small 10 acre parcel of land within the Agricultural Land Reserve. We have lived on these premises since 1992 and have raised our family of 4 children on this property.

We wish to raise a number of concerns with the proposed water bottling facility in the industrial park.

1. In accordance with the Groundwater Licensing Requirements of BC, we applied to register our well last summer. Using the department's ground water calculator we made application for 13,650 m³/year for an area of 2.833 ha. which provided for irrigating our hay lands, gardens, and lawns. After paying a bill for \$241.94 we were informed that because we were not currently irrigating our hay fields, our Conditional Water Licence would provide for 850 cubic meters per year at a rate not to exceed 0.2 per second, which was supposed to provide for our garden of approximately 0.2 hectares. "If you plan to irrigate a larger area in the future, you can apply for a new water licence" we were told.

Our concern is that firstly there is no grandfathering of any of our regions historical or potential agricultural requirements being considered in the current granting of licences, and secondly that we have been unsuccessful in having our current licence even moderately expanded, and thirdly, because both the "Bottling Works" and we are on the same Tuhok set of aquifers we will undoubtedly be competing with this

enterprise in the future, were we able to apply for additional water in our licence.

The 2 Tuhok aquifers are coloured in shades of purple

The characteristics of the 2 aquifers are in listed below:

Showing 1 to 2 of 2

Aquifer number	Aquifer name	Descriptive location	Material	Litho stratigraphic unit	Subtype	Vulnerability	Size-km ²	Productivity	Demand	Year of mapping
100	Tuhok Confined Aquifer	Highway 97B	Gravel		Confined sand and gravel - glacial	Moderate	27.1	Moderate	Low	2017
101	Tuhok Unconfined Aquifer	4 kilometres southeast of Salmon Arm	Sand and Gravel		Unconfined sand and gravel - late glacial outwash	High	25.4	Moderate	Moderate	2017

2. Our second major concern is with the potential effluent from this Bottling Facility.

In our experience, water from this Tuhok aquifers is very hard, has very high levels of manganese and iron as well as calcium carbonate. Our neighbours have reported that on recent tests that they conducted, it was also found to have maximum tolerable level for uranium. While we have found it possible to treat the water for household use with water softeners and iron filters, we have found it unsuitable for drinking. With our minimal household use, the back flushing from these treatments into our septic system has caused significant challenges. In fact, Saturday night, April 24, 2021 we found our pipes for discharging these wastes completely clogged with calcium and iron debris and overflowing into the nearby drain. The following photo shows a cross-section of that pipe.

If this enterprise in the industrial park is going to be successful in producing both palatable and potable water for sale, it will undoubtedly require a process, (probably reverse osmosis) to remove these minerals to a tolerable level. In our experience, pre-filtering and filtering this Tuhok water for reverse osmosis is difficult to impossible. In any case the water needs of this enterprise may almost double to provide for the backflushing requirements of this water processing.

We believe that while this company's withdrawal of water from this aquifer may be beyond the City of Salmon Arm's jurisdiction, the City does have a vested interest in determining the outcome of the bi-products of its water processing. The proposed huge quantities of water that this company plans to process has the potential to produce tons of manganese, iron and calcium carbonate wastes, that in the current configuration of waste and surface water drainage in the industrial park will make their way to the marshes near Highway 97 B and into Canoe Creek, a fish bearing stream. Were it to also contain significant quantities of uranium, this could become a significant ecological disaster.

We believe that it behooves the City of Salmon Arm to demand knowledge of how and from which aquifer this company plans to draw its water, to understand the water processes that are going to be used to prepare the water for sale, what will be the nature of any bi-products of its productions and how they will be disposed of, in a manner that does not compromise the integrity of our local environment.

We appreciate your attention to these matters,

Len and Jean Lazzarotto

SALMON ARM

ECONOMIC DEVELOPMENT SOCIETY

May 19th, 2021

Kevin Pearson, Director of Development Services
City of Salmon Arm
Box 40
Salmon Arm BC, V1E 4N2

Dear Kevin,

Re: Water Extraction/Bottling

In response to your April 29th, 2021, letter requesting comment from Salmon Arm Economic Development Society (SAEDS) regarding the pending water extraction application, SAEDS has reviewed available information and has compiled the following comments.

The Salmon Arm Economic Development Society board of directors supports the resiliency and growth of our local entrepreneurs, new business development, and related job creation. We actively support our community's start-up economy. Our organization acknowledges the important economic contribution of every business operating within the City of Salmon Arm. Further, SAEDS values the applicants' reputations for providing environmental solutions, as well as the significant community economic contribution which continues to be generated through their existing businesses.

The board has concerns related to how an application for water extraction aligns with our community brand, affects environmental sustainability, and potentially impacts the community in the long-term. Core to our community's brand pillars is a commitment to the long-term sustainability of our natural environment, which includes water resources. The SAEDS board noted concern related to the unknown long-term implications to community water availability.

This application is a unique and nuanced proposal with numerous intricacies. There are many factors at play, some of which our organization has not previously encountered. As a result, this was a carefully considered but difficult response.

Sincerely,

William Laird
Board Chairperson

Subject: Agenda 23.2 Sept 27, 20-21 water bottling plants in the city of salmon arm

Attention City of Salmon Arm Councillors

<http://www.salmonarm.ca/AgendaCenter/ViewFile/Item/184?fileID=729>

Agenda 23.2 Sept 27, 20-21 water bottling plants in the city of salmon arm

I just want to state that I do use well water for my farm business in the city of Salmon Arm.

The use of ground water for farming purposes and ground based activities is part of the water cycle over the aquifer.

I am opposed to the use of groundwater aquifers for water bottling that results in the export of water beyond the local aquifer to other cities and countries.

Water removed from the aquifer and exported significantly reduces the local groundwater supply and the natural water cycle.

