hello. I got a notice about a rezoning proposal for Angoves property next to ours..being my mom ,Marguerite Sivertz and myself Frank Sivertz.

I am not in favour of this proposal or any changes made to the green space beyond the boundaries of Angove's property. However, If development was done at all please keep a gap of natural terrain--ie tree cover or non privately owned land of at least 60 feet between our property on the south boundary, and no road building on the south perimeter closer than 70 ft from our property line. and please! keep as many big trees standing as possible. I wish to attend the meeting electronically and by phone for the 7pm ,march 14 meeting.  
Frank Sivertz and Marguerite Sivertz
