This list will be comprised of Vendors who are deemed to be fully capable of fulfilling the needs of the City, and whose proposals offer, or appear to offer, the most favorable terms and the best value to the City.

The City may pursue negotiations with those short listed Vendors to ensure that the proposed product and services meet the needs of the City, in search of the best possible value and supply Contract for the City.

The City requires that any representative put forward as an authorized representative for the Vendor to negotiate changes to the Vendor's RFP submission, have the capacity and legal corporate authority to negotiate changes, and to bind the Vendor to changes throughout the duration of the Contract resulting from this RPF process.

Upon completion of the negotiation process, it is the intention of the City to award a Contract to a specific Vendor for the supply of the Trucks.

The Contract governing the award shall be comprised of this RFP document, the successful Vendor's response (i.e. proposal) to this RFP document, and any and all correspondence documenting changes to, or modifications of, the successful Vendor's proposal.

The City may, prior to Contract award, negotiate changes to the scope of the work, the materials, the specifications or any conditions with any one (1) or more of the Vendors without having any duty or obligation to advise any other Vendors or to allow them to vary their proposal prices as a result of changes to the scope of work, the materials, the specifications, or any conditions, and the City shall have no liability to any other Vendor as a result of such negotiations or modifications.

The award of any Contract shall be based on the evaluation of the proposals by the City on any basis the City deems will best serve its interests.

Vendors should be aware that all proposals will be evaluated in light of the following general criteria, which is not listed in order of importance. This list is not exhaustive.

The City may take other factors into account that in their sole discretion are relevant to the best fulfillment of any Contract which may result from the RFP process.

- Reputation, knowledge and experience of the Vendor in Local Government vehicle procurement programs;
- Technical credibility, financial resources and environmental responsibility of the Vendor;
- Schedule and delivery timeline;
- Understanding of, and support for, the City's objectives as outlined in this RFP;
- Long term financial stability of firm;
- References;
- Assured source of products;
- Quality of service;
- Service capability, including quality guarantees and warranties;
- Professional reputation and management;
- Overall cost impact of the proposal including the all applicable taxes, delivery charges, etc. to the prices quoted;
- Best value to the City based on quality, service, price and any criteria set out herein based solely on the City's assessment of the proposal; and
- Fuel consumption may be taken into consideration during the evaluation process and consequently details associated with same must be included in the Vendor's proposal.

Where the City determines that any Vendor's prices are too high, the Vendor's proposal will be rejected.

The City may award the Contract on the basis of policies and preferences not stated in the RFP package or otherwise than as stated in the RFP documents.

Guidelines or policies that may be applicable shall not give rise to legal rights on the part of any contractor, subcontractor, or others as against the City and shall in no case create any liability on the part of the City.

Vendors who submit proposals may, at the option of the City, be required to make individual presentations to assist in the evaluation process. The City assumes no obligation to provide an opportunity for any individual presentation by any particular Vendor, and may select a successful Vendor without presentations from others.

Vendors are notified that the lowest or any proposal may not necessarily be accepted, and the City reserves the right to reject any and all proposals at any time without further explanation or to accept any proposal considered advantageous to the City. Acceptance of any proposal is contingent on funds being approved by Council or such other municipal bodies and/or departments responsible, and the Contract award being made by the City. Proposals which contain qualifying conditions or otherwise fail to conform to these RFP documents may be disqualified or rejected. The City may waive any noncompliance with the RFP documents, the specifications, or any conditions, including the timing of delivery of anything required by or under the terms and conditions of this RFP, and may at its sole discretion elect to retain for consideration proposals which are non-conforming because they do not contain the content or form required by the RFP documents, or because they have not complied with the process for submission set out herein.