8, 10, or 24 hour a day water pumping from the aquifer for export beyond our local area is not in the best interest of our local economy and environment.

Local water use for farming is limited generally to the growing season (other than greenhouses etc) and is not a year round water removal, and allows the aquifer to recharge.

Water bottling plants would be removing water from the local high quality groundwater drinking water supply and it should not be approved.

The city of Salmon Arm would be wise to consider long term water supply needs and what may be required if South Canoe Creek is rehabilitated as a Salmon Stream and the dam supply in South Canoe is required to maintain stream flows in Canoe Creek. (Less water for city use in the future)

The groundwater aquifer is a source of excellent water for supplying the city if the South Canoe supply at the dam is reduced in the future in an effort to rehabilitate the stream for Salmon and other fisheries resources.

The city should oppose development of water bottling plants using ground water within the city limits of Salmon Arm.

--

Sincerely,
King Campbell P. Ag.

23. STATUTORY PUBLIC HEARINGS

2. Zoning Amendment Application No. ZON-1220 [Text Amendment; Regulating Ground Water Bottling]

The Director of Development Services explained the proposed Official Community Plan Amendment Application.

Submissions were called for at this time.

W. Laird, Chairperson, Salmon Arm Economic Development Society – letter dated May 19, 2021 – Water Extraction/Bottling.

K. Campbell – email dated September 27, 2021 – Agenda 23.2 Sept 27, 2021 water bottling plants in the city of salmon arm.

L. and J. Lazzarotto – email dated September 27, 2021 – Follow up our Letter of April 25, 2021

Following three calls for submissions and questions from Council, the Public Hearing was closed at 7:25 p.m. and the next item ensued.

CITY OF SALMON ARM

BYLAW NO. 4474

A bylaw to amend "District of Salmon Arm Zoning Bylaw No. 2303"

WHEREAS notice of a Public Hearing to be held by electronic means as authorized by Ministerial Order M192, British Columbia, on September 27, 2021 at the hour of 7:00 p.m. was published in September 15 and 22, 2021 issues of the Salmon Arm Observer;

AND WHEREAS the said Public Hearing was duly held at the time and place above mentioned;

NOW THEREFORE the Council of the City of Salmon Arm in open meeting assembled enacts as follows:

1. "District of Salmon Arm Zoning Bylaw No. 2303" is hereby amended as follows:

1. Section 2 - Definitions - Add the following definition for "ground water":

Ground Water means water naturally occurring below the surface of the ground.

2. Section 2 - Definitions - Add to the definition of *light industry*:

In accordance with Section 4.20.1, *light industry* does not permit a *building* or facility used for the bottling of *ground water* either on its own or as a by-product for beverage manufacturing and for the purpose of commercial sale.

3. Section 2 - Definitions - Add to the definition of *private utility*:

In accordance with Section 4.20.1, *private utility* does not permit a *building* or facility used for the bottling of *ground water* either on its own or as a by-product for beverage manufacturing and for the purpose of commercial sale.

4. Section 4 - Retitle General Regulations to "General Regulations and Prohibitions"

5. Section 4 - Add sub-sections 4.20 titled "General Prohibitions" and:

4.20.1 A *building* or facility used for the bottling of *ground water* either on its own or as a by-product for beverage manufacturing and for the purpose of commercial sale in all *zones*.

2. SEVERABILITY

If any part, section, sub-section, clause of this bylaw for any reason is held to be invalid by the decisions of a Court of competent jurisdiction, the invalid portion shall be severed and the decisions that it is invalid shall not affect the validity of the remaining portions of this bylaw.

3. ENACTMENT

Any enactment referred to herein is a reference to an enactment of British Columbia and regulations thereto as amended, revised, consolidated or replaced from time to time.

- ☐ Cannon
- ☐ Eliason
- ☐ Flynn
- ☐ Lavery
- ☐ Lindgren
- ☐ Wallace Richmond

To the City of Salmon Arm Council.

As you all know, the Shuswap Society for the Arts and Culture has been looking into the possibilities of creating a multi functional, state-of-the-art, performing arts centre. We note that the Cultural Master Plan of the city supports in principle the fostering of all forms of art and culture.

We have researched our community needs and have looked at what other communities, many of them smaller than ours, have done to promote the arts and culture. Currently we have many potential partners that are interested in becoming involved with this “Big Idea” and are willing to put their support behind the project once they know where the building will be located. We have also put together a detailed business proposal to show how the centre can operate on a financially independent base. Final figures will be dependent on location.

Because of the high cost of construction, the project could not proceed unless it was on city property. We have researched 17 potential building sites in Salmon Arm and there are only two that would be satisfactory for the needs of a Performing Arts Centre, as it would require at least .9 ha. (2.2 acres).

One of the parcels of land is located west of the Community centre known as the old Orchard House /Mino's property. The other is the 5-acre parcel between the DAC and the old Armories building (map attached).

In order for us to proceed with our plans, to sign up partners and complete the business plan, we need to know if these locations have already been committed by the city for other use. If either parcel is available, we would like the city to give us a one year first right of refusal for its use. If this can be done, we would make a formal presentation to council next fall for the construction of a much-needed Performing Arts Centre. .

Our first question to council is:

-Are either one or both of these properties already committed to a specific project? If so, is the entire property committed?

-If one or both are available, what procedure do we need to follow in order to make a formal request for a first right of refusal?

-If the properties are fully committed, are there other properties of suitable size and location that could support the project?

Thank you very much for your attention,

Jake Jacobson

President, Shuswap Society for the Arts and Culture

RE: Salmon Arm RCMP Detachment
Quarterly Policing Report – July 1, 2021 to September 30, 2021.

Dear Mayor and Council,

My report this quarter covers the time period from July 1, 2021 to September 30, 2021.

