Salmon Arm Board of City Councilors  
Re: Walkway Proposal Alongside Lakeshore Drive, Salmon Arm

Greetings City Councilors,

We are writing to you with a proposal to resolve an issue we have noticed on our street which affects many residents of this city. We live on Lakeshore Drive, and we have noticed a large and constant amount of pedestrian traffic on this narrow and winding road everyday. People either walk or bike ride on the side of the road to commute back and forth from work, or simply traverse the city which often appears dangerous and unnecessarily challenging for these citizens.

We would like to propose a solution- an extension- to the existing suspended sidewalk between Heron View and Prestige Inn along the harbor's front edge. As pictured in Appendixes A & B, we could use the available space between Lakeshore Drive and the CPR tracks to construct a wide walkway in a boardwalk style with greenery, Victorian inspired streetlamps and seating fixtures, & scenic viewing areas of the lake and bird sanctuary.

The proposed extension of the existing walkway with crossing/overpass connecting the existing structure to the new suspended walkway which would run alongside Lakeshore Drive up to 23<sup>rd</sup> Avenue NE is one option -OR- going to 1360 Lakeshore Drive and using the (purchased by the city) strip of land alongside the street from 1360 Lakeshore Drive to 23<sup>rd</sup> Avenue NE to build a pathway, paved and in the same style as described above, is yet another solution.

We believe creating such an accessible amenity would encourage and support even more people to use green means of travel, and to of course be able to enjoy the beauty of our city and surroundings all the more. It should also easily become a tourist destination!

Besides addressing immediate issues, this walkway could also pave the way for future development and change of the area between Lakeshore Drive to Lakeshore Boulevard. This is a unique space in the city which should be seriously considered and utilized to enjoy it well into the future of our beautiful city.

The above project would be an investment for the city as it would benefit both residents and tourists. It would be a great way to enjoy this part of Shuswap Lake, as well it would provide a link to the north part of the city for commuters and pedestrians alike.

We, the undersigned, call on the city of Salmon Arm to support our proposal to extend the walkway alongside Lakeshore Drive, and make Salmon Arm an even more enjoyable and safer place to live and visit.

Dear Mr. Kylo,

We are writing to you with a proposal to resolve an issue we have noticed on our street which affects many residents of the city. We live on Lakeshore Drive NE and we notice a large and constant amount of pedestrian traffic on this narrow and winding road every day, this is hazardous with the fast moving traffic in this area. People either walk or bike ride on this side of the road to commute back and forth from work, or simply traverse the city which often appears dangerous and unnecessarily challenging for these citizens.

We would like to propose a solution- an extension- to the existing suspended sidewalk between Heron View and Prestige Inn along the harbor's front edge. As pictured in Appendixes A & B we could use the available space between Lakeshore Drive and CPR tracks to construct a wide walkway in a boardwalk style with greenery, Victoria inspired street lamps, and seating fixtures and scenic viewing areas of the lake and the bird sanctuary.

The proposed extension of the existing walkway with crossing/overpass connecting the existing structure to the new suspended walkway which would run alongside Lakeshore Drive up to 23rd Avenue NE is one option. Another option is going to 1360 Lakeshore Drive and using the (purchased by the city) strip of land alongside the street from 1360 Lakeshore Drive to 23rd Avenue to build a pathway paved and in the same style as described above is yet another solution.

We believe creating such an accessible amenity would encourage and support even more people to use green means of travel and to of course be able to enjoy the beauty of our city and surroundings all the more. This would also be a huge asset for the many seniors living in the area to be able to safely get out more and be able to reach the heart of the city by healthy means of walking or using motorized scooters, to support healthy active lifestyles. It should also easily become a tourist destination!

Besides addressing immediate issues, this walkway could also pave the way for future development and change of the area between Lakeshore Drive to Lakeshore Blvd. This is a unique space in the city which should be seriously considered and utilized to enjoy it well into the future of our beautiful city.

Sincerely yours on behalf of the Citizens of Salmon Arm who signed the enclosed petition,

Marius & Grace Krukowski

### Walkway wanted for pedestrians using Lakeshore Drive

To: Salmon Arm Board of City Councillors

Greetings City Councillors,

We are writing to you with a proposal to resolve an issue we have noticed on our street which affects many residents of this city. We live on Lakeshore Drive, and we have noticed a large and constant amount of pedestrian traffic on this narrow and winding road every day. People either walk or bike on the side of the road to commute back and forth from work, or simply to traverse the city which often appears dangerous and unnecessarily challenging for these citizens.

We would propose a solution of an extension to the existing suspended sidewalk between Heron View and the Prestige Inn along the water's edge. We could use the available space between Lakeshore Drive and the train tracks to construct a wide walkway in a boardwalk style with greenery, Victorian inspired streetlamps and seating fixtures, and scenic viewing

areas of the lake and bird sanctuary.

The proposed extension of the existing walkway with crossing/overpass connecting the existing structure to the new suspended walkway which would run alongside Lakeshore Drive up to 28<sup>th</sup> Ave NE is one option – OR – going to 1360 Lakeshore Drive and using the (purchased by the city) strip of land alongside the street from 1360 Lakeshore Drive to 23rd Ave NE to build a pathway, paved and in the same style as described above, is yet another solution.

We believe creating such an accessible amenity would encourage and support even more people to use green means of travel, and to of course be able to enjoy the beauty of our city and surroundings all the more. It should also easily become a tourist destination.

Besides addressing immediate issues, this walkway could also pave the way for future development and change of the area between Lakeshore Drive to

Lakeshore Boulevard. This is a unique space in the city which should be seriously considered and utilized to enjoy it well into the future of our beautiful city.

The above project would be an investment for the city as it would benefit both residents and tourists. It would be a great way to enjoy this part of Shuswap Lake, as well as it would provide a link to the north part of the city for commuters and pedestrians alike.

We call on the city of Salmon Arm to support our proposal to extend the walkway alongside Lakeshore Drive, and make Salmon Arm an even more enjoyable and safer place to live and visit.

Marius & Grace Krukowski,  
Salmon Arm

*Editor's note:* Marius & Grace have started a petition to support this proposition. You can find it at <http://www.gopetition.com/petitions/support-the-walkway-extension-along-lakeshore-drive.html>.

### Rest stops a much-needed resource for drivers

Dear Editor,

Last night I spoke with Ministry of Transportation and Infrastructure officials at the open house for the proposed upgrade of the Trans Canada Highway east of Monte Creek at Pritchard. I expressed my concern over the very-soon-to-be-permanently-closed eastbound Chase Creek Falls highway rest stop and the need for a rest stop with toilets in this area.

I explained that Chase Creek Falls is the only accessible eastbound public rest stop between some 15 kms south of Cache Creek and Craigellachie

rants with toilets along those routes to accommodate the traveling public. It seems to me that gas station and restaurant toilets are meant to be a courtesy to patrons and most businesses are gracious enough to allow emergency non-patron use. Why should the businesses be expected to accommodate the traveling public at large? And where are night-time travelers expected to relieve themselves when gas stations and restaurants are closed? One of the officials commented on the number of travelers who have been seen stopped unsafely day and night at the ends of the road flares where retaining