Detachment News

Members and staff at our office continue with COVID protocols. We do continue to use appropriate PPE given the specific circumstances we are faced with. We have had one member come down with a case of COVID and have had no less than 4 members who were required to be tested and self-isolate due to COVID in the quarter. Unfortunately, it is a hazard of the job right now. I am happy to report that the member who did test positive has made a full recovery and it was not contracted or spread in the workplace.

At this time all member positions are occupied by officers. As in my previous report there continues to be 4 officers on light duties or are away from the job for health reasons.

Over this quarter the officers responded to over 2300 calls for service. Of these calls, 1687 were within the City of Salmon Arm. The call volume represents 72% of our total file workload, and an increase of 185 calls for service over 2020 within the city. This is prefaced on our coding being correct. Our records department continues to have a substantial backlog.

Statistics are attached, however these numbers are only meant to be an indication of the trends as quality assurance on scoring has yet to be completed on some files. You can see from these that property crime is on an upswing while crimes against persons is lower than it was in the same quarter last year. These trends are not unexpected as people are moving around more as restrictions loosen and social supports brought on by COVID concerns lessen over time. One notable decrease is in the reports of Domestic Violence which has dropped off by almost 70%. We have seen increases in mental health related calls which are in line with numbers seen in 2018. Other current crime statistics appear to be returning to pre COVID levels at this time. The

Canada

RCMP GRC 2823 (2002-11) WPT

Page 1 of 3

exception to this is domestic violence reports which is positive.

Officers continued to be busy in traffic law enforcement despite COVID and logged:

- Over 197 Documented traffic stops.
 - Which includes removing more than 25 impaired and prohibited drivers from the road.
 - Our dedicated BC Highway Patrol continues to do good work in our corner of their jurisdiction as well.
- We had 16 collisions with damage over \$10,000 or injuries were reported within Salmon Arm. This is up from 2020 which saw 8 in these same categories but in line with or lower than 2018 and 2019 statistics.
- There were no fatal collisions within the city boundaries.

Investigative highlights this past quarter:

- Our General Investigation Section (GIS) continues to actively pursue important investigations which revolve around the local drug trade.
 - In one file 1600 cannabis plants, a kilo of cocaine and firearms were seized in the execution of a search warrant in the rural area.
- We do have a number of people who have given substantial amounts of cash and virtual currency to on line scammers and would be investors. In one case, a person was swindled out of over \$900,000 in on line currency. My best advice is if it is too good to be true it is! Please do not buy in. Do your own due diligence to research what you could be investing in and use an accredited investment company that is known to you or seek advice. Be wary of the limited time offer or the confidential investment that gives you an initial great return and then asks you to buy in with ever increasing sums of money. At some point the only return you will get when you call these people is this number is not in service as they take off with your money and leave you in ruin.
- Property Crime:
 - Reports of residential break and enter investigations numbered 6 which is 60 % lower than 2019 statistics within the city.
 - Break and enter complaints to business maintained a low reporting level but did increase 5 to 16 over 2020 numbers and is higher than 2019 numbers.
- Our Victim Services staff member continues to respond to support victims and we are looking forward to bringing on board a ½ time person to assist in this regard with the support of the local *Safe Society*. Right now there are more than 400 persons whom our Police Based Victim Services is supporting.

Looking forward:

Our detachment has fully activated our on line crime reporting system. Our office will be sending out a press release to the local media outlets in the coming weeks to advise the public what is appropriate to report using this system. In short, crimes like theft from vehicles with no suspects or no witnesses, mischief under \$5000, stolen bicycles under \$5000 and lost BC vehicle plates, just to name a few can be reported using this system. We have done an information

session with the local insurance agents so that they understand the system and can help their clients use this reporting system to get file numbers. In summary, if you report a crime this way it will take you less than 15 minutes with no on hold time and will receive a file number at the end of inputting the data correctly. If it is not appropriate to report this way, then it will direct you to call the detachment. It is important to note that this is not a reporting tool for in progress crimes. Call us and we will attend as we have always done.

Crimes reported this way will still have us attempting to recover your property and we will still enter your serial numbers on our systems in case another officer finds it from another jurisdiction.

I would be more than happy to provide council a public presentation if they wish at a later date. It is my opinion that this will encourage people to report more crimes which they may not otherwise call about and it is an efficient use of policing and administrative resources.

Our detachment has continued to support provincial operations when and where required. We have members who have been deployed to protests in Fairy Creek as well as at TMX sites within the province. These deployments are in accordance with the policing agreements with the province and the municipalities at this time.

Yours in Service,

Scott West, S/Sgt.

CITY OF SALMON ARM**CITY OF SALMON ARM****NOTICE OF PUBLIC HEARING****CITY OF SALMON ARM
NOTICE OF PUBLIC HEARING**

Notice is hereby given that the Council of the City of Salmon Arm will hold a Public Hearing virtually and in the Council Chambers at City Hall, 500 – 2 Avenue NE, Salmon Arm, British Columbia, on Tuesday, October 12, 2021 at 7:00 p.m.

1) Proposed Amendment to Zoning Bylaw No 2303:

Proposed Rezoning of Lot 9, Section 12, Township 20, Range 10, W6M, KDYD, Plan 782 Except Plans 10716, 12873, 21504 and EPP53854 from R-1 (Single Family Residential Zone) to R-8 (Residential Suite Zone).

Civic Address: 1640 - 10 Street SE

Location: Southeast of corner of 15 Avenue SE and 10 Street SE

Present Use: Single Family Dwelling

Proposed Use: Single Family Dwellings with Suites

Owner / Agent: Appeldoorn Developments Ltd./ Browne Johnson Land Surveyors

Reference: ZON-1217/ Bylaw No. 4475

The staff report for the proposal is available for viewing on the City of Salmon Arm website at <https://www.salmonarm.ca/431/Public-Hearing-Notices> September 28 to October 12, 2021 inclusive. Those who deem their interest affected by the proposed bylaws are urged to review the online file, contact the undersigned or phone the Development Services Department at 250.803.4000 to obtain the facts of the proposal prior to the hearing.

Meetings are being held in person, with limited capacity, and virtually. In person attendance will be on a first come first serve basis and are subject to the provisions of the City of Salmon Arm COVID 19 Exposure Control Plan and in adherence with the Provincial Health Orders. If you wish to attend electronically email cityhall@salmonarm.ca.

City Council encourages the continued use of the city's website to stay informed on current Development applications and Council Agendas.

Erin Jackson, Director of Corporate Services

Subject: Zoning Bylaw Amendment Application No. 1217

Legal: Lot 9, Section 12, Township 20, Range 10, W6M, KDYD, Plan 782 Except Plans 10716, 12873, 21504 and EPP53854
 Civic Address: 1640 10 Street SE
 Owner: Appeldoorn Developments Ltd.
 Applicant: Browne Johnson Land Surveyors

STAFF RECOMMENDATION

THAT: A Bylaw be prepared for Council's consideration, adoption of which would amend Zoning Bylaw No. 2303 by rezoning Lot 9, Section 12, Township 20, Range 10, W6M, KDYD, Plan 782 Except Plans 10716, 12873, 21504 and EPP53854 from R1 (Single Family Residential Zone) to R8 (Residential Suite Zone).

PROPOSAL

The subject parcel is located at 1640 10 Street SE (Appendices 1 and 2). The proposal is to develop the parcel into 16 residential lots. The applicant is requesting to rezone the property from R1 (Single Family Residential) to R8 (Residential Suite Zone) as part of this proposal. Site photos attached as Appendix 3.

BACKGROUND

This parcel is designated Low Density Residential (LDR) in the City's Official Community Plan (OCP), and zoned Single Family Residential (R1) in the Zoning Bylaw (Appendices 4 & 5). The subject parcel is located within the Urban Containment Boundary (UCB) in the Hillcrest neighbourhood consisting largely of developed single-family residential properties.

Land uses directly adjacent to the subject property include the following:

North:	Single Family/Suite Residential	Zoned R1 and R8
South:	Single Family/Suite Residential	Zoned R1 and R8
East:	Unconstructed road – 10 m wide and Single Family Residential	Zoned R1
West:	Future Single Family/Suite Residential	Zoned R8

The subject property is approximately 2 ha (4.9 ac) in area and currently contains a residence. The subdivision application (SUB 21.16) proposes to subdivide the property into 16 residential lots ranging in size from 812.4 m² to 1,367.1 m² (see Subdivision Plan attached as Appendix 6).

A *secondary suite* can be no larger than 40% of the habitable floor space of a building, to a maximum size of 90 m² (968.8 ft²). A *detached suite* also cannot be larger than 90 m².

Compliance with BC Building Code and Zoning Bylaw regulations would be assessed on a case by case basis at the building permit stage for any proposed *secondary suite* or *detached suite* on these properties (see Appendix 7 attached for R8 zoning regulations).

COMMENTSEngineering Department

No concerns with rezoning. On and offsite servicing requirements are presently under review associated with Subdivision Application No. 21.16.

Building Department

Geotechnical review required. No other concerns.

Planning Department

Policy 8.3.25 within the OCP provides support for either a *secondary suite* or *detached suite* within all Residential (High, Medium, and Low) designated areas via a rezoning application, subject to compliance with the Zoning Bylaw and the BC Building Code.

The OCP also proposes a greenway on either side of the subject property. Staff note that pedestrian access through the proposed subdivision will be a requirement at the subdivision stage so this may affect lot configuration slightly by reducing the buildable area of one or two lots. Walkway access will be required through one of the proposed lots along the cul-de-sac and confirmed during the preliminary layout review process.

Based only on lot areas shown on the proposed subdivision plan, all lots would be large enough to accommodate a *detached suite* and there is no minimum lot area requirement for *secondary suites*. Further analysis would be required for lots fronting the proposed cul-de-sac (lots 11 to 14) to determine if they would meet the minimum parcel width required for a *detached suite*. Staff note that the required walkway access mentioned above may slightly reduce the parcel width and area of one or more of these proposed lots as it is likely required between two lots adjacent to the cul-de-sac.

For any proposed lot that did apply for a building permit for either a *secondary suite* or *detached suite*, an additional parking space would need to be provided (two for the single family dwelling and one for the suite). Based on parcel area, it does appear that these lots would be large enough to account for this but this would be confirmed at time of building permit if suites were proposed on individual lots.

As gentle step towards of densification in the LDR designated areas, staff supports this application and encourages R8 zoning in new single-family residential subdivisions. The proposal would be consistent with recent and past rezonings in the neighbourhood.

Finally, Council is considering the proposed land use and density of the subject property. Consideration of the subdivision layout and requirements are a separate application and process.

SECTION 13 - R-8 - RESIDENTIAL SUITE ZONE #3996

136 **Purpose**

- 13.1 The purpose of the R-8 Zone is to permit the use of a *secondary suite* contained within a *single family dwelling* or a *detached suite* contained within an *accessory building*.

Regulations

- 13.2 On a *parcel zoned R-8*, no *building or structure* shall be constructed, located or altered and no plan of subdivision approved which contravenes the regulations set out in the R-8 Zone or those regulations contained elsewhere in this Bylaw.

Permitted Uses

- 13.3 The following uses and no others are permitted in the R-8 Zone:
- .1 *boarders*, limited to two;
 - .2 *family childcare facility*; #3082
 - .3 *group childcare*; #3082
 - .4 *home occupation*;
 - .5 *public use*;
 - .6 *public utility*;
 - .7 *single family dwelling*;
 - .8 *accessory use*, including *secondary suite* or *detached suite*.

Maximum Number of Single Family Dwellings

- 13.4 One (1) *single family dwelling* shall be permitted per *parcel*.

Maximum Number of Secondary Suites

- 13.5 One (1) *secondary suite* or one (1) *detached suite* is permitted per *parcel*.

Maximum Height of Principal Building

- 13.6 The maximum *height* of the *principal building* shall be 10.0 metres (32.8 feet).

Maximum Height of Accessory Buildings

- 13.7
- .1 The maximum *height* of an *accessory building* shall be 6.0 metres (19.7 feet).
 - .2 The maximum *height* of an *accessory building* containing a *detached suite* shall be 7.5 metres (24.6 feet).

Maximum Parcel Coverage

- 13.8 The total maximum *parcel coverage* for *principal* and *accessory buildings* shall be 45% of the *parcel area*, of which 10% shall be the maximum *parcel coverage* for all *accessory buildings*, which may be increased to a maximum of 15% for all *accessory buildings* including those containing a *detached suite* provided the *accessory building* containing the *detached suite* has a lesser *building area* than the *single family dwelling*. #4272

Minimum Parcel Area

- 13.9
- .1 The minimum *parcel area* shall be 450.0 square metres (4,843.9 square feet).
 - .2 The minimum *parcel area* of a *parcel* containing a *detached suite* shall be:
 - .1 With lane or second *street* frontage 465.0 square metres (5,005.2 square feet)
 - .2 Without lane or second *street* frontage 700.0 square metres (7534.7 square feet)

Minimum Parcel Width

- 13.10
- .1 The minimum *parcel width* shall be 14.0 metres (45.9 feet).
 - .2 The minimum *parcel width* of a *parcel* containing a *detached suite* shall be:
 - .1 With lane or second *street* frontage 15.0 metres (49.2 feet)
 - .2 Without lane or second *street* frontage 20.0 metres (65.6 feet)

Maximum Floor Area and Floor Area Ratio

13.11

- .1 The maximum *floor area* of a *detached suite* shall be 90.0 square metres (968.8 square feet).
- .2 The maximum *floor area ratio* of a *single family dwelling* shall be 0.65.

Minimum Setback of Principal Building13.12 The minimum *setback* of the *principal building* from the:

- .1 *Front parcel line* shall be 6.0 metres (19.7 feet)
- .2 *Rear parcel line* shall be 6.0 metres (19.7 feet)
- .3 *Interior side parcel line* shall be 1.5 metres (4.9 feet)
- .4 *Exterior side parcel line* shall be 6.0 metres (19.7 feet)
- .5 Notwithstanding Sections 13.12.2 and 13.12.3., a *principal building* on a corner *parcel* may be sited not less than 1.5 metres (4.9 feet) from the *rear parcel line* provided the combined total of the *rear* and *interior side yards* shall be not less than 6.0 metres (19.7 feet). #3426
- .6 Refer to Section 4.9 for "Special Building Setbacks" which may apply #2811

Minimum Setback of Accessory Buildings13.13 The minimum *setback* of accessory *buildings* from the:

- .1 *Front parcel line* shall be 6.0 metres (19.7 feet)
- .2 *Rear parcel line* shall be 1.0 metre (3.3 feet)
- .3 *Interior side parcel line* shall be 1.0 metre (3.3 feet)
- .4 *Exterior side parcel line* shall be 6.0 metres (19.7 feet)
- .5 Refer to "Pound and Animal Control Bylaw" for special setbacks which may apply. #2811

Minimum Setback of a Detached Suite13.14 The minimum *setback* of an accessory *building* containing a *detached suite* from the:

- .1 *Front parcel line* shall be 6.0 metres (19.7 feet)
- .2 *Rear parcel line* shall be 3.0 metres (9.8 feet)
- .3 *Interior side parcel line* shall be 2.0 metres (6.5 feet)
- .4 *Exterior side parcel line* shall be 6.0 metres (19.7 feet)
- .5 *Parcel line* adjacent to a lane 1.2 metres (3.9 feet)

Parking

13.15

- .1 Parking shall be required as per Appendix I.
- .2 An offstreet parking space provided for a *secondary suite* or *detached suite* shall not be sited in tandem to a parking space provided for a *single family dwelling*.

Detached Suite

13.16 Refer to Section 4.2 for General Regulations.

CITY OF SALMON ARM

BYLAW NO. 4475

A bylaw to amend "District of Salmon Arm Zoning Bylaw No. 2303"

WHEREAS notice of a Public Hearing to be held by the Council of the City of Salmon Arm in the Council Chambers at City Hall, 500 – 2 Avenue NE, Salmon Arm, British Columbia and by electronic means, on _____ at the hour of 7:00 p.m. was published in the _____ and _____, 2021 issues of the Salmon Arm Observer;

AND WHEREAS the said Public Hearing was duly held at the time and place above mentioned;

NOW THEREFORE the Council of the City of Salmon Arm in open meeting assembled enacts as follows:

1. "District of Salmon Arm Zoning Bylaw No. 2303" is hereby amended as follows:

Rezone Lot 9, Section 12, Township 20, Range 10, W6M, KDYD, Plan 782 Except Plans 10716, 12873, 21504 and EPP53854 from R-1 (Single Family Residential Zone) to R-8 (Residential Suite Zone), attached as Schedule "A".

2. SEVERABILITY

If any part, section, sub-section, clause of this bylaw for any reason is held to be invalid by the decisions of a Court of competent jurisdiction, the invalid portion shall be severed and the decisions that it is invalid shall not affect the validity of the remaining portions of this bylaw.

3. ENACTMENT

Any enactment referred to herein is a reference to an enactment of British Columbia and regulations thereto as amended, revised, consolidated or replaced from time to time.

4. EFFECTIVE DATE

This bylaw shall come into full force and effect upon adoption of same.

5. CITATION

This bylaw may be cited as "City of Salmon Arm Zoning Amendment Bylaw No. 4475"

READ A FIRST TIME THIS 27 DAY OF September 2021

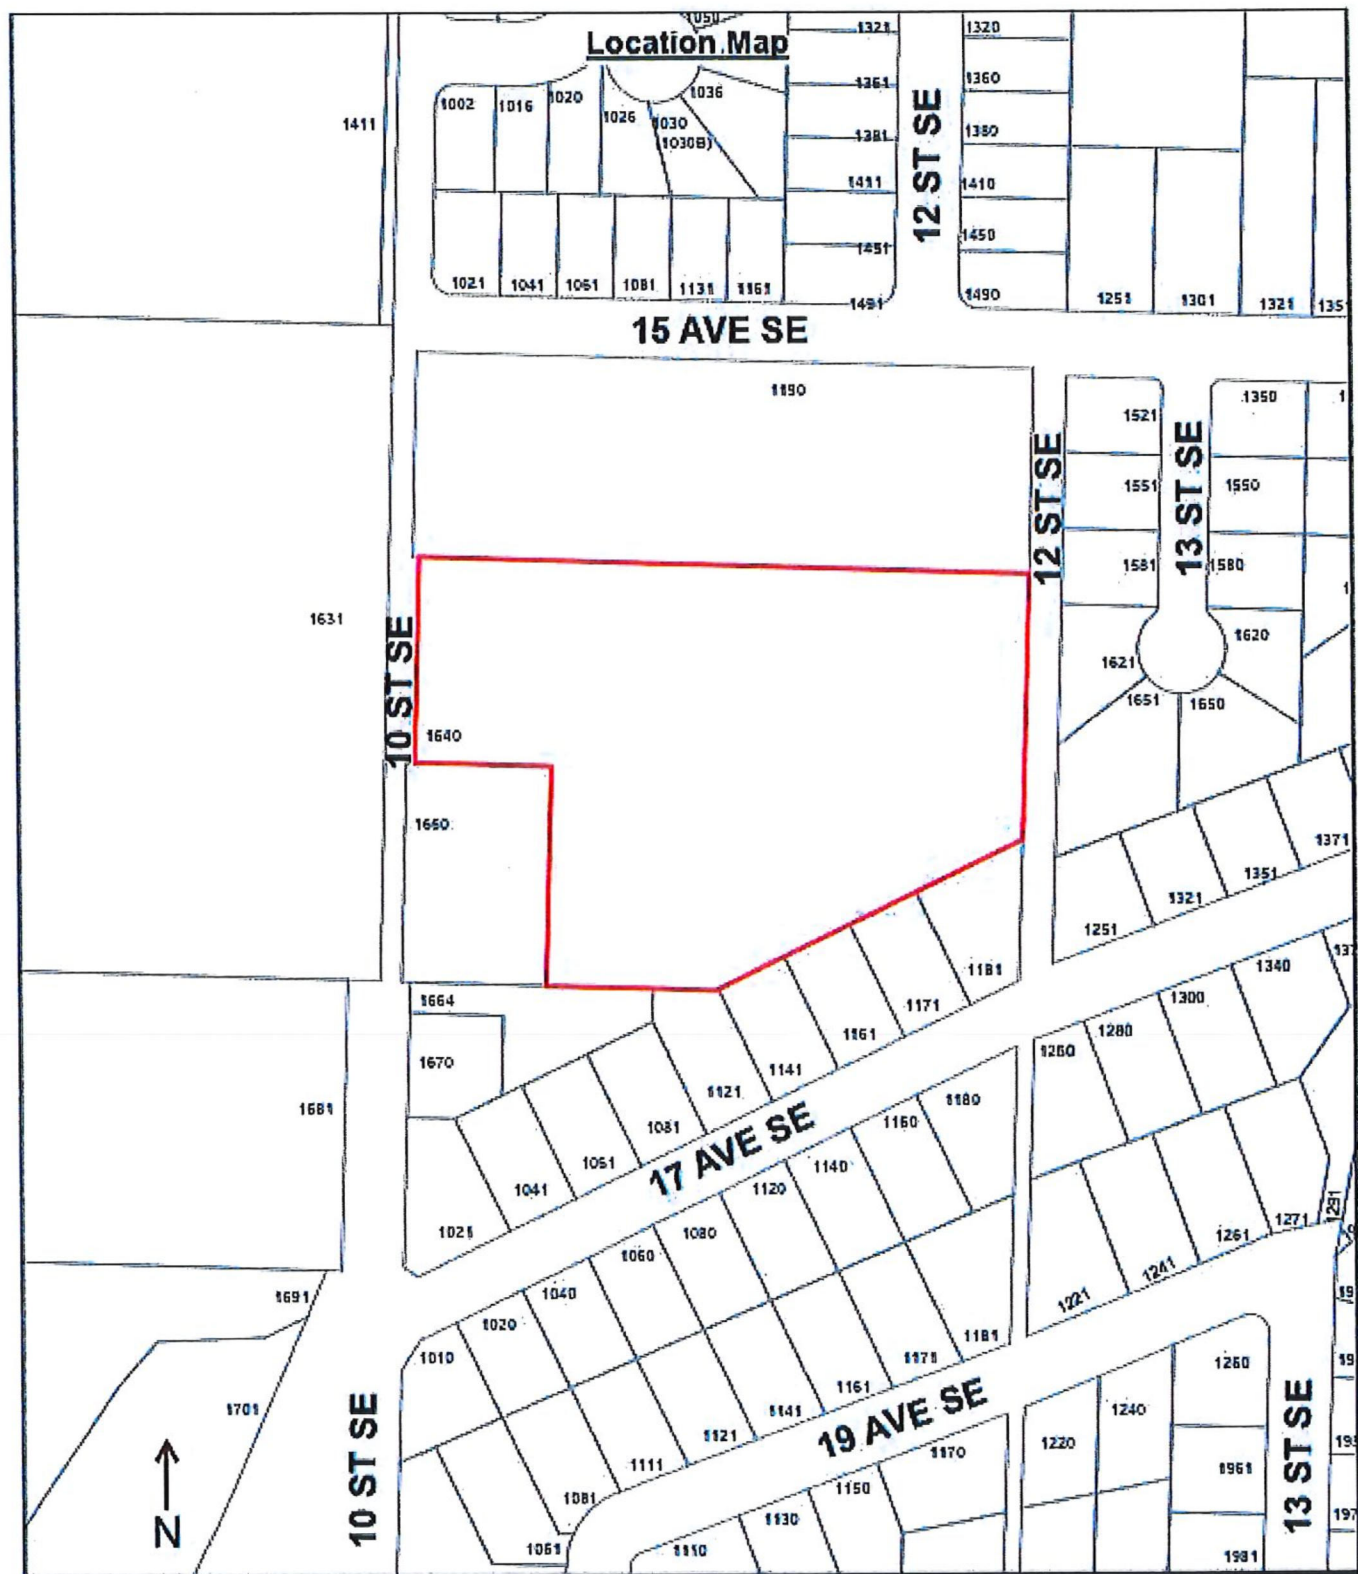

READ A SECOND TIME THIS 27 DAY OF September 2021

READ A THIRD TIME THIS DAY OF 2021

ADOPTED BY COUNCIL THIS DAY OF 2021

MAYOR

CORPORATE OFFICER

Item 26.

CITY OF SALMON ARM

Date: October 12, 2021

Moved: Councillor Lavery

Seconded: Councillor Wallace Richmond

THAT: the Regular Council Meeting of October 12, 2021, be adjourned.

Cc: Laura Jegues ; Joel Menzies
Subject: Bastion Elementary's CBC Music Class Performance

Dear Mr. Harrison and City Council,

This letter is a follow-up to the e-mail dated September 16, 2021, about Bastion Elementary School's participation in the CBC Music Class Challenge. We will be singing a song entitled Small But Mighty (<https://www.youtube.com/watch?v=2OQtM4litJU>) and are inviting musicians and business owners from all over Salmon Arm to join in with us on the very last verse (from 1:51 onwards) to show how small people can create a mighty performance, as well as to showcase the wonderful musicians we have in our Small City with Big Ideas. Please come join us if you are able to! Thank you to those council members who replied and offered to possibly take part.

The Covid protocols we have in place will be that all adults participating within a 2-metre distance of any students or each other will be masked. Everything will take place outdoors. If the number of musicians is greater than the provincial health regulation of 100, groups will be spaced apart along Alexander street so as to not come into close contact with one another.

Our students and staff are covered by our District 83 Insurance Policy which can be viewed here: https://www.bcspp.org/sites/default/files/documents/rm_MoC_2021_SPP.pdf

I would like to request road closures of Lakeshore Drive immediately in front of the giant treble clef (Shuswap Mall), as well as Alexander street between Lakeshore and Hudson on October 28, 2021, from 9:00am-11:30am.

Also, I'd like to request funding/sponsorship from the City in order to make this the best performance we can. We have spoken to some Salmon Arm businesses as well as our school PAC, but if any more funding can be secured that would be greatly appreciated. We will be doing our best to highlight (at a national level!) how amazing the music scene of Salmon Arm is.

Thank you very much for your time, attention and consideration to this event. Our Bastion students are VERY excited at this prospect and we very much hope that, with your help, we can make it happen.

Sincerely,

Shannon MacLachlan
Bastion Music Teacher

October 5, 2021

Dear Mayor and Council

RE: Downtown Farmer's Market extending to Hudson Street

With the Ross Street Underpass construction commencing, we are aware that approximately 1/3 of the Ross Street Parking lot is now a staging area for the underpass contractors. As of Monday, October 11, there will be two remaining full-vendor Farmer's Market events held on Saturdays at the Ross Street Plaza / Parking Lot, hosting between 35-45 vendors each day.

Due to the size of these markets and loss of parking stalls located within the staging area, Downtown Salmon Arm, with the Downtown Farmer's Market, is seeking Council's approval to utilize Hudson Street, between Alexander St and Ross St, as a temporary market location. This move would allow the remaining stalls in the Ross Street parking lot to be opened to vehicle parking instead of market booths. Using Hudson Street for the market would require a street closure between 7:00am – 2:00pm on October 16th and 23rd.

The extended Farmer's Market following October 23rd will have approximately 15-20 vendors and will not require additional space outside of the Ross Street Plaza.

We sincerely appreciate Council's support for the Downtown Farmer's Market. This temporary move would also serve as a trial for moving the market to Hudson Street for the 2022 season, as underpass construction will still be underway.

Please do not hesitate to contact me should you have any questions or concerns.

With respect,

Jennifer Broadwell
Manager
cc. Serena Caner, Shuswap Food Action Society

September 29, 2021

Darin Gerow
Manager of Roads and Parks
City of Salmon Arm
Box 40
500 2nd Avenue
Salmon Arm, BC V1E 4N2

Darin:

Further to an earlier conversation regarding the installation of a Purple-Air Sensor at Canoe Beach, the Shuswap Association for Rowing and Paddling (SARP) discussed this as an agenda item at our Board meeting last evening.

Respectfully, SARP requests that the City of Salmon Arm purchase a Purple-Air Sensor PA-II model, install the unit at the Canoe Beach Water Treatment Plant and provide a supported wi-fi network so air quality ratings can be shared throughout the community.

BACK-
GROUND

Purple-Air sensors are used to collect hyper-local, real-time air quality data and share on a map that is accessible to everyone. Two of these sensors are in use in Salmon Arm, one near the RCMP station in the NE and another in the SW of town. During the recent wildfire and smoke season in our region, an SARP member shared Purple-Air Sensor information with other SARP members. Immediately, several members began to reference these sensors to monitor the real time air quality from those 2 specific locations which helped guide decisions on whether air quality was at a healthy level for club members to paddle or row.

As this information was valuable, some club members began discussing whether having a Purple-Air Sensor installed at the Canoe Beach compound would be something to consider. At least one member researched this and confirmed that to operate the sensor, electricity and a supported wi-fi network connection is required. The nearest facility to the lake, paddling centre and beach to consider is the City of Salmon Arm Canoe Beach Water Treatment Plant.

The Purple-Air PA-II model is an air quality sensor that measures real-time PM2.5 concentrations for residential, commercial, or industrial use. Built-in WiFi enables the air quality measurement device to transmit data to the Purple-Air map, where it is stored and made available publicly to any smart device. The City was contacted to discuss the option of installing a PA-II system at the water treatment plant.

IS-
SUE

The summers of 2017, 2018 and 2021 in Salmon Arm experienced poor air quality from wildfire smoke that resulted in the cancellation of the 2017 dragon boat festival and numerous cancelled rowing and paddling experiences in each of those years for SARP members.

In 2021, several air quality readings observed during a smoke-filled summer were extremely dangerous in the 20+ range. At those times paddling and rowing activities did not happen. Other times, readings

would be in the 5 to 7 range which is cautionary, although SARP members who were at Canoe Beach reported at different times air quality seemed acceptable and perhaps may have different readings than at other locations throughout the community.

SARP members need to know what the air quality actually is at Canoe Beach. Members suggested having an actual reading nearer to the location where they would be paddling or rowing would be beneficial. This could also benefit many community members, tourists and visitors who use the Canoe Beach and boat launch. The SRPC compound does not currently have electrical power or able to support a wi-fi network.

COST, SHIPPING, INSTALLATION & REGISTRATION REQUIREMENTS

The price of a Purple-Air PA-II model is \$249 USD plus estimated \$39.94 shipping in US dollars. At an exchange rate of 1.3, this would be approximately \$375.62 CDN.

The unit comes with a 1 year limited warranty and is shipped directly from the Purple-Air factory - 12411 S 265 W, Suite B Draper, Utah, 84040 USA. <https://www2.purpleair.com/pages/warranty>

Installation required would be for the unit dimensions of 3.5 in x 3.5 in x 5 in (85mm x 85mm x 125mm). Power requirements are 5V USB Micro, 0.18A continuous, 600mA peak.

Start-up guide with installation and network details can be found at: <https://www2.purpleair.com/pages/install>

Additional information including on-line purchasing option can be found at: <https://www2.purpleair.com/>

Once purchased, the sensor will need to be registered, purchaser information provided and terms and conditions agreed to that can be reviewed in advance at the following link: <https://www.purpleair.com/register>

Thank you for your consideration of this request. If there is additional information, questions or considerations you may have with respect to this request, please feel free to contact me.

Respectfully,

Don Podlubny

President

His Worship Mayor Alan Harrison
and Council
City of Salmon Arm
PO Box 40
Salmon Arm, BC V1E 4N2
Email: aharrison@salmonarm.ca

Dear Mayor and Council:

I would like to thank you and your colleagues for meeting with me during this year's virtual Union of British Columbia Municipalities (UBCM) Annual Convention process to discuss agriculture in the City of Salmon Arm. I thank your delegation for its flexibility with provincial appointments again this year and I am pleased that our governments still had the chance to connect by phone.

At our meeting, we discussed the progress of the Zest Commercial Food Hub and its projected opening date. Thank you for also letting us know what food processors have expressed interest as well as those onboarded so we can feature them. Please keep us up to date on the grand opening as the information becomes available. In the meantime, you are welcome to follow up with Ministry staff contact Ashley Fernandes, Market Development Analyst, Ashley.Fernandes@gov.bc.ca with any questions or for further information regarding the B.C. Food Hub network initiative.

Additionally, we talked about farm operations. You commented on the pressures the City is seeing regarding next generation farmland succession and secondary housing. The Ministry of Agriculture, Food and Fisheries (AFF) is committed to supporting new entrants into the agriculture and agrifood sector and recognizes the importance of attracting next generation farmers. AFF's Farm Business Team is available to discuss the City of Salmon Arm's new entrants and farm transition interests. Sarah Mortenson, New Entrant Agrologist, Sarah.Mortenson@gov.bc.ca, would be happy to connect to discuss further.

.../2

Thank you, again, to your delegation for the meeting and I look forward to working with you in the future.

Sincerely,

A handwritten signature in blue ink, reading "Lana Popham". The signature is fluid and cursive, with the first name "Lana" being more prominent than the last name "Popham".

Subject: E-Comm Annual Report

October 04, 2021

Dear E-Comm partner,

I am pleased to share E-Comm's 2020 Annual Report. We have posted the report on our website at this [link](#).

<https://www.ecomm911.ca/wp-content/uploads/2021/09/e-comm-annual-report-2020.pdf>

As British Columbia remains in the pandemic era, it is important take a moment to recognize the enormous contributions of E-Comm staff and all first responders in helping to keep British Columbians safe.

We remain in challenging times in the response and delivery of emergency communications services and E-Comm will continue to work with all public safety partners to adapt to changing circumstances.

E-Comm held its online Annual General Meeting on September 23, 2021. Following the meeting, we announced our Board of Directors for 2021-22. Details are available [here](#).

<https://www.ecomm911.ca/news/e-comm-announces-2021-22-board-of-directors-with-new-seat-for-vancouver-island/>

Thank you for your continued support of our organization and public safety in British Columbia. Please do not hesitate to contact me if you have any questions.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Oliver Grüter-Andrew', with a long horizontal line extending to the right.
